INDEPENDENT AUDITOR'S REPORT

Members of the School Board
Independent School District No. 881
Maple Lake, MN

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 881, Maple Lake, Minnesota, (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 881 as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1.G. to the financial statements, during the year ended June 30, 2025, the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences.* Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards,* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule, Schedule of Changes in District's Net OPEB Liability, Schedule of Money-Weighted Rate of Return on OPEB Plan Assets, Schedule of District's Proportionate Share of Net Pension Liability, and Schedule of District Pension Contributions listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Independent School District No. 881's basic financial statements. The accompanying introductory section, combining nonmajor governmental funds financial statements, and Uniform Financial Accounting and Reporting Standards Compliance Table are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor governmental funds financial statements and Uniform Financial Accounting and Reporting Standards Compliance Table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor governmental funds financial statements and Uniform Financial Accounting and Reporting Standards Compliance Table are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2025, on our consideration of Independent School District No. 881's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Independent School District No. 881's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

INDEPENDENT SCHOOL DISTRICT NO. 881
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2025

As management of Independent School District No. 881 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2025.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by $11,753,108 (net position). The unrestricted portion of net position is negative $5,825,348.

- The District's total net position increased $941,534 as a result of current year operations.

- At the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of $7,330,351, a decrease of $6,294,937 in comparison with the prior year. Approximately 35 percent of this amount, $2,568,879, is available for spending at the District's discretion.

- At the end of the current fiscal year, unassigned fund balance for the General Fund is $2,363,233, or 19 percent of total General Fund expenditures.

- The District's total debt decreased by $1,258,901 (7 percent) in the current fiscal year.

- During the year ended June 30, 2025, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. For further information on the effects of the adoption of this standard, see Notes 1.G. and 5.D.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

The major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain are summarized in the following table. The remainder of the overview section of the Management Discussion and Analysis highlights the structure and contents of each of the statements.

Government-Wide Financial Statements
The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the net difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and accrued but unpaid interest).

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include administration, district support services, regular instruction, vocational instruction, exceptional instruction, community education and services, instructional support services, pupil support services, sites and buildings, fiscal and other fixed cost programs, interest and other fiscal charges, and unallocated depreciation. The District currently does not report any business-type activities.

The government-wide financial statements start on page 20 of this report.

Fund Financial Statements
A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds
Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains three individual major governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund, and Building Construction Fund, all of which are considered to be major funds. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements start on page 22 of this report.

Fiduciary Funds
Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for the district-wide financial statements.

The basic fiduciary fund financial statements start on page 26 of this report.

Notes to the Financial Statements
The notes provide additional information essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements start on page 28 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Supplementary Information

The combining statements referred to earlier in connection with nonmajor governmental funds are presented as supplementary information. Combining fund statements start on page 77 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources, for a net balance of $11,753,108 at the close of the most recent fiscal year.

A significant portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, site improvements, machinery and equipment, and leased assets), less any related debt used to acquire those assets still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although, the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Total Net Position	$ 11,753,108	$ 12,607,098	$ (853,990)

An additional portion of the District's net position ($2,599,696) represents resources that are subject to external restrictions on how they may be used. The balance of unrestricted net position is negative $5,825,348 at year end. This unrestricted balance has been reduced by a total of $5,800,697 as a result of recording the District's proportionate share of the net pension liability and related balances for the statewide pension plans in which the District employees participate.

Changes in Net Position

The District's net position increased $941,534 during the most recent fiscal year. Key elements of this increase are as follows:

Net Position - End of Year	$ 11,753,108	$ 12,607,098	$ (853,990)

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Some significant items to note include the following:

- The current year increase in net position was $941,534, compared to an increase of $2,132,922 in the prior year. This is a result of a 2.4 percent increase in revenues and a 12 percent increase in expenses during fiscal year 2025.

- Property Taxes revenues increased by $724,889 primarily due to an increase in tax levies in fiscal year 2025, driven largely by amounts levied for debt service.

- Expenses related to Regular Instruction increased $1,083,129, primarily due to current year pension activity, as well as increases in salaries and benefits attributable to this program.

Total and Net Cost of Governmental Activities
The net cost of governmental activities is their total costs less program revenues applicable to each category. The following table presents these total and net costs.

Total and Net Costs of Services

Some significant items to note include the following:

- The net costs of Regular Instruction increased $1,108,898 (27.4 percent) primarily due to matters previously discussed, as well as an overall decrease in State and Federal aid attributable to this program.

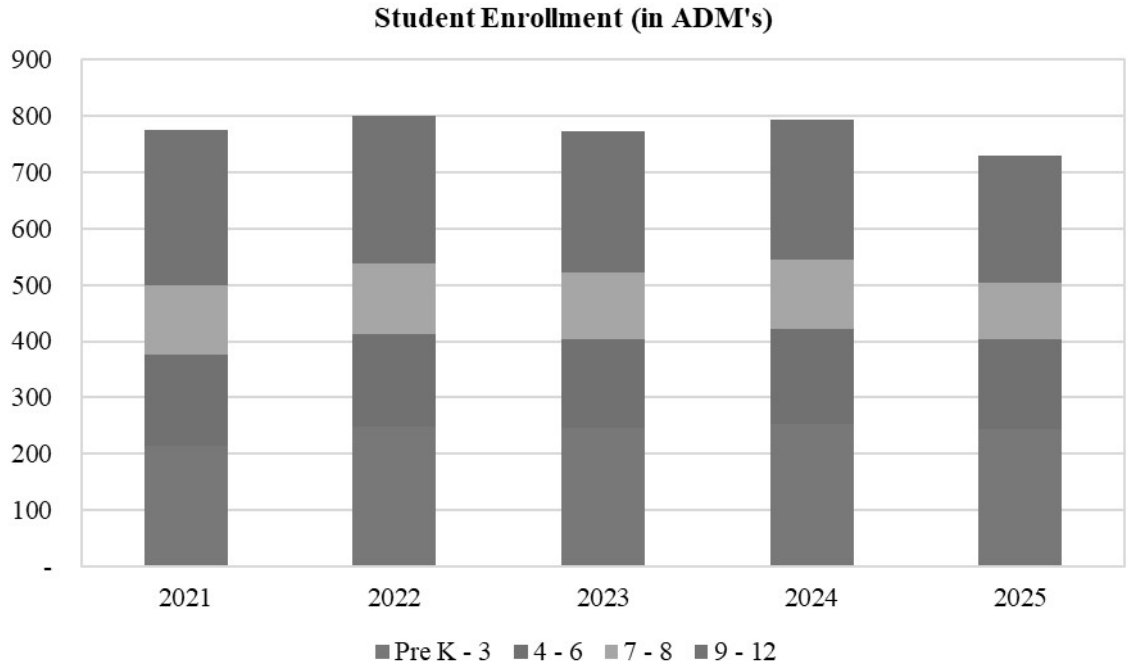

- The net costs of Exceptional Instruction increased $390,816 (884 percent) primarily due to the District employing additional paraprofessionals during the current year as a result of increased need for such services among the student base, as well as an overall decrease in State aid attributable to this program.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The majority of the financial aid received by the District is determined based on the number of students enrolled during the year. Therefore, fluctuations in enrollment have a significant impact on the financial health of the District. The following graphs show the trend in student enrollment counts over the past five years:

Student Enrollment (Average Daily Membership)

	2021	2022	2023	2024	2025
Pre K - 3	213	249	245	254	244
4 - 6	162	164	159	167	159
7 - 8	125	124	119	124	100
9 - 12	275	263	251	249	227
Total Student for Aid	775	800	774	794	730
Percentage Change	-6.51%	3.23%	-3.25%	2.58%	-8.06%

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

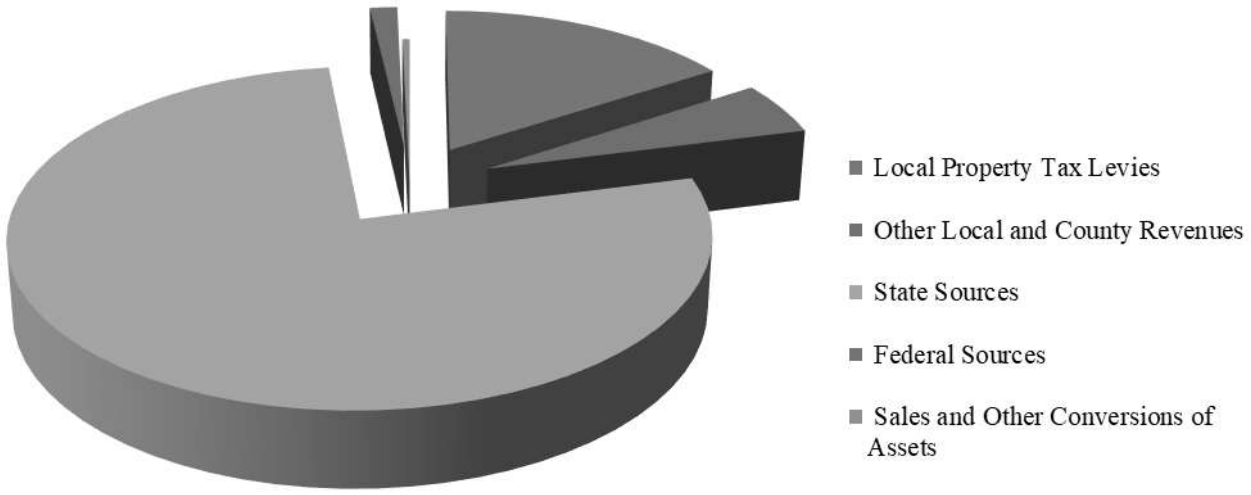

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Continued)

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of $7,330,351, a decrease of $6,294,937 in comparison with the prior year. The following is a summary of the District's major funds:

Major Funds	Fund Balance June 30, 2025	Fund Balance June 30, 2024	Increase (Decrease)
General	$ 3,839,078	$ 4,425,279	$ (586,201)

The fund balance of the General Fund decreased by $586,201 (13 percent). Revenues decreased approximately 2.0 percent from the prior year, while expenditures increased 10.3 percent.

