B. Safe School Mission

Our schools will provide a safe, welcoming, engaging, and comprehensive environment for all students that fosters learning and nurtures the whole child. Differences and diversity will be respected and celebrated. All students will receive support as needed to succeed inside and outside our classrooms.

C. Description of School Facilities

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. Garden Grove IMPACT Academy's original facilities were built in 1969; ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. The District Governing Board has adopted cleaning standards for all schools in the District. A summary of these standards is available at the school office, at the District Office, or on the Internet at www.simivalleyusd.org.

Garden Grove Elementary School is a closed campus. During school hours, all visitors must sign in at the school's office with a valid state issued identification to be scanned through the visitor management system and wear an identification sticker while on school grounds. They must then check out at the school office upon exit from the school site. Security cameras are installed throughout the campus.

V. School Safety Practices, Policies and Procedures

A. Adapting Routine and Emergency Disaster Procedures for Students with Disabilities

Emergency preparedness and response programs must be made accessible to people with disabilities and is required by the Americans with Disabilities Act or 1990 (ADA). Disabilities would include but not be limited to mobility, vision, hearing, cognitive disorders, mental illnesses and language barriers. Included in the District's planning efforts for those with disabilities are notification and warning procedures, evacuation considerations, emergency transportation issues, sheltering requirements, accessibility to medications, refrigeration, accessibility to mobility devices while in transit or at shelter and accessibility to information.

B. Bully Prevention

District Policy

The Board recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and desires to provide a welcoming, safe, and supportive school environment that protects students from physical, mental, and emotional harm. No individual or group shall, through physical, written, verbal, visual, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the district's uniform complaint procedures specified in Administrative Regulation 1312.3. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

If the Superintendent or designee believes it is in the best interest of a student who has been the victim of an act of bullying, as defined in Education Code 48900, the Superintendent or designee shall advise the student's parents/guardians that the student may transfer to another school. If the parents/guardians of a student who has been the victim of an act of bullying requests a transfer for the student pursuant to Education Code 46600, the Superintendent or designee shall allow the transfer in accordance with law and district policy on intradistrict or interdistrict transfer, as applicable.

District families are encouraged to model respectful behavior, contribute to a safe and supportive learning environment, and monitor potential causes of bullying.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

District-wide Implementation

The Collaborative for Academic Social and Emotional Learning (CASEL) states that social and emotional learning is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions; set and achieve positive goals; feel and show empathy for others; establish and maintain positive relationships; and make responsible decisions. (Collaborative for Academic, Social and Emotional Learning, 2019)

Research supports the integration of SEL practices to increase academic achievement. When integrating the five core social and emotional competencies identified by CASEL, students have shown an increase of 11% gain in academic achievement. The competencies include self-awareness, self-management, social-awareness, relationship skills, and responsible decision making (Collaborative for Academic, Social, and Emotional Learning, 2019). When these skills are present, students can overcome adversity and persevere.

Social-Emotional Learning (SEL) reflects the role of positive relationships and emotional connections in the learning process and helps students develop a range of skills they need for school and life. (adapted from the California Department of Education)

SEL skills include the ability to:

- Set and achieve positive goals.
- Feel and show empathy for others.
- Establish and maintain positive relationships.
- Make responsible decisions.
- Understand and manage emotions.
- All of these skills are necessary—both for educators and students—to function well in the classroom, in the community, and in college and careers.

While many teachers instinctively know that SEL is important, historically schools have been primarily focused on teaching academic content such as reading, math, science, and history, and less intentional about supporting the social and emotional skills that are so important to learning and life success.

In Simi Valley Schools, we know that when a student feels valued, respected, liked, and nurtured, and is connected to their school community through peers and trusted adults, that student will generally perform better in academics and relationships. As a public school district, we are committed to providing the best educational experience for every child who comes to us. SEL is a vital part of this effort.

With SEL as a focus for our staff and students, we strive to provide resources as needed to support their emotional well-being. In order to best assess what resources might be needed for our students, we issue an annual survey at the start of the school year that asks age-appropriate questions of our 3rd through 12th grade students. The survey topics for grades 3, 4 and 5 include growth-mindset, emotional regulation, teacher-student relationships and sense of well-being. For grades 6 through 12, the survey topics are positive feelings and challenging feelings.

The district provides a student survey annually that contains information related to SEL and contains questions related to bullying. The data from the survey provides us with specific information that allows us to tailor programs and intervention services for our students. The individual student's data is only available to our district's counselors and administrators (principals, assistant principals, etc...), and is used to drive services to a student in need. The overall data (by school, grade, etc...) is used to assess, modify and create programs to benefit students, including staff training.

Academic and social-emotional supports include our district social worker, five elementary school counselors, freshmen counselors at the high schools, counseling support and referral services, school-wide wellness and positive behavior programs, and more.

Parents/Guardians may have their student opt-out of participating in the survey. The link to the opt-out form is on this page. Please know that the more students who freely answer the survey, the more accurate the assessment will be for the needs of these students.

For more information, please contact Dr. Jamie Snodgrass, Director of Instruction and Pupil Services at jamie.snodgrass@simivalleyusd.org or (805) 306-4500, Extension 4204.

I. Instructional Continuity Plan (ICP)

Simi Valley Unified School District Instructional Continuity Plan

Purpose: Per California Education Code 46393, there is an increased need for local educational agencies to provide instructional continuity for students when conditions make in-person instruction infeasible for all or some students, and that maintaining access to instruction during a natural disaster or emergency is crucial in mitigating the negative impacts of lost learning time and supporting student mental health. This plan addresses the requirements as outlined in California Education Code 46393.

Simi Valley Unified School District's (SVUSDs) first priority will always be to serve students through in-person instruction as quickly as possible following a natural disaster or other emergency event. Independent study is offered to any student impacted by any of the conditions listed in Educational Code Section 46392 within 10 instructional days of the first day of a school closure or material decrease in attendance. Students who are individuals with exceptional needs shall receive the services identified in their Individualized Education Programs pursuant to paragraph (9) of subdivision (a) of Section 56345 and may participate in an independent study program.

Continuity of Instruction: Based on the specifics of the natural disaster or other emergency, students may be provided hard copies of instructional materials, synchronous or asynchronous online instructional activities or other communications technology.

Supports for Students with Unique Needs: As described above, students with Individualized Educational Programs (IEPs) shall receive the specific services as outlined in the Emergency Conditions Provisions section of their Individualized Education Programs (IEPs). This may include:

- Interaction, instruction, and check-ins between teachers and students through the use of computer or communications technology
- Video or audio instruction in which the primary mode of communication between the pupil and certificated employee is online interaction, instructional television, video, telecourses, or other instruction that relies on computer or communications technology
- The use of print materials incorporating assignments that are the subject of written or oral feedback. Students with IEPs may participate in an independent study program if their IEP states independent study is their recommended and agreed to program.

