DISTRICT MISSION

The Beaufort County School District, through a personalized learning approach, will prepare graduates who compete and succeed in an ever-changing global society and career marketplace.

VISION

We will work with families and our diverse community to ensure that students perform at an internationally competitive level in a learning environment that is safe, nurturing and engaging.

Message From the Superintendent

Dear Parents and Guardians,

Beaufort County School District (BCSD) is the right choice for the children of Beaufort County. With numerous programs of choice, our students have a multitude of opportunities to find a learning environment that best suits their needs, interests, and abilities. We take pride in knowing that each of our program of choice options provides a high-quality level of learning that allows students to develop skills that will directly contribute to their future goals and successes.

In addition to our neighborhood schools, BCSD offers numerous programmatic options, such as Montessori, Early College, Advanced Placement, Cambridge Academy, and International Baccalaureate. We also have higher-education choice programs for rising 10th through 12th graders who desire dual enrollment at the Technical College of the Lowcountry (TCL) and the University of South Carolina Beaufort (USCB). The BCSD Tides program in partnership with TCL is a unique opportunity for select qualifying rising 9th graders that allows students to earn an Associate Degree through enrollment in college-level courses. Our district offers state of the art and award-winning CTE, STEAM and Visual/Performing Arts programs. Our variety of programs that meet individual student needs reaffirms our commitment to empowering students to create their own educational pathways.

Beaufort County School District is the best choice for Beaufort County students. The accolades and celebrations around BCSD are too numerous to list, but there are a few I am proud to share. BCSD's graduation rate for the class of 2025 is the highest state reported rate in district history. BCSD's students have outperformed the state with 85.3 percent of students being College or Career Ready, the highest in district history. Additionally, as a top-paying public school district in the state of South Carolina, we attract top educators, with 70 percent holding advanced degrees.

We know that choosing a school for your child is one of the most important decisions you will make during their childhood. This catalog was designed to help you navigate this journey by providing you with the information you need to make an informed decision for the 2025-2026 school year.

We are looking forward to another exciting year, and we thank you for your continued support.

Your proud superintendent,
Frank Rodriguez
Superintendent
Beaufort County School District

PROCEDURES FOR APPLYING FOR PROGRAM OF CHOICE

Applying for Choice

Applications for Choice will be available starting November 10, 2025 on the district website:

<https://www.beaufortschools.net/families/school-choiceprograms>

All applications should be submitted electronically. The deadline to apply is January 15, 2026 at 5:00 PM.

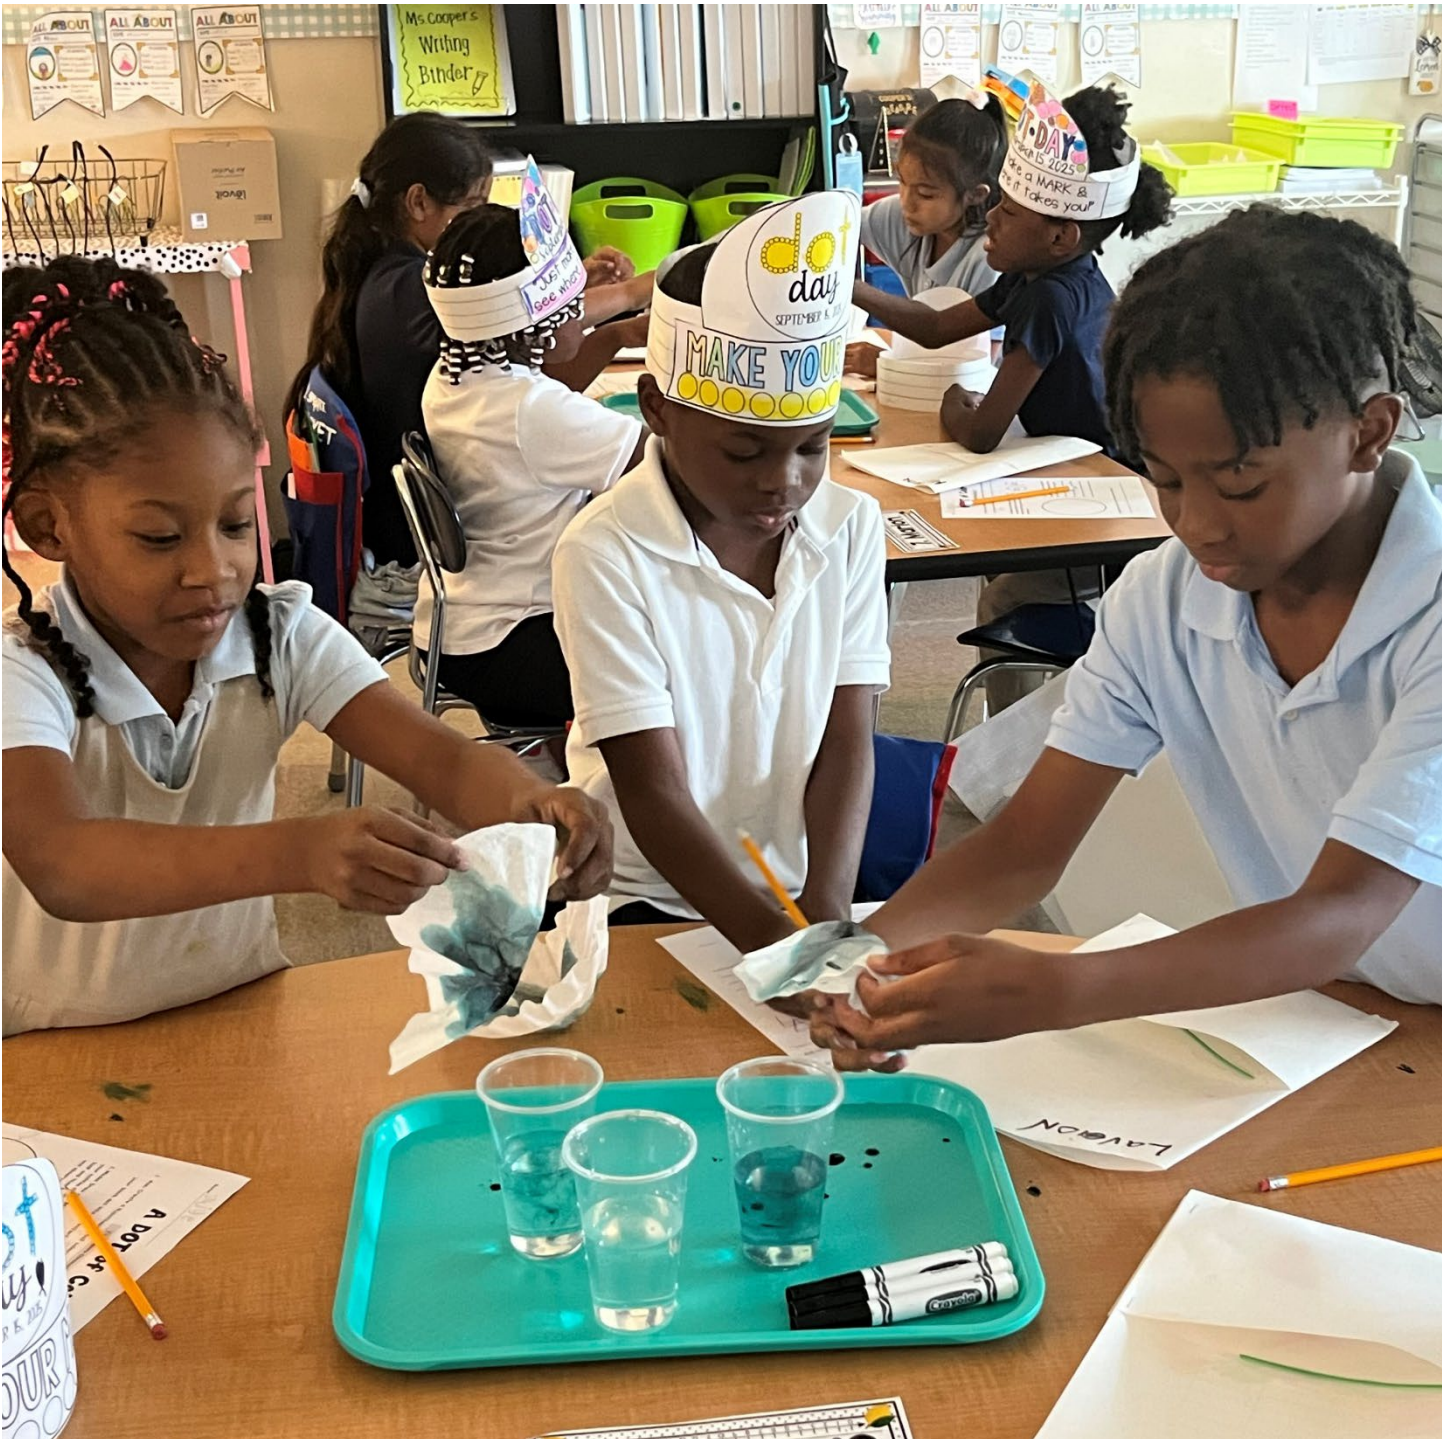

Procedures for Applying:

1. Go to <https://www.beaufortschools.net> on your computer, tablet, or smartphone.
2. Click on the "Families" tab located at the top of the page. Select "School Choice and Choice Programs" from the menu. If you do not have access to the Internet, computer, tablet, or smartphone, please visit any BCSD school to apply. If you have any questions, please contact Yanina SarliRotti at Yanina.SarliRotti@beaufort.k12.sc.us
3. You will be notified by email of the decision by January 31, 2026

Important Information About the School Choice Application Process:

- Due to capacity limits, the following schools will have a limited number of seats available for school choice applications from students living outside their attendance zones:
 - Okatie Elementary School
 - River Ridge Academy (Grades 6-8)
 - Robert Smalls Leadership Academy
 - Pritchardville Elementary School
 - Bluffton High School
 - Broad River Elementary
 - Coosa Elementary
 - H.E. McCracken Middle School
 - May River High School
- Any student who does not live in the attendance zone of their desired choice program may apply to any school with that choice program. Please note: Parents must provide transportation to and from the choice school if the student does not live in the attendance zone.
- Any student who can provide documentation that s/he moved to Beaufort County, or to a different location within Beaufort County, after the January 15, 2026 deadline may apply for school choice. The deadline for these applications is August 7, 2026. Program acceptance is based upon availability.

- Beaufort County School District Employees may apply for an Employee Courtesy student transfer for their own children with Yanina SarliRotti.
- If your program of choice application was denied, you may appeal in writing to Yanina SarliRotti at Yanina.SarliRotti@beaufort.k12.sc.us within 10 days from the date of the letter no later than February, 10, 2026. An appeal decision will be made within 10 business days.

Beaufort County's School District's Program of Choice options come in two forms:

- **School-within-a-School:** A traditional curriculum is offered for students who live in that attendance zone. That traditional curriculum includes a Science, Technology, Engineering, and Mathematics (STEM) focus as well as core courses in the arts, world languages, and technology. In addition to that traditional curriculum, the school also offers a specific "choice option" available to students who live both inside and outside the regular attendance zone.
 - Example: Beaufort Elementary School offers a traditional elementary grades curriculum, but also offers two "choice options" in Montessori and AMES.
- **School-wide:** All enrolled students participate in a focused instructional method.
 - Example: Lady's Island Elementary School engages all students with a school-wide arts-infused approach.

Student Expectations for Participation in Programs of Choice

In accordance with Administrative Regulation SS-3, if a student accumulates ten or more unexcused absences, 10 or more unexcused tardies; if a student does not pass 75% of their courses in a given year; or if the student fails or refuses to exhibit exemplary conduct (including any out of school suspensions), the student may be reassigned to their home school.

