Dear Social Circle City Schools Community,

On behalf of the Social Circle Board of Education and the Social Circle City School System, we extend our deepest gratitude to our citizens, families, and supporters for your overwhelming support of the recent E-SPLOST in Walton County.

With more than 53% of Social Circle voters saying *yes* to continue this important investment in our schools, you have once again affirmed your trust and confidence in our shared mission to provide the very best for our students.

For many years, residents of Social Circle and Walton County have consistently supported the Education Special Purpose Local Option Sales Tax (E-SPLOST), which has enabled us to maintain, improve, and expand school facilities through a one-cent sales tax paid by everyone who shops in our community, rather than through increased property taxes.

Your continued commitment ensures that our district can provide students and teachers with the resources they need to thrive. From safe and well-maintained facilities, updated safety equipment, new buses, and classroom technology, to HVAC upgrades at the middle/high school, paying off construction costs of the new elementary school, and collaborating with GDOT to hopefully create a second entrance at that site, we remain dedicated to providing the opportunities our students deserve.

We take this responsibility seriously. The Board of Education remains committed to sound financial stewardship, transparent planning, and fulfilling the promise to provide the best for our students.

Thank you, Social Circle, for believing in us and standing beside your schools. Together, we are shaping a bright future for every student in our community.

With sincere appreciation and together as One Circle,
Social Circle City Schools' Governance Team

Matt Remillard, Superintendent

Taylor Morris, Board Chair

Sabrina Sanford-Flint, Vice Chair/District 3

Amber McKibben, District 1

Rico Jackson, District 2

Maggie Bonnell, District 4
