Today, CES briefly evacuated after a fire alarm was pulled. As part of our Standard Response Protocol (SRP), staff and students followed Evacuate procedures and moved safely outside. The Coffeyville Fire Department quickly responded and gave the all clear for everyone to return indoors.

All students and staff are safe and back to learning. While there was no threat to the school, we treat every situation seriously to ensure we are always prepared. Students and staff did a great job following expectations, and we appreciate everyone's cooperation.