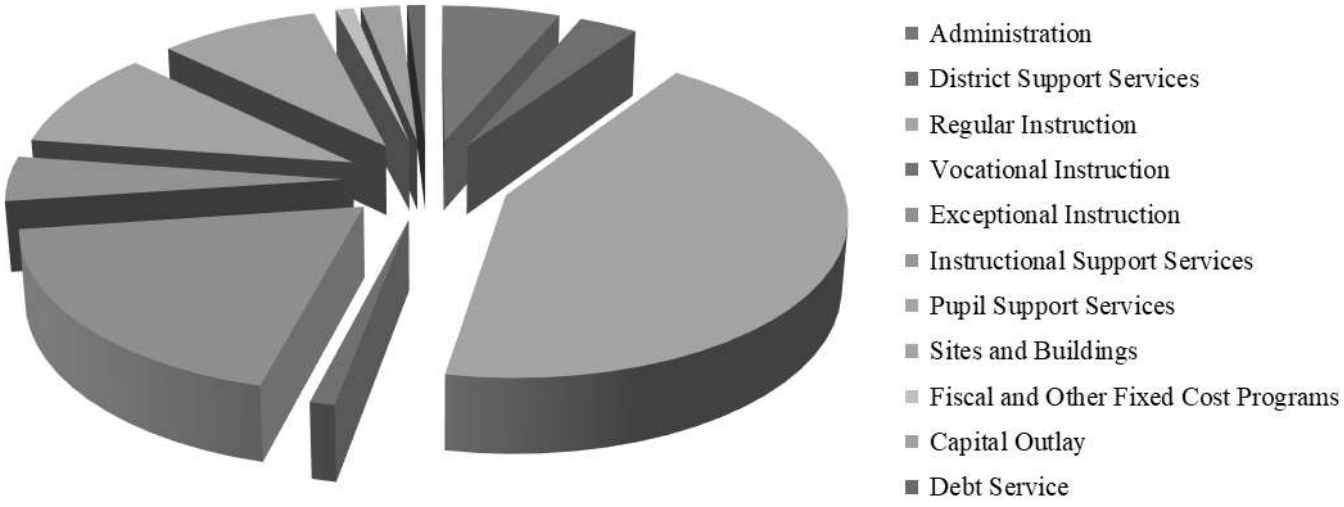

General Fund Revenues

The District receives the vast majority of its funding in the General Fund from the State of Minnesota (76 percent), which is subject to fluctuation based on the number of pupils served by the District and changes in State legislation. In addition, the District receives approximately 17 percent of its General Fund revenues from local property tax levies and 6 percent from local and county sources.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Continued)

General Fund Expenditures

A significant portion of the District's General Fund expenditures are used for regular, vocational, and exceptional instruction (63 percent). Expenditures for various support services total 18 percent, and the remaining 19 percent consists of expenditures for administration, sites and buildings, and other items.

Major Funds	Fund Balance June 30, 2025	Fund Balance June 30, 2024	Increase (Decrease)
Debt Service	$ 450,236	$ 357,233	$ 93,003

The Debt Service Fund balance increased by $93,003 (26 percent) during the year. Operations were comparable to that of the prior year.

Building Construction	$ 2,068,846	$ 8,009,488	$ (5,940,642)

The Building Construction Fund balance decreased by $5,940,642 during the year, primarily due to the activity for the facility improvement project.

General Fund Budgetary Highlights
The District's General Fund budget was amended during the year. The revenues budget was increased by $194,406, and the expenditures budget was changed in several functions for an overall increase of $727,261 from the original to final. The final budget called for expenditures of $12,646,109 and a decrease in fund balance of $766,593. Actual revenues recognized during the year were less than budgeted amounts by $84,797. Expenditures were less than those budgeted by $276,529. Therefore, the current year decrease in fund balance was $180,392 less than budgeted.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2025, amounts to $29,837,829 (net of accumulated depreciation and amortization). This investment in capital assets includes land, construction in progress, site improvements, buildings and improvements, equipment, vehicles, leased assets and software subscriptions. The total increase in the District's investment in capital assets for the current fiscal year was approximately 22.66 percent.

Major capital asset events during the current fiscal year included the construction related to the facility improvement project and playground project.

CAPITAL ASSETS AND DEBT ADMINISTRATION (Continued)

Long-Term Debt

At the end of the current fiscal year, the District had total long-term debt outstanding of $16,666,016. A summary of long-term debt activity for the year ended June 30, 2025 follows:

Long-Term Debt
Table 5

	Governmental Activities		
	2025	2024	Increase (Decrease)
G.O. Refunding Bonds	$ 1,620,000	$ 2,145,000	$ (525,000)

Total	$ 16,666,016	$ 17,924,917	$ (1,258,901)

The District's total debt decreased by $1,258,901 (7 percent) during the current fiscal year. Additional information on the District's long-term debt can be found in Note 2.C. on page 39 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District's appointed and elected officials considered many factors when setting the fiscal year 2026 budget. These factors included the following:

- The 2025-2026 budget was created using the anticipated student counts, funding information available at the time of its adoption, staffing needs, the condition and needs of the building and grounds, transportation costs, and collective bargaining settlements.

At the time these financial statements were prepared and audited, the District was aware of the following existing conditions that could affect its financial health in the next year:

- 2025-2026 enrollments were estimates. Current enrollment numbers are down slightly from original estimates.
- The General Fund fund balances are projected to decrease by 24 percent in fiscal year 2026.

RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
JUNE 30, 2025

Total Fund Balances - Governmental Funds		$ 7,330,351
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds:		
Capital Assets	$ 48,396,023	
Accumulated Depreciation and Amortization	(18,558,194)	
Capital Assets (Net)		29,837,829
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds:		
Bond Principal Payable	(14,775,000)	
Bond Premium, Net of Accumulated Amortization	(899,648)	
Financing Arrangements	(886,404)	
Lease Liabilities	(104,964)	
Compensated Absences	(1,866,818)	
		(18,532,834)
Interest on long-term debt is recognized as an expenditure when due and payable in the governmental funds. Therefore, interest is not accrued in the governmental funds Balance Sheet, but is accrued in the Statement of Net Position:		(277,427)
Some of the District's property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and, therefore, are reported as deferred inflows of resources in the governmental funds:		22,911
The net OPEB liability represents the present value of projected unfunded future postemployment benefits other than pensions, as determined by an actuary as of the most recent measurement date. Such liability and related balances do not represent the impending use of current financial resources and, therefore, are not reported in the governmental funds:		
Net OPEB Liability	(714,647)	
Deferred Outflows - OPEB	26,373	
Deferred Inflows - OPEB	(138,751)	
		(827,025)
The net pension liability and related deferred outflows/inflows represent the allocation of the pension obligations of the statewide plans to the District. Such balances are not reported in the governmental funds:		
Net Pension Liability	(5,286,025)	
Deferred Outflows - Pensions	1,461,068	
Deferred Inflows - Pensions	(1,975,740)

INDEPENDENT SCHOOL DISTRICT NO. 881
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2025

Net Change in Fund Balances - Total Governmental Funds		$ (6,294,937)
Amounts reported for governmental activities in the Statement of Activities are different due to the following:		
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation and amortization expense:		
Capital Outlay Capitalized	$ 6,454,531	
Depreciation and Amortization Expense	(943,162)	
		5,511,369
The issuance of long-term debt provides current financial resources to governmental funds while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The amounts below detail the effects of these differences in the treatment of long-term debt and related items:		
Bond Principal Repayments	1,005,000	
Amortization of Bond Premium	105,306	
Long-Term Lease Principal Repayments	50,696	
Financing Arrangement Principal Repayments	97,899	
		1,258,901
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due:		205,558
Certain revenues are recognized as soon as they are earned. Under the modified accrual basis of accounting, certain revenues cannot be recognized until they are available to liquidate liabilities of the current period:		
Property Taxes		4,752
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:		
Compensated Absences Payable		(63,597)
Certain liabilities do not represent the impending use of current resources. Therefore, the change in such liabilities and related deferrals are not reported in the governmental funds:		
Net OPEB Liability and Deferred Outflows/Inflows of Resources	(2,282)	
Net Pension Liability and Deferred Outflows/Inflows of Resources	321,770	
		319,488

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1.A. FINANCIAL REPORTING ENTITY

Independent School District No. 881 (the District) is an educational entity established by the State of Minnesota. The government of the District is directed by an elected seven-member Board of Education (the Board). The Board exercises legislative authority and determines all matters of policy. The Board appoints personnel responsible for the proper administration of all affairs relating to the District. The accompanying financial statements present the government entities for which the District is considered to be financially accountable.

The District has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. Based on these criteria, there are currently no entities considered to be component units of the District.