2025-26 Important Dates

NOVEMBER 10, 2025	School Choice Applications are available on the district website
JANUARY 15, 2026	School Choice Applications are due by 5pm
JANUARY 31, 2026	School Choice decisions will be emailed to families
FEBRUARY 13, 2026	Decision Appeals must be submitted to Yanina SarliRotti at Yanina.SarliRotti@beaufort.k12.sc.us by 5pm
AUGUST 7, 2026	If you can provide documentation that you recently moved to or within Beaufort County, you may submit an application by the August 7th deadline.

PROGRAM OPTIONS

Beaufort County School District (BCSD) and Technical College of the Lowcountry (TCL) are continuing their expanded academic partnership to increase learning opportunities for students within Beaufort County School District.

This dual enrollment partnership will enable qualified BCSD rising ninth grade students to enroll in a full-time dual enrollment cohort at TCL's New River Campus or Beaufort Mather Campus. Each cohort will consist of a minimum of 20 students who will experience college-level degree seeking courses as high school students, taught by TCL instructors.

Student eligibility is based on TCL Requirements:

- Enrolled in a BCSD high school
- Must be a legal U.S. citizen or [legal resident](#)
- Must have a 3.0 GPA (on a 4.0 unweighted scale)
- A qualifying PSAT score
- Additional criteria as determined by TCL Admissions and BCSD

Qualifying students attending Bluffton, Hilton Head Island, and May River high schools will be eligible for the cohort housed on TCL's New River Campus and will have the opportunity to participate in extra-curricular activities and athletics at their home high school. Qualifying students attending Beaufort, Battery Creek, and Whale Branch Early College high schools will be eligible for the cohort housed on TCL's Beaufort Mather Campus and will have the opportunity to participate in extra-curricular activities and athletics at their home high school.

BCSD Tides freshmen will declare one of two University Transfer Pathways as their "MAJOR"

- Associate of Arts: University Transfer Pathway
- Associate of Science: University Transfer Pathway

As the BCSD Tides cohorts progress to junior and senior high school status, students can take advantage of additional options to earn an Associate Degree in one of the following "MINORS":

- Associate of Applied Science/Computer Technology-Programming
- Associate of Applied Science/Computer Technology-Networking
- Associate of Applied Science/Cybersecurity
- Associate of Applied Science/Business Administration
- Associate of Science/Allied Health Science
- Associate of Science/Allied Health Science - Medical Assisting
- Associate of Science/ Allied Health Science – Entrepreneurship/Small Business Certificate

Beaufort-Jasper Academy for Career Excellence - ACE

Beaufort-Jasper Academy of Career Excellence (ACE) is a career-center open to 11th and 12th grade students from Beaufort and Jasper County high schools. ACE offers 12 Career and Technical Education (CTE) programs, which prepare our learners to attend college or enter the work force. ACE provides a student-centered learning environment that focuses on the needs of each individual student. In addition to credentials, ACE offers dual-enrollment opportunities through the Technical College of the Lowcountry (TCL) in both Culinary Arts (9-credits) and English (3-credits) for those who qualify.

ACE has a unique structure, with students taking three courses of their CTE program and one course of ELA each day. Students who successfully complete their CTE program will have earned one or more industry recognized certifications or state licenses.

Students are encouraged to pursue their passions and are able to select a CTE pathway that best fits their individual interests. ACE offers students off-site learning experiences, work-based learning opportunities with local business partners, and job placement. Please do not hesitate to contact ACE for a tour or additional information.

ACE Program Offerings:

Auto Collision Repair	Automotive Technology	Barbering/Master Hair Care
Building Construction	Cosmetology	Culinary Arts
Electricity	Emergency Medical Services	Nursing/ Health Science
Marine Science	Nail Technology	Welding

To learn more about all that ACE has to offer visit: www.bjace.org

Career and Technical Education (CTE)

Career and Technical Education (CTE) offers students a hands-on, problem-based approach to learning in multiple pathways designed to accelerate student success for rapidly-changing environments and workplaces.

CTE serves students in grades 6-12 through state-approved course offerings leading to career concentrations, work-based learning opportunities, and/or industry credentials. As a program of choice, students can take courses in one of fourteen major clusters with CTE pathways to include business, technology, PLTW engineering, welding, automotive services, and more.

Preparing CTE students for college and career also includes more than average classroom instruction. At BCSD, our goal is for CTE students to graduate with a diploma PLUS workforce experiences to help make a more effective transition after high school graduation. Experiences include...

- leadership opportunities in Career Technical Student Organizations through competitive events and regional and state offices;
- skill development through Industry Certifications;
- career readiness and employability skills credentials;
- business experience through Work-Based Learning/Internships/Capstone Classes; and
- early college credits through Dual Credit/ Dual Enrollment.

These experiences increase the soft skill development employers are seeking and provide students with a jump start to the future.

Visit the BCSD Career and Technical Education website for more information:

<https://www.beaufortschools.net/academics/instructional-programs-support/career-technical-education-cte>

Dual Enrollment Program Options

Dual Enrollment courses are college courses taken during high school for which a student receives both high school and college credit. Students must meet all college enrollment requirements and take only courses approved by the school district. Enrollment in dual credit courses allows high school students who are interested in college-level work to simultaneously earn high school credit toward graduation and academic course credit towards a degree or certificate from an institution of higher education.

Students who receive college credit while enrolled in high school have a higher likelihood of graduating from high school, are more likely to continue education after high school and have a higher rate of success during their first official year of college. Dual enrollment programs also significantly reduce the time and cost associated with pursuing post-secondary education, as dual enrollment courses can be directly applied to college transcripts. Beaufort County School District students enrolled in Dual Enrollment Programs have a two course limit per semester in Grades 9-11.

Technical College of the Lowcountry (TCL)

Students may enroll in college courses with the Technical College of the Lowcountry (TCL) to earn units of credit toward their high school diploma through cooperative Dual Enrollment agreements with TCL. These agreements provide that three-semester hour college courses transfer as one unit of high school credit. Successful completion of prerequisite courses will be required for specified certified programs.

There are two dual enrollment options for BCSD students, College Transfer or Technical Careers Certificates. Based on eligibility, BCSD may pay for tuition and books for approved courses. Additional scholarships may also be available for designated TCL technical related courses.

BCSD and TCL also offer dual enrollment opportunities for high school students who desire training in one of the specialized technical career programs. Career and Technical Education (CTE) Careers Certificates can provide students with the opportunity to enter the workforce in fewer than two years. This alignment between high school and the technical college career pathways also allows students opportunities to earn stackable credentials such as certificates, diplomas, and associate degrees.

University of South Carolina Beaufort (USCB)

Eligible Beaufort County School District students may also take advantage of dual enrollment at University of South Carolina Beaufort (USCB). Courses are offered at the Beaufort, Bluffton, and Hilton Head Island campuses.

Students can jumpstart their college experiences by enrolling in general education courses such as English, mathematics, and history. They may also enroll in USCB's multiple programs of study,

including computational science, business, and/or hospitality management, education, sociology, and more.

Magnet School Programs

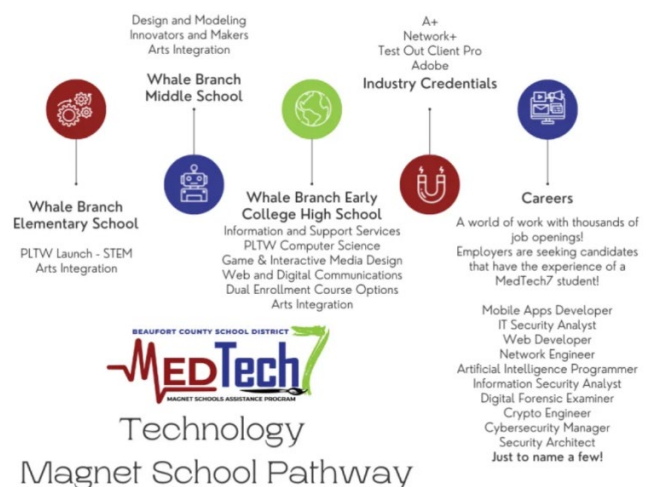

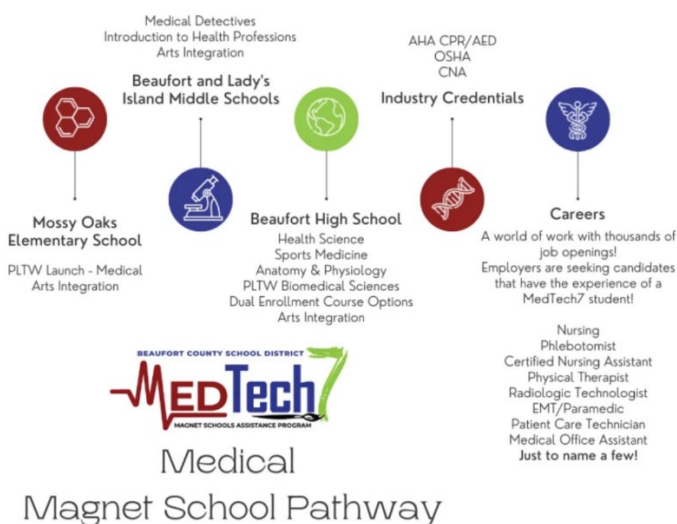

MedTech 7

Beaufort County School District (BCSD) is bringing innovative curriculum and resources to students and professional development for instructors in seven district schools through the MedTech7 grant. MedTech7 provides schoolwide arts integration, as well as medical and cybersecurity/technology magnet pathways to the Whale Branch and Beaufort clusters. In addition, MedTech7 offers medical, technology, and arts-themed summer camps to students free of charge.

MedTech7 aims to prepare BCSD students to step into careers or post-secondary education in the medical and cybersecurity/technology fields directly after high school graduation. The courses provided as part of the MedTech7 magnet pathways give students the knowledge and skills that employers are seeking. Both the medical and cybersecurity/technology fields require highly skilled and highly qualified candidates to fill positions in Beaufort County.

In addition to medical and technology magnet pathways, MedTech7 schools are also implementing arts integration schoolwide. MedTech7 and BCSD have partnered with The Institute of Arts Integration and STEAM (IAS) to provide standards-aligned lessons, as well as high-quality instructional strategies and materials to deliver an innovative curriculum.

CHANGEMAKERS

Beaufort County School District is proud to introduce a new program, CHANGEMAKERS, available at three schools in the district: Hilton Head Island Elementary School, Hilton Head Island Middle School, and Hilton Head Island High School. CHANGEMAKERS focuses on a school-wide magnet theme of Global Exploration through the International Baccalaureate (IB) Programme.

This innovative program offers a comprehensive learning experience for students in grades 1 through 12, combining inquiry-based learning with the prestigious IB Programme. It also emphasizes the importance of acquiring a second language, Project Lead the Way, Advancement Via Individual Determination (AVID), and a focus on global and digital citizenship. Through CHANGEMAKERS, students will not only gain valuable academic skills but also develop the critical thinking and global awareness needed for success in an increasingly interconnected world.

Virtual Learning Options

Beaufort County School District has collaborated with partner districts in South Carolina to offer high-quality, full time, virtual programs for grades 5-12. Students stay enrolled in their zoned school, but take their courses online. There are eligibility requirements for virtual learning, including a minimum Grade Point Average of 2.5 and attendance in good standing.

The Virtual Learning application for 2026-2027 will be available beginning November 10, 2025. Students currently enrolled in virtual learning must re-apply each year. Interested families should contact the student's school counselor to review eligibility and request an application.

