

The New York State Education Department (NYSED)
and The Centers for Disease Control and Prevention (CDC) requests

School Name

to participate in the 2026 School Health Profiles (Profiles).

The Profiles is an online survey conducted biennially -
assessing school health policies and practices in schools.

The survey is completed by middle and high school
principals and lead health education teachers.

Profiles data is used by leaders and decision-makers in
schools, school districts, and state education agencies to
understand gaps in policies and practices and to identify
health education curriculum needs of students.

School Health Profiles (Profiles)

What you need to know about completing the School Health Profiles (Profiles):

- There is one survey for the principal and one for the lead health education teacher.
- The survey is completed online using Survey Monkey.
- Be sure your IT department allows you to receive emails from Survey Monkey
- The principal is asked to provide the lead health education teacher's name, email, and phone number.
- The principal may assign a delegate to complete all or part of the principal's survey.
- NYSCSH offers assistance Monday - Friday 8:00-4:00.

Please call the NYSCSH if you have any questions or concerns about the Profiles at 585-617-2380.

Your participation is greatly appreciated.
