

# DEBUNKED

## WHAT IS IREADY?

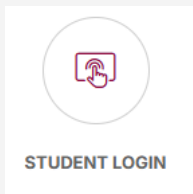

iReady is an online program for reading and mathematics that will help your student's teacher determine your student's needs, personalize their learning, and monitor progress throughout the school year.

iReady consists of two parts:

Diagnostic and Personalized Instruction.

The iReady Diagnostic is an adaptive assessment that adjust its questions for each student. As a student answers correctly, the questions get more difficult. As a student answers incorrectly, the questions get easier.

i-Ready Personalized Instruction provides students with lessons based on their individual skill level and needs, so your student can learn at a pace that is just right for them.

## How to Log into iReady from Home

Go to our school website. (<https://simons.ccsdschools.com/>) Scroll down under the Announcements and click on the Student Login widget. Use the student's CCSD username and password.

[Hint: the first 3 letters of the last name, the first 3 letters of the first name, then the last four of the Student Number.

Example: Sarah Smith (Student Number 95123) would be smisar5123  
Password: first letter of last name, then the entire Student Number (ex. s95123)

(Student Numbers can be found in Powerschool at the top of a Report Card)]

Once you are in ClassLink, click on the i-Ready icon.

## WHO TAKES IT?

iReady is used by Kindergarten to 5th grade. Students practice in their classrooms or during Primary Computer class. There are 3 tests per school year.

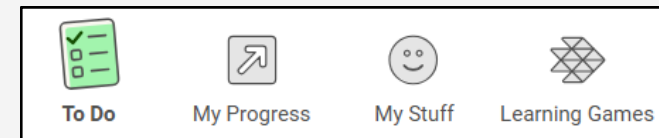

## AT HOME WITH IREADY

Once you login as your student, use the "For Families" dropdown at the top right. Here you can find the "Family Center" for resources or "For Families Report" and use School Code RJ7LLS to see your student's results.

Also, students can continue to practice iReady Math or Reading at home.

Once you log in, they can select Math or Reading and begin working like they do at school. A good suggested amount is 15 minute increments of iReady!

There are Math Learning Games as well for additional learning.

## HELPFUL HINT

Make sure pop ups are allowed for [iready.com](http://iready.com) on your computer! Otherwise the Family Report will not generate.