Grades 5-9 Low Country Virtual

[Low Country Virtual](#) is a tuition-free, full-time, online public school program based upon the National Standards for Quality (NSQ). Beaufort County School District has partnered with several other districts across the state as part of the Lowcountry Education Consortium whose purpose is to provide full-time, standards-based virtual education to students.

Low Country Virtual offers a strong South Carolina standards-aligned curriculum and a flexible, online learning environment. Students will be able to take core courses in English language arts, math, science, and social studies as well as electives via a high-quality curriculum taught by certified teachers. Students remain enrolled in their zoned school in Beaufort County School District and are eligible for participation in extracurricular events and activities.

Students will be required to log in daily for synchronous (real-time, live) instruction. [Sample schedules](#) by grade level are available. Students will be provided a device by the school district, but will need a stable internet connection.

Parents considering Low Country Virtual should read over the [Guidelines for Success](#) and then contact the school counselor at the student's school to discuss if the student would be a good candidate for virtual learning. The [Frequently Asked Questions](#) section also provides information for parents considering Low Country Virtual.

For more information visit: <https://lowcountryvirtual.org/>

Virtual Learning Options

Athletics, Arts, and Extra-Curriculars

Students who qualify for a virtual learning option remain enrolled at their zoned BCSD school. Enrollment in BCSD school allows students to participate in athletics, the arts, and other extra-curricular clubs while taking courses virtually. Virtual Learning provides a flexible schedule helping make demanding travel, practice, and rehearsal schedules more manageable while maintaining academic success.

Grades 10-12 High School Virtual Learning Program

In conjunction with [VirtualSC](#) and district partnerships, BCSD is able to offer a full-time virtual high school option. Students take core courses in English, math, science, and social studies as well as electives using approved South Carolina curriculum aligned with state standards. All virtual high school courses are taught by highly qualified and certified South Carolina teachers.

Students remain enrolled in their zoned school in Beaufort County School District and are eligible for participation in extracurricular events and activities. Students will be provided a device by the school district, but will need a stable internet connection.

Students need to be self-motivated and complete much of their coursework in an asynchronous (independent of teacher) format. Students will also participate in synchronous (real-time, live) learning for each course. Virtual teachers will provide schedules for weekly office hours and live sessions of instruction. Parents should contact the school counselor at the student's zoned school to discuss if their student would be a good candidate for virtual learning, and request the application.

Virtual Student Spotlight – Harrison Skinner

Bluffton High School senior Harrison Skinner exemplifies the success that's possible through the Berkeley County Virtual Learning Program (BCVLP), a district partnership designed to provide students with flexible, high-quality learning opportunities. As a dedicated student-athlete, Harrison balances his academic goals with his commitment to basketball. The flexibility of BCVLP allows him to manage his coursework around his training schedule, ensuring he maintains strong academic performance while pursuing his dream of playing basketball at the collegiate level. Through BCVLP, Harrison continues to meet all graduation requirements while developing the time-management, discipline, and independence that will serve him well beyond high school. His story demonstrates how virtual learning empowers students to reach their fullest potential—academically, athletically, and personally.

"Being part of the virtual learning program has been huge for me. It's allowed me to dedicate the time and focus needed to compete in the OTE league for the YNG Dreamerz at the highest level, while still staying on track academically. The flexibility helps me balance practices, travel, and games without falling behind in school. This setup lets me fully pursue my basketball goals now and prepare to play at the collegiate level in the future, all while keeping my education a top priority."

- Harrison Skinner, Virtual Student

Visual and Performing Arts Programs

Through a consistently growing Visual and Performing Arts Program, Beaufort County School District (BCSD) is committed to providing our students with an exceptional arts education. Seven of our schools are designated as Arts in Basic Curriculum schools, four are designated as Visual and Performing Arts schools, and many work to integrate the arts into core content subjects. The arts are an integral part of our schools and an important component to the programs we provide our students.

Fall 2025 Celebrations

Visual and performing arts exhibits are provided throughout the year to allow BCSD students the opportunity to showcase their work. During the Fall 2025 semester, all of the District's marching bands were represented at the 1st annual BCSD Marching Band Showcase. Additionally, two marching bands earned 1st place at competitions in South Carolina and Georgia. Three students will be representing Beaufort County at the SCMEA Region IV Orchestra Festival. Over 200 students will be auditioning for District and Region Band events, while 8 photographs by 6 students from Hilton Head Island High School were displayed in the Youth Showcase at the Photographic Society of America's convention in September.

2024-2025 Performing Arts Celebrations

District-wide, our schools provide a plethora of performance opportunities for students each year. During the 2024-2025 school year, BCSD performing arts students and programs were recognized in a variety of ways. May River High School earned the Outstanding Performance Award, the highest honor SCBDA awards. Over 40 students earned Superior or Excellent for SCMEA Solo and Ensemble performances. 20 choral, 23 band, and 3 orchestra students qualified for SCMEA Region events. 8 students advanced to State-level ensembles (7 choral, 1 orchestra), and 1 student qualifying for National-level ensembles. Over 500 students participated in District-wide events for Band, Choir, Dance, and Theater.

2024-2025 Visual Arts Celebrations

The newly-expanded River of Words Publication featured 211 pieces of student art, 103 student poems and two exhibitions. The 2025 High School Regional Art Show, in partnership with the Coastal Discovery Museum, featured five participating high schools, and BCSD students earned 9 awards.

Sea Island School of the Arts

BCSD also offers a summer program that provides a unique opportunity to grow the gifts and talents of our students. The Sea Island School for the Arts (SISA) is held in June and provides over 150 students an opportunity to grow their skills and talents in various art forms. The summer program provides two sites for students in grades 3-11. Through SISA our students are able to

work with our talented arts educators and visiting artists on creations and performances that are showcased to our community in three SISA extravaganzas.

Learn More About Our Elementary Schools

[Beaufort Elementary School](#)

Available Choice Programs: ***Advanced Math, Engineering and Science Academy (AMES), and Montessori***

Beaufort Elementary (BES), empowers students in developing the World Class Skills of the Profile of a South Carolina Graduate by providing differentiated instruction and appropriate interventions to meet each child's needs on an individual basis. BES challenges students each day to reach their full potential as learners and citizens. BES provides multiple programs to provide students with distinct

experiences – academically and socially.

BES is a recipient benefitting from the U.S. Department of Defense Education Activity (DoDEA) grant. This grant provides additional college and career ready resources to successfully expand the BES STEM program.

As a certified STEM school and designated ABC school, BES is very excited about the multiple opportunities students have to share and develop their many talents in science, technology, engineering, art and math. BES teachers work collaboratively to provide BES students with a comprehensive program that educates the whole child through the use of hands-on and project-based instruction that engages and motivates learners. STEM/STEAM learning is integrated throughout the curriculum, allowing students to develop deeper understanding of content. With BES' emphasis on character development, students are moving forward in their quest to be responsible citizens who will go out each day and make a difference as they make the right choices.

For more information visit: <https://bes.beaufortschools.net/>

[Bluffton Elementary School](#)

Available Choice Programs: ***Elementary Accelerated Academy, Computer Science, and PLTW Launch***

Bluffton Elementary (BLES) realized the need for student development of 21st Century Skills with a focus on computer science in order to prepare learners for future employment and to equip them with the skills needed to be productive, responsible citizens. The Computer Science program at BLES assists students in learning the skills needed to succeed in a digitally dominant world and develop world class skills based on the Profile of the South Carolina Graduate. All students in Beaufort County

School District have the opportunity to opt into the school for BLES' specific program.

Bluffton Elementary's Accelerated Academy is a more challenging educational experience for Gifted and Talented students. It is a rigorous program that accelerates students through a standards-based curriculum "Faster, Farther and Sooner." Teachers work with students in 3rd through 5th grade who are Gifted and Talented qualified and are considered in the 95th percentile and above academically. Accelerated foundational classes are also available in Kindergarten, 1st, and 2nd grades.

Broad River Elementary School

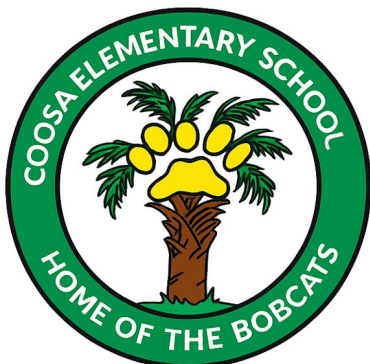

Available Choice Programs: ***Dual-Language: Spanish or Mandarin Chinese, Leader in Me, and PLTW Launch***

Broad River Elementary School (BRES) is dedicated to providing a well-rounded education that equips students to succeed locally and globally, fostering both academic growth and leadership skills.

BRES offers a range of choice programs designed to develop global learners and future leaders in accordance with the South Carolina Graduate Profile and small class sizes. Students can participate in dual-language programs for Spanish or Mandarin Chinese, learn leadership skills through the Leader in Me (LIM) model, and engage in hands-on STEM learning through PLTW Launch. BRES focuses on a rigorous curriculum aligned with South Carolina State Standards, providing differentiated support in reading and math through certified tutors. Students also benefit from the Reefs House System, which fosters community and leadership through small learning groups. The school places an emphasis on creating multicultural students prepared to thrive in a global society.

In addition to core academics, BRES students participate in weekly STEM lab sessions, where they explore science and engineering concepts. Arts programs encourage creativity, and cooperative learning is a staple in classrooms, promoting teamwork and responsibility. BRES is proud of its large military population and is supported by the U.S. Department of Defense Education Activity (DoDEA) grant, which expands college and career readiness resources and enhances the school's STEM offerings. Through these various programs and opportunities, BRES is committed to helping students "Learn Locally to Lead Globally."

For more information visit: <https://bres.beaufortschools.net/>

Coosa Elementary School

Available Choice Programs: ***Leader in Me, Project-Based Learning, and PLTW Launch***

At Coosa Elementary School (CES), every child is inspired to dream more, learn more, achieve more, and become more. As a 2023 National Blue Ribbon School and Leader in Me Legacy School, CES blends academic excellence with character development, empowering students to grow as confident leaders who make a difference.

CES's STEM-certified program ignites curiosity and creativity through hands-on learning. Students explore innovation in our STEM Lab, Competitive Robotics Team, and Project Lead the Way lessons—earning CES Cognia STEM Certification in 2024. With 1:1 technology access, students use digital tools to enhance problem-solving and real-world application.

We proudly serve a large military-connected population as a South Carolina Military Purple Star School, ensuring smooth transitions and strong family partnerships. Our Purposeful Play classrooms

for pre-K and kindergarten nurture imagination, social skills, and early academic growth through discovery-based learning.

At Coosa Elementary School, The Leader in Me framework is at the heart of everything we do. Students learn and live Stephen Covey's 7 Habits of Highly Effective People, empowering them to take ownership of their choices, set goals, and lead by example. Leadership is visible in every hallway and classroom—students greet visitors, lead assemblies, manage classroom jobs, and participate in clubs that promote voice, agency, and service to others.

CES's positive school culture shines through Positive Referral Fridays, student celebrations, and a supportive climate. Rooted in the 7 Habits, this culture is strengthened by diverse clubs and Passport Learning Days that celebrate global citizenship and inclusivity. Together, these experiences help students develop leadership, empathy, and responsibility—skills that prepare them for success in school and in life.

With passionate educators, strong community partnerships, and a caring, inclusive environment, Coosa Elementary School is where learning comes alive and leadership begins.

For more information visit: <https://ces.beaufortschools.net/>

Hilton Head Island IB Elementary School

Available Choice Programs: ***Dual Language Immersion: Spanish or Mandarin Chinese, IB Primary Years Programme (ChangeMakers), and PLTW Launch***

Hilton Head Island Elementary School (HHIES) students are academically challenged by a qualified and dedicated faculty through a rigorous curriculum. High expectations are the standard. HHIES aims to help students reach and exceed grade level standards. HHIES believes in a shared responsibility between involved parents, talented teachers, a supportive community and an administration team who believes that all children can learn. As an IB World School, HHIES' Primary Years Programme (PYP) focuses on the development of the whole child as an inquirer both in school and in the world beyond.

