Section I General Considerations and Planning Guidelines

Purpose

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Baldwin School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

In July 2025, the New York State Legislature passed Desha's Law, which requires schools to develop and implement Cardiac Emergency Response Plans (CERPs) to address sudden cardiac arrest incidents on school grounds and during school-sponsored events. In accordance with this law, CERPs have been developed and are incorporated into each confidential Building-Level Emergency Response Plan.

Superintendent's Directive

The Superintendent will serve as the District's Chief Emergency Officer (CEO)[9] whose duties shall include, but not be limited to:

Section II Risk Reduction/Prevention and Intervention

Prevention and Intervention Strategies[26]

2. The District has established a building-level and district-level multidisciplinary Behavioral Assessment Team which assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Assessment Team convenes annually to conduct staff training sessions on the safety and emergency procedures of such team [27]

3. The District utilizes a multidisciplinary Behavioral Threat Assessment Team provided by the District that assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Threat Assessment Team is available to the district whenever a threat is identified and requires evaluation.

4. The District Safety Team may utilize table top exercises to discuss their roles during an emergency and their responses to a sample emergency situation. [28]

5. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:

    - Emergency Responders

[26] 155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited;(b) where applicable, the establishment and/or participation of, school or district staff in a multi-disciplinary behavioral assessment team to assess whether certain exhibited behaviors or actions need intervention or other support, including a school or district-level behavioral assessment team or, if available, a county or regional threat assessment team. [28]155.15(c)(1)(xiv)(3) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

- Regional BOCES
- District Consultants

6. Training for school staff working in an incident control capacity may include:

    a. Individual and group de-escalation techniques

    5. All contractors assigned to work in any building must first be authorized by the Facilities Department to receive an identification badge, which must be visible at all times when workers are on school property. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery. An exception for regular food service deliveries may be made after the vendor has been authorized for the school year.

    6. The District has executed Memorandums of Understanding (MOU) with Security Providers as required by NYS Regulation.[30]

The district has established a comprehensive **After School Annex** to safely manage after-school events, including athletic activities and programs, ensuring a secure and welcoming environment for all attendees. These guidelines outline protocols for visitor management, crowd control, emergency preparedness, and coordination with law enforcement as needed. This detailed annex can be found in each confidential building-level safety plan.

11. In compliance with recent legislation that established a maximum allowable classroom temperature of 88 degrees, the district has developed a **Maximum Temperature in Schools Annex** to address extreme heat conditions in school buildings. These plans include monitoring room temperatures, implementing heat mitigation strategies, and relocating students and staff when necessary. In the event of a heat emergency, the district will activate the protocols outlined in the Building-level Emergency Response Plans to Evacuate, Shelter-in-Place/Shelter, or Hold-in-Place/Hold, when applicable. year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.[32]
Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.[33]

The school district's Code of Conduct is accessible to parents and students and reviewed with all students at the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

Reporting Threats or Acts of Violence

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.
- Staff members are required to report all student referrals to the administration for investigation.
- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

Training, Drills and Exercises

[32] 155.17(g) Instruction. Each public school superintendent and each chief school administrator of an educational agency other than a public school shall take action to provide written information, by October 1st of each school year, to all students and staff about emergency procedures.

[33] 155.17(c)(1)(xvi) strategies for improving communication among students, between students and staff and between administration and parents or persons in parental relation regarding reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

Drills and Exercises:[34]

General Guidelines for Drills

Trauma-Informed Approach: All drills conducted during the school day with students present will be conducted in a trauma-informed, developmentally, and age-appropriate manner. Props, actors, simulations, or tactics mimicking a school shooting, incident of violence, or other emergencies are strictly prohibited.[35] (Effective 7/31/24) The New York State Fire Code requires that the fire alarm be used in an evacuation (evacuate) drill, and it is not considered a prop.

Annual Training: Drills will be conducted only after annual training in emergency procedures has been provided to students and staff.