Student Participation and Progress: SVUSD will adhere to all applicable independent study education code and SVUSD policies and administrative regulations linked here: SVUSD [BP 6158](#) and SVUSD [AR 6158](#).

Access to Instructional Materials Including Devices and Connectivity: Students will be provided instructional materials as outlined in their independent study plan and/or Individualized Education Plan. Should students require technology devices as part of their instructional program during school closures, SVUSD will provide them.

J. Mass Care and Welfare Shelters

The Simi Valley Unified School District has a shelter agreement with the American National Red Cross (Red Cross), a not-for-profit corporation chartered by the United States Congress as part of its disaster relief activities and partnership.

Simi Valley Unified School District has been identified as a disaster relief shelter for the community. Potential emergencies could include natural disaster, i.e., fires, floods, earthquakes, or human made incidents, such as, chemical spills, terrorist attacks, etc., which might necessitate the evacuation and mass care (sheltering and feeding) for a number of people, including district staff, students, and visitors.

By agreement, the City of Simi Valley works in partnership with Simi Valley Unified School District to assist in the determination for the need for shelters and is the agency that is acknowledged by the Simi Valley Unified School District exclusively for this guidance. (Education Code 49468.2)

Volunteer employees shall receive initial and annual refresher training, based on standards adopted by the SPI, regarding the recognition and response to seizures and the administration of emergency anti-seizure medication. The training shall be provided at no cost to the employee, conducted during regular working hours, and be provided by a school nurse or other qualified person designated by an authorizing physician and surgeon. 2. Ensuring that each school establishes clear rules for student and staff conduct and implements strategies to promote a positive, supportive, and collaborative school climate

The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff are responsible for teaching and modeling respectful behavior and building safe and supportive learning environments, and are expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Policy SIMI VALLEY UNIFIED SCHOOL DISTRICT

Adopted: March 15, 1994 Simi Valley, California

Revised: December 17, 2019

15. Discipline – BP 5144

The Governing Board is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and achievement and desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent/guardian involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

The Superintendent or designee shall develop effective, age-appropriate strategies for maintaining a positive school climate and responding appropriately to student misbehavior at district schools. The strategies shall focus on providing students with needed supports; communicating clear, appropriate, and consistent expectations and consequences for student conduct; and ensuring equity and continuous improvement in the implementation of district discipline policies and practices.

In addition, the Superintendent or designee's strategies for responding to student misconduct shall reflect the Board's preference for the use of positive interventions and alternative disciplinary measures over exclusionary discipline measures.

Disciplinary measures that may result in loss of instructional time or cause students to be disengaged from school, such as detention, suspension, and expulsion, shall be imposed only when required or permitted by law or when other means of correction have been documented to have failed. (Education Code 48900.5)

School personnel and volunteers shall not allow any disciplinary action taken against a student to result in the denial or delay of a school meal. (Education Code 49557.5)

A student shall not be denied recess unless the student's participation poses an immediate threat to the physical safety of the student or to the physical safety of one or more of the student's peers. If, due to such immediate threat, a student is denied recess, staff shall make all reasonable efforts to resolve the threat and minimize the student's exclusion from recess, to the greatest extent practicable. (Education Code 49056)

Seclusion and behavioral restraint are prohibited as a means of discipline and shall not be used to correct student behavior except as permitted pursuant to Education Code 49005.4 and in accordance with district regulations. (Education Code 49005.2)

The Superintendent or designee shall create a model discipline matrix that lists violations and the consequences for each as allowed by law.

The principal or designee at each school may develop disciplinary rules to meet the school's particular needs consistent with law, Board policy, and administrative regulations. The Board, at an open meeting, may review the approved school discipline rules for consistency with Board policy and state law. Site-level disciplinary rules shall be included in the district's comprehensive safety plan. (Education Code 32282, 35291.5)

At all times, the safety of students and staff, providing interventions and supports to students, as well as the maintenance of an orderly school environment, shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the student's behavior and implement appropriate support and/or discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the student's health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

The Superintendent or designee shall provide professional development as necessary to assist staff in developing the skills needed to effectively and equitably implement the disciplinary strategies adopted for district schools, including, but not limited to, knowledge of school and classroom management skills and their consistent application, effective accountability and positive intervention techniques, and the tools to form strong, cooperative relationships with parents/guardians.

District goals for improving school climate, based on suspension and expulsion rates, surveys of students, staff, and parents/guardians regarding their sense of school safety and connectedness to the school community, and other local measures, shall be included in the district's local control and accountability plan, as required by law.

At the beginning of each school year, the Superintendent or designee may report to the Board regarding disciplinary strategies used in district schools in the immediately preceding school year and their effect on student learning.

2. Teachers
3. School administrators
4. School security personnel, if any
5. Students in grades seven through twelve

School rules shall be communicated to students clearly and in an age-appropriate manner.

It shall be the duty of each employee of the school to enforce the school rules on student discipline. (Education Code 35291.5)

Disciplinary Strategies

To the extent possible, staff shall use disciplinary strategies that keep students in school and participating in the instructional program. Except when students' presence causes a danger to themselves or others or they commit a single act of a grave nature or an offense for which suspension or expulsion is required by law, suspension, supervised suspension, or expulsion shall be used only when other means of correction have failed to bring about proper conduct. Disciplinary strategies may include, but are not limited to:

1. Discussion or conference between school staff, the student, and the student's parents/guardians
2. Referral of the student to the school counselor or other school support service personnel for case management and counseling

9. Participation in a program that is sensitive to the traumas experienced by students, focuses on students' behavioral health needs, and addresses those needs in a proactive manner
10. After-school programs that address specific behavioral issues or expose students to positive activities and behaviors, including, but not limited to, those operated in collaboration with local parent and community groups
11. Detention after school hours as provided in the section below entitled "Detention After School"
12. Community service as provided in the section below entitled "Community Service"
13. In accordance with Board policy and administrative regulation, restriction or disqualification from participation in extracurricular activities
14. Reassignment to an alternative educational environment
15. Suspension and expulsion in accordance with law, Board policy, and administrative regulation

When, by law or district policy, other means of correction are required to be implemented before a student could be suspended or expelled, any other means of correction implemented shall be documented and retained in the student's records. (Education Code 48900.5)

When a student has been suspended, or other means of correction have been implemented against the student, for an incident of racist bullying, harassment, or intimidation, the principal or designee shall engage both the victim and perpetrator in a restorative justice practice suitable to the needs of the students. The principal or designee shall also require the perpetrator to engage in a culturally sensitive program that promotes racial justice and equity and combats racism and ignorance and shall regularly check on the victim to ensure that the victim is not in danger of suffering from any long-lasting mental health issues. (Education Code 48900.5)

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

When disciplining a student who has been identified for special education and related services, the procedures specified in Administrative Regulation 5144.2 - Suspension And Expulsion/Due Process (Students With Disabilities) shall be applied. If a student has not been identified as a student with a disability and the district suspects the behavior that resulted in discipline may be based in an unidentified disability, the district shall conduct an evaluation to determine if the student has a disability which requires an IEP or 504 plan. (U.S.C. 1412(a)(3))

Detention After School

Students may be detained for disciplinary reasons for up to one hour after the close of the maximum school day, or until the departure of the school bus to which they have been assigned if applicable. (5 CCR 307, 353)

The student shall not be detained unless the principal or designee notifies the parent/guardian.