Students are engaged in an inquiry-based and Science, Technology, Engineering, Arts, and Math (STEAM) infused curriculum using critical thinking and problem solving skills through collaborative activities that foster teamwork. The STEAM Lab at HHIES allows students opportunities to explore comprehensive STEAM projects as an elective. Oral and written communication skills are showcased through various venues such as media and the use of the latest technology. Students are provided learning experiences that will strengthen their study skills and give them tools for their toolbox so that they can be most successful. HHIES strives to ensure that all students are engaged in learning experiences that promote a love for learning and a thirst for knowledge. Dual Language Immersion: Spanish is available to students in grades K-5, and Dual Language Immersion: Mandarin Chinese is available to students in grades 1-5.

[Hilton Head Island School for the Creative Arts](#)

Available Choice Programs: **Arts Integration and PLTW Launch**

Hilton Head Island School for the Creative Arts (HHISCA) is dedicated to leading HHISCA students down the path of developing strong world class skills. As an Arts in Basic Curriculum (ABC) School of Distinction, the HHISCA vision includes rigorous arts lessons taught by instructors certified in Art, Music, Dance, and Drama/Theater. HHISCA partners with the Arts Center of Coastal Carolina. Classrooms work with Artists in Residence on units of study directly correlating with the academic content standards.

HHISCA teachers receive training regarding best practices in arts-infusion within the curriculum, learning how the arts support student engagement and facilitate self-expression, collaboration, teamwork, and skills of creativity. Through partnerships with Arts Now and the Arts Center of Coastal Carolina, HHISCA is able to provide rich, artistic experiences for all students. Our school further teaches students critical thinking through implementation of the Project Lead the Way curriculum for Science instruction, integrating hands-on applications at a high level of rigor.

HHISCA celebrates continued progress within the arts-infused school of choice, and are committed to the vision of providing a safe, nurturing, rigorous, and arts-infused environment that will promote preparedness of all children for a successful future following graduation.

For more information visit: <https://hhisca.beaufortschools.net/>

[Joseph Shanklin Elementary School](#)

Available Choice Programs: **Leader in Me and PLTW Launch**

Joseph Shanklin Elementary School (SES) is empowering all students to develop the world-class skills, life, and career characteristics of the Profile of the South Carolina Graduate. SES provides an innovative learning environment that focuses on leadership and developing self-directed learners. SES provides such an environment by creating a culture of leadership, living out the SES school motto: "Learn. Lead. Make a difference". School administration, teachers, and students collaborate to develop school-wide, grade level, class, and individual

goals centered around literacy and mathematics. Throughout the year, staff and students track the progress of the SES Wildly Important Goals and celebrate growth and achievement along the way. This process of goal setting and progress monitoring teaches students personal accountability and develops self-directed learners. Developing a culture of leadership at SES is about inspiring all students, families and staff to be leaders and take ownership of their learning.

[Lady's Island Elementary School](#)

Available Choice Programs: **Arts in Basic Curriculum/ABC Project and Leader in Me**

Lady's Island Elementary (LIES) students embrace Leadership through the Arts. Since 2000, LIES has integrated visual and performing arts into teaching and learning, and is now working towards designation as a Leader In Me Lighthouse School. Certified arts specialists in music, dance, visual and media arts, and community theater volunteers make learning exciting by collaborating with classroom teachers. Together, they bring subjects like math, science and history to life through

creative and engaging lessons.

As a Leader in Me school, LIES students practice the 7 Habits of Highly Effective Kids, building leadership skills to prepare for success in a global world.

LIES is a recipient benefitting from the U.S. Department of Defense Education Activity (DoDEA) grant. This grant provides additional college and career ready resources to successfully expand the LIES STEM program.

At LIES, small class sizes allow students to showcase their skills through the arts. You may hear students singing about the rock cycle, acting out short stories, performing poetry, portraying historical figures, and using dance methods to create geometric shapes in math. They demonstrate leadership skills by co-planning their own performances, taking responsibility for helping operate the school, and serving on committees to provide student voice. Recognized as a School of Merit by the Arts in Basic Curriculum Institute, LIES receives funding from the South Carolina Arts Commission to provide artists-in-residence, art supplies, field trips, and teacher training.

Visit LIES to experience how Leadership through the Arts transforms learning and inspires students!

For more information visit: <https://lies.beaufortschools.net/>

[Michael C. Riley Elementary School](#)

Available Choice Programs: **Leader in Me**

Michael C. Riley Elementary's (MCRES) goal is to help all students develop the world class skills of the Profile of the South Carolina Graduate by providing differentiated instruction and appropriate interventions to meet each child's needs on an individual basis. All classrooms focus on delivering effective daily instruction and a coherent, viable curriculum that are driven by state standards and school data. 21st Century skills such as critical thinking, problem-solving, communication, collaboration, creativity, and innovation are part of

MCRES daily instruction.

MCRES' core beliefs include bringing out the leadership potential of each child by incorporating a learning leadership model, The Leader in Me. Through examination and reflection, MCRES has identified strategies and systems to build positive choices through the seven effective habits, roles and participation models to demonstrate leadership, and accountability systems to measure and evaluate individual, classroom, grade level, and school wide data points. In March 2023, MCRES was

notified of reaccreditation status as a Leader in Me Lighthouse School, and in the spring of 2024, MCRES received recertification of its status as a STEM school through Cognia.

For more information visit: <https://mcres.beaufortschools.net/>

[Mossy Oaks Elementary School](#)

Available Choice Programs: **Arts in Basic Curriculum, MedTech7 Medical and PLTW Launch**

At Mossy Oaks Elementary School (MOES), students develop world-class skills and characteristics in small classes, enhancing their life and career capabilities as outlined in the South Carolina Profile of the Graduate. MOES is proud to be a Title One school whose purpose is to expand students' understanding of the world and increase expertise in STEM and MedTech7 curriculum. MOES also features the Project Lead the Way Launch curriculum for all students. MOES was recertified in 2021-2022 as

an Arts Focused School, offering an approach to help students explore their strengths and interests while expanding their competencies.

The success of MOES can be attributed to the teamwork of students, parents, community members, and staff. This coalition fostered the development of an outdoor classroom for students which is now designated a Certified Wildlife Habitat by the National Wildlife Federation. As MOES builds its repertoire of arts-infused, STEM/STEAM lessons, students become prepared for successful careers in many fields.

For more information visit: <https://moes.beaufortschools.net/>

[Okatie Elementary School](#)

Choice Programs - **available only to students zoned for OES: Learning Through Leadership**

Okatie Elementary (OES), continues to be rated Excellent on the South Carolina School Report Card. The school works to create a welcoming magical world of learning for all children by sustaining a strong, positive school culture for students and families. The school is committed to supporting all students in developing the world-class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing a rigorous academic program that supports the success of all

students and encourages future leaders. OES creates student centered learning environments, supports community service projects, integrates real-world learning experiences, and hosts fine arts and leadership clubs in a caring and nurturing atmosphere. As a Cognia STEM certified school, OES is developing 21st Century Graduate skills through application of critical thinking and decision-making which will positively impact their world and future. OES students take ownership of their learning by making Wise Decisions, Showing Initiative, Being Noble, Generous, and Successful (W.I.N.G.S.). OES strongly believes that all students should be given the opportunity to learn through an integrated STEM curriculum. As a Learning Through Leadership school, OES looks for ways to develop strong leadership skills through goal setting, communication, and student accountability. OES embraces a

nurturing school family by building strong partnerships with families and the Okatie community. OES always encourages students to "Spread their Wings and Learn New Things."

[Port Royal Elementary School](#)

Available Choice Programs: ***PLTW Launch***

Port Royal Elementary (PRES) supports all students with small class sizes and by providing South Carolina standards-based instruction that focuses on continuous growth and development. PRES is a recipient benefitting from the U.S. Department of Defense Education Activity (DoDEA) grant. This grant provides additional college and career ready resources to successfully expand the PRES Science, Technology, Engineering, and Math (STEM) program. Educators provide differentiated instruction with appropriate interventions and enrichment opportunities to meet each student's needs. PRES' mission is to educate, empower, and engage students through cooperation, communication, community involvement, challenging and innovative curriculum, and a safe and inclusive environment. Port Royal Elementary School uses Project Lead the Way Launch curriculum units to ignite the Next Generation Science standards, giving students access to hands-on, real-world learning. These units of instruction introduce students to science, engineering, and biomedical science pathways. Along with Project Lead the Way units, PRES utilizes a STEM lab to encourage students to build skills in problem-solving and critical thinking by solving challenges using the engineering design process. These projects and STEM experiences provide students opportunities to work collaboratively, foster creativity, and strengthen communication skills. Port Royal Elementary School continues to focus on the final destination...excellence! PRES' goal is to continue to move forward; becoming stronger today than yesterday.

For more information visit: <https://pres.beaufortschools.net/>

[Pritchardville Elementary School](#)

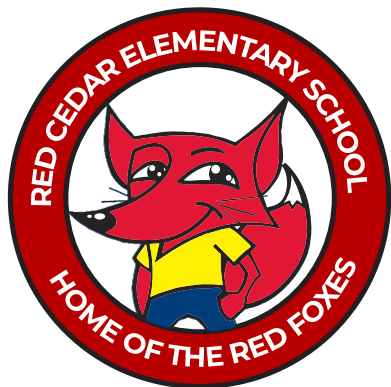

Choice Programs - ***available only to students zoned for PVES: Project-Based Learning and Advanced Math, Engineering and Science Academy (AMES)***

Pritchardville Elementary School (PVES), rated Excellent on the 2024 South Carolina School Report Card, is a Blue Ribbon Schools of Excellence Lighthouse School and a recipient of the U.S. Department of Defense Education Activity (DoDEA) grant. PVES is dedicated to helping students develop world-class skills as outlined in the Profile of the South Carolina Graduate, with a strong focus on the 4 Cs: critical thinking, communication, collaboration, and creativity.

As a Cognia-accredited STEM school, PVES has undergone a rigorous review process to ensure effective integration of Science, Technology, Engineering, and Math (STEM) across core subjects like math, language arts, science, and social studies. The 4 Cs are embedded in student learning, with hands-on STEM projects that engage students at all levels. The school offers a Project-Based

Learning curriculum for grades K-5 and an Advanced Mathematics Engineering and Science (AMES) Program for Gifted and Talented students. These programs encourage students to "learn by doing" and solve real-world problems with a focus on STEM education.

For more information visit: <https://pves.beaufortschools.net/>

[Red Cedar Elementary School](#)

Available Choice Programs: ***Project-Based Learning***

At Red Cedar Elementary (RCES), the foundational philosophy is to do "whatever it takes" to ensure students are successful. RCES works hard to provide support for those who need it, challenge for those who grow with it, and enrichment for those who flourish with it. RCES' Project-Based Learning approach empowers students to be in charge of their learning through hands-on individualized projects, and allows students to apply their learning in real-world scenarios.

RCES works to ensure all students receive highly effective instruction in their classrooms. Teachers participate in professional development (PD) and professional learning communities (PLCs) through which they learn new strategies, study standards and curriculum, and analyze student work to improve instruction.

RCES supports the whole child by providing many enrichment opportunities. For example, Foxes Jam is a program for beginning and intermediate string and wind instruments, beginning in the third grade. RCES has a gardening club and a celebrated Foxes Rock Drum and Dance Team. RCES' student support team advises staff in meeting the needs of RCES students.