Student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside school hours. However, the Board does have administrative control over student activity funds, as well as responsibility for establishing broad policies and ensuring that appropriate financial records are maintained for student activities. Accordingly, the student activity accounts are included in the basic financial statements as part of the General Fund.

Joint Ventures

Meeker and Wright Special Education Cooperative

The Meeker and Wright Special Education Cooperative (MAWSECO) is consortium of seven school districts collaborating to provide certain low incidence and at-risk services that would likely be difficult to obtain on an individual basis. Through a Joint Powers agreement executed by the districts of Annandale, Dassel-Cokato, Delano, Howard Lake-Waverly-Winsted, Litchfield, Maple Lake, and Rockford, the MAWSECO uses a combination of local, state, and federal funding to provide teachers, specialists, administrative assistance, and support personnel. In addition, collaborative funding is used to ensure access to joint staff development opportunities and various data management systems.

During the year ended June 30, 2025, the District incurred expenditures of $272,638 for services rendered by the MAWSECO, of which $21,781 was still due from the District at year-end. Additionally, the District recognized revenues for flow-through Federal aids from the MAWSECO in the amount of $75,112, of which $60,028 was still due to the District at year-end.

1.B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all nonfiduciary activities of the primary government. For the most part, interfund activities have been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operations or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The financial statements of Independent School District No. 881 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accountin*g, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Expenses are classified by function for governmental activities.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. In the fund financial statements, expenditures are classified as follows:

Governmental Funds – By Character	Current (further classified by function)
	Capital Outlay
	Debt Service

Property taxes, intergovernmental revenue, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

The District reports the following major governmental funds:

The G*eneral Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *Building Construction Fund* is a capital project fund used to account for the resources accumulated and payments made for building construction.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (Continued)

The District reports the following nonmajor governmental funds:

The *Food Service Fund* accounts for the proceeds of specific revenue sources (other than expendable trust and major capital projects) that are legally restricted to expenditures for food service.

The *Community Service Fund* accounts for the proceeds of specific revenue sources (other than expendable trust and major capital projects) that are legally restricted to expenditures for community service.

The District reports the following fiduciary funds:

The *OPEB Trust Fund* is used to account for an irrevocable trust established to fund postemployment benefits (other than pension benefits) accrued by the employees of the District to be paid as they come due.

The *Scholarship Fund* is a trust fund used to account for the activity of the District's scholarships.

Changes in the Financial Reporting Entity
There were no changes to or within the financial reporting entity in comparison to the prior year.

1.D. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund. The appropriated budget is prepared by fund, function, and department. The District's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the appropriation, is not employed by the District because it is at present not considered necessary to assure effective budgetary control or to facilitate effective cash management.

1.E. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, and deferred inflows, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

1.F. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND EQUITY

Deposits and Investments

Cash balances from all funds are combined and invested to the extent available in various securities as authorized by Minnesota Statutes. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable participation by each of the funds. Temporary cash investments are stated at cost which approximates fair value. Investments in external investment pools are valued at the pool's share price.

See Note 2.A. for additional information related to Deposits and Investments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.F. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND EQUITY (Continued)

Cash with Fiscal Agent

Cash with fiscal agent represents deposits with fiscal agents for the payment of principal and interest and the defeasance of debt at a future date for the U.S. Bank lease-purchase agreement. These debt transactions are discussed in further detail in Note 2.C.

Property Taxes Receivable

The majority of District revenue is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between property taxes and state aids by the Legislature based on education funding priorities.

Generally, property taxes are recognized as revenue by the District in the fiscal year that begins midway through the calendar year in which the tax levy is collectible. To help balance the State budget, the Minnesota Legislature utilizes a tool referred to as the "tax shift," which periodically changes the District's recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year's levy as current year revenue, allowing the State to reduce the amount of aid paid to the District.

Property tax levies are certified to the County in December of each year for collection from taxpayers in May and October of the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The County spreads all levies over taxable property. Such taxes become an enforceable lien on property on the following January 1. The County generally remits taxes to the District at periodic intervals as they are collected. A portion of property taxes levied is paid by the State of Minnesota through various tax credits, which are included in revenue from state sources in the financial statements.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred in the fund financial statements because it is not known to be available to finance the operation of the District in the current year. For government-wide financial statements, no allowance for uncollectible taxes is considered necessary.

Accounts Receivable

Accounts receivable include amounts billed for services provided before year end. No substantial losses are anticipated from present receivable balances; therefore, no allowance for uncollectible accounts is deemed necessary.

Due from Other Governments

Amounts due from the Minnesota Department of Education, from the Federal government through the Department of Education and from other governmental units for general education aids and reimbursements under various specific programs are reported at the estimated amounts to be received based on available information at the date of this report. In some instances, adjustments and proration by these agencies, which are dependent upon the amount of funds available for distribution and may result in differing amounts actually being received. Any such differences will be absorbed into operations as of the subsequent period.

Prepaids

Prepaid expenditures/expenses consist of amounts paid during the year ended June 30, 2025 which will benefit future periods. Included in this amount are supplies purchased for use in subsequent periods and insurance premiums applicable to future accounting periods.

Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated acquisition value at the date of donation. The District maintains a threshold level of $5,000 or more for capitalizing capital assets. The system for accumulation of fixed asset cost data does not provide the means for determining the percentage of assets valued at actual and those valued at estimated cost.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.F. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND EQUITY (Continued)

Capital assets are recorded in the district-wide financial statements but are not reported in the fund financial statements. Capital assets are depreciated or amortized using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the District, no salvage value is taken into consideration for depreciation and amortization purposes. Useful lives vary from twenty to fifty years for site improvements and buildings and five to fifteen years for equipment and vehicles. Capital assets also includes equipment, buildings, and software obtained via leasing and subscription arrangements. These assets are amortized over the duration of the corresponding arrangement.

Capital assets not being depreciated or amortized include land and construction in progress, if any.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Accrued Payroll Liabilities

Salaries pertaining to the school year ended June 30, 2025, which are payable in July and August 2025, are accrued as of June 30, 2025, and are shown as a liability on the accompanying financial statements. Liabilities for payroll taxes, amounts withheld from payroll checks and benefits accrued are also included.

Unearned Revenue

Unearned revenue consists of local revenue received but not yet earned. Such amounts typically consist of grants and entitlements received before eligibility requirements are met and prepaid pupil lunch balances.

Compensated Absences Payable

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (paid) during or upon separation from employment. Based on the criteria, PTO balances accumulated by District employees qualify for liability recognition as compensated absences. The liability for compensated absences is reported as incurred in the government-wide financial statements. The liability for compensated absences includes salary-related benefits, where applicable.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Postemployment Benefits Other Than Pensions (OPEB)

Under the provisions of the various employee and union contracts, the District provides health insurance coverage for varying lengths of time if certain age and minimum years of service requirements are met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.F. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND EQUITY (Continued)

Pensions

The net pension liability represents the District's allocation of its pro-rata share of the Statewide Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) net pension liabilities.

PERA
For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments, and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA
For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Teachers Retirement Association (TRA) and additions to/deductions from TRA's fiduciary net position have been determined on the same basis as they are reported by TRA.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. This direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association in 2015.

Interfund Transactions and Balances

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. If short-term in nature or incurred through goods and service type transactions, such interfund balances are reported as "due to/from other funds." Long-term interfund loans are reported as "advances to/from other funds." Interfund transactions and balances between governmental funds are eliminated in the Statement of Net Position.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This element represents a consumption of net position that applies to future periods and, therefore, will not be recognized as an outflow of resources (expense) until that time. The District reports deferred outflows of resources in the government-wide Statement of Net Position in relation to the activity of the pension funds and OPEB plan in which District employees participate.

In addition to liabilities, the Statement of Net Position and Balance Sheet report a separate section for deferred inflows of resources. This element represents an acquisition of net position or fund balance that applies to future periods and, therefore, will not be recognized as an inflow of resources (revenue) until that time. The District reports property taxes levied for subsequent years as deferred inflows of resources in both the government-wide and governmental fund financial statements. The District reports delinquent property tax receivables as deferred inflows of resources in the governmental funds, in accordance with the modified accrual basis of accounting. In addition, the District reports deferred inflows of resources in the government-wide Statement of Net Position in relation to the activity of the pension funds and OPEB plan in which District employees participate.

See Notes 3 and 4 for additional information pertaining to the deferred outflows and deferred inflows recorded to account for OPEB and pension activities, respectively.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.F. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND EQUITY (Continued)

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable – Includes amounts that cannot be spent because they are either not in spendable form, or they are legally or contractually required to be maintained intact. The nonspendable fund balances at June 30, 2025 consist of prepaid expenditures.

Restricted – Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed – Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the Board of Education (the Board), which is the District's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board modifies or rescinds the commitment by resolution. The District has no committed fund balances at June 30, 2025.

Assigned – Amounts that are neither restricted nor committed but are constrained by the District's intent to be used for specific purposes. The Board currently has delegated the authority to assign fund balances to the District's Superintendent and Finance Manager.

Unassigned – The residual classification for the General Fund and also negative residual amounts in other funds, if any. The District has formally adopted a policy under which it strives to maintain a minimum unassigned General Fund balance equal to approximately 1.5 months of operating expenditures.

When both restricted and unrestricted resources are available for use, it is the District's practice to first use restricted resources, and then use unrestricted resources as they are needed. If resources from more than one fund balance classification could be spent, the District will spend the resources from fund balance classifications in the following order: committed, assigned, and unassigned, in accordance with the District's policy.