Students shall remain under the supervision of a certificated employee during the period of detention.

Students may be offered the choice of serving their detention on Saturday rather than after school.

Community Service

As part of or instead of disciplinary action, the Board, Superintendent, principal, or principal's designee may require a student to perform community service during nonschool hours on school grounds or, with written permission of the student's parent/guardian, off school grounds. Such service may include, but is not limited to, community or school outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. (Education Code 48900.6)

This community service option is not available for a student who has been suspended, pending expulsion, pursuant to Education Code 48915. However, if the recommended expulsion is not implemented or the expulsion itself is suspended, then the student may be required to perform community service for the resulting suspension. (Education Code 48900.6)

The dress code policy may be included in the school's comprehensive safety plan. (Education Code 35183)

Transgender and Gender-Nonconforming Students

Gender identity of a student means the student's gender-related identity, appearance, or behavior as determined from the student's internal sense, whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the student's physiology or assigned sex at birth.

Gender expression means a student's gender-related appearance and behavior, whether stereotypically associated with the student's assigned sex at birth. (Education Code 210.7)

Gender transition refers to the process in which a student changes from living and identifying as the sex assigned to the student at birth to living and identifying as the sex that corresponds to the student's gender identity.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

Transgender student means a student whose gender identity is different from the gender he/she was assigned at birth.

The district prohibits acts of verbal, nonverbal, or physical aggression, intimidation, or hostility that are based on sex, gender identity, or gender expression, or that have the purpose or effect of producing a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment, regardless of whether the acts are sexual in nature. Examples of types of conduct which are prohibited in the district and which may constitute gender-based harassment include, but are not limited to:

1. Refusing to address a student by a name and the pronouns consistent with the student's gender identity
2. Disciplining or disparaging a student or excluding him/her from participating in activities for behavior or appearance that is consistent with his/her gender identity or that does not conform to stereotypical notions of masculinity or femininity, as applicable.
3. Blocking a student's entry to the bathroom that corresponds to his/her gender identity
4. Taunting a student because he/she participates in an athletic activity more typically favored by a student of the other sex
5. Revealing a student's transgender status to individuals who do not have a legitimate need for the information, without the student's consent
6. Use of gender-specific slurs
7. Physical assault of a student motivated by hostility toward the student because of the student's gender, gender identity, or gender expression

The district's uniform complaint procedures (AR 1312.3) shall be used to report and resolve complaints alleging discrimination against transgender and gender-nonconforming students.

Examples of bases for complaints include, but are not limited to, the above list as well as improper rejection by the district of a student's asserted gender identity, denial of access to facilities that correspond with a student's gender identity, improper disclosure of a student's transgender status, discriminatory enforcement of a dress code, and other instances of gender-based harassment.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. **Right to privacy:** A student's transgender or gender-nonconforming status is the student's private information and the district will only disclose the information to others with the student's prior written consent, except when the disclosure is otherwise required by law or when the district has compelling evidence that disclosure is necessary to preserve the student's physical or mental well-being. In any case, the district shall only allow disclosure of a student's personally identifiable information to employees with a legitimate educational interest as determined by the district pursuant to 34 CFR 99.31. Any district employee to whom a student's transgender or gender-nonconforming status is disclosed shall keep the student's information confidential. When disclosure of a student's gender identity is made to a district employee by a student, the employee shall seek the student's permission to notify the compliance officer. If the student refuses to give permission, the employee shall keep the student's information confidential, unless the employee is required to disclose or report the student's information pursuant to this administrative regulation, and shall inform the student that honoring the student's request may limit the district's ability to meet the student's related to the

student's status as a transgender or gender-nonconforming student. If the student permits the employee to notify the compliance officer, the employee shall do so within three school days.

As appropriate given the student's need for support, the compliance officer may discuss with the student any need to disclose the student's transgender or gender-nonconformity status or gender identity or gender expression to his/her parents/guardians and/or others, including other students, teacher(s), or other adults on campus. The district shall offer support services, such as counseling, to students who wish to inform their parents/guardians of their status and desire assistance in doing so.

2. Determining a Student's Gender Identity: The compliance officer shall accept the student's assertion of gender identity and begin to treat the student consistent with that gender identity unless district personnel present a credible and supportive basis for believing that the student's assertion is for an improper purpose.
3. Addressing a Student's Transition Needs: The compliance officer shall arrange a meeting with the student and, if appropriate, the student's parents/guardians to identify and develop strategies for ensuring that the student's access to education programs and activities is maintained. The meeting shall discuss the transgender or gender-nonconforming student's rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the compliance officer shall identify specific school site employee(s) to whom the student may report any problem related to the student's status as a transgender or gender-nonconforming individual, so that prompt action could be taken to address it. Alternatively, if appropriate and desired by the student, the school may form a support team for the student that will meet periodically to assess whether the arrangements are meeting the student's educational needs and providing equal access to programs and activities, educate appropriate staff about the student's transition, and serve as a resource to the student to better protect the student from gender-based discrimination.
4. Accessibility to Sex-segregated Facilities, Programs, and Activities: When the district maintains sex-segregated facilities, such as restrooms and locker rooms, or offers sex-segregated programs and activities, such as physical education classes, intermural sports, and interscholastic athletic programs students shall be permitted to access facilities and participate in programs and activities consistent with his/her gender identity. To address any student's privacy concerns in using sex-segregated facilities, the district shall offer available options such as a gender-neutral or single-use restroom or changing area, a bathroom stall with a door, an area in the locker room separated by a curtain or screen, or use of the locker room before or after the other students. However, the district shall not require a student to utilize these options because the student is transgender or gender-nonconforming. In addition, a student shall be permitted to participate in accordance with the student's gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. A student's right to participate in a sex-segregated activity in accordance with the student's gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.
5. Student Records: A student's legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed with proper documentation. When a student presents government-issued documentation of a name and/or gender change or submits a request for a name and/or gender change through the process specified in Education Code 49070, the district shall update the student's records. (Education Code 49062.5, 49070)
6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronoun(s) consistent with the student's gender identity, without the necessity of a court order or a change to the student's official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student's name and/or consistent pronouns will, in general, not constitute a violation of this administrative regulation or the accompanying district policy.
7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with the student's gender identity, subject to any dress code adopted on a school site.