Red Cedar Elementary School has consistently maintained high standards for behavior and achievement, as well as a strong sense of tradition surrounding service, learning new things, and fun.

For more information visit: <https://rces.beaufortschools.net/>

[St. Helena Elementary School](#)

Available Choice Programs: ***Leader in Me***

St. Helena Elementary School (SHES) continues to work towards its vision of developing lifelong learners that lead in the community, succeed in the school, and achieve their dreams. SHES is a Leader in Me Lighthouse School. SHES' Learning Through Leadership model provides students with opportunities to build their personal leadership skills.

SHES is helping students develop world class skills, along with the life and career characteristics of the Profile of a South Carolina graduate by continuing to implement the Leader in Me process. Teachers use multiple data points to formally and informally assess students, set high expectations, and individualize target goals for student achievement growth. SHES continuously strives to focus on family-friendly service and improve communication with families, staff, and the community. It is through the support of dedicated staff, parents and numerous volunteers from the community that SHES is cultivating growth in all students and empowering them to lead, achieve, and succeed.

Whale Branch Elementary School

Available Choice Programs: **MedTech7 STEAM Technology Magnet**

At Whale Branch Elementary School (WBES), students develop world-class skills and characteristics to expand their life and career capabilities as proposed in the South Carolina Profile of the Graduate. WBES is proud to be a MedTech7 school, providing a technology focus along with arts integration for all students. Our students develop communication, collaboration, and creativity skills through hands-on experiences in our STEAM Lab, engaging in coding, project-based learning, and engineering challenges. They also enhance their technology skills in our Z-Space Lab, exploring AI and AR through immersive, interdisciplinary learning that connects math, science, and social studies. As a key part of our technology magnet focus, the Z-Space Lab and LU Interactive Playground foster critical thinking, collaboration, and communication through play and gamified challenges.

PLTW Launch (Project Lead the Way), our science curriculum, advances students' thinking through hands-on activities, projects, and real-world problem-solving. It offers integrated learning that connects computer science, engineering, and more, building skills progressively with meaningful, real-life applications..

At WBES we emphasize student engagement, high expectations, and teacher clarity, guided by research from John Hattie's Visible Learning framework, to align lessons, objectives, and outcomes. This approach fosters productive classrooms, strong student-teacher relationships, and meaningful learning experiences. Highly-trained instructional coaches engage teachers with innovative and best educational practices in weekly professional development activities. WBES determines goals and explores strategies collaboratively to improve the educational programming for all students.

Learn More About Our Pre-K - 8 Schools

[River Ridge Academy](#)

K-5 Available Choice Programs: **Montessori (1st-8th), PLTW Launch (K-5)**

River Ridge Academy (RRA) is working to develop the World Class Skills of the Profile of the South Carolina Graduate by focusing on the "whole-child". RRA provides programmatic options for student choice through a Montessori program for students in grades 1-8.

Students in grades K-5 have daily instruction in Project Lead the Way Launch, a national pre-engineering curriculum. At the elementary level,

RRA offers two STEM course offerings, Engineering is Elementary and LEGO Lab to teach design thinking, collaboration, and communication skills. In grades 6-8, all students are able to take classes within the Project Lead the Way Gateway Program. RRA offers classes such as Flight and Space, Medical Detectives, Automation and Robotics, Design and Modeling, and Computer Science for Innovators and Makers. Many after school clubs are available for students to participate in, such as VEX Robotics, Chess Club, GT Music Club, Young Astronauts, and more.

Since opening in August 2015, staff at RRA have developed a culture of learning that supports "whole-child" development through providing an environment that develops students to act upon the world and make a difference in their community. RRA students and families appreciate the connections and positive relationships established throughout the school community.

[Robert Smalls Leadership Academy](#)

[Choice Programs - available only to students zoned for RSLA: **Leader in Me** and **PLTW Launch**](#)

Robert Smalls Leadership Academy (RSLA) believes in nurturing the leaders of tomorrow through a transformative educational experience. The academy, named after the courageous Civil War hero Robert Smalls, is dedicated to instilling leadership skills in students from an early age. At the heart of RSLA's approach is the renowned Leader in Me program, which empowers students with the essential skills and habits necessary for personal and academic success. RSLA understands that as parents, you are seeking an environment that not only educates but also cultivates leadership qualities in your child.

At Robert Smalls Leadership Academy, the Leader in Me program is seamlessly integrated into every aspect of the curriculum, fostering a culture of responsibility, goal setting, and teamwork. Staff at RSLA believe in unleashing the potential within each student, teaching them to take initiative, make responsible work choices, and develop a strong sense of self-confidence. Dedicated educators work collaboratively with students, guiding them through the seven habits of highly effective people, creating an environment that promotes both academic excellence and character development. By choosing RSLA, you are providing your child with a unique educational experience that goes beyond traditional learning, preparing them to excel not only in the classroom but also in the challenges of life as future leaders.

For more information visit: <https://rsla.beaufortschools.net/>

[Riverview Charter School](#)

The mission of Riverview Charter School, rated Excellent on the 2024 South Carolina School Report Card, is to create a small, diverse learning community that actively engages students in meaningful and innovative learning experiences. Emphasizing "learning by doing", family and community involvement, and engaged citizenship, Riverview is committed to nurturing the whole child and preparing each student for global society. Students learn Core Values: Mindfulness, Perseverance, Stewardship, Integrity, Empathy, Cooperation, and Gratitude.

Riverview Charter School is Beaufort County's first public charter school and opened in August 2009. It is sponsored by the Beaufort County School District and, as with all public schools, there is no tuition fee. There is also no pre-admission testing or interview required for students. Each class has four homerooms with a maximum of 20 students in each homeroom. Riverview offers tuition free assistance, transportation, free & reduced lunch and before & after school care.

Applications are accepted each year from January 1-31 for the following school year and available seats are filled via public lottery.

For more information visit: <https://riverviewcharterschool.org/>

Elementary/Pre-K - 8 School Educational Pathways

Acceleration Elementary Academy

Located at *Bluffton Elementary School*

Acceleration Elementary Academy is a strategy that allows a student to progress through school at a faster rate. In an accelerated model, a student can complete their elementary learning years at a younger age. For this program of choice, specific qualifications will be required and can be discussed more in depth upon interest.

Advanced Math, Engineering and Science Academy (AMES)

Located at *Beaufort and Pritchardville Elementary Schools*

AMES is a program based on rigorous math and science foundational skills taught through the use of science and engineering projects. The AMES learning environment is designed to actively engage students in exploration, discovery, experimentation and mastery of standards. For this school choice, specific qualifications will be required and can be discussed more in depth upon interest.

Arts in Basic Curriculum / Arts Integration

Located at *Hilton Head School for the Creative Arts, Lady's Island, Mossy Oaks and Whale Branch Elementary Schools*

Arts Integration programs focus on providing extensive opportunities for all students to learn through creative instructional approaches and to express themselves creatively in the arts. The arts curriculum provides students with a creative learning environment that includes performances, exhibitions of artwork and special performing groups. Arts in Basic Curriculum sites receive funding from the South Carolina Arts Commission to support a comprehensive arts curriculum.

For more information visit: <https://www.abcinstitutesc.org/>

ChangeMakers Magnet School Program Grant

Located at *Hilton Head Island IB Elementary School*

ChangeMakers is a new school-wide magnet initiative continuing the focus on inquiry-based, global exploration through dual language immersion, Project Lead the Way, and the International Baccalaureate (IB) programme.

Computer Science

Located at *Bluffton Elementary School*

Computer Science is an immersive program that places emphasis on the use of technology to support learning and creative expression. Students develop skills needed to thrive in a digital world.

Dual-Language Immersion

Located at *Broad River and Hilton Head Island Elementary Schools*

Dual-Language is a form of education in which students are taught literacy and content in two different languages during the school day. Students have the advantage of learning required subject area content and becoming fluent in a second language at the same time. Chinese and Spanish dual language programs are currently offered.

International Baccalaureate Program (IB) - Primary Years Programme (PYP)

Located at *Hilton Head Island IB Elementary School*

The IB Primary Years Programme (PYP) for children aged 3-12 nurtures and develops young students as caring, active participants in a lifelong journey of learning. The PYP offers an inquiry-based, transdisciplinary curriculum framework that builds conceptual understanding. The PYP has evolved to become a world leader in future-focused education.

For more information visit: <https://www.ibo.org/>

Leader in Me

Located at **Coosa, Lady's Island, M.C. Riley, Shanklin, St. Helena, and Robert Smalls Leadership Academy**

Leader in Me® is a whole-school transformation model and process developed in partnership with educators that empowers students with the leadership and life skills they need to thrive in the 21st century. It is based on principles and practices of personal, interpersonal and organizational effectiveness, and upon the powerful premise that every child possesses unique strengths and has the ability to be a leader. For more information visit: <https://www.leaderinme.org/>

Learning Through Leadership

Located at **Okatie Elementary**

Learning Through Leadership schools provide a comprehensive learning model through student leadership development. Learning Through Leadership program goals include: fostering a student's self-esteem, discipline, responsibility, confidence, and creativity. Students will learn to set and meet goals, effectively cooperate with people of various backgrounds and cultures, resolve conflicts and solve problems.

MedTech7 Magnet School Programs Grant

Located at **Mossy Oaks and Whale Branch Elementary Schools**

MedTech7 magnet pathways are offered in two clusters: Whale Branch and Beaufort. All MedTech7 schools offer schoolwide Arts Integrated learning. The Beaufort cluster offers Medical -themed lessons and units of study to help students explore the world of medicine. The Whale Branch cluster offers Technology-themed lessons and units of studies where students can learn the basics of coding, computers, and more. MedTech7 provides theme-based pathways of study which allow students to develop the knowledge and skills necessary to pursue careers and/or post-secondary education. For more information visit: <https://www.beaufortschools.net/families/school-choiceprograms/medtech7>

Montessori

Located at **Beaufort Elementary School and River Ridge Academy**

Montessori education supports children's natural development and encourages them to develop their creativity, think critically, solve problems, and manage their own time. Montessori features mixed-age classrooms, allows students to make individual choices about their research and work, and gives them time for uninterrupted concentration. Montessori students enjoy their learning so they can better remember what they learn.

Project Based Learning

Located at **Coosa, Port Royal, Pritchardville, and Red Cedar Elementary Schools**

Project Based Learning provides an engaging, personalized learning environment where students are encouraged to achieve success and develop a love for learning. Through Project Based Learning, students engage in hands-on activities that are reflective of real-world challenges. This program

encourages students to further explore subject areas and make meaningful connections between past knowledge and new concepts.

Project Lead the Way (PLTW) Launch

Located at **Beaufort, Bluffton, Broad River, Coosa, Hilton Head Island IB, Hilton Head Island Creative Arts, Mossy Oaks, Okatie, Shanklin, and Whale Branch Elementary Schools, and Robert Smalls Leadership and River Ridge Academies**

Project Lead the Way (PLTW) places an emphasis on curriculum that encourages hands-on engagement, problem solving, and the use of technology for research, collaboration, and project presentation. Students apply STEM knowledge and employ critical thinking skills as they learn and discover. For more information visit: <https://www.pltw.org/our-programs/pltw-launch>

Learn More About Our Middle Schools

[Beaufort Middle School](#)

Available Choice Programs: **Arts in Basic Curriculum and AVID**

At Beaufort Middle School (BMS), we believe every student has the potential to thrive. Our focus on critical thinking, communication, collaboration, creativity, and college and career readiness helps students grow not only as learners, but as confident, compassionate individuals ready to make a difference in the world.