Varied Scheduling: Drills will be scheduled on different dates, days of the week, and during different times of the school day.[36]

Exclusions for Unplanned Events: Unplanned evacuations or false alarms do not count as a required drill. Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation (evacuate) drill.[37]

Student/Staff Notification: At the time that drills are conducted, students and staff shall be informed that the activities being conducted are a drill. Provided, however, that students and staff shall not be informed in advance of evacuation (evacuate) drills. (Effective 7/31/24)[38]

Parental Notification: Parents or persons in parental relation will be given advance notice of each drill being conducted within one week prior to the drill.[39] (Effective 7/31/24) Procedures for notifying parents or persons in parental relation will include:

1. **Official Letter or Email**
    - Timing: **Within one week** before the drill.
    - Include the following information:
        - General time frame of the drill

At their discretion, schools and districts may participate in full-scale exercises in coordination with local and county emergency responders and preparedness officials.

[35] 155.17(c)(1)(xiv)(1) Drills conducted during the school day with students present shall be conducted in a trauma-informed, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.

Required Drills

Evacuation (Evacuate) Drills: Eight (8) evacuation (evacuate) drills will be conducted each year, with six (6) completed between September 1 and December 31. Four (4) of these drills must involve the use of fire escapes on buildings where fire escapes are provided or other secondary means of egress such as different corridors, hallways, stairways, and exit doors.[40] [41] Students will be instructed in the procedure

[40] 155.17(h)(i) Four drills shall be through the use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress, such as through different corridors, hallways, stairways, and exit doors. Drills shall be conducted at different times of the school day

[41] EL §807.1 four of the required drills must be through use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress

to be followed in the event that a fire occurs during the lunch period or assembly. This instruction may be waived if a drill is held during the regular school lunch period or assembly[42]

Lockdown Drills: Four (4) lockdown drills will be conducted annually, with two (2) completed between September 1 and December 31.

Emergency Dismissal Drill: One (1) emergency dismissal drill will be conducted to test early dismissal procedures, occurring no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting an evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.[43]

Additional Evacuation (Evacuate) Drill Requirements

Residential Schools: Four (4) additional drills must be conducted during the hours between sunset and sunrise for schools with student sleeping accommodations.[44]

Summer School: At least two (2) additional drills are required in buildings used for summer school, with one (1) drill held during the first week.

After-School Programs, Events, and Performances: For after-school programs, events or performances conducted within a school building that include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.[45]

Optional Drills

Shelter-in-Place/Shelter and/or Secure Lockout Drills: While not required, each school in the District may conduct Shelter-in-place/Shelter and/or Secure Lockout drills in addition to those drills required by New York State regulation. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

Full Scale Exercises: The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Exercises that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency

[42]155.17(h)(ii) Pupils shall be instructed in the procedure to be followed if an emergency occurs during a lunch period or assembly, provided however, that such additional instruction may be waived where a drill is held during the regular school lunch period or assembly.

[43] 155.17(h)(3) Emergency Dismissal drills shall test the usefulness of the communications and transportation system during emergencies.

[44] 155.17(h)(1)(i) Four additional drills shall be held in each school year during the hours after sunset and before sunrise in school buildings in which students are provided with sleeping accommodations.

[45] 807.1-a for after-school programs, events or performances conducted within a school building and include persons who do not regularly attend classes in the building, the principal or other person in charge of the building must require the teacher or person in charge of the after-school program, event or performance notify attendees of the procedures to be followed in an emergency.

may not be conducted on a regular school day and when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.[46]

The district does not plan to conduct functional exercises with emergency response agencies that involve staff, students, and parents in drills using props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency. If this policy were to change in the future, any such exercises would not be conducted on a regular school day or when school activities such as athletics are occurring on school grounds. Additionally, no students would participate in these exercises without written consent from parents or persons in parental relation.

Training and Review Processes

Training for Students: Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time, providing an opportunity for students to ask questions about any unclear procedures.

Building-level Emergency Response Planning Team and District Administration Team Training: Each Building-level Emergency Response Planning Team and representatives of the District administration engage in tabletop exercises facilitated by the district's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises.[47]

Drill Review and Protocol Updates: In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.[48]

Local Emergency Responder Involvement: The appropriate Fire and Police Departments may, upon mutual agreement with the District, participate in some or all evacuation (evacuate) and lockdown drills, offering feedback on the effectiveness of building evacuation during a fire and the overall effectiveness of lockdown procedures.