30. Search and Seizure – BP 5145.12

The Governing Board is fully committed to promoting a safe learning environment and, to the extent possible, eliminating the possession and use of weapons, illegal drugs, and other controlled substances by students on school premises and at school activities. As necessary to protect the health and welfare of students and staff, school officials may search students, their property, and/or district property under their control and may seize illegal, unsafe, or otherwise prohibited items.

The Board urges that employees exercise discretion and good judgment. When conducting a search or seizure, employees shall act in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall ensure that staff who conduct student searches receive training regarding the requirements of the district's policy and administrative regulation and other legal issues, as appropriate.

The Board recognizes that incidents may occur which jeopardize the health, safety and welfare of students and staff and which necessitate the search and seizure of students, their property, or their lockers by school officials.

School officials may search any individual student, his/her property, or district property under his/her control when there is a reasonable suspicion that the search will uncover evidence that he/she is violating the law, Board policy, administrative regulation, or other rules of the district or the school. Reasonable suspicion shall be based on specific and objective facts that the search will produce evidence related to the alleged violation. The types of student property that may be searched by school officials include, but are not limited to, lockers, desks, purses, backpacks, student vehicles parked on district property, cellular phones, or other electronic communication devices.

Any search of a student, his/her property, or district property under his/her control shall be limited in scope and designed to produce evidence related to the alleged violation. Factors to be considered by school officials when determining the scope of the search shall include the danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments, and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found. In addition, school officials shall consider the intrusiveness of the search in light of the student's age, gender, and the nature of the alleged violation.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

For the purposes of this policy, asking a student to empty his/her pockets and/or backpack, purse, etc., does not constitute a search.

Searches of individual students shall be conducted in the presence of at least two district employees.

The parent/guardian of a student subjected to an individualized search shall be notified by the principal or designee as soon after the search as possible.

Student Lockers

All student lockers and desks are the property of the district. The principal or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

In an effort to keep the schools free of dangerous contraband, the district may use specially-trained non aggressive dogs, including trained police dogs under the supervision of police canine units, to sniff out and alert staff to the presence of substances prohibited by law or board policy. Guidelines for such a program shall be approved by the Board prior to implementation. (see Exhibit)

The dogs may sniff the air around lockers, desks, or vehicles on district property or at district-sponsored events. Dogs shall not sniff within the close proximity of students or other persons and may not sniff any personal items on those persons without their consent. Appropriate personnel will advise students or persons of their right to refusal and the request to search.

31. Search and Seizure – AR 5145.12

1. The student's age and previous behavior patterns.
2. The prevalence and seriousness in the school of the problem to which the search was directed.
3. The urgency requiring the search without delay.
4. The substantive value and reliability of the information used as a justification for the search.

5. The location of the student at the time of the incident which gave rise to reasonable suspicion.

Searches shall be made in the presence of a least two other district employee. Employees will not conduct strip searches or body cavity searches.

For the purposes of this regulation, asking a student to empty his/her pockets and/or backpack does not constitute a search.

Use of Contraband Detection Dogs

Contraband detection dogs shall not be used in classrooms or other district facilities when the rooms are occupied, except for demonstration purposes. The dog shall be separated from the students and not allowed to sniff any individual.

Prior to conducting an inspection, students will be asked to leave backpacks, jackets, hats and personal items prior to leaving the classroom.

Dogs shall not sniff within the close proximity of students or other persons and may not sniff any personal items on those persons without their consent. Appropriate personnel will advise students or persons of their right to refusal and the request to search.

Only the dog's official handler shall determine what constitutes an alert by the dog. If the dog alerts on a particular item or place, the student having the use of that item or place, or responsibility for it, shall be called to witness the inspection. If a dog alerts on a locked vehicle, the student who brought the vehicle onto district property shall be asked to unlock it for inspection.

36. Suicide Prevention – BP 5141.52

The Governing Board recognizes that suicide is a major cause of death and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. In an effort to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

In developing measures and strategies for use by the district, the Superintendent or designee shall consult with school and community stakeholders such as administrators, other staff, parents/guardians, and students; school-employed mental health professionals such as school counselors, school psychologists, school social workers, and school nurses; suicide prevention experts such as local health agencies, mental health professionals, and community organizations; law enforcement; and, in developing policy for grades K-6, the county mental health plan. (Education Code 215)

The Board shall review, and update as necessary, this policy at least every five years. (Education Code 215)

3. Warning signs that may indicate depression, emotional distress, or suicidal intentions, such as changes in students' personality or behavior and verbalizations of hopelessness or suicidal intent

Suicide prevention instruction shall be incorporated into the health education curriculum at appropriate secondary grades and shall be designed to help students:

2. Develop coping and resiliency skills and self-esteem
3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent
4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking services for mental health, substance abuse, and/or suicide prevention

Every statement regarding suicidal intent shall be taken seriously. Whenever a staff member suspects or has knowledge of a student's suicidal intentions based on the student's verbalizations or act of self-harm, he/she shall promptly notify the principal or school counselor, who shall implement district intervention protocols as appropriate.

Although any personal information that a student discloses to a school counselor shall generally not be revealed, released, referenced, or discussed with third parties, the counselor may report to the principal or student's parents/guardians when he/she has reasonable cause to believe that disclosure is necessary to avert a clear and present danger to the health, safety, or welfare of the student. In addition, the counselor may disclose information of a personal nature to psychotherapists, other health care providers, or the school nurse for the sole purpose of referring the student for treatment. (Education Code 49602)

Whenever schools establish a peer counseling system to provide support for students, peer counselors shall receive training that includes identification of the warning signs of suicidal behavior and referral of a suicidal student to appropriate adults.

When a suicide attempt or threat is reported, the principal or designee shall ensure student safety by taking the following actions:

1. Immediately securing medical treatment and/or mental health services as necessary
2. Notifying law enforcement and/or other emergency assistance if a suicidal act is being actively threatened
3. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene
4. Removing other students from the immediate area as soon as possible

The principal or designee shall document the incident in writing, including the steps that the school took in response to the suicide attempt or threat.

The Superintendent or designee shall follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed. If the parent/guardian does not access treatment for the student, the Superintendent or designee may meet with the parent/guardian to identify barriers to treatment and assist the family in providing follow-up care for the student. If follow-up care is still not provided, the Superintendent or designee shall consider whether he/she is required, pursuant to laws for mandated reporters of child neglect, to refer the matter to the local child protective services agency.