BMS is proud to be an AVID (Advancement Via Individual Determination) school, part of a nationally recognized program that prepares over two million students for success in college, careers, and life. At BMS, AVID strategies are woven into every classroom and every subject area, helping students develop essential skills such as organization, goal setting, note-taking, and academic confidence. Motivated students can even earn up to seven high school credits while still in middle school! Students who wish to join the AVID cohort participate in an application and interview process, gaining valuable experience in self-reflection, goal-setting, and communication. Through AVID, our students learn how to take ownership of their learning, explore college and career pathways, and build the habits of lifelong success.

As an Arts in Basic Curriculum School with a Distinguished Arts Program designation, BMS celebrates creativity every day. Our arts integrated learning experiences, gives students unique opportunities to develop and showcase their artistic talents. Since 2009, BMS has been recognized as an arts-integrated school, where the arts are not just subjects, they are powerful tools for learning and expression.

At Beaufort Middle, we offer rigorous and engaging instruction in Science, Technology, Reading, Engineering, Arts, and Math (STREAM). Teachers work together to design learning experiences that spark curiosity, encourage problem-solving, and build the skills students need to succeed in an ever-changing world.

For more information visit: <https://bms.beaufortschools.net/>

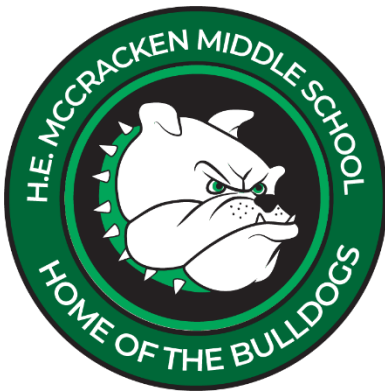

[Bluffton Middle School](#)

Available Choice Programs: **Learning Through Leadership**

Bluffton Middle School (BLMS) empowers all students to develop the world class skills and life and career characteristics of the South Carolina Profile of the Graduate by providing a rigorous, 1:1 technology based middle school STEM curriculum where students are able to communicate, collaborate, think critically, and be creative in problem-solving based activities that address real-world issues.

When BLMS opened its doors in 2010, a precedent was set of supporting students and families. To complement and further develop the core academic program, BLMS offers several Project Lead the Way (PLTW) Gateway courses that provide students the foundational knowledge for STEM learning needed in high school and to be college and career ready. This curriculum includes: Design and Modeling, Automation and Robotics, Medical Detectives, Introduction to Career Clusters, Flight and Space, and Green Architecture. Due to a heavy focus on STEM learning building wide, BLMS received the prestigious STEM certification through Cognia. This award recognizes the extraordinary opportunities students have to interact with technology to research, collaborate, and think critically to problem solve real world situations incorporating all subjects.

[H.E. McCracken Middle School](#)

Available [Choice Programs](#): **Arts in Basic Curriculum**

[H.E. McCracken Middle School's \(HEMMS\)](#) mission is to build on the academic foundation of diverse learners and establish high expectations for contributing, independent, and collaborative members of an ever-increasing technologically driven society. HEMMS promotes independence, responsibility, effort, and self-respect. Available curriculum promoting STEAM options, Spanish language, and arts integration so students can receive a well-rounded educational experience. HEMMS is a designated Arts in Basic Curriculum school,

where students can learn core content knowledge through a variety of art forms. HEMMS continues to set and expand opportunities where the arts can be experienced across the curriculum and connected to core areas.

HEMMS collaborates with community nonprofit organizations to support students' academic needs. Additionally, HEMMS works closely with the Bluffton Library to encourage students to continue literacy development in their community after hours.

For more information visit: <https://hemms.beaufortschools.net/>

[Hilton Head Island Middle School](#)

Available Choice Programs: **IB Middle Years Programme (ChangeMakers)**

The newly renovated Hilton Head Island Middle School (HHIMS) is empowering all students to develop the world-class skills and life and career characteristics of the Profile of the Graduate by cultivating an environment that develops engaged, intrinsically motivated, globally-aware learners who understand true learning is full of interrelated experiences, applicable both inside and outside of the classroom.

HHIMS is focused on developing well-rounded, versatile citizens by implementing a rigorous, world-renowned instructional model that successfully blends a focus on academic achievement and honing higher-order thinking skills with cultural awareness, world language development, technology integration, and community service. HHIMS strongly believes,

through a conceptual approach to teaching that provides meaningful educational opportunities for every child, all students can and will learn.

As an International Baccalaureate World School fostering the Middle Years Program, HHIMS strives daily to enhance South Carolina state curriculum standards with real-world applications, incorporating students' unique skills and interests. Teachers tailor instruction to fit the needs of all students, focusing on interdisciplinary teaching and project-based learning, and assessing students for content mastery. Understanding that experiences and exposure are of the utmost developmental importance for students.

[Lady's Island Middle School](#)

Available Choice Programs: **Arts in Basic Curriculum and MedTech7 Medical**

Lady's Island Middle School (LIMS) is where innovation, creativity, and opportunity meet. As a proud MedTech7, STEAM², and Arts in the Basic Curriculum (ABC) Magnet School, we empower students to develop the world-class skills, life skills, and career characteristics outlined in the Profile of the South Carolina Graduate. Through rigorous academics, integrated arts instruction, and a STEAM²-focused curriculum, students engage in project-based learning that fosters collaboration, critical thinking, and real-world problem solving.

As a nationally accredited Cognia STEM school since 2013, LIMS offers Project Lead the Way – Gateway to Technology courses designed to give students hands-on experience in Introduction to Career Clusters, Computer Science for Innovators, Automation and Robotics, and Medical Detectives. Our new SMARTlab features equipment and tools to support robotics, gaming and animation, 3D printing, circuits and sensors, and digital media production designed to strengthen our STEAM² program and connect students' learning to real-world applications and emerging careers.

Supported by the U.S. Department of Education Magnet Schools Assistance Program grant and recognized as an Arts in Basic Curriculum (ABC) school since 2014, we provide an inclusive environment where every learner can excel. To promote continued academic success and access to advanced learning, LIMS offers a variety of high school credit courses, including Algebra I, Geometry, English I, Art I, Spanish I, and Earth Science. These rigorous courses challenge students to think critically, prepare for future studies, and build a strong foundation for college and career readiness.

LIMS is home to a distinguished Pre-Med Academy, where students accepted into the program explore the vast world of health science through STEAM²-based instruction, hands-on simulations, mentorship from medical professionals, and certifications in First Aid, CPR, and Babysitting—laying a strong foundation for future healthcare careers.

Through rigorous academics, rich arts experiences, and meaningful extracurricular opportunities, Lady's Island Middle School's students are inspired, supported, and prepared to thrive as creative, capable, and future-ready citizens.

[Whale Branch Middle School](#)

Available Choice Programs: **Arts Integration and MedTech7 Technology**

Whale Branch Middle School is located in Northern Beaufort County on a beautiful waterfront campus with views of the Whale Branch River. We have a STEAM (Science, Technology, Engineering, Arts and Math) focus that is integrated in daily class instruction and in specialized courses, including computer science, robotics, engineering design, digital literacy and medical detectives. We also offer a range of hands-on STEAM learning opportunities through our SMART lab, broadcasting suite, 3-D computer lab and community garden. Students participate in weekly clubs that are supported by a robust team of community partners allowing for exploration and personal growth in shared affinity groups. Our Scholars program offers a rigorous sequence of advanced coursework beginning in 6th grade in a cohort model with intentional supports to help students manage the accelerated program demands. Students who participate in our scholars program all three years can earn up to 6 high school credits and leave 8th grade at junior standing and exceptionally positioned for early college programs. We also utilize the RCA House system which all students and staff participate in to promote team spirit, celebrate academic and behavioral excellence, and foster fun and friendly competition. Our small school environment has a warm family atmosphere where students can thrive socially and academically. Despite being a small school, we offer a full range of competitive sports, fine arts and foreign language programs allowing for students to develop well-rounded experiences that compliment our robust academic offerings.

AVID

Located at **Beaufort Middle School**

Advancement Via Determination (AVID) is an in-school academic support program for grades 6 through 8. The purpose of the program is to prepare students for college eligibility and success. AVID places academically average students in advanced classes, levels the playing field for students of all backgrounds, especially those without a college going tradition in their families; and focuses on students in the academic middle--B,C, and even D students- who have the desire to go to college and the willingness to work hard.

ChangeMakers Magnet School Program Grant

Located at **Hilton Head Island Middle School**

ChangeMakers is a new school-wide magnet initiative continuing the focus on inquiry-based, global exploration through dual language immersion, Project Lead the Way, AVID, and the International Baccalaureate (IB) programme.

International Baccalaureate Program (IB) - Middle Years Programme (MYP) / ChangeMakers

Located at **Hilton Head Island Middle School**

The IB Middle Years Programme (MYP) emphasizes intellectual challenge. It encourages students aged 11 to 16 to make practical connections between their studies and the real world, preparing them for success in further study and in life. The programme empowers students to inquire into a wide range of issues and ideas of significance locally, nationally, and globally. The result is young people who are creative, critical, and reflective thinkers.

For more information visit: <https://www.ibo.org/>

Leader in Me

Located at **Robert Smalls Leadership Academy**

Leader in Me® is a whole-school transformation model and process developed in partnership with educators that empowers students with the leadership and life skills they need to thrive in the 21st century. It is based on principles and practices of personal, interpersonal and organizational effectiveness, and upon the powerful premise that every child possesses unique strengths and has the ability to be a leader.

For more information visit: <https://www.leaderinme.org/>

Learning Through Leadership

Located at **Bluffton Middle School**

Learning Through Leadership schools provide a comprehensive learning model through student leadership development. Learning Through Leadership program goals include fostering a student's self-esteem, discipline, responsibility, confidence, and creativity. Students will learn to set and meet goals, effectively cooperate with people of various backgrounds and cultures, and resolve conflicts and solve problems.

MedTech7 Magnet School Programs Grant

Located at **Beaufort, Lady's Island, and Whale Branch Middle Schools**

MedTech7 magnet pathways are offered in two clusters: Whale Branch and Beaufort. All MedTech7 schools offer schoolwide Arts Integrated learning. The Beaufort cluster offers Medical pathways in Biomedical Science, Allied Health Science, and Sports Medicine. The Whale Branch cluster offers Technology pathways in Game & Interactive Media Design, Cybersecurity, and Networking pathways.

For more information visit: <https://www.beaufortschools.net/families/school-choiceprograms/medtech7>

Montessori

Located at **River Ridge Academy**

Montessori education supports children's natural development and encourages them to develop their creativity, think critically, solve problems, and manage their own time. Montessori features mixed-age classrooms, allows students to make individual choices about their research and work, and gives them time for uninterrupted concentration. Montessori students enjoy their learning, so they can better remember what they learn.

Project Lead the Way Gateway

Located at **Beaufort, Bluffton, H.E. McCracken, Hilton Head Island, and Lady's Island Middle Schools, River Ridge Academy**

Through explorations of coding and robotics, flight and space, human body systems, and more, PLTW Gateway fuels students' passion for discovery. As they engage in hands-on, collaborative problem solving focused on real-world challenges, students use and stretch their imaginations in brand-new ways and connect their learning to life. All the while, students step into roles spanning the career landscape - a crucial experience during this transitional time in their lives. PLTW Gateway courses are offered at BCSD middle schools and are not available as a program of choice.

