

Warming House Requesting Items, 2025

While we greatly appreciate any donation, even if it's not on the list, the items below are those we consistently use and find most helpful in supporting our guests.

Since the Warming House is a **student-run soup kitchen that prioritizes cooking from scratch**, we would prefer **basic ingredients** over pre-packaged or prepared meals. For example, instead of boxed mac & cheese or rice-a-roni packets, **pantry staples like pasta, flour, canned tomatoes, broth, sugar, and spices** are especially helpful. These allow our student volunteers to prepare and learn how to cook healthier, more versatile meals for our guests.

Your generosity—no matter the item—goes a long way in helping us continue our work. Thank you for all you do!
