Transition in the IEP process

A discussion about transition from elementary to middle school occurs for all 5th grade students during an IEP meeting.

- Through a transition IEP or during a regular IEP meeting
 - “Record of Changes to IEP for Next School Year”
 - Discussion items at this meeting will include:
 - progress
 - needs
 - goals
 - accommodations
 - services

Transition Outcomes

Two possible outcomes may occur

- If your child's services and needs can be met at their neighborhood school, the IEP team will not name a specific middle school for your child to attend
- If your child's services and needs cannot be met at their neighborhood school, an IEP team will name a middle school for your child to attend.
 - Recommendations made by the IEP team should not preclude any parent from applying for school choice
 - (School Choice Window-November 3, 2025 through February 2, 2026)

Specialized Academic Instruction (SAI)

Elementary level:

Learning Center (LC) = Student receives some level of special education services that are typically less than 50% of the day.

Specialized Program = Students typically receive SAI more than 50% of their day. Taught by one SAI teacher and peer group remains the same.

Middle School:

RSP (Resource) = Student receives instruction in rotating periods and peer groups may be different period to period. Students typically receive SAI less or more than 50% of their day.

Specialized Program = Students typically receive SAI more than 50% of their day. Taught by one SAI teacher and peer group remains the same.

Continuum of Special Education Across Middle Schools

- Related Services (OT, Speech, APE, DIS counseling, ERSES, etc.) are available across all middle school settings
- Learning Essentials Academic Programs (LEAP) are available at Sequoia and Colina
- Social Emotional Support (SES) program is available at Los Cerritos

Ways to be “In the Know”

- Connect with your SEDAC representative
- Ask Clarifying Questions
- Provide Input
- Let your student’s wishes, goals, and interests be the guide throughout transition processes
 - Invite your student to be engaged in the process
- Go on School Tours
- Attend School Site Information evenings

FAQs

Q: When holding a transition IEP meeting, does a representative from the middle school level attend the meeting to respond to questions specific to middle school?

A: A middle school representative may participate in the transition IEP meeting, when possible. However, when a middle school representative is unable to participate in the transition IEP meeting, the case manager will be able to address the supports, services, and schedules available for your child at each middle school.

FAQs

Q: How can I become more informed about the support and services middle schools offer prior to my transition IEP meeting?

A: All parents can request to tour a middle school by contacting the school site principal/administrator. A school site administrator will conduct the tour and provide information specific to the supports and services the school site offers. We encourage you to participate in available “School Nights” for incoming students; you can participate at your home school event and/or your school of choice.

FAQs

Q: Will my student receive transportation to their middle school?

A: Transportation services are offered when your child's services and needs cannot be provided at your home school and subsequently a different school site is named as part of the IEP process. Please know, students who go to parent-selected school choice sites are not necessarily entitled to special education transportation services.

Q: Can we reach out to parents who have gone through the Transition process to ask questions?

A: Every school site has a SEDAC representative that may assist with responding to questions or connect you with a parent that has gone through the transition process. Please contact your school site principal to request information regarding your SEDAC representative.

FAQs

Q: How can I get information about accommodations available to my student during middle school summer orientations?

A: Contact the an administrator at your receiving middle school after you receive your summer mailer.

Q: How can I stay involved as a parent of a middle school student?

A: There are countless ways to support and be involved with CVUSD. Individuals looking to volunteer at CVUSD school or program should contact the school or program's main office directly for information about available volunteer opportunities.

Q: Where can we find the copy of tonight's presentation and responses of FAQs?

A: A copy of the presentation and FAQs reviewed tonight will be posted on the District's website, under Special Education.

Special Education Supports

Century Academy is focused on providing the least restrictive environment to all students.

100% of our students engage in general education classrooms.

Special education teachers work with students during class, outside of class time, and during advisory meetings to support their learning.

Student Activities:

- Success Seminars
- Weekly advisory consults
- Lunch time activities
- Peer tutoring & study groups
- School wide spirit events
- Weekly wellness groups