[Battery Creek High School](#)

Academic/Career Technical Education Choice Programs: *Cambridge AICE Diploma, Leader in Me, Select CTE Pathways including: Aerospace Engineering Drone Technologies, Pre-Engineering, Environmental & Natural Resource Management, and Culinary Arts Management.*

CTE programs only available to zoned students include: Welding, Health Sciences, Sports Medicine, Business Information Management, General Management, and JROTC

Battery Creek High School (BCHS) promotes student involvement via the implementation of rigorous and relevant curriculum in a friendly environment that appreciates and celebrates learning and student needs. The school's array of academic programs offered to students motivates them to delve into their areas of interest and toward college and career goals. The Cambridge AICE Diploma track provides students the chance to actively conduct research and cultivate innovative problem-solving abilities in readiness of college credit assessments. Cambridge courses focus on the development and demonstration of critical thinking and writing skills across all curriculum areas.

BCHS incorporates dual enrollment opportunities as well as our Career and Technical Education (CTE) pathways to provide students with the opportunity to select courses that best meet their individual needs. The Environmental and Natural Resource Management program introduces essential concepts and skills related to careers in agricultural science, environmental studies, wildlife, and forestry. Emphasis is placed on critical thinking and problem-solving skills necessary to address the ever-changing world. Our Welding program offers an opportunity for students to study various types of welding, learn through hands on instruction, and earn their American Welding Society (AWS) certification. BCHS offers two pathways for Culinary to include Baking & Pastry. Our Culinary students are able to work events, work towards certifications, and the programs promote skills for their future. Drone Technologies is designed to provide students with basic information about the drone industry to gain an understanding of careers and skills in this field. Students will also explore the basic skills and knowledge needed to be a recreational/commercial drone pilot.

Availability in individual courses will vary based on schedule and teacher availability with most students beginning the sequence of courses in sophomore year. For content specific pathways that begin in 10th grade, there are other highly recommended courses to better prepare 9th grade students. For Agricultural Sciences, students are encouraged to take Agriculture & Biosystems Science.

To view more information about CTE pathways available at BCHS, visit <https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

Students at BCHS have the opportunity to take Mandarin Chinese or Spanish as world language credits. The Visual and Performing Arts Pathway at BCHS allows students the opportunity to create and perform in a wide variety of artistic areas, such as choral and instrumental music, theatre, and visual art. The BCHS frameworks guarantee that each student is adequately prepared to graduate with the essential skills and certifications required for both academic and professional achievement.

Battery Creek High School is the only high school in the county that offers a formal leadership education model and has the notable achievement of being the third high school to earn the Leader in Me Lighthouse accreditation. The Leader in Me framework allows students to showcase their leadership abilities in several domains of life. Upon completion of high school, students have the opportunity to earn micro-credentials through Leader In Me as well. Additionally, students can choose from a variety of visual and performing arts groups, clubs, service organizations, and sports teams to enrich their high school experience. Students are able to thrive in an environment that prioritizes their needs and interests. #RISEtoLEAD

[Beaufort High School](#)

Academic/Career Technical Education Choice Programs: *AP Capstone, MedTech7 Medical, and Visual & Performing Arts, Select CTE Pathways including: Biomedical Sciences and Health Sciences*

CTE Pathways available only to zoned students include: Pre-Engineering, Computer Science, Game & Interactive Media Design, Sports Medicine, Business Information Management, General Management Marketing Communications, and Airforce JROTC

Beaufort High School (BHS) is dedicated to helping all students develop the world-class skills, and life and career characteristics outlined in the Profile of the South Carolina Graduate. BHS is proud to consistently graduate National Merit and Presidential Scholars, reflecting the school's commitment to academic excellence.

BHS offers unique opportunities through the MedTech7 pathways, which combine schoolwide arts integration with cutting-edge medical pathways and industry credentials. The arts program at BHS is recognized for producing high-quality performances and providing enriching learning experiences. Students can participate in instrumental and choral music, dance, theater, visual art, and digital design classes.

Students embarking on the Biomedical Sciences Educational Pathway will experience courses that allow them to investigate various health conditions and human body systems. For students interested in pursuing a medical or bioresearch field, this pathway is an excellent option. Students use activities like practicing suturing and constructing body structures from clay. Project Lead the Way (PLTW) Biomedical Science empowers students to build knowledge and skills in biomedical science, as well as in-demand, transportable skills like problem-solving, critical and creative thinking, communication, and collaboration.

Availability in individual courses will vary based on schedule and teacher availability with most students beginning the sequence of courses in sophomore year. For content specific pathways that begin in 10th grade, there are other highly recommended courses to better prepare 9th grade students. For each of the Health Sciences pathways, it is recommended for 9th grade students to enroll in Biology I Honors.

To view more information about CTE pathways available at BHS, visit <https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

In addition to academic programs, BHS excels in sports, winning multiple region and state titles each year - including the AAA football state championship in 2022, along with titles in tennis, golf, track and field, basketball, baseball, wrestling, and more. BHS prepares students for success by offering a well-rounded curriculum in languages, science, technology, engineering, math (STEM), the arts, and social sciences. The school also emphasizes the development of interpersonal skills, self-direction, and integrity, ensuring students are ready to thrive in college, careers, and life.

For more information visit: <https://bhs.beaufortschools.net> or visit BHS on March 4, 2025 at 6:00pm-7:30pm

Bluffton High School

Academic/Career Technical Education Choice Programs: *AP Capstone, Visual & Performing Arts, Select CTE Pathways including: Data Science & Artificial Intelligence, Biomedical Sciences, Emergency and Fire Management Services, Media Technology, and Pre-Engineering*

CTE Pathways available only to zoned students: Family & Consumer Sciences, Accounting, Health Sciences, Sports Medicine, General Management, Marketing Communications, Marketing Management, JROTC

Bluffton High School (BLHS) has been rated Excellent by the South Carolina School Report Card for five consecutive years! BLHS offers a rigorous yet flexible academic program designed to meet the diverse needs of every learner, consistently leading the district in College and Career Readiness and maintaining the highest graduation rate in Beaufort County School District history for five consecutive years.

Students at BLHS benefit from a well-rounded curriculum, extensive co-curricular programs, and a supportive learning environment that encourages them to achieve their personal best.

BLHS offers 28 Advanced Placement courses, 12 Career and Technical Education (CTE) pathways, and Dual Enrollment opportunities through two local colleges. These opportunities allow students to explore interests, gain real-world skills, and customize their educational experience to align with future goals.

To learn more about CTE pathways available at Bluffton High School, visit:

<https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

In addition to academic excellence, BLHS boasts a strong tradition of athletic achievement, earning numerous regional and state accolades across 40 athletic teams. The school culture celebrates individuality, diversity, and respect—empowering students to discover their potential and become the best versions of themselves.

For more information, visit: <https://blhs.beaufortschools.net>

Hilton Head Island High School

Academic/Career Technical Education Choice Programs: *International Baccalaureate (IB) / ChangeMakers and Visual & Performing Arts*

CTE Pathways available only to zoned students: Computer Science, Business Finance, Health Sciences, Culinary Arts Management, Hospitality & Tourism, General Management, Marketing Communications, Marketing Management, and JROTC

Hilton Head Island High School (HHIHS) provides students the opportunities to develop the world class skills and life and career characteristics of the Profile of the South Carolina Graduate. HHIHS is an IB World School. The International Baccalaureate (IB) Program spans all grade levels by offering two components: the Middle Years Programme (MYP) for ninth and tenth graders, and the Diploma Programme (IBDP) for eleventh and twelfth graders. IB coursework focuses on critical thinking and writing skills, ensuring that students are better prepared for postsecondary education and employment. Students are eligible for an IB Diploma after completing six courses and exams from the variety of IB areas. The IB programs offered at HHIHS encourage students to use critical thinking and problem-solving skills to work both individually and in a collaborative setting to creatively come up with innovative ideas and solutions.

ChangeMakers is a new school-wide initiative tied to the IB programs that already make HHIHS a unique place to learn. By expanding world language immersion, PLTW course offerings, and incorporating the AVID program, students are better prepared for a changing global landscape.

The featured STEM program at HHIHS is the Computer Science/Cybersecurity Pathway through Project Lead the Way (PLTW). Also offered in our Career and Technology Education (CTE) fields are the Culinary Arts and Travel and Tourism/Event Management pathways. HHIHS also offers Advanced Placement (AP) opportunities as well as Dual Enrollment through the BCSD partnership with USCB and the Technical College of the Lowcountry. AP courses allow students to earn college credit upon completion of the course and passing the AP exam for that subject area.

New this year, students may choose to attend HHIHS for our award-winning Visual Arts Program as well as our Performing Arts Program. HHIHS offers performing arts courses: Band, Guitar, Piano, Chorus, Theatre, Technical Theatre, Dance, IB Dance and IB Music; and visual arts courses: Art, Drawing, Painting, Media Arts, IB Art, Yearbook and Photography.

To view more information about CTE pathways available at HHIHS, visit <https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

In addition, HHIHS has earned many region and state athletic accolades including tennis, golf, volleyball, cross country, and swim. Visual Arts students at HHIHS have had artwork shown in multiple juried exhibitions statewide. HHIHS now features a competitive E-Sports team. The HHIHS community is proud to continue a comprehensive tradition of excellence. Together HHIHS continues to make the "Seahawk Nest" an exceptional place to be.

[May River High School](#)

Academic/Career Technical Education Choice Programs: *AP Capstone, Cambridge AICE, Visual and Performing Arts*

CTE Pathways available only to zoned students include: PLTW Engineering, Welding, Game and Interactive Media Design, Accounting, Health Sciences, Sports Medicine, Hospitality & Tourism Management, General Management, Marketing Communications, Marketing Management, Law Enforcement Services, JROTC, and Auto Technology

May River High School (MRHS) provides students with access to rigorous curricula through a wide selection of academic offerings. Through a supportive and engaging learning environment, students are encouraged to discover and develop their talents and interests. Students can earn the AP Capstone and Cambridge AICE (Advanced International Certificate of Education) diplomas or take courses in one of the many Career & Technical Education (CTE) pathways offered, including business, technology, PLTW engineering, welding, automotive services and more.

The Cambridge AICE Diploma track provides students the chance to actively conduct research and cultivate innovative problem-solving abilities in readiness of college credit assessments. Cambridge courses focus on the development and demonstration of critical thinking and writing skills across all curriculum areas. The Advanced Placement (AP) Capstone Diploma requires students to pass two year-long courses: AP Seminar and AP Research. Students must also pass four other AP exams with a 3 or higher. Completion of these programs prepare students for college-level success before graduating high school.

Students may choose to attend MRHS for the variety of Visual and Performing Arts programs offered. MRHS offers performing arts courses: Band, Instrumental Music, Chorus, Theatre, Technical Theatre, and Dance; and visual arts courses: Art, Ceramics, 3D Design, AP Studio Art, and Photography. Beginning in the 2025-2026 school year, MRHS will offer the Game and Interactive Media Design CTE Pathway.

Availability in individual courses will vary based on schedule and teacher availability with most students beginning the sequence of courses in sophomore year. For content specific pathways that begin in 10th grade, there are other highly recommended courses to better prepare 9th grade students.

To view more information about CTE pathways available at MRHS, visit <https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

In addition, MRHS offers Dual Credit Enrollment opportunities through two local colleges. MRHS offers a well-rounded education grounded in academics and enriching extracurricular activities. Through their offerings, students have the opportunity to create and follow a unique path that prepares them to achieve their individual goals.

For more information visit: <https://mrhs.beaufortschools.net>

Whale Branch Early College High School

Academic/Career Technical Education Choice Programs: *Early College and MedTech7 Technology, and Select CTE Pathways including: Computer Science and Information Support Services*

CTE pathways available only to zones students include: Pre-Engineering, Biomedical Sciences, Health Sciences, Sports Medicine, Business Information Management, General Management, and JROTC

The mission of Whale Branch Early College High School (WBECHS) is to develop our community of learners into responsible, college and career-ready citizens through diverse curricula and work-based learning experiences that foster creativity, collaboration, critical thinking, and communication. In order to make this mission a reality, WBECHS collaborates with stakeholders so that students obtain world class skills, meet the requirements of the Profile of a South Carolina High School Graduate, and are career and college ready. WBECHS does this by providing high-quality professional development for teachers and staff, focusing on improving student achievement, fostering collaboration and teamwork, employing critical and problem-solving skills through project-based learning and a STEAM (Science, Technology, Engineering, Arts and Math) focused curriculum.

