Middle School Presentation: Vista View

Vista View Middle School Principal Manny Quezada and teacher Julie Lapic presented an overview of the school's Positive Behavioral Interventions and Supports (PBIS) Rewards program and its impact on school culture. PBIS Rewards is a digital platform that enables staff to recognize and reward students for demonstrating positive behaviors aligned with schoolwide expectations: Safety First, On Time, On Task, Organized, Academic Excellence, and Respect & Responsible (SOAR). Through the program, students earn points that can be redeemed at the SOAR Store for items such as school supplies, snacks, spirit wear, and prizes. Since its implementation, the program has generated thousands of positive recognitions each month, contributed to a decrease in discipline incidents, and increased student engagement. As a result, the overall campus culture has become more connected, supportive, and motivating. Several Vista View students also spoke at the meeting, sharing firsthand how PBIS Rewards has positively influenced their school experience.

Measure R Citizens' Bond Oversight Committee Concludes

Mark Bixby, Committee Chair for the Measure R Citizens' Bond Oversight Committee, presented the 2024–25 Annual and Final Report to the Board. Mr. Bixby emphasized that the committee fulfilled its promise to taxpayers by ensuring that Measure R funds were spent responsibly and transparently. He expressed his gratitude to District staff and consultants for their support throughout the process, noting that their professionalism made the committee's work seamless. He concluded his remarks with a special note of appreciation to all who contributed to the success of Measure R.

CAASPP and California School Dashboard Presentation

Superintendent Dr. Julianne Hoefer presented an overview of the 2024–25 California Assessment of Student Performance and Progress (CAASPP) results and the California School Dashboard indicators. The presentation highlighted District-wide performance in English Language Arts, mathematics, science, and English language proficiency, showing overall consistency with prior-year scores and notable gains in science. The Dashboard reported the District's performance as green in English language arts and science, yellow in mathematics and English learner progress, with chronic absenteeism orange due to it getting worse. Dr. Hoefer also outlined steps to support growth, including improving daily attendance, emphasizing systematic reading instruction in early grades, expanding writing across the curriculum, preparing for a new textbook adoption in 2026–27, and continuing implementation of programs such as Character Strong, Second Step, and PBIS to strengthen academic and social-emotional outcomes. The full presentation can be viewed here.

OVSD Partners With HBCSD

The OVSD is pleased to announce the approval of a joint-use agreement with the Huntington Beach City School District (HBCSD) to share OVSD's existing transportation facility. Approved by both Boards, this partnership provides a long-term, cost-effective solution that allows the District to collaborate with a neighboring district to maximize resources, reduce costs, and enhance operational efficiency. Through this joint-use arrangement, HBCSD will: secure reliable space for bus storage and daily operation, provide parking for drivers and dispatch coordination, support the safe and efficient management of routes and schedules. OVSD families can be assured that transportation services will continue without interruption, using OVSD drivers and buses. OVSD is excited about its partnership with HBCSD, as this initiative demonstrates how school districts can work collectively to deliver greater value to students and the community.

Next Board Meeting is Tuesday, December 9, 2025
