2025 Youth Engagement Summit

Phoenix High School hosted its 4th Annual Youth Engagement Summit in collaboration with the City of Lawrenceville, Mayor Still, the Lawrenceville Police Department, Georgia Center for Opportunity, IMPACT46, ReCast, and Viewpoint Health. The event brought students, educators, and community partners together for a morning of empowerment, connection and purpose.

Through interactive sessions focused on leadership, healthy relationships, entrepreneurship, and community engagement, students gained valuable tools to amplify their voices, strengthen relationships, and make a lasting impact within their schools and the greater Lawrenceville community.

BRIDGE Bill Lessons

GCPS students receive a series of lessons that focus on career awareness, aptitude assessment, and educational planning. These lessons help students understand the connection between their coursework and career goals, leading to the creation of an individual graduation plan and information about post-secondary options. The ultimate goal is to motivate students and better align education with workforce demands. Lessons are provided through School Links on your child's student portal account.

Food Pantry

Our Phoenix Food Pantry is back this year. If your family is experiencing food insecurities, please contact the counseling office for assistance.