The Early College program at WBECHS allows students to accelerate their learning through dual enrollment and accelerated courses of study through a partnership with the Technical College of the Lowcountry (TCL). Students are able to take two years of college credit courses and earn an Associates Degree while earning their high school diploma.

Students enrolling in the Information Technology Systems Pathway will experience courses that teach them the skills needed to repair, maintain, and install computers, word processing systems, automated teller machines and electronic office machines. In this program, students also learn to analyze, test, troubleshoot and evaluate existing network systems.

Availability in individual courses will vary based on schedule and teacher availability with most students beginning the sequence of courses in sophomore year. For content specific pathways that begin in 10th grade, there are other highly recommended courses to better prepare 9th grade students. For each of the Information Technology pathway, it is recommended for 9th grade students to enroll in either Computer Sciences Essentials or Fundamentals of Computing.

To view more information about CTE pathways available at WBECHS, visit <https://www.beaufortschools.net/academics/course-catalogs/high-school-course-catalog/course-offerings/career-technical-education>

The staff, students, and parents of the WBECHS community will continue to promote excellence, collaboration, STEAM, and school-wide growth. Through planning, implementation, and reflection, WBECHS strives for accuracy everyday to ensure students are prepared for an ever-changing world. WBECHS is proud to be a Blue Ribbon School Beacon Award recipient and to have improved on the State School Report Card to a Good rating. Warrior Nation is on the War Path for Excellence!

For more information visit: <https://wbechs.beaufortschools.net>

High School Educational Pathways

Advanced Placement Capstone (AP)

Located at *Beaufort, Bluffton, and May River High Schools*

AP Capstone™ is a diploma program based on two year-long AP courses: AP Seminar and AP Research. These courses are designed to complement other AP courses that the AP Capstone student may take.

For more information visit: <https://apcentral.collegeboard.org>

Cambridge AICE

Located at *Battery Creek and May River High Schools*

The Cambridge Advanced International Certificate of Education (AICE) Diploma is an international curriculum and examination system that emphasizes the value of broad and balanced study. The Cambridge Academy provides students with the opportunity to pursue a rigorous program of study based on an internationally standardized curriculum.

For more information visit: <https://www.cambridgeinternational.org>

ChangeMakers Magnet School Program Grant

Located at *Hilton Head Island High School*

ChangeMakers is a new school-wide magnet initiative continuing the focus on inquiry-based, global exploration through dual language immersion, Project Lead the Way, AVID, and the International Baccalaureate (IB) Programme.

Early College

Located at *Whale Branch High School*

Early College high school students can earn both a high school diploma and up to two years of college credit at the same time. Early College high schools increase exposure and access to post-secondary study while reducing or eliminating college costs as students prepare for the job market or further study. A strong component of the Early College model is the WBECHS - Technical College of the Lowcountry (TCL) partnership.

International Baccalaureate Program (IB)

Located at *Hilton Head Island High School*

IB is a program offered at the Hilton Head Cluster. The Middle Years Programme (MYP) is a curriculum framework for grades six through 10. It emphasizes conceptual learning through inquiry in all subjects. It connects the content areas and creates a bridge between school knowledge and real world knowledge. MYP culminates with the MYP Personal Project, a passion project for 10th graders. The Diploma Programme is a course of study for grades 11 and 12 with courses from 6 subject areas and IB core content. It allows students the opportunity to earn an international diploma as well as college credit. IB is considered one of the highest rigor programs available to students in terms of preparation for college.

For more information visit: <https://www.ibo.org/>

Leader in Me

Located at *Battery Creek High School*

Leader in Me® is a whole-school transformation model and process developed in partnership with educators that empowers students with the leadership and life skills they need to thrive in the 21st century. It is based on principles and practices of personal, interpersonal and organizational effectiveness, and upon the powerful premise that every child possesses unique strengths and has the ability to be a leader.

For more information visit: <https://www.leaderinme.org/>

MedTech7 Magnet School Program Grant

Located at *Beaufort and Whale Branch High Schools*

MedTech7 magnet pathways are offered in two clusters: Whale Branch and Beaufort. All MedTech7 schools offer schoolwide Arts Integrated learning. The Beaufort cluster offers Medical pathways in Biomedical Science, Allied Health Science, and Sports Medicine. The Whale Branch cluster offers Technology pathways in Game & Interactive Media Design, Cybersecurity, and Networking pathways. MedTech7 provides theme-based pathways of study which allows students to develop the knowledge and skills necessary to pursue careers and/or post-secondary education.

For more information visit: <https://www.beaufortschools.net/families/school-choice/programs/medtech7>

Visual and Performing Arts

Located at *Beaufort, Bluffton, and May River High Schools*

Visual and Performing Arts programs provide opportunities for committed and talented students who have a serious interest in the arts. In-depth study of the arts develops conceptual and technical skills of artistic expression and brings to fruition the student's individual interpretations of the world. The arts training is provided by highly trained art teachers as well as artists in residence. Students participate in extensive, highly specialized courses that can include dance, music theater, visual arts, and communication arts as well as a full academic program.

Bluffton High
Make-up
*Summer Graduation - August

Board Approved 05-06-2025

FREQUENTLY ASKED QUESTIONS

Why is school choice a good idea?

School choice creates a more personalized learning experience. Research shows that children learn in a variety of ways, and parents know that children have different talents and interests. School choice allows parents to select the type of instruction, type of school focus that appeals to each child. By getting students excited about school, they become more engaged. As their knowledge and skills increase, so does their confidence.

Can my child attend a school outside of our neighborhood school's attendance zone?

It doesn't matter where you live as long as you reside in Beaufort County. If your application is approved, your child can attend a school choice program outside your regular attendance zone.

Please note: Parents must provide transportation to and from the choice school if the student does not live in the attendance zone.

What choices are available?

The Board of Education has approved a variety of instructional options and many of those options are available at multiple schools. All choices are listed in this booklet and you can get more information by visiting the School Choice Headquarters page on the district's website:

<https://www.beaufortschools.net/families/school-choiceprograms>

How do I apply?

Complete an online application on the School Choice Headquarters page of the district website:

<https://www.beaufortschools.net/families/school-choiceprograms>

Online applications will be posted on the Beaufort County School District's website beginning March 1, 2025. Completed online applications must be submitted by 5pm on April 11, 2025.

Can I submit my application after the April 11, 2025 deadline?

If you can document that you moved to Beaufort County – or to a different location within Beaufort County – after the deadline but before August 6, 2025, you may submit an application. Information on post-deadline application procedures will be made available May 19, 2025 on the School Choice Headquarters website:

<https://www.beaufortschools.net/families/school-choiceprograms>

Do I have to submit a new application each year?

Once approved, you no longer need to re-apply each year for that school and program so long as you continue to reside in Beaufort County. The student may remain enrolled until completing the grades offered at that school. Please note that you must apply for school choice at the end of each school grade band. If your child completes elementary school, you must apply for middle school choice; the same for middle to high school.

Can my children stay at a choice school if they are no longer enrolled in that school's choice program?

No. If your children leave a choice program at a school outside your regular attendance zone, they must enroll at the school that serves their neighborhood.

Can my child transfer to a school to participate on an athletic team or in an extracurricular activity?

Transfers are not allowed for students to participate in extracurricular programs or sports. Also, approved transfers do not guarantee athletic eligibility while attending out-of-zone schools (see the [Beaufort County Schools Athletic Handbook](#) on the District website).

If my child is approved for a choice program, are siblings considered "pre-approved" for that program?

While consideration will be given to siblings, approval of one child's school choice application does not guarantee that siblings will be approved for that choice due to possible building capacity issues. Separate applications must be submitted for each child.

Can my request be denied?

Yes. If the number of choice applications at a school would cause the school to exceed its overall enrollment capacity, or if approved applications would push an individual choice program beyond its capacity, a lottery would be held to determine which applications are approved. **The following schools are at capacity in terms of overall student enrollment and have no availability for choice: Okatie Elementary School, River Ridge Academy (Grades 6-8), Robert Smalls Leadership Academy, and Pritchardville Elementary School.** However, parents may still apply at those schools, and if limited space becomes available, a lottery would be held later this spring.

Will seats in choice programs be approved on a first-come, first-served basis?

No. School choice applications will be reviewed after the April 11, 2025 deadline. If the number of applicants for a particular program is greater than the number of available seats, a lottery will be used to determine which students are enrolled.

If my child's application to attend a choice program at an out-of-zone school is approved, will school bus transportation be provided?

No. Bus transportation is provided only to schools in your regular attendance zone.

Can I appeal a denial of my school choice application?

Yes. An appeal must be made in writing and postmarked within two weeks after the district mails a notification that an application has been denied. Please mail it to: Attn: Yanina SarliRotti, P.O. Drawer 309, Beaufort, SC 29901. Within that same time frame, an appeal also may be hand-delivered to the Beaufort County School District, Office of Student Services, at 2900 Mink Point Blvd., Beaufort, SC 29902. Or email Yanina SarliRotti at Yanina.SarliRotti@beaufort.k12.sc.us.

Can I apply if I live outside the Beaufort County School District?

No. Only documented Beaufort County residents may participate in the district's school choice program.

What if I no longer wish for my child to attend a school choice program?

Students may return to the school in their attendance zone at any time during a school year. Students who were originally attending a choice program outside of their school zone and withdraw, will not be eligible to re-enter the program for that school year.

Will I have to pay any extra fees to attend a choice program outside our neighborhood school's attendance zone?

No. Beaufort County students who attend choice programs will not pay extra tuition, although families will be responsible for their students' transportation if they live outside the attendance zone for the school choice program they will be attending.

Will schools offer traditional classroom instruction in addition to their choice programs?

All district schools maintain a Science, Technology, Engineering and Mathematics (STEM) focus, as well as a core curriculum includes the arts, world languages, and technology.

Beaufort County's school choice options come in two forms:

- **School-within-a-school:** A traditional curriculum is offered for students who live in that attendance zone. That traditional curriculum includes a Science, Technology, Engineering and Mathematics (STEM) focus as well as a core in the arts, world languages, and technology. In addition to that traditional curriculum, the school also offers a specific "choice option" available to students who live both inside and outside the regular attendance zone. Example: Beaufort Elementary School offers a traditional elementary grades curriculum, but also offers two "choice options" in Montessori and AMES.
- **School-wide:** All enrolled students participate in a focused instructional method. Example: Lady's Island Elementary engages all its students with a school-wide arts-infused approach.

Do I have to submit a choice application if the instructional option I want for my child is already available at the school that serves our current neighborhood's attendance zone?

No. You should discuss your interest with the specific school counselor at the school in your attendance zone. The only exceptions are cases where the school choice option requires an additional, program-specific application. Those exceptions include the Montessori programs at Beaufort Elementary and River Ridge Academy, or the AMES (Advanced Math, Engineering, and Science) programs at Beaufort and Pritchardville Elementary Schools.

Are school choice options available to Pre-K children?

No. If children are determined to be eligible for pre-kindergarten, they must attend the schools in their attendance zones.

What are the grounds for removal from a school choice program?

Students can be removed from a school choice programs due to academic, attendance, or discipline concerns. Parents will be notified in writing if their child is in violation of any of the three areas.
