VENDOR PRODUCT DISPLAYS CHE(R1)

Keller ISD receives numerous requests from external organization to display products within its buildings. In order to maintain a focus on education, the following guidelines must be observed.

Vendor Products – Campuses

Only district-approved or PTA-sponsored vendors may display their products on a campus, with principal approval. In addition, campus principals may approve vendors to leave catalogs or flyers in teacher break areas, at their discretion.

Vendor Products – KISD Education Center

A vendor will not be allowed to display their products in the Keller ISD Education Center. However, the KISD Communications Department may approve vendors to leave catalogs, flyers, and/or business cards in the break areas of the Education Center.

During invited presentations of an educational vendor's products or services, those educational vendors may display their products for teachers or administrators.