See Note. 2.E. for additional disclosures.

Net Position

Net position represents the difference between the sum of assets and deferred outflows of resources and the sum of liabilities and deferred inflows of resources. Net position is displayed in three components:

Net Investment in Capital Assets – Consists of capital assets, net of accumulated depreciation and amortization, reduced by any outstanding debt attributable to acquiring the capital assets.

Restricted Net Position – Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Unrestricted Net Position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

1.G. RECENTLY ISSUED ACCOUNTING STANDARD

During the current fiscal year, the District adopted Governmental Accounting Standard Board (GASB) Statement No. 101, *Compensated Absences*. This standard provides updated recognition and measurement guidance for recording compensated absences. For additional information regarding the impact of adopting this standard, see Note 5.D.

NOTE 2 DETAILED NOTES ON TRANSACTION CLASSES/ACCOUNTS

2.A. DEPOSITS AND INVESTMENTS

Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits in financial institutions designated by the School Board. Minnesota Statutes require that all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds (100 percent if collateral pledged is irrevocable standby letters of credit issued by the Federal Home Loan Bank). The District complies with such laws.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- A general obligation of a state or local government, with taxing powers, rated “A” or better;
- A revenue obligation of a state or local government, with taxing powers, rated “AA” or better;
- Unrated general obligation securities of a local government, with taxing powers, pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letter of credit issued by a Federal Home Loan Bank accompanied by written evidence that the Federal Home Loan Bank’s public debt is rated “AA” or better by Moody’s or Standard and Poor’s; or
- Time deposits insured by any federal agency.

Minnesota Statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the District.

At June 30, 2025, the District's deposits were not exposed to custodial credit risk. The District's deposits were sufficiently covered by federal depository insurance or by collateral held by the District’s agent in the District's name.

NOTE 2 DETAILED NOTES ON TRANSACTION CLASSES/ACCOUNTS (Continued)

2.A. DEPOSITS AND INVESTMENTS (Continued)

Investments

The District may also invest idle funds as authorized by Minnesota Statutes as follows: direct obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that received the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated "A" or better; revenue obligations rated "AA" or better; general obligations of the Minnesota Housing Finance Agency rated "A" or better; bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding $10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers. The District does not have any investment policies that would further limit investment choices. Under Minnesota Statutes, the District has expanded investment options for its fiduciary trust fund.

Investment balances at June 30, 2025 are as follows:

Investment Type	S & P's Credit Rating	Fair Value Level	Fair Value	Investment Maturities (in Years) Less Than 1	1 - 5
Pooled Investments:					
Minnesota School District Liquid Asset Fund	N/A	N/A	$ 1,763	$ 1,763	$ -
MNTrust Investment Shares Portfolio	N/A	N/A	7,366,767	7,366,767	-
Non-Pooled Investments:					
Pershing Money Market	N/A	Level 1	3,200	3,200	-
Pershing Certificates of Deposit	N/A	Level 2	987,844	987,844	-
Pershing U.S. Treasury Securities	N/A	Level 2	1,099,508	1,099,508	-
Totals			$ 9,459,082	$ 9,459,082	$ -

The table above excludes investments of $769,331, which are held in fiduciary funds. These investments consist entirely of amounts held in a pooled MNTrust money market account.

The investments of the District are subject to the following risks:

- Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota Statutes limit the District's investments.

- Custodial credit risk is the risk that in the event of a failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District does not have a formal investment policy to address custodial credit risk but typically limits its exposure by purchasing insured or registered investments.

NOTE 2 DETAILED NOTES ON TRANSACTION CLASSES/ACCOUNTS (Continued)

2.A. DEPOSITS AND INVESTMENTS (Continued)

- Concentration of Credit Risk is the risk associated with the magnitude of the District's investments (considered five percent or more) in the investments of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The District has no formal policy limiting the amounts that may be invested in any one issuer. At June 30, 2025, the District does not have a significant concentration of credit risk.

- Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District has no formal policy to address interest rate risk.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Minnesota School District Liquid Asset Fund and the MNTrust Investment Shares Portfolio are external investment pools not registered with the Securities Exchange Commission (SEC) that follow the same regulatory rules of the SEC under rule 2a7. The fair value of the position in the pools is the same as the value of the pool shares. The investments in the Minnesota School District Liquid Asset Fund and the MNTrust Investment Shares Portfolio are not subject to the credit risk classifications as noted in GASB Statement No. 72 and, therefore, are not subject to the fair value measurements noted in the previous paragraph.

2.C. NONCURRENT LIABILITIES

General Obligation (G.O.) Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. Assets of the Debt Service Fund, together with scheduled future tax levies, are dedicated for the retirement of these obligations. The annual future debt service levies authorized are equal to 105 percent of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law.

There are a number of limitations and restrictions contained in the general obligation bond indentures.

The interest rates are fixed rates that may increase by a predetermined amount each year. District-wide interest and other fiscal charges for the year ended June 30, 2025 total $594,216 on the Statement of Activities. Fund financial statement interest and fiscal charges for the year ended June 30, 2025 total $905,080. Interest expenses included in direct program expenses total $0; all bond interest and fees are included in interest and other charges.

General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Description		Original Issue Amount	Interest Rates	Final Maturity Date		Balance Outstanding
Governmental Activities						
G.O. Bonds						
G.O. Crossover Refunding Bonds, Series 2016A	$	5,160,000	2.00 - 3.00%	2/1/2028	$	1,620,000

2.C. NONCURRENT LIABILITIES (Continued)

Financing Arrangements

The District occasionally enters into financing arrangements as a means for financing the acquisition of new equipment. Collateral pledged under these agreements consists of the equipment acquired by the District through the financing arrangements. Additional information, including the outstanding balance on the financing arrangements at June 30, 2025, is as follows:

Description	Original Issue Amount	Interest Rates	Final Maturity Date	Balance Outstanding
Governmental Activities				
Financing Arrangements				
US Bank Lease-Purchase Agreement	$ 635,000	1.25 - 3.65%	8/1/2027	$ 150,000
Solar Array Financing Arrangement	84,737	0.00%	12/31/2029	36,974
Solar Array Financing Arrangement II	912,300	0.00%	10/31/2040	699,430
	$ 1,632,037			$ 886,404

At June 30, 2025, the assets acquired with the financing arrangements above have a cumulative original cost of $1,788,710 and accumulated depreciation of $490,043, for a net carrying value of $1,298,667.

Lease Liabilities

The District currently has a lease agreement with Marco for the rent of the District's copiers. In addition, the District also leases its fitness center. Because of the nature of the terms of these leases, they are considered right of use assets, with corresponding lease liabilities. Terms of these leases are detailed below. As of June 30, 2025, lease liabilities of the District's governmental activities consist of the following:

Description	Original Issue Amount	Interest Rates	Final Maturity Date	Balance Outstanding
Governmental Activities				
Lease Liabilities				
Copiers Lease	$ 49,898	4.00%	2/28/2027	$ 17,751

*The opening balance for compensated absences has been revised to reflect the impact of the adoption of GASB 101. See additional information at Note 5.D.

Bonds payable are typically funded through the Debt Service Fund, while financing arrangements and lease liabilities are typically funded through the General Fund. The aggregate change in compensated absences has been presented on a net basis.

2.D. INTERFUND TRANSACTIONS

Operating transfers consist of the following for the year ended June 30, 2025:

		Transfers In
		Nonmajor Fund
	Transfers	Food
Major Fund	Out	Service
General	$ 11,340	$ 11,340

Transfers are used to (a) move revenues from the fund in which Statute or budget requires the revenue to be collected to the fund in which Statute or budget requires the dollars be expended and to (b) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Restricted for Area Learning Center - This amount represents available resources restricted for students attending area learning centers.

Restricted for Q Comp - This amount represents available resources to be used for Quality Compensation.

Restricted for Gifted and Talented - This amount represents the unspent portion of general education aid revenue at year end restricted for programs for the gifted and talented.

Restricted for English Learner - This amount represents resources available for English Leaner students.

Restricted for Literacy Aid - This amount represents resources available for literacy aid for evidence-based literacy supports for children in prekindergarten through grade 12 based on structured literacy.

Restricted for Teacher Comp Read Act - This amount represents resources available for teacher compensation for Read Act training.

Restricted for Long-Term Facility Maintenance - This amount represents available resources for long–term facility maintenance stipulated by the District's long–term facility maintenance plan.

Restricted for Lease - This amount represents the balance of cash with fiscal agent to be used for debt payments.

Restricted for Debt Service - This amount represents restricted resources for debt service stipulated by constitution, external resource providers, or through enabling legislation.

Restricted for Building Construction - This amount represents resources to be used for building construction projects and updates to the District's facilities.

Restricted for Food Service - This amount represents restricted resources for food service stipulated by constitution, external resource providers, or through enabling legislation.

Restricted for Community Education - This amount represents available resources for community education programs. Revenues are derived from tax levies and state aids and expenditures are for salaries, benefits and supplies. Any deficits can be eliminated by future tax levies and state aids.

Restricted for Early Childhood and Family Education (ECFE) - This amount represents available resources for ECFE classes. Revenues are derived from local tax levies and state aids and expenditures are for salaries, benefits and supplies. Any deficits can be eliminated by future tax levies, state aids and program revenues.

Restricted for School Readiness - This amount represents the resources available to provide for services for school readiness programs, which includes aids, fees, grants and all other revenues received by the District for the program. Deficits can be eliminated through future state aids and program revenues.