For any student returning to school after a mental health crisis, the principal or designee and/or school counselor may meet with the parents/guardians and, if appropriate, with the student to discuss re-entry and appropriate next steps, including the development of a mental health treatment plan, to ensure the student's readiness for return to school.

Postvention

In the event that a student dies by suicide, the Superintendent or designee shall communicate with the student's parents/guardians to offer condolences, assistance, and resources. In accordance with the laws governing confidentiality of student record information, the Superintendent or designee shall consult with the parents/guardians regarding facts that may be divulged to other students, parents/guardians, and staff.

The Superintendent or designee shall implement procedures, including the utilization of the District's Crisis Intervention Team (CIT), to address students' and staff's grief and to minimize the risk of imitative suicide or suicide contagion. He/she shall provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

Any response to media inquiries shall be handled by the district-designated spokesperson who shall not divulge confidential information. The district's response shall not sensationalize suicide and shall focus on the district's postvention plan and available resources.

After any suicide or attempted suicide by a student, the Superintendent or designee shall provide an opportunity for all staff who responded to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

1. That other means of correction are not feasible or have repeatedly failed to bring about proper conduct
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others

However, a student assigned to more than one class per day may continue to attend other regular classes except those held at the same time as the class from which the student was suspended. (Education Code 48910)

A teacher may also refer a student, for any of the acts specified above in Education Code 48900, to the principal or designee for consideration of a suspension from school. (Education Code 48910)

The teacher of any class from which a student is suspended may require the student to complete any assignments and tests missed during the removal. (Education Code 48913)

Suspension by Superintendent, Principal or Principal's Designee

To implement disciplinary procedures at a school site, the principal may, in writing, designate as the principal's designee another administrator or, if the principal is the only administrator at the school site, a certificated employee. As necessary, the principal may, in writing, also designate another administrator or certificated employee as the secondary designee to assist with disciplinary procedures when the principal and the principal's primary designee are absent from the school site.

The Superintendent, principal, or designee shall immediately suspend any student found at school or at a school activity away from school to have committed any of the acts listed in the Board policy under "Authority to Expel" for which a recommendation of expulsion is required. (Education Code 48915(c))

The Superintendent, principal, or designee may impose a suspension for a first offense if it is determined that the student violated any of items #1-5 listed under "Grounds for Suspension and Expulsion: Grades K-12" above or if the student's presence causes a danger to persons. (Education Code 48900.5)

For all other offenses, a student may be suspended only when the Superintendent or principal has determined that other means of correction have failed to bring about proper conduct. (Education Code 48900.5)

When other means of correction are implemented prior to imposing suspension upon a student, including supervised suspension, the Superintendent, principal, or designee shall document the other means of correction used and retain the documentation in the student's record. (Education Code 48900.5)

Length of Suspension

The Superintendent, principal, or designee may suspend a student from school for not more than five consecutive school days. (Education Code 48911)

A student may be suspended from school for not more than 20 school days in any school year. However, if a student enrolls in or is transferred to another regular school, an opportunity school or class, or continuation school or class for the purpose of adjustment, the student may be suspended for not more than 30 school days in a school year. The district may count suspensions that occur while a student is enrolled in another school district toward the maximum number of days for which the student may be suspended in any school year. (Education Code 48903, 48911, 48912)

These restrictions on the number of days of suspension shall not apply when the suspension is extended pending an expulsion. (Education Code 48911)

Due Process Procedures for Suspension

Suspensions shall be imposed in accordance with the following procedures:

1. **Informal Conference:** Suspension shall be preceded by an informal conference conducted by the Superintendent, principal, or designee with the student and, whenever practicable, the teacher, supervisor, or school employee who referred the student to the principal. At the conference, the student shall be informed of the reason for the disciplinary action, including the other means of correction that were

attempted before the suspension as required pursuant to Education Code 48900.5, and the evidence against the student, and shall be given the opportunity to present the student's version and evidence in the student's defense. (Education Code 48911)

This conference may be omitted if the Superintendent, principal, or designee determines that an emergency situation exists involving a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended without this conference, the student, the student's parent/guardian, or if the student is a foster youth, the foster youth's educational rights holder, attorney, and county social worker, or if the student is an Indian child, the Indian child's tribal social worker and, if applicable, county social worker, shall be notified of the student's right to a conference and the right to return to school for the purpose of the conference. The conference shall be held within two school days, unless the student waives the right to it or is physically unable to attend for any reason. In such a case, the conference shall be held as soon as the student is physically able to return to school for the conference. (Education Code 48911)

2. Administrative Actions: All requests for student suspension are to be processed by the principal or designee. A school employee shall report the suspension, including the name of the student and the cause for the suspension, to the Superintendent or designee. (Education Code 48911)
3. Notice to Parents/Guardians: At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian, or if the student is a foster youth, the foster youth's educational rights holder, attorney, and county social worker, or if the student is an Indian child, the Indian child's tribal social worker, and, if applicable, the county social worker, in person, by email, or by telephone. Whenever a student is suspended, the parent/guardian, or, if applicable, the foster youth's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, the county social worker, shall also be notified in writing of the suspension. (Education Code 48911)

This notice shall state the specific offense committed by the student. (Education Code 48900.8)

4. In addition, the notice may state the date and time when the student may return to school.
5. Parent/Guardian Conference: Whenever a student is suspended, school officials may conduct a meeting with the parent/guardian to discuss the cause(s) and duration of the suspension, the school policy involved, and any other pertinent matter. (Education Code 48914)

If school officials request to meet with the parent/guardian, a foster youth's educational rights holder, attorney, and county social worker, or an Indian child's tribal social worker, and, if applicable, the county social worker, the notice may state that the law requires such individuals to respond to the request without delay. However, the student shall not be penalized for the failure of the parent/guardian, a foster youth's educational rights holder, attorney, and county social worker, or an Indian child's tribal social worker, and, if applicable, the county social worker, to attend such a conference. The student may not be denied reinstatement solely because such individuals failed to attend the conference. (Education Code 48911)

6. Extension of Suspension: If the Board is considering the expulsion of a suspended student from any school or the suspension of a student for the balance of the semester from continuation school, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision, provided the following requirements are followed: (Education Code 48911)
 - a. The extension of the original period of suspension is preceded by notice of such extension with an offer to hold a conference concerning the extension, giving the student an opportunity to be heard. This conference may be held in conjunction with a meeting requested by the student or parent/guardian to challenge the original suspension.
 - b. The Superintendent or designee determines, following a meeting in which the student and the student's parent/guardian were invited to participate, that the student's presence at the school or at an alternative school would endanger persons or property or threaten to disrupt the instructional process.
 - c. If the student involved is a foster youth or Indian child, the Superintendent or designee shall notify the district's educational liaison of the need to invite the foster youth's educational rights holder, attorney and county social worker, or the Indian child's tribal social worker or, if applicable, the county social worker, to attend the meeting. (Education Code 48853.5, 48911, 48918.1)
 - d. If the student involved is a homeless child or youth, the Superintendent or designee shall notify the district liaison for homeless students. (Education Code 48918.1)
 - e. In lieu of or in addition to suspending a student, the Superintendent, principal, or designee may provide services or require the student to participate in an alternative disciplinary program designed to correct the behavior and keep the student in school.

