

Farmington Public Schools – Grade Two

Math Report Card Rubric

	1 – Beginning Standard	2 – Approaching Standard	3 – Meeting Standard	4 – Exceeding Standard
Number Sense	Student does not yet demonstrate grade level number sense concepts, skills and vocabulary. Student consistently needs teacher assistance when solving problems.	Student is beginning to demonstrate progress toward an understanding of grade level number sense concepts, skills and vocabulary. Student may need teacher assistance when solving problems.	Student demonstrates an understanding of grade level number sense concepts, skills and vocabulary. Student independently uses a variety of problem solving strategies.	Student demonstrates and extends grade level number sense concepts, skills and vocabulary. Student independently uses and explains a variety of problem solving strategies.
Number Operation	Student does not yet demonstrate an understanding of grade level number operation concepts, skills and vocabulary. Student consistently needs teacher assistance when solving problems.	Student demonstrates progress toward an understanding of grade level number operation concepts, skills and vocabulary. Student may need teacher assistance when solving problems.	Student demonstrates an understanding of grade level number operation concepts, skills and vocabulary. Student independently uses a variety of problem solving strategies.	Student demonstrates and extends grade level number operation concepts, skills, and vocabulary. Student independently uses and explains a variety of problem solving strategies.
Algebra	Student does not yet demonstrate an understanding of grade level algebra concepts, skills, and vocabulary. Student consistently needs teacher assistance when solving problems.	Student demonstrates progress toward an understanding of grade level algebra concepts, skills and vocabulary. Student may need teacher assistance when solving problems.	Student demonstrates and extends grade level algebra concepts, skills and vocabulary. Student independently uses and explains a variety of problem solving strategies in extended and challenging mathematical concepts.	Student demonstrates and extends grade level algebra concepts, skills, and vocabulary. Student independently uses and explains a variety of problem solving strategies in extended and challenging mathematical concepts.

	1 – Beginning Standard	2 – Approaching Standard	3 – Meeting Standard	4 – Exceeding Standard
Measurement	Student does not yet demonstrate an understanding of grade level measurement concepts, skills and vocabulary. Student consistently needs teacher assistance when solving problems.	Student demonstrates progress toward an understanding of grade level measurement concepts, skills and vocabulary. Student may need teacher assistance when solving problems.	Student demonstrates an understanding of grade level measurement concepts, skills and vocabulary. Student independently uses and explains a variety of problem strategies.	Student demonstrates and extends grade level measurement concepts, skills and vocabulary. Student independently uses and explains a variety of problem solving strategies.
Geometry	student does not yet Demonstrate an understanding of grade level geometry concepts, skills and vocabulary. Student consistently needs teacher assistance when solving problems.	student demonstrates Progress toward an understanding of grade level geometry concepts, skills and vocabulary. Student may need teacher assistance when solving problems.	student demonstrates an Understanding of grade level geometry concepts, skills and vocabulary. Student independently uses and explains a variety of problem solving strategies.	student demonstrates and Extends grade level geometry concepts, skills and vocabulary. Student independently uses and explains a variety of problem solving strategies.