Restricted for Adult Basic Education - This amount represents the balance of carryover monies for all activity involving Adult Basic Education, which includes state aid, grants, and local funding received by the District for the program.

Restricted for Community Service - This amount represents restricted resources for community service stipulated by constitution, external resource providers, or through enabling legislation.

Assigned for Local Collaborative Time Study - This amount represents fund balance assigned for a future local collaborative time study.

Assigned for Fundraising - This amount represents fund balance assigned for fundraising.

Assigned for Drivers Education - This amount represents fund balance assigned for driver's education.

NOTE 3 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District administers a single-employer retiree benefit plan (the Plan) through which the District provides postretirement benefits to eligible retirees and their families. An irrevocable trust, established and operated under the provisions of *Minnesota Statute* 471.6175, is used to finance benefit obligations incurred by the plan. The assets of such trust are managed in accordance with *Minnesota Statute* 118A. The Plan does not issue a publicly available financial report.

Benefits Provided

The District offers continuing group health insurance coverage after retirement for qualifying District employees. Teachers and certain other District personnel who retire from active employment may continue their single or family coverage through the District plan if they retire after reaching the age of 55 or greater with 12-15 years of uninterrupted service in the District and 20 total years serving in the education industry. District contributions toward retiree premiums will also continue until Medicare eligibility, subject to certain limitations. Benefit and eligibility provisions are established through negotiations between the District and the union representing the District's teachers and are renegotiated each two-year bargaining period. As of the most recent measurement date, there are 134 active participants, including 124 active employees and 10 retired participants.

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, regardless of whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit arises from the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

Contributions

The District's contributions to the plan for the year ended June 30, 2025 totaled $117,515, including both implicit and direct subsidies. The District has established an irrevocable trust to fund all future benefits paid under the Plan, and it is assumed that the District will make no further contributions to the trust. Accordingly, the District did not make any direct contributions to the Plan or Trust during the year ended June 30, 2025. However, implicit contributions of $57,430 were calculated and have been disclosed as an addition to the Plan Fiduciary Net Position on the following page. As discussed in the previous section, this implicit subsidy is included in the overall premiums paid by the District for active employees, from the District's General Fund.

Net OPEB Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources

At June 30, 2025, the District reported a net OPEB liability of $714,647 for the District's plan. The net OPEB liability was measured as of June 30, 2025, as determined by an actuarial valuation as of July 1, 2024.

For the year ended June 30, 2025, the District recognized OPEB expense of $59,707. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	$ 8,152	$ 89,116
Changes in actuarial assumptions	-	49,635
Differences between projected and actual investment earnings	18,221	-
Total Deferred Outflows/Inflows	$ 26,373	$ 138,751

NOTE 3 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Deferred outflows and inflows of resources related to the Plan will be recognized in the District's OPEB expense as follows:

Year Ended June 30,	Pension Expense
2026	$ (58,536)
2027	$ (18,806)
2028	$ (11,483)
2029	$ (13,127)
2030	$ (10,426)

Changes in the Net OPEB Liability

The following table summarizes changes in the net OPEB liability for the year ended June 30, 2025:

Actuarial Methods and Assumptions

The following is a summary of pertinent actuarial assumptions and methods utilized, applied to all periods included in the measurement, unless otherwise specified:

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information:	
Valuation Date	July 1, 2024
Measurement Date	June 30, 2025
Actuarial Cost Method	Entry Age, level percentage of pay.
Actuarial Assumptions:	
Discount Rate	4.70%
Salaries Increases	Service graded table
Inflation Rate	2.50%
Bond Yield	4.90%
Investment Rate of Return	3.50% (net of investment expenses)
Medical Trend Rate	6.50% in 2024 grading to 5.00% over 6 years and then to 4.00% over the next 48 years

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables with MP-2021 Generational Improvement Scale.

The long-term expected rate of return of the Plan's investments was determined using a building-block method in which best estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	100%	3.50%

Significant changes in assumptions, benefit terms, and other inputs since the prior measurement date include:

- Confidential employees must be hired by September 1, 2021 (instead of by July 1, 2016) to receive District contributions toward post-employment medical coverage.
- The total District contributions toward post-employment medical coverage for the Superintendent and Principal are limited to $40,000 per person. Previously no limit was assumed to apply.
- The longevity pay for the Principal increased from 35 to 36 days with 11 to 15 years of service and to 37 days with 16 to 20 years of service.
- The Kidville Childcare Center Site Coordinator has the same District contributions toward post-employment medical coverage as Confidential employees.
- The health care trend rates were updated.
- The expected long-term investment return was changed from 5.00 percent to 3.50 percent.
- The discount rate was changed from 4.20 percent to 4.70 percent.

NOTE 3 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Net OPEB Liability Sensitivity

The following presents the net OPEB liability, calculated using the discount rate disclosed in the preceding section, as well as what the District's net OPEB liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Sensitivity of Net OPEB Liability at Current Single Discount Rate		
	Rates	Amounts
1% Increase in Discount Rate	5.70%	$634,774
Current Discount Rate	4.70%	$714,647
1% Decrease in Discount Rate	3.70%	$796,944

The following presents the net OPEB liability, calculated using the healthcare cost trend rates disclosed in the preceding section, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current healthcare cost trend rates:

Sensitivity of Net OPEB Liability at Current Healthcare Trend Rates	
	Amounts
1% Increase in Medical Trend Rates	$852,431
Current Medical Trend Rates	$714,647
1% Decrease in Medical Trend Rates	$595,670

Concentrations

At June 30, 2025, the District's OPEB plan held the following investments, which represented more than 5 percent of the Plan's Fiduciary Net Position:

Type of Investments	Fair Value
Pooled Money Market Account	$ 769,331

Rate of Return

For the year ended June 30, 2025, the annual money-weighted rate of return on plan investments, net of investment expense, approximated 4.50 percent (net of investment expense). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE

4.A. PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

Plan Description

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). These plan provisions are established and administered according to *Minnesota Statutes* chapters 353, 353D, 353E, 353G, and 356. *Minnesota Statutes* chapter 356 defines each plan's financial reporting requirements. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.A. PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

General Employees Retirement Plan (General Plan)
Membership in the General Plan includes employees of counties, cities, townships, schools in non-certified positions, and other governmental entities whose revenues are derived from taxation, fees, or assessments. Plan membership is required for any employee who is expected to earn more than $425 in a month, unless the employee meets exclusion criteria.

Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by State Statute and can only be modified by the State Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service. When a member is "vested," they have earned enough service credit to receive a lifetime monthly benefit after leaving public service and reaching an eligible retirement age. Members who retire at or over their Social Security full retirement age with at least one year of service qualify for a retirement benefit.

General Employees Plan Benefits
General Employees Plan requires three years of service to vest. Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for General Plan members. Members hired prior to July 1, 1989, receive the higher of the Step or Level formulas. Only the Level formula is used for members hired after June 30, 1989. Under the Step formula, General Plan members receive 1.20 percent of the highest average salary for each of the first 10 years of service and 1.70 percent for each additional year. Under the Level formula, General Plan members receive 1.70 percent of highest average salary for all years of service. For members hired prior to July 1, 1989 a full retirement benefit is available when age plus years of service equal 90 and normal retirement age is 65. Members can receive a reduced requirement benefit as early as age 55 if they have three or more years of service. Early retirement benefits are reduced by .25 percent for each month under age 65. Members with 30 or more years of service can retire at any age with a reduction of .25 percent for each month the member is younger than age 62. The Level formula allows General Plan members to receive a full retirement benefit at age 65 if they were first hired before July 1, 1989 or at age 66 if they were hired on or after July 1, 1989. Early retirement begins at age 55 with an actuarial reduction applied to the benefit.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.50 percent. The 2024 annual increase was 1.50 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a prorated increase.

Contributions

Minnesota Statutes chapters 353, 353E, 353G, and 356 set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

General Employees Fund Contributions
General Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2025, and the District was required to contribute 7.50 percent for General Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2025 were $144,483. The District's contributions were equal to the required contributions as set by State Statute.

Pension Costs

General Employees Fund Pension Costs

At June 30, 2025, the District reported a liability of $787,166 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of $16 million. The State of Minnesota is considered a non-employer contributing entity, and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled $20,355.

District's proportionate share of the net pension liability:	$787,166
State of Minnesota's proportionate share of the net pension liability associated with the District	20,355
Total	$807,521

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2023 through June 30, 2024, relative to the total employer contributions received from all of PERA's participating employers. The District's proportionate share was 0.0213 percent at the end of the measurement period and 0.0222 percent for the beginning of the period.

For the year ended June 30, 2025, the District recognized pension expense of $27,557 for its proportionate share of the General Employees Plan's pension expense. In addition, the District recognized $546 as grant revenue for its proportionate share of the State of Minnesota's pension expense for the annual $16 million contribution.

During the plan year ended June 30, 2024, the State of Minnesota contributed $170.1 million to the General Employees Fund. The State of Minnesota is not included as a non-employer contributing entity in the General Employees Plan pension allocation schedules for the $170.1 million in direct state aid because this contribution was not considered to meet the definition of a special funding situation. The District recognized $36,218 for the year ended June 30, 2025 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the General Employees Fund.