Suspension by the Board

The Board may suspend a student for any of the acts listed under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," and "Additional Grounds for Suspension and Expulsion: Grades 9-12" above and within the limits specified under "Suspension by Superintendent, Principal, or Designee" above. (Education Code 48912)

The Board may suspend a student enrolled in a continuation school or class for a period not longer than the remainder of the semester. The suspension shall meet the requirements of Education Code 48915. (Education Code 48912.5)

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it shall hold a closed session if a public hearing would lead to disclosure of information that would violate a student's right to privacy under Education Code 49073-49079. (Education Code 35146, 48912)

The Board shall provide the student and parent/guardian with written notice of the closed session by registered or certified mail or personal service. Upon receiving this notice, the student or parent/guardian may request a public meeting, and this request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy still shall be held in closed session. (Education Code 35146, 48912)

On-Campus Suspension

A student for whom an expulsion action has not been initiated and who poses no imminent danger or threat to the school, students, or staff may be assigned to on-campus suspension in a separate classroom, building, or site for the entire period of suspension. The following conditions shall apply: (Education Code 48911.1)

1. The on-campus suspension classroom shall be staffed in accordance with law.
2. The student shall have access to appropriate counseling services.
3. The on-campus suspension classroom shall promote completion of schoolwork and tests missed by the student during the suspension.
4. The student shall be responsible for contacting the student's teacher(s) to receive assignments to be completed in the supervised suspension classroom. The teacher(s) shall provide all assignments and tests that the student will miss while suspended. If no such work is assigned, the person supervising the suspension classroom shall assign schoolwork.

At the time a student is assigned to an on-campus suspension classroom, the principal or designee shall notify the student's parent/guardian, or if the student is a foster youth, the foster youth's educational rights holder, attorney, and county social worker, or, if the student is an Indian child, the Indian child's tribal social worker and, if applicable, county social worker, in person, by email, or by telephone. When the assignment is for longer than one class period, this notification shall be made in writing. (Education Code 48911.1)

Superintendent or Principal's Authority to Recommend Expulsion

Unless the Superintendent or principal determines that expulsion should not be recommended under the circumstances or that an alternative means of correction would address the conduct, the Superintendent or principal shall recommend a student's expulsion for any of the following acts: (Education Code 48915)

1. Causing serious physical injury to another person, except in self-defense
2. Possession of any knife or other dangerous object of no reasonable use to the student
3. Unlawful possession of any controlled substance as listed in Health and Safety Code 11053-11059, except for
 - a. The first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis
 - b. The student's possession of over-the-counter medication for use by the student for medical purposes
 - c. Medication prescribed for the student by a physician
4. Robbery or extortion
5. Assault or battery, as defined in Penal Code 240 and 242, upon any school employee

In determining whether to recommend the expulsion of a student, the Superintendent, principal, or designee shall act as quickly as possible to ensure that the student does not lose instructional time. (Education Code 48915)

Student's Right to Expulsion Hearing

Any student recommended for expulsion shall be entitled to a hearing to determine whether the student should be expelled. The hearing shall be held within 30 school days after the Superintendent, principal, or designee determines that the student has committed the act(s) that form the basis for the expulsion recommendation. (Education Code 48918(a))

The student is entitled to at least one postponement of an expulsion hearing for a period of not more than 30 calendar days. The request for postponement shall be in writing. Any subsequent postponement may be granted at the Board's discretion. (Education Code 48918(a))

If the Board finds it impractical during the regular school year to comply with these time requirements for conducting an expulsion hearing, the Superintendent or designee may, for good cause, extend the time period by an additional five school days. Reasons for the extension shall be included as a part of the record when the expulsion hearing is held. (Education Code 48918(a))

If the Board finds it impractical to comply with the time requirements of the expulsion hearing due to a summer recess of Board meetings of more than two weeks, the days during the recess shall not be counted as school days. The days not counted during the recess may not exceed 20 school days, as defined in Education Code 48925. Unless the student requests in writing that the expulsion hearing be postponed, the hearing shall be held not later than 20 calendar days prior to the first day of the next school year. (Education Code 48918(a)) Once the hearing starts, all matters shall be pursued with reasonable diligence and concluded without unnecessary delay. (Education Code 48918(a))

Stipulated Expulsion

After a determination that a student has committed an offense for which the student may be expelled, the Superintendent, principal, or designee shall offer the student, the student's parent/guardian, or, when applicable, other person holding the right to make educational decisions for the student, the option to waive a hearing and stipulate to the expulsion or to a suspension of the expulsion under certain conditions. The offer shall be made only after written notice of the expulsion hearing pursuant to Education Code 48918 has been given.

The stipulation agreement shall be in writing and shall be signed by the student, the student's parent/guardian, or, when applicable, the person holding the right to make educational decisions for the student. The stipulation agreement shall include notice of all the rights that the student is waiving, including the waiving of the right to have a full hearing, to appeal the expulsion to the County Board of Education, and to consult legal counsel.

A stipulated expulsion agreed to by the student, the student's parent/guardian, or, when applicable, the person holding the right to make educational decisions for the student, shall be effective upon approval by the Board.

Rights of Complaining Witness

An expulsion hearing involving allegations of sexual assault or sexual battery may be postponed for one school day in order to accommodate the special physical, mental, or emotional needs of a student who is the complaining witness. (Education Code 48918.5)

Whenever the Superintendent or designee recommends an expulsion hearing that addresses allegations of sexual assault or sexual battery, the Superintendent or designee shall give the complaining witness a copy of the district's suspension and expulsion policy and regulation and shall advise the witness of the right to: (Education Code 48918.5)

1. Receive five days' notice of the scheduled testimony at the hearing
2. Have up to two adult support persons present at the hearing at the time the witness testifies
3. Have a closed hearing during the time the witness testifies.

