¹ All Interest Rates and Annual Percentage Yields (APY) are current as of Oct. 1, 2025, but are subject to change at our discretion. The disclosed APY assumes that the interest will remain on deposit; interest withdrawals will affect APY. Bank uses the daily balance method to calculate the interest on your account. This method applies a daily rate to the principal in the account each day. Interest begins to accrue no later than the business day we receive credit for the deposit of non-cash items (i.e., checks). Interest is compounded and credited monthly on your collected balance. A minimum balance of \$2,000 is required to avoid fee of \$15.00/monthly. If daily balance is less than \$2,000, the APY will be lower. These are variable rate accounts. The rate may change after account is opened and may change at any time at our discretion. Fees may reduce earnings on the account. The interest rate that corresponds to the amount on deposit is paid on the full balance.

² Terms and conditions may apply. Loans subject to credit approval.
