

## Elementary Classroom Configurations and Class Sizes

The following charts show the configurations of classes in our elementary schools since the 2024-2025 school year and include potential models for next year. The Configuration Committee established the following criteria for classrooms based on Administration's recommendations:

**Class Size Commitments:** Classrooms will adhere to these standards: K-3 classes will maintain a minimum of 13 students and a maximum of 20 students; Grades 4-5 classes will maintain a minimum of 15 students and a maximum of 25 students.

**Grade level configurations:** Classes will be one grade level when possible and, if not, elementary classes will be configured as Grades 1-2, 3-4, and 5-6.
