Who is an Ally for students in transition?

A school McKinney-Vento Ally receives additional training to help support the unique needs of students living in temporary situations. The Ally works with the district McKinney-Vento Liaison to ensure students and families have access to educational and community services that promote positive school outcomes.

How do Allies help? Allies:

- Identify and refer students in temporary living situations
- Provide information about McKinney-Vento rights and services to students, families, and staff
- Distribute resources and ensure students are supported, in partnership with the Liaison
- Help prevent unnecessary attendance gaps or school transfers for students in transition
- Support families to complete referrals or other documentation
