To All Interested Parties:

**Subject: Addendum #1,
Request for Proposal – Platform for Therapies**

Question: AiQ Engineering is very interested in submitting a proposal for "RFP 903-1 Platform for Therapies". Quick question - would you consider a proposal that uses Zoom or a similar service for the video conferencing portion? I ask because building a custom video conferencing service would change the proposal quite substantially.

Any additional context about the process or this RFP would be very helpful.

Answer: We would consider the use of zoom since we already use it. However, we would prefer something standalone.

You can propose both if you wish and believe that you have a solution that meets the tenants found in the RFP.

All information concerning the selection process and minimum expectations are found in the RFP.

Please email Anthony Hinds at anthonyhinds@spsk12.net if you have any additional questions and sign below to acknowledge receipt of the addendum and include with your proposal.
