

# The Skyê's the Limit Memorial Scholarship

"The Skyê's the Limit" Memorial Scholarship was established in memory of Skyê Charlton. Skyê was a student in the Auto Collision Repair & Refinishing program at Moore Norman Technology Center from August 2020 through May 2021. Post graduation, Skyê was diagnosed with stage 4 Rhabdomyosarcoma, a rare form of cancer. After an 18 month battle, Skyê passed away on August 17th 2023. She is fondly remembered for her love of art, antique trucks, classic hot rods, and music.

In honor of Skyê Charlton, members of Moore Norman Technology Center's Auto Collision Advisory Board will award one (1) $250 scholarship to a high school or adult student graduating in the current year from the Auto Collision program. The scholarship funds can be used to purchase tools, certifications, or for other academic purposes.

Check that you have included all required documentation.

☐Application Cover Sheet
☐Written Response
☐Resume

_____ _____

Student Signature Date

---

**To be completed by office staff:**

Number of absences August – March 1: _____

## Written Response

Your story matters. The scholarship committee is interested in your life, experiences, and dreams – not something written by a computer. Please answer in your own words, using details only you could know. Share real events, people, and moments from your lift. Write as if you're telling your story to a trusted friend who's rooting for your success.

1. Your Background. Share a snapshot of who you are be describing a moment or memory that reflects your personality, family, interests, or hobbies. Include details like where you were, who was there, and what it meant to you.
2. Your Path to Auto Collision. Tell us about a specific experience, challenge, or influence that led you to choose the auto collision field. Who or what sparked your interest, and what was happening at the time?
3. Your Next Steps. Imagine it's your graduation day from MNTC – what's the very next step you'll take? What are your short-term plans for the first year, and your long-term dreams for 5-10 years from now?
4. Tools vs. Education. If you had to choose between receiving professional tools or furthering your education, which would you pick right now? Describe a real situation in your life that makes this choice the best fit for you.
5. Impact of this Scholarship. Tell us about a challenge or obstacle you're facing in your career journey. How would this scholarship help you overcome it and move closer to your goals?
6. Your Proud Moment. Share a story about an accomplishment that means a lot to you. Walk us through what you did, how you felt during the process, and why this memory still matters today.

Scholarship Instructions

- The Application should be completed with all lines checked
- The written response section should answer all six (6) questions. Each question should have its own paragraph, separated by a blank line.
- Before turning in the application packet make sure you have included: the application, one-page written response, and resume.
