

Types of Home Care

Personal Care and Companionship

- Help at home with everyday activities like bathing and dressing, meal preparation, and household tasks to enable independence and safety

Also known as...

Non-medical care, home health aide services, senior care, homemaker care, assistive care, or companion care

Private Duty Nursing Care

- Long-term, hourly nursing care at home by RNs and LPNs for adults with a chronic illness, injury, or disability

Also known as...

Home-based skilled nursing, long-term nursing care, catastrophic care, tracheostomy care, ventilator care, nursing care, shift nursing, hourly nursing, or adult nursing

Home Health Care

- Short-term, Medicare-certified physician-directed care designed to help a patient prevent or recover from an illness, injury, or hospital stay

Also known as...

Medicare-certified home health care, intermittent skilled care, or visiting nurse services

Examples of care services

- Assistance with self-care—grooming, bathing, dressing, and using the toilet
- Enabling safety at home by assisting with ambulation, transfer (eg, from bed to wheelchair, wheelchair to toilet), and fall prevention
- Assistance with meal planning and preparation, light housekeeping, laundry, errands, and escorting to appointments
- Companionship and engaging in hobbies and activities
- Supervision for someone with dementia or Alzheimer's disease

- Care for diseases and conditions such as traumatic brain injury (TBI), spinal cord injury (SCI), ALS, and MS
- Ventilator care
- Tracheostomy care
- Monitoring vital signs
- Ostomy/gastrostomy care
- Feeding tube care
- Catheter care

- A customized care plan based on individual needs, which may include:
- Short-term nursing services
- Physical therapy
- Occupational therapy
- Speech language pathology
- Medical social work
- Home health aide services

Personal Care and Companionship

Private Duty Nursing Care

Home Health Care

How is it paid?

Usually paid directly by the person receiving care (private pay), or through long-term care insurance or Medicaid. Other funding sources may be:

- Health insurance
- Veterans benefits
- Workers' compensation

Can be paid through a variety of sources, including:

- Medicaid (with qualifications)
- Health insurance
- Workers' compensation
- Veterans benefits
- Direct payment by person receiving care (private pay)

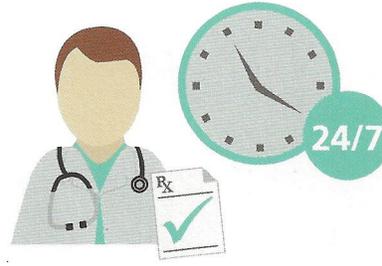

When specific qualifications are met (generally, when services are ordered by a physician and a clinical assessment deems them necessary), these services are typically paid for by:

- Medicare
- Private insurance

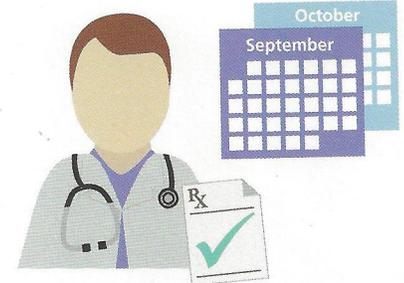

How is care provided?

Personal Care and Companionship does not need to be prescribed by a doctor. Care provided on an ongoing basis, on a schedule that meets a client's needs, up to 24 hours a day, 7 days a week, including possible live-in care.

Private Duty Nursing Care needs to be prescribed by a doctor. Care is provided hourly on an ongoing basis by RNs and LPNs based on the client's needs, up to 24 hours a day, 7 days a week.

Home Health Care needs to be prescribed by a doctor. Care is provided through Medicare-certified visits from nurses or therapists that last up to an hour, on a short-term basis until individual goals are met.