At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	$ 75,235	$ -
Changes in actuarial assumptions	4,151	307,203
Differences between projected and actual investment earnings	-	230,706
Changes in proportion	-	76,148
Contributions paid to PERA subsequent to the measurement date	144,483	-
Total	$ 223,869	$ 614,057

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.A. PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

The $144,483 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Pension Expense
2026	$ (299,676)
2027	$ (64,430)
2028	$ (110,234)
2029	$ (60,331)

Total Pension Expense

The total pension expense for all PERA plans recognized by the District for the year ended June 30, 2025 was negative $107,001.

Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	33.5%	5.10%
International Equity	16.5%	5.30%
Fixed Income	25.0%	0.75%
Private Markets	25.0%	5.90%
Total	100%	

Actuarial Methods and Assumptions

The total pension liability for each of the cost-sharing defined benefit plans was determined by an actuarial valuation as of June 30, 2024, using the entry age normal actuarial cost method. The long-term rate of return on pension plan investments used to determine the total liability is 7.00 percent. The 7.00 percent assumption is based on a review of inflation and investment return assumptions from a number of national investment consulting firms. The review provided a range of investment return rates considered reasonable by the actuary. An investment return of 7.00 percent is within that range.

- Inflation is assumed to be 2.25 percent for the General Employees Plan.
- Benefit increases after retirement are assumed to be 1.25 percent for the General Employees Plan.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25 percent after one year of service to 3.00 percent after 27 years of service.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The tables are adjusted slightly to fit PERA's experience.

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.A. PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

Actuarial assumptions for the General Employees Plan are reviewed every four years. The General Employees Plan was last reviewed in 2022. The assumption changes were adopted by the board and became effective with the July 1, 2023 actuarial valuation.

The following changes in actuarial assumptions and plan provisions occurred in 2024:

General Employees Fund

Changes in Actuarial Assumptions:

- Rates of merit and seniority were adjusted, resulting in slightly higher rates.
- Assumed rates of retirement were adjusted as follows: increase the rate of assumed unreduced retirements, slight adjustments to Rule of 90 retirement rates, and slight adjustments to early retirement rates for Tier 1 and Tier 2 members.
- Minor increase in assumed withdrawals for males and females.
- Lower rates of disability.
- Continued use of Pub-2010 general mortality table with slight rate adjustments as recommended in the most recent experience study.
- Minor changes to form of payment assumptions for male and female retirees.
- Minor changes to assumptions made with respect to missing participant data.

Changes in Plan Provisions:

- The workers' compensation offset for disability benefits was eliminated. The actuarial equivalent factors updated to reflect the changes in assumptions.

Discount Rate

The discount rate used to measure the total pension liability in 2024 was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Sensitivity Analysis

	Rates	Amounts
1% Lower	6.00%	$1,719,298
Current Discount Rate	7.00%	$787,166
1% Higher	8.00%	$20,403

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

4.B. TEACHERS RETIREMENT ASSOCIATION

Plan Description

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with *Minnesota Statutes*, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota State Colleges and Universities). Educators first hired by Minnesota State may elect either TRA coverage within one year of eligible employment or elect coverage through the Defined Contribution Retirement Plan (DCR) administered by Minnesota State. A teacher employed by Minnesota State and electing DCR plan is not a member of TRA except for purposes of social security coverage.

Benefits Provided

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any consecutive 60 months of formula service, age and years of formula service credit at termination of service. TRA members belong to either the Basic or Coordinated Plan.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

Tier I	Step Rate Formula	Percentage
Basic	First ten years of service	2.2 percent per year
	All years after	2.7 percent per year
Coordinated	First ten years if service years are up to July 1, 2006	1.2 percent per year
	First ten years if service years are July 1, 2006 or after	1.4 percent per year
	All other years of service if service years are up to July 1, 2006	1.7 percent per year
	All other years of service if service years are July 1, 2006 or after	1.9 percent per year

With these provisions:

(a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.

(b) 3 percent per year early retirement reduction factor for all years under normal retirement age.

(c) Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

Or

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.B. TEACHERS RETIREMENT ASSOCIATION (Continued)

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.70 percent per year for coordinated members and 2.70 percent per year for basic members is applied. For years of service July 1, 2006 and after, a level formula of 1.90 percent per year for coordinated members and 2.70 percent per year for Basic members applies. An early retirement reduction is applied to members retiring prior to age 65. Members who reach age 62 with 30 years of service have a lower (more favorable to the member) reduction rate applied.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66. After July 1, 2024, the age will change to not to exceed 65. An early retirement reduction is applied to members retiring before age 66, but will be age 65 after July 1, 2024. Members who reach age 62 with 30 years of service have a lower (more favorable to the member) early retirement reduction rate applied.

Six different types of annuities are available to members upon retirement. The No Refund Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

Contributions

Per *Minnesota Statutes*, Chapter 354 sets the contribution rates for employees and employers. Rates for the fiscal year 2025 for coordinated were 7.75 percent for the employee and 8.75 percent for the employer. Basic rates were 11.25 percent for the employee and 12.75 percent for the employer. The District's contributions to TRA for the plan's fiscal year ended June 30, 2025 were $457,943. The District's contributions were equal to the required contributions for each year as set by State Statute.

Actuarial Assumptions

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information:	
Experience study	August 2, 2023 (demographic and economic assumptions)*
Actuarial cost method	Entry Age Normal
Actuarial Assumptions:	
Investment rate of return	7.00%
Price inflation	2.50%
Wage growth rate	2.85% before July 1, 2028 and 3.25% after June 30, 2028
Projected salary increase	2.85% to 8.85% before July 1, 2028 and 3.25% to 9.25% after June 30, 2028
Cost of living adjustment	1.00% for January 2019 through January 2023, then increasing by 0.10% each year up to 1.50% annually.
Mortality Assumptions:	
Pre-retirement:	PubT-2010(A) Employee Mortality Table, male rates set forward 1 year and female rates unadjusted. Generational projection uses the MP-2021 scale.
Healthy retirees:	PubT-2010 (A) Retiree Mortality Table, male rates set forward 1 year and female rates unadjusted. Generational projection uses the MP-2021 scale.
Beneficiaries:	Pub-2010 (A) Contingent Survivor Mortality Table, male rates set forward 1 year and female rates unadjusted. Generational projection uses the MP-2021 scale.
Disabled retirees:	PubNS-2010 Disabled Retiree Mortality Table, male rates set forward 1 year and female rates unadjusted. Generational projection uses the MP-2021 scale.

*The assumptions prescribed are based on the experience study dated August 2, 2023. For GASB 67 purposes, the long-term rate of return assumptions is selected by TRA management in consultation with actuary.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Geometric Mean)
Domestic Equity	33.50%	5.10%
International Equity	16.50%	5.30%
Private Markets	25.00%	5.90%
Fixed Income	25.00%	0.75%
Total	100%	

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.B. TEACHERS RETIREMENT ASSOCIATION (Continued)

Changes in actuarial assumptions since the 2023 valuation:

- Mortality tables were updated for active employees, retirees, disabled retirees, and contingent beneficiaries to recently published tables derived from public plan data known as the Pub2010 family.
- Retirement rates were increased for some of the Tier II early retirement ages and some of the unreduced retirement rates were modified for both tiers to better align with actual experience.
- Probability that new female retirees elect either the Straight Life Annuity or 100 percent Joint & Survivor Annuity were refined to reflect the actual experience.
- Termination rates were reduced in the first 10 years of employment and slightly increased in years 16 to 25 to better match the observed experience.
- Disability rates were decreased beyond age 45 by 15 percent to reflect the continued lower than expected observations.

Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. There was no change in the discount rate since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2024 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the State will be made at current statutorily required rates. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability

At June 30, 2025, the District reported a liability of $4,498,859 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024 . The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis and Minneapolis School District. The District's proportionate share was 0.0708 percent at the end of the measurement period and 0.0728 percent for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District’s proportionate share of net pension liability	$4,498,859
State’s proportionate share of the net pension liability associated with the District	$294,244

For the year ended June 30, 2025, the District recognized pension expense of $284,438. It also recognized $16,175 as an increase to pension expense for the support provided by direct aid.

During the plan year ended June 30, 2024, the State of Minnesota contributed $176 million to the Fund. The State of Minnesota is not included as a non-employer contributing entity in the plan pension allocation schedules for the $176 million in direct state aid because this contribution was not considered to meet the definition of a special funding situation. The District recognized $124,726 for the year ended June 30, 2025 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota’s on-behalf contributions to the Fund.

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE (Continued)

4.B. TEACHERS RETIREMENT ASSOCIATION (Continued)

On June 30, 2025, the District had deferred resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 214,184	$ 59,709
Changes in assumptions	459,446	536,501
Differences between projected and actual investment earnings	-	627,869
Changes in proportion	105,626	137,604
Contributions made to TRA subsequent to the measurement date	457,943	-
Total Deferred Outflows/Inflows	$ 1,237,199	$ 1,361,683

The $457,943 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and (deferred inflows of resources) will be recognized in pension expense as follows:

Year Ended June 30,	Pension Expense
2026	$ (266,165)
2027	$ 432,166
2028	$ (353,735)
2029	$ (296,174)
2030	$ (98,519)

Pension Liability Sensitivity

The following presents the net pension liability of TRA calculated using the discount rate of 7.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate.

Sensitivity of Net Pension Liability (NPL) to changes in the discount rate

1 percent decrease (6.00%)	Current (7.00%)	1 percent increase (8.00%)
$7,922,754	$4,498,859	$1,680,912

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at https://minnesotatra.org, by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling 651-296-2409 or 800-657-3669.

