**Dear Parents and Guardians of Our Third Grade Students,**

I hope this message finds you well. I would like to remind you that all third-grade students have **daily homework** in **Success Maker (Mathematics)** and **Amira (Language Arts)** from **Monday through Friday, even when school is closed.**

Each child receives an **individual learning path** on these platforms based on their proficiency levels. Both programs include **AI assistance and instructional videos** to guide your child as they learn. These tools are designed to strengthen foundational skills and support steady academic growth.

Students must complete **15 minutes in Success Maker** and **15 minutes in Amira** every day, for a total of **30 minutes of daily homework.** Please note that if your child says they do not have homework, **that information is not accurate.** Completing these assignments is a required part of their academic routine.

This work is done on your child's **Chromebook**, and teachers may also assign **additional homework** as needed to reinforce classroom learning.

Additionally, both **Success Maker and Amira are available in English and Spanish**, so **language is not a barrier** and there is **no excuse** for not completing the assignments.

We truly appreciate your support in making sure your child completes their daily practice. Consistent participation in these programs will greatly help them improve their reading and math skills.

Thank you for your continued partnership and dedication to your child's education.

Sincerely,  
**Mr. José Correa**
