

START COLLEGE NOW CHECK LIST (TECH SCHOOL)

GRADES 11-12

IT'S YOUR RESPONSIBILITY TO FOLLOW THESE STEPS!

CONSIDER YOUR POST SECONDARY PLAN

- Assess your readiness: academics, perseverance, motivation, work completion, dedication - you know yourself best - be sure you are **READY** for this next step!
- Review all program guidelines in the Academic and Career Planning Guide (Page 21)
- Review all courses and decide on which courses to put on your application

Typical readiness indicators 2.6 GPA or higher, no "F"s in the previous semester

THEN...

- Complete the Start College Now Application
- Meet with your counselor to review your requests and submit your SCN application materials (**no late applications will be accepted**)
- Your counselor will submit the SCN application materials to the district office for review and approval

YOU WILL THEN...

- Receive a letter approving/denying your requests from the district office (note that the time from your submission until you receive the letter may be several weeks)
- If approved, the district office will send the agreement letter to the student/family address. It must be signed and returned to the district office.

THEN IF APPROVED:

- You will need to exhibit the responsibility and follow through with the next steps as identified in your letter or from the Technical School. You are the one responsible for your learning.

Wait for further directions from the Technical College

- They will likely email you with the next steps so, be sure to list a personal email address on your application or you may miss out. Note that there may be a lapse in time from the time you receive the MHS letter and when you receive further information from the Technical College.
- Complete all required steps from the Technical College. Failure to submit any required forms may result in being dropped from the course and/or repayment of tuition and fees. It is your responsibility to order any books or materials needed. **MHS does NOT register you for classes, you do!**
- Remember that you are considered a college student and must assume that responsibility. You are required to make the connections with the college and follow through with what is needed. **WATCH YOUR EMAIL**

YOU ARE STILL NOT DONE! ONCE REGISTERED YOU...

- **Must attend and pass all of your classes (failure to do so will result in repayment of all tuition and fees to the ECASD).**
- **Check your Technical College email/communication with instructors daily**
- **Grading policy follows Technical College, not MHS**
- **Accommodations (IEP/504) must be shared by you to the Technical College**