NOTE 5 OTHER INFORMATION

5.A. COMMITMENTS AND CONTINGENCIES

Federal and State Programs

Amounts received or receivable from Federal and State agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time. However, management of the District expects such amounts, if any, to be immaterial.

Solar Energy Contract

During the current year, the District entered into a financing agreement for solar panels. Related to this agreement, the District has committed to pay for energy monthly through the fiscal year ended June 30, 2041. Future commitments under this agreement are as follows:

Years Ending June 30,	Amount
2026	$ 31,442
2027	33,007
2028	35,043
2029	36,919
2030	38,637
2031-2035	224,968
2036-2040	281,969
2041	20,823
Total	$ 702,808

Transportation Contract

The District has entered into a transportation contract for the next two school years. Total commitments under this contract are $1,051,097.

5.B. RISK MANAGEMENT

Claims and Judgements

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To manage these risks, the District purchases commercial insurance. The District retains risk for the deductible portions of the insurance. The amounts of these deductibles are considered immaterial to the financial statements. There were no significant reductions in insurance from the previous year settlements in excess of insurance for any of the past two years. The District is also self-insured for state reemployment compensation insurance.

NOTE 5 OTHER INFORMATION (Continued)

5.C. OTHER EMPLOYEE BENEFITS

Defined Contribution Plan

The District provides eligible employees future retirement benefits through the District's 403(b) Plan (the Plan). The District has contracted with a private brokerage firm to establish the Plan, and plan assets are not held in a formal trust meeting the criteria defined by GASB No. 73, par 4. The District's Board of Education acts as the plan administrator, but the District is not involved with the investment decisions for plan assets. Contributions are invested in tax deferred annuities selected and owned by Plan participants. Employees of the District are eligible to participate in the Plan commencing on the date of their employment. Eligible employees may elect to have a percentage of their pay contributed to the Plan. Some employees are eligible to receive a District match of employee contributions up to the qualifying amounts set forth in their respective collective bargaining agreements. The District's contributions to the plan total $92,684 for the year ended June 30, 2025.

5.D. ADJUSTMENTS AND RESTATEMENTS

During the current year, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. This statement increases the usefulness of governmental financial statements by updating the recognition and measurement guidance for compensated absences. The effects of this change in accounting principle are summarized in the table below in the "Change in Accounting Principle" column.

	Net Position 6/30/2024 As Previously Reported	Change in Accounting Principle	Net Position 6/30/2024 As Adjusted or Restated

NOTE 1 EXPENDITURES IN EXCESS OF BUDGET

Actual expenditures in the General Fund did not exceed budgeted amounts for the year ended June 30, 2025.

NOTE 2 OTHER POSTEMPLOYMENT BENEFIT PLAN

2025 Changes

Changes in Actuarial Assumptions

- The health care trend rates were updated.
- The expected long-term investment return was changed from 5.00 percent to 3.50 percent.
- The discount rate was changed from 4.20 percent to 4.70 percent.

Changes in Plan Provisions

- Confidential employees must be hired by September 1, 2021 (instead of by July 1, 2016) to receive District contributions toward post-employment medical coverage.
- The total District contributions toward post-employment medical coverage for the Superintendent and Principal are limited to $40,000 per person. Previously no limit was assumed to apply.
- The longevity pay for the Principal increased from 35 to 36 days with 11 to 15 years of service and to 37 days with 16 to 20 years of service.
- The Kidville Childcare Center Site Coordinator has the same District contributions toward post-employment medical coverage as Confidential employees.

2024 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 4.10 percent to 4.20 percent.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2023 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 3.80 percent to 4.10 percent
- The expected long-term investment return was changed from 3.40 percent to 5.00 percent.
- The health care trend rates, mortality rates, salary increase rates for non-teachers, and withdrawal rates were updated.

Changes in Plan Provisions

- The limit on total district contributions towards post-employment medical coverage for confidential employees was raised from $35,000 to $40,000.
- The new Activities Director has a total contribution limit of $40,000. The previous Activities Director did not have a limit.
- An early retirement incentive of $6,000, paid to a HCSP during August 2022, was elected by two Teachers who retired at the end of the 2021-2022 school year. The plan change for these two Teachers also includes a corresponding increase in their implicit rate medical subsidy.
- Teacher must be hired by September 1, 2021 in order to receive district contributions towards post-employment medical coverage.

NOTE 2 OTHER POSTEMPLOYMENT BENEFIT PLAN (Continued)

2022 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 2.20 percent to 3.80 percent
- The expected long-term investment return was changed from 2.90 percent to 3.40 percent.

Changes in Plan Provisions

- Principals hired before September 1, 2021 with 10 years of service will be granted 35 days of longevity pay at the principal's current daily rate of pay. This benefit will be paid in two payments on January 15th of the next two years paid to an HCSP.

2021 Changes

Changes in Actuarial Assumptions

- The health care trend rates, mortality tables, and salary scale assumptions were updated.
- The discount rate was changed from 2.50 percent to 2.20 percent.

Changes in Plan Provisions

- The new Superintendent receives a post-employment direct subsidized benefit of the single premium rate (same as teachers) paid annually until Medicare eligibility upon attainment of age 55 and 12 years of service (same structure as Principals).
- Teachers who have attained age 55 with at least 15 years of service were offered an Early Retirement Incentive of a one-time $6,600 lump sum paid to a HCSP.

2020 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 2.90 percent to 2.50 percent.
- The expected long-term investment rate of return was changed from 1.30 percent to 2.90 percent.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2019 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 3.30 percent to 2.90 percent.
- Healthcare trend rates and mortality tables were updated.

Changes in Plan Provisions

- Activity Director's eligibility to receive a GASB 75 post-employment subsidy was changed from age 55 with 12 years of service with the District to age 55 with 15 years of service with the District. The amount of the subsidy is now based on the same amount as active employees instead of the same amount as Teachers.

NOTE 2 OTHER POSTEMPLOYMENT BENEFIT PLAN (Continued)

- A post-employment subsidy was added for Confidential Staff hired before July 1, 2016 who have attained age 55 with 15 years of service with the District. The amount of the subsidy equals the same contribution as active employees toward single medical coverage, frozen at retirement, and payable until the earlier of Medicare eligibility or a total of $35,000 is paid.

2018 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 2.75 percent to 3.30 percent.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2017 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 3.00 percent to 2.75 percent.
- The health care trend rates were changed to better anticipate short term and long term medical increases.
- The mortality table was updated from RP-2000 projected to 2014 with Scale BB to the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale.
- The withdrawal table for all employees and retirement table for only employees eligible to retire with Rule of 90 also were updated.
- The actuarial cost method was changed from projected unit credit to entry age as prescribed by GASB 74/75.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

NOTE 3 PUBLIC EMPLOYEES RETIREMENT ASSOCIATION – GENERAL EMPLOYEES FUND

2024 Changes

Changes in Actuarial Assumptions

The following changes in assumptions are effective with the July 1, 2024 valuation, as recommended in the most recent experience study (dated June 29, 2023):

- Rates of merit and seniority were adjusted, resulting in slightly higher rates.
- Assumed rates of retirement were adjusted as follows: increase the rate of assumed unreduced retirements, slight adjustments to Rule of 90 retirement rates, and slight adjustments to early retirement rates for Tier 1 and Tier 2 members.
- Minor increase in assumed withdrawals for males and females.
- Lower rates of disability.
- Continued use of Pub-2010 general mortality table with slight rate adjustments as recommended in the most recent experience study.
- Minor changes to form of payment assumptions for male and female retirees.
- Minor changes to assumptions made with respect to missing participant data.

NOTE 3 PUBLIC EMPLOYEES RETIREMENT ASSOCIATION – GENERAL EMPLOYEES FUND (Continued)

Changes in Plan Provisions

- The workers' compensation offset for disability benefits was eliminated. The actuarial equivalent factors updated to reflect the changes in assumptions.

2023 Changes

Changes in Actuarial Assumptions

- The investment return assumption and single discount rate were changed from 6.50 percent to 7.00 percent.

Changes in Plan Provisions

- An additional one-time direct state aid contribution of $170.1 million will be contributed to the Plan on October 1, 2023.
- The vesting period of those hired after June 30, 2010 was changed from five years of allowable service to three years of allowable service.
- The benefit increase delay for early retirements on or after January 1, 2024, was eliminated.
- A one-time, non-compounding benefit increase of 2.50 percent minus the actual 2024 adjustment will be payable in a lump sum for calendar year 2024 by March 31, 2024.

2022 Changes

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

2021 Changes

Changes in Actuarial Assumptions

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

2020 Changes

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.

NOTE 3 PUBLIC EMPLOYEES RETIREMENT ASSOCIATION – GENERAL EMPLOYEES FUND (Continued)

- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent Joint & Survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent Joint & Survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023 and 0.00 percent after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from $31.0 million to $21.0 million per year. The State's special funding contribution was changed prospectively, requiring $16.0 million due per year through 2031.

2018 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Annual increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.

NOTE 3 PUBLIC EMPLOYEES RETIREMENT ASSOCIATION – GENERAL EMPLOYEES FUND (Continued)

- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and non-vested deferred members. The revised CSA loads are now 0.00 percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for non-vested deferred member liability.
- The assumed annual increase rate was changed from 1.00 percent per year for all years to 1.00 percent per year through 2044 and 2.50 percent per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals $16,000,000 in 2017 and 2018, and $6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from $21,000,000 to $31,000,000 in calendar years 2019 to 2031. The State's contribution changed from $16,000,000 to $6,000,000 in calendar years 2019 to 2031.