Sudden Cardiac Arrest: Annual training provided to staff shall include components of Sudden Cardiac Arrest, in alignment with state law and nationally recognized evidence-based practices such as those recommended by the American Heart Association.

Special Provisions

[46] 155.17(c)(1)(xiv)(4) Schools and districts that opt to participate in full-scale exercises in conjunction with local and county emergency responders and preparedness officials that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency shall not conduct such exercises on a regular school day or when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.

[47] 155.17(c)(1)(xiv)(3) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

[48] 155.17(h)(3) Emergency Dismissal drills shall test the usefulness of the communications and transportation system during emergencies.

Building Occupants with Special Needs: Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

Communication

Staff Information: Information about drills will be included in the teacher's manual or handbook as mandated by Education Law §807.2.

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

Staff Development Training:

All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. Beginning in the 2025–2026 school year, this training shall also include components of Sudden Cardiac Arrest, including how to recognize the signs of Sudden Cardiac Arrest, responding appropriately, and the location of automated external defibrillators (AED), consistent with Education Law §2801-a(2), as amended by Chapter 189 of the Laws of 2025. This training shall occur prior to September 15th of each school year or within 30 days of joining the district. This training will be conducted at a staff development day in August, online or a combination of both.[49]

The District will provide advanced training for each Building-level Emergency Response Planning Team and District-wide Safety Team annually. Effective July 1, 2025, the training will include a description of the roles and responsibilities of the Building-level Emergency Response Planning Team, the building-level Incident Command System including the roles and responsibilities of designated staff, and the building level-emergency response plan procedures for implementing the following required emergency response terms: shelter, hold, evacuate, secure lockout, and lockdown. The required training shall also include the procedures for conducting drills, including whether classrooms will be released from lockdown by law enforcement or school or district administrators during drills, and the district and building policies, procedures, and programs related to safety including those which include components on violence prevention and mental health.[50]

Additional training may include but is not limited to:

- De-escalation training

[49]155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district's existing new hire training program, whichever is sooner;
**Please note, the terminology in this paragraph has been pulled directly from the law language, and therefore the terminology remains shelter, hold, evacuate, secure lockout, and lockdown.

Proactive Building Security Measures

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote "buzzer" entry or physically manned during normal school hours.

2. All schools have Security Aides or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.

3. Staff members are required to wear visible identification badges.

4. Visitors are required to sign in and wear visitor identification.

5. Visitor access is limited to specific areas of the school building.

Vital Educational Information[51]

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

Early Detection of Potentially Dangerous Behavior[52]

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A "plain language" summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.

[51] 155.17(2)(ix)Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.
[52] 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

2. A “plain language” summary of the District’s Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.

3. All employees will be provided with a copy of the Code of Conduct. The Code of Conduct will be updated annually and acknowledged by all employees.

4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students may be involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.

7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.

8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.

9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

Police Agencies

The District buildings fall within the jurisdiction of the following police departments:

Agency	Phone Number

Identification of Potentially Dangerous or Hazardous Sites:

Each school will identify and locate areas of potential emergencies in and around its building. The Director of Facilities and building custodians will locate these sites.

1. These sites are to include electrical, gas, heating, ventilation, water supply and sewage systems locations and shut-off valves. Local fire department personnel have and will continue to participate in these efforts.

2. These sites of potential emergencies will be listed in each Building-level Emergency Response Plan supplied to police, fire, emergency management services, and District personnel.

3. Potentially dangerous sites indicated below that are contained within school property and under the jurisdiction of the school district, will be checked regularly and inspected by building safety personnel on a regular schedule, at least annually. They include but are not limited to:

    - Electrical panels/shut-offs
    - Gas lines/shut-off
    - Gas appliances
    - Heating plant

Private Security and School Resource Officers

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and security personnel. The role of school discipline is delegated to school administration.

District Memorandum(s) of Understanding related to this section are maintained in the District office.

Allocations

A. At the elementary and middle school level, there is a single point of entry for visitors at each building and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a Security Aide or Contract Security Officer. Staff in the building all wear district-produced identification badges which must be worn at all times. Staff is trained to report to the main office any person they observe who is not wearing a badge.

