Supporting Success at Home: The Role of Visual Supports

Join us for an interactive, hands-on session where you'll learn how visual tools can make daily routines smoother and help your child feel more confident and independent. We'll explore simple strategies like first/then boards, choice boards, and schedules, that reduce stress and support learning at home. During the workshop, you'll create your own visuals tailored to your child's needs, so think about the challenges your child faces at home. **Come ready to make practical tools you can start using right away!**