2016 Changes

Changes in Actuarial Assumptions

- The assumed annual increase rate was changed from 1.00 percent per year through 2035 and 2.50 percent per year thereafter to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

2015 Changes

Changes in Actuarial Assumptions

- The assumed annual increase rate was changed from 1.00 percent per year through 2030 and 2.50 percent per year thereafter to 1.00 percent per year through 2035 and 2.50 percent per year thereafter.

Changes in Plan Provisions

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by $1.1 billion and increased the fiduciary plan net position by $892 million. Upon consolidation, State and employer contributions were revised; the State's contribution of $6.0 million, which meets the special funding situation definition, was due September 2015.

NOTE 4 TEACHERS RETIREMENT ASSOCIATION

2024 Changes

Changes in Actuarial Assumptions

- Mortality tables were updated for active employees, retirees, disabled retirees, and contingent beneficiaries to recently published tables derived from public plan data known as the Pub2010 family.
- Retirement rates were increased for some of the Tier II early retirement ages and some of the unreduced retirement rates were modified for both tiers to better align with actual experience.
- Probability that new female retirees elect either the Straight Life Annuity or 100% Joint & Survivor Annuity were refined to reflect the actual experience.
- Termination rates were reduced in the first 10 years of employment and slightly increased in years 16 to 25 to better match the observed experience.
- Disability rates were decreased beyond age 45 by 15 percent to reflect the continued lower than expected observations.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2023 Changes

Changes in Actuarial Assumptions

The 2023 Tax Finance and Policy Bill, effective July 1, 2025:

- The employer contribution rate will increase from 8.75 percent to 9.50 percent on July 1, 2025.
- The employee contribution rate will increase from 7.75 percent to 8.00 percent on July 1, 2025.
- The pension adjustment rate for school districts and the base budgets for Minnesota State, Perpich Center for Arts Education, and Minnesota Academies will increase to reflect the 0.75 percent employer contribution rate increase.

The 2024 Omnibus Pensions and Retirement Bill:

- The Normal Retirement Age (NRA) for active and eligible deferred Tier II members will be 65 effective July 1, 2024.
- TRA's amortization date will remain the same at 2048.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2022 Changes

Changes in Actuarial Assumptions

- There have been no changes since the prior valuation.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2021 Changes

Changes in Actuarial Assumptions

- For GASB Valuation:
    - The investment return assumption was changed from 7.50 percent to 7.00 percent.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2018 Changes

Changes in Actuarial Assumptions

- The COLA was reduced from 2.00 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The State provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

NOTE 4 TEACHERS RETIREMENT ASSOCIATION (Continued)

2017 Changes

Changes in Actuarial Assumptions

- The Cost of Living Adjustment (COLA) was assumed to increase from 2.00 percent annually to 2.50 percent annually on July 1, 2045.
- The COLA was not assumed to increase to 2.50 percent, but remain at 2.00 percent for all future years.
- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.40 percent to 0.00 percent, the vested inactive load increased from 4.00 percent to 7.00 percent and the non-vested inactive load increased from 4.00 percent to 9.00 percent.
- The investment return assumption was changed from 8.00 percent to 7.50 percent.
- The price inflation assumption was lowered from 2.75 percent to 2.50 percent.
- The payroll growth assumption was lowered from 3.50 percent to 3.00 percent.
- The general wage growth assumption was lowered from 3.50 percent to 2.85 percent for ten years followed by 3.25 percent thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2016 Changes

Changes in Actuarial Assumptions

- The COLA was not assumed to increase for funding or the GASB calculation. It remained at 2.00 percent for all future years.
- The price inflation assumption was lowered from 3.00 percent to 2.75 percent.
- The general wage growth and payroll growth assumptions were lowered from 3.75 percent to 3.50 percent.
- Minor changes as some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP-2014 white collar employee table, male rates set back 6 years and female rates set back 5 years. Generational projection uses the MP-2015 scale.
- The post-retirement mortality assumption was changed to the RP-2014 white collar annuitant table, male rates set back 3 years and female rates set back 3 years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.
- The post-disability mortality assumption was changed to the RP-2014 disabled retiree mortality table, without adjustment.
- Separate retirement assumptions for members hired before or after July 1, 1989, were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional form of annuity payment at retirement were made.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

NOTE 4 TEACHERS RETIREMENT ASSOCIATION (Continued)

2015 Changes

Changes in Actuarial Assumptions

- The annual COLA for the June 30, 2015, valuation assumed 2.00 percent. The prior year valuation used 2.00 percent with an increase to 2.50 percent commencing in 2034.
- The discount rate used to measure the total pension liability was 8.00 percent. This is a decrease from the discount rate at the prior measurement date of 8.25 percent.

Changes in Plan Provisions

- The DTRFA was merged into TRA on June 30, 2015.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board of Education
Independent School District No. 881
Maple Lake, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 881 (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Independent School District No. 881's basic financial statements, and have issued our report thereon dated November 6, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Independent School District No. 881's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying *Schedule of Findings and Responses*, we identified certain deficiencies in internal control that we consider to be a material weakness and a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying *Schedule of Findings and Responses* as item 2008-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying *Schedule of Findings and Responses* as item 2008-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

In connection with our audit, nothing came to our attention that caused us to believe that Independent School District No. 881 failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards sections of the *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Independent School District No. 881's response to the findings identified in our audit and described in the accompanying *Schedule of Findings and Responses* and *Corrective Action Plans*. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHLENNER WENNER & CO.
St. Cloud, Minnesota
November 6, 2025

INDEPENDENT SCHOOL DISTRICT NO. 881
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2025

FINANCIAL STATEMENT FINDINGS

Finding 2008-001 Limited Segregation of Duties

Condition: During our audit we reviewed procedures over cash receipts, cash disbursements, payroll and financial reporting and found the District to have limited segregation of duties over those transaction cycles.

Criteria: Internal control that supports the District's ability to initiate, record, process and report financial data consistent with the assertions of management in the financial statements requires adequate segregation of accounting duties. In other words, no one person had control over two or more of these responsibilities.

Cause: Limited number of staff members.

Effect: The existence of limited segregation of duties could adversely affect the District's ability to initiate, record, process and report financial data consistent with the assertions of management in the financial statements.

Recommendation: Although the number of staff members may not be large enough to eliminate this deficiency, we recommend that the District evaluate current procedures and segregate where possible and implement compensating controls. It is important that the Board is aware of this condition and monitor all financial information.

Views of Responsible Officials and Planned Corrective Actions: Management agrees with our recommendation. See corresponding Corrective Action Plan.

Finding 2008-002 Financial Statement Preparation

Condition: Schlenner Wenner & Co. drafted the audited financial statements and related footnote disclosures for the District. It is management's responsibility to provide for the preparation of financial statements and the auditors' responsibility to determine the fairness of the presentation. This deficiency could result in a material misstatement that could have been prevented or detected by management.

Criteria: Internal controls over financial reporting should be in place to provide for the preparation of financial statements on an annual basis.

Cause: The District's staff does not possess the expertise to prepare financial statements internally. This is not unusual for an organization of your size.

Effect: The inability to internally prepare the District's financial statements can result in undetected errors in financial reporting.

Recommendation: We recommend that management review a draft of the financial statements in detail for accuracy. During review we recommend a disclosure checklist be utilized to ensure all required disclosures are presented and the District should agree the financial statement numbers to their accounting software. The District may not have the ability to eliminate this finding.

FINANCIAL STATEMENT FINDINGS (Continued)

Finding 2008-002 **Financial Statement Preparation** (Continued)

Views of Responsible Officials and Planned Corrective Actions: The District will continue to have the auditor assist in preparation of the financial statements. The District will continue to document an annual review of the audited financial statements by having the auditor meet with the District personnel to review the financial statements and related footnote disclosures.

INDEPENDENT SCHOOL DISTRICT NO. 881
CORRECTIVE ACTION PLANS
FOR THE YEAR ENDED JUNE 30, 2025

FINANCIAL STATEMENT FINDINGS

Finding 2008-001 Limited Segregation of Duties

1. Explanation of Disagreement with Audit Finding
   There is no disagreement with the audit finding.

2. Actions Planned in Response to Finding
   The District currently has the following procedures in place:
   - Once the Finance Manager assigns coding and checks the budget for requisitions, the purchase orders are sent to the principals for approval, who often consult with the Superintendent.
   - The Board of Education reviews the monthly invoices and approves the expenditures.

   The District will review current procedures and implement additional controls where possible.

3. Official Responsible
   Mr. Mike Rowe, Superintendent, is the official responsible for ensuring corrective action.

4. Planned Completion Date
   The Corrective Action Plan will be reviewed on an ongoing basis with no anticipated completion date.

5. Plan to Monitor Completion
   The Board of Education will be monitoring this Corrective Action Plan.

Finding 2008-002 Financial Statement Preparation

1. Explanation of Disagreement with Audit Finding
   There is no disagreement with the audit finding.

2. Actions Planned in Response to Finding
   The District will continue to have the auditor prepare the financial statements; however, the District will document the annual review of the financial statements and related footnote disclosures.

3. Official Responsible
   Mr. Mike Rowe, Superintendent, is the official responsible for ensuring corrective action.

4. Planned Completion Date
   The Corrective Action Plan will be reviewed on an ongoing basis with no anticipated completion date.

5. Plan to Monitor Completion
   The Board of Education will be monitoring this Corrective Action Plan.