B. At the high school level, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel assigned to the High School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

Hiring

The interviewing and hiring of safety personnel follows the district's practices for hiring of new staff. All new staff employed by the District must be fingerprinted in order to be employed.

Duties and Training

Contract Security Personnel

- contracted personnel staffed at each elementary school and High School Traffic detail.

Section III Response

Notification and Activation - Internal and External Communications

Internal

After receiving the information from the Incident Commander at the scene, a communication will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately notify the School Resource Officer, Police precinct or 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information

throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or her designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: www.baldwinschools.org

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

Situational Responses

Multi-Hazard Response

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.[54]

Response Protocols

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.[55]

[54] 155.17(c)(1)(xviii) in the case of a school district, except in a school district in a city having more than one million inhabitants, a system for informing all educational agencies within such school district of a disaster;

[55] 155.17(g)Each public school superintendent and each chief school administrator of an educational agency other than a public school shall take action to provide written information, by October 1st of each school year, to all students and staff about emergency procedures.

School Cancellation

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.
- The Public Information Officer will activate use of the District's mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

Early Dismissal

- The Superintendent or their designee will monitor any situation that may warrant an early dismissal and will make the determination to do so.
- The Operations Chief will designate people to arrange transportation for students.
- The Public Information Officer will activate use of the District's mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.
- The Liaison Officer will notify each of the building principals.

Evacuation (Evacuate)

- The Superintendent or their designee will determine the level of the threat.
- The Operations Chief will contact the transportation supervisor to arrange transportation. They will also arrange for student-parent reunification.
- The Safety Officer will clear all evacuation routes and sites prior to evacuation
- Principal(s) will evacuate all staff and students to prearranged evacuation sites as outlined in building plans. They will report to the superintendent or their designee any missing staff or students.

Shelter-in-Place/Shelter Sites (internal and external)

- The Superintendent or their designee will determine the level of the threat and communicate with building principal(s) who are affected by the emergency.
- Principal(s) will move all staff and students to pre-arranged shelter-in-place/shelter sites as outlined in building plans. They will report to any missing staff or students.
- The Logistics Chief will make appropriate arrangements for human needs in the event of a long-term situation.

Protocols for Responding to Bomb Threats, Hostage-takings, Intruders, Abduction, and Other Emergency Situations[56]

The District has procedures and provides training for emergencies. Specific response steps are confidential and contained within each Building-level Emergency Response Plan. Emergencies include but are not limited to the following situations.

[56] 155.17(c)(1)(xv) the identification of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage-takings, intrusions and kidnappings;

- Abduction/Kidnapping
- Armed Intruders / Active Shooters
- Bomb Threats
- Early or Alternate Emergency Dismissal
- Earthquakes
- Explosions
- Fires
- Hazardous Material Incident
- Homeland Security Threats
- Hostage Situations
- Infectious Disease
- Missing Child/Elopement
- Severe Weather
- Student-Made Threats
- Suicidal Students
- Suspicious Package Protocol
- Suspicious Persons
- Swatting

Responses to Implied or Direct Threats of Violence[57]

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.

2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.

3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat

[57] 155.17(c)(1)(i)policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel including bus drivers and monitors, and visitors to the school, including threats by students against themselves, which for this subdivision shall include suicide;

of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.

4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.

5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.

6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.

Responses to Acts of Violence[58]

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so)**. Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.

2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.

3. The Building-level Emergency Response Planning Team consisting of trained staff and school personnel may assist with an Evacuation (Evacuate), Secure Lockout, Shelter-in-place/Shelter, Hold-in-place/Hold or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.

4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all Building-level Emergency Response Team members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.

5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal or emergency closure are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.[59]

6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers and monitors, or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.

7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.

8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.

9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Planning Teams. These individuals and appropriate means of

contact are documented in each Building-Level Emergency Response Plan.[60]

10. The district has a zero-tolerance policy for acts of school violence.

Protocols for a State Disaster Emergency Involving a Communicable Disease

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

Background

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law Section 27-c, and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to 2801-a of the Education Law that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

Identification of District Resources Which May Be Available for Use During an Emergency[61]

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be all inclusive, requires the following items:

- Copy of District-Wide School Safety Plan
- Building-level Emergency Plan
- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Weather radio

Coordination and School District Resources and Manpower During Emergencies[62]

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

Emergency Remote Instruction

Overview

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease

outbreak.