Whenever any allegation of sexual assault or sexual battery is made, the Superintendent or designee shall immediately advise complaining witnesses and accused students to refrain from personal or telephone contact with each other during the time when an expulsion process is pending. (Education Code 48918.5)

Written Notice of the Expulsion Hearing

Written notice of the expulsion hearing shall be forwarded to the student and the student's parent/guardian at least 10 calendar days before the date of the hearing. The notice shall include: (Education Code 48900.8, 48918(b))

1. The date and place of the hearing
2. A statement of the specific facts, charges, and offense upon which the proposed expulsion is based
3. A copy of district disciplinary rules which relate to the alleged violation
4. Notification of the student's or parent/guardian's obligation, pursuant to Education Code 48915.1, to provide information about the student's status in the district to any other district in which the student seeks enrollment.

This obligation applies when a student is expelled for acts other than those described in Education Code 48915(a) or (c).

5. The opportunity for the student or the student's parent/guardian to appear in person or be represented by legal counsel or by a nonattorney adviser

Legal counsel means an attorney or lawyer who is admitted to the practice of law in California and is an active member of the State Bar of California.

Non-attorney adviser means an individual who is not an attorney or lawyer, but who is familiar with the facts of the case and has been selected by the student or student's parent/guardian to provide assistance at the hearing.

6. The right to inspect and obtain copies of all documents to be used at the hearing
7. The opportunity to confront and question all witnesses who testify at the hearing
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf, including witnesses

Additional Notice of Expulsion Hearing for Foster Youth, Homeless Students, and Indian Children

If the student facing expulsion is a foster student or Indian child, the Superintendent or designee shall also send notice of the hearing to the foster youth's educational rights holder, attorney, and county social worker, or the Indian child's tribal social worker and, if applicable, county social worker, at least 10 calendar days prior to the hearing. (Education Code 48918.1)

If the student facing expulsion is a homeless student, the Superintendent or designee shall also send notice of the hearing to the district liaison for homeless students at least 10 calendar days prior to the hearing. (Education Code 48918.1)

Any notice for these purposes may be provided by the most cost-effective method possible, including by email or a telephone call. (Education Code 48918.1)

Conduct of Expulsion Hearing

1. Closed Session: Notwithstanding Education Code 35145, the Board shall conduct a hearing to consider the expulsion of the student in a session closed to the public unless the student requests in writing at least five days prior to the hearing that the hearing be a public meeting. If such a request is made, the meeting shall be public to the extent that privacy rights of other students are not violated. (Education Code 48918)
2. Whether the expulsion hearing is held in closed or public session, the Board may meet in closed session to deliberate and determine whether the student should be expelled. If the Board admits any other person to this closed session, the parent/guardian, the student, and the counsel of the student also shall be allowed to attend the closed session. (Education Code 48918(c))

If a hearing that involves a charge of sexual assault or sexual battery is to be conducted in public, a complaining witness shall have the right to testify in closed session when testifying in public would threaten serious psychological harm to the witness and when there are no alternative procedures to avoid the threatened harm, including, but not limited to, a videotaped deposition or contemporaneous examination in another place communicated to the hearing room by closed-circuit television. (Education Code 48918(c))

3. Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made. (Education Code 48918(g))
4. Subpoenas: Before commencing a student expulsion hearing, the Board may issue subpoenas, at the request of either the student or the Superintendent or designee, for the personal appearance at the hearing of any person who actually witnessed the action that gave rise to the recommendation for expulsion. After the hearing has commenced, the Board or the hearing officer or administrative panel may issue such subpoenas at the request of the student or the County Superintendent of Schools or designee. All subpoenas shall be issued in accordance with Code of Civil Procedure 1985-1985.2 and enforced in accordance with Government Code 11455.20. (Education Code 48918(i))

Any objection raised by the student or the Superintendent or designee to the issuance of subpoenas may be considered by the Board in closed session, or in open session if so requested by the student, before the meeting. The Board's decision in response to such an objection shall be final and binding. (Education Code 48918(i))

If the Board determines, or if the hearing officer or administrative panel finds and submits to the Board, that a witness would be subject to unreasonable risk of harm by testifying at the hearing, a subpoena shall not be issued to compel the personal attendance of that witness at the hearing. However, that witness may be compelled to testify by means of a sworn declaration as described in Item #6 below. (Education Code 48918(i))

5. Presentation of Evidence: Technical rules of evidence shall not apply to the expulsion hearing, but relevant evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision of the Board to expel shall be supported by substantial evidence that the student committed any of the acts pursuant to Education Code 48900 and listed in "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," and "Additional Grounds for Suspension and Expulsion: Grades 9-12" above. (Education Code 48918(h))
6. Findings of fact shall be based solely on the evidence at the hearing. Although no finding shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm. (Education Code 48918(f))

In cases where a search of a student's person or property has occurred, evidence describing the reasonableness of the search shall be included in the hearing record.

7. Testimony by Complaining Witnesses: The following procedures shall be observed when a hearing involves allegations of sexual assault or sexual battery by a student: (Education Code 48918, 48918.5)
 - a. Any complaining witness shall be given five days' notice before being called to testify.
 - b. Any complaining witness shall be entitled to have up to two adult support persons, including, but not limited to, a parent/guardian or legal counsel, present during the testimony.
 - c. Before a complaining witness testifies, support persons shall be admonished that the hearing is confidential.
 - d. The person presiding over the hearing may remove a support person who is disrupting the hearing.
 - e. If one or both support persons are also witnesses, the hearing shall be conducted in accordance with Penal Code 868.5.
 - f. Evidence of specific instances of prior sexual conduct of a complaining witness shall be presumed inadmissible and shall not be heard unless the person conducting the hearing determines that extraordinary circumstances require the evidence to be heard. Before such a determination is made, the complaining witness shall be given notice and an opportunity to oppose the introduction of this evidence. In the hearing on the admissibility of this evidence, the complaining witness shall be entitled to be represented by a parent/guardian, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of a complaining witness shall not be admissible for any purpose.
 - g. In order to facilitate a free and accurate statement of the experiences of the complaining witness and to prevent discouragement of complaints, the district shall provide a non-threatening environment.
 - i. The district shall provide a room separate from the hearing room for the use of the complaining witness before and during breaks in testimony.
 - ii. At the discretion of the person conducting the hearing, the complaining witness shall be allowed reasonable periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.
 - iii. The person conducting the hearing may:
 - A. Arrange the seating within the hearing room so as to facilitate a less intimidating environment for the complaining witness
 - B. Limit the time for taking the testimony of a complaining witness to normal school hours, if there is no good cause to take the testimony during other hours
 - C. Permit one of the support persons to accompany the complaining witness to the witness stand
8. Decision: The Board's decision as to whether to expel a student shall be made within 40 school days after the student is removed from school, unless the student requests in writing that the decision be postponed. (Education Code 48918(a))

