OUR FIRST 100 YEARS

THE SOLEBURY CENTENNIAL

celebrates a century of Solebury School through the stories of 100 people, places, and moments that shaped our identity. From our bold founding in 1925 by four visionary educators to our evolution into a progressive, all-gender community, Solebury has a history of embracing differences, championing individuality, and fostering deep student-teacher connections.

In these pages, you'll meet trailblazing faculty, dedicated alumni, and generations of families whose lives are woven into the school's legacy. You'll visit iconic spaces—the Barn, the pond, the farmhouse—and uncover the values that endure: curiosity, inclusion, mutual respect, creativity, and care. Whether you're an alum, student, or friend of the school, this book offers a rich, intimate look at Solebury's first 100 years—and a glimpse into our future.