When making decisions about remote instruction, the District will consult with students**,** parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

Definitions

A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
C. **"**Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
    1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
    2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

Formats and Methods of Remote Instruction

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.[63]

Instructional Options

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is

supplementary to synchronous instruction.[64] When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.[65]

The district's curriculum under the supervision of the assistant superintendent of Baldwin Schools will coordinate with each building principal to provide educational materials to students when digital technology is unavailable. This will include teachers reaching out to students and parents through phone calls, mail, coordinated deliveries utilizing district staff to ensure educational materials are delivered to students and communication is maintained.

Computer and Connectivity Access for Students

The District will ensure that students have the necessary equipment at home to participate in remote instruction.[66] No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.[67] The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

Minimum Instructional Hours

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

Remote Instruction Support

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

Compliance with District Policies, Procedures, and the Code of Conduct

Teachers and students are required to comply with any and all applicable District policies, procedures, and

other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti- harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

Privacy and Security of Student and Teacher Data

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

Section IV Communication with Others

Obtaining assistance during emergencies from emergency service organizations and local government agencies[68]

1. The district continues to work closely with local police, fire, EMS, and governmental agencies to obtain assistance during emergencies. In the event of violent incidents or crises, or an early dismissal of students, every effort will be made to notify parents. As soon as practical, the Superintendent or their designee shall activate the emergency notification system that will provide relevant information. Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year.

When a student is involved in any violent situation, or an implied or direct threat of violence by such student against themselves, including suicide, parent or guardian shall be contacted as soon as practicable.[71] Administration shall utilize school mental health resources when necessary.

Section V Recovery

Continuity of Operations

This district maintains continuity of operations at both the district and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

Continuity of Instruction

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)
- Schoolwires
- Seesaw
- Schoology
- Canvas

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

District Support for Buildings

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building-level Emergency Response Planning Team, other school buildings may be called to support the Building-level Emergency Response Planning Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a "debriefing", or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team's response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District's Public Information Officer will assist in sending mass communication messages to affected groups. The District's Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

Disaster Mental Health Services

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.

Appendix 6 – SHELL Summary

How does the District respond to a wide range of emergencies?

Schools are required to engage in comprehensive emergency planning and training to prevent and manage emergencies in their buildings. Emergencies may include facility failures such as a gas leak, accidents, medical emergencies, severe weather or an intruder in the school. The following protocols may be used individually or in conjunction with one another to respond to a wide range of critical incidents.

Shelter:

A Shelter may be issued when it is necessary to remain inside the building due to exterior hazards such as severe weather or other type of hazard. Students are kept in a safe space inside the building until the situation has been resolved.

Hold:

A Hold may be issued during a non-threatening event such as a medical emergency or maintenance issue. Hallways are cleared, students are kept in classrooms and instruction continues.

Evacuation:

Evacuation takes place if it is determined that it is safer outside than inside the building (fire, explosion, intruder, hazardous material spill) and staff, students and visitors can safely reach the evacuation location without danger.

Secure Lockout:

In response to an imminent concern outside of the school, a Secure Lockout secures all campus occupants inside the building. Visitors will not be admitted to the building, and occupants are restricted from leaving. Normal operations will continue inside the buildings. Students will not be released during a secure lockout.

Lockdown:

In response to an imminent threat in or around a school, Lockdown is used to quickly ensure all school staff, students and visitors are secured in rooms away from immediate danger. Entry or exit from the school is restricted until the building has been deemed safe by emergency responders.

Parent Reunification:

In the unlikely event it is necessary for students to be reunited directly with their parent or guardian, the District will provide information via phone, email, and/or text regarding their child's specific location. Students will only be released to a parent/guardian or other adults listed as emergency contacts. Photo identification will be required. The individual picking up the student will be asked to complete a Student Release Form (available onsite).

This procedure is designed for your student's protection. Please be aware that reunification can be time-consuming, and we appreciate your patience.