Alternative Expulsion Hearing: Hearing Officer or Administrative Panel

Instead of conducting an expulsion hearing itself, the Board may contract with the county hearing officer or with the Office of Administrative Hearings of the State of California for a hearing officer. The Board may also appoint an impartial administrative panel composed of three or more certificated personnel, none of whom shall be members of the Board or on the staff of the school in which the student is enrolled. (Education Code 48918)

A hearing conducted by the hearing officer or administrative panel shall conform to the same procedures applicable to a hearing conducted by the Board as specified above in "Conduct of Expulsion Hearing," including the requirement to issue a decision within 40 school days of the student's removal from school, unless the student requests that the decision be postponed. (Education Code 48918(a) and (d))

The hearing officer or administrative panel shall, within three school days after the hearing, determine whether to recommend expulsion of the student to the Board. If expulsion is not recommended, the expulsion proceeding shall be terminated and the student shall be immediately reinstated and permitted to return to the classroom instructional program from which the referral was made, unless another placement is requested in writing by the student's parent/guardian. Before the student's placement decision is made by the student's parent/guardian, the Superintendent or designee shall consult with the parent/guardian and district staff, including the student's teachers, regarding other placement options for the student in addition to the option to return to the classroom instructional program from which the student's expulsion referral was made. The decision to not recommend expulsion shall be final. (Education Code 48918(e))

If expulsion is recommended, findings of fact in support of the recommendation shall be prepared and submitted to the Board. All findings of fact and recommendations shall be based solely on the evidence presented at the hearing. The Board may accept the recommendation based either upon a review of the findings of fact and recommendations submitted or upon the results of any supplementary hearing the Board may order. (Education Code 48918(f))

In accordance with Board policy, the hearing officer or administrative panel may recommend that the Board suspend the enforcement of the expulsion. If the hearing officer or administrative panel recommends that the Board expel a student but suspend the enforcement of the expulsion, the student shall not be reinstated and permitted to return to the classroom instructional program from which the referral was made until the Board has ruled on the recommendation. (Education Code 48917, 48918)

Final Action by the Board

Whether the expulsion hearing is conducted in closed or open session by the Board, a hearing officer, or an administrative panel or is waived through the signing of a stipulated expulsion agreement, the final action to expel shall be taken by the Board in public. (Education Code 48918(j))

The Board's decision is final. If the decision is to not expel, the student shall be reinstated immediately. If the decision is to suspend the enforcement of the expulsion, the student shall be reinstated under the conditions of the suspended expulsion.

Upon ordering an expulsion, the Board shall set a date when the student shall be reviewed for readmission to a school within the district. For a student expelled for any "mandatory recommendation and mandatory expulsion" act listed in the section "Authority to Expel" in the accompanying Board policy, this date shall be one year from the date the expulsion occurred, except that the Board may set an earlier date on a case-by-case basis. For a student expelled for other acts, this date shall be no later than the last day of the semester following the semester in which the expulsion occurred. If an expulsion is ordered during summer session or the intersession period of a year-round program, the Board shall set a date when the student shall be reviewed for readmission not later than the last day of the semester following the summer session or intersession period in which the expulsion occurred. (Education Code 48916)

At the time of the expulsion order, the Board shall recommend a plan for the student's rehabilitation, which may include: (Education Code 48916)

1. Periodic review, as well as assessment at the time of review, for readmission
2. Recommendations for improved academic performance, tutoring, special education assessments, job training, counseling, employment, community service, or other rehabilitative programs

With parent/guardian consent, students who have been expelled for reasons relating to controlled substances or alcohol may be required to enroll in a county-sponsored drug rehabilitation program before returning to school. (Education Code 48916.5)

Written Notice to Expel

The Superintendent or designee shall send written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the causes for suspension or expulsion listed above under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," or "Additional Grounds for Suspension and Expulsion: Grades 9-12" (Education Code 48900.8)
2. The fact that a description of readmission procedures will be made available to the student and parent/guardian (Education Code 48916)
3. Notice of the right to appeal the expulsion to the County Board (Education Code 48918)
4. Notice of the alternative educational placement to be provided to the student during the time of expulsion (Education Code 48918)
5. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1 (Education Code 48918)

Decision to Suspend Expulsion Order

In accordance with Board policy, when deciding whether to suspend the enforcement of an expulsion order, the Board shall take into account the following criteria:

1. The student's pattern of behavior
2. The seriousness of the misconduct
3. The student's attitude toward the misconduct and willingness to follow a rehabilitation program

The suspension of the enforcement of an expulsion shall be governed by the following:

1. The Board may, as a condition of the suspension of enforcement, assign the student to a school, class, or program appropriate for the student's rehabilitation. This rehabilitation program may provide for the involvement of the student's parent/guardian in the student's education. However, a parent/guardian's refusal to participate in the rehabilitation program shall not be considered in the Board's determination as to whether the student has satisfactorily completed the rehabilitation program. (Education Code 48917)
2. During the period when enforcement of the expulsion order is suspended, the student shall be on probationary status. (Education Code 48917)
3. The suspension of the enforcement of an expulsion order may be revoked by the Board if the student commits any of the acts listed under "Grounds for Suspension and Expulsion: Grades K-12," "Additional Grounds for Suspension and Expulsion: Grades 4-12," or "Additional Grounds for Suspension and Expulsion: Grades 9-12" above or violates any of the district's rules and regulations governing student conduct. (Education Code 48917)
4. When the suspension of enforcement of an expulsion order is revoked, a student may be expelled under the terms of the original expulsion order. (Education Code 48917)
5. Upon satisfactory completion of the rehabilitation assignment, the Board shall reinstate the student in a district school. Upon reinstatement, the Board may order the expunging of any or all records of the expulsion proceedings. (Education Code 48917)
6. The Superintendent or designee shall send written notice of any decision to suspend the enforcement of an expulsion order during a period of probation to the student or parent/guardian. The notice shall inform the parent/guardian of the right to appeal the expulsion to the County Board, the alternative educational placement to be provided to the student during the period of expulsion, and the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the expelling district, pursuant to Education Code 48915.1(b). (Education Code 48918(j))
7. Suspension of the enforcement of an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the County Board. (Education Code 48917)

Appeal

If a student is expelled from school, the student or parent/guardian is entitled to file an appeal of the Board's decision with the County Board. The appeal must be filed within 30 days of the Board's decision to expel, even if the expulsion order is suspended and the student is placed on probation. (Education Code 48919)

If the student submits a written request for a copy of the written transcripts and supporting documents from the district simultaneously with the filing of the notice of appeal with the County Board, the district shall provide the student with these documents within 10 school days following the student's written request. (Education Code 48919)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance, or of any student acts involving the possession, sale, or furnishing of firearms, explosives, or other dangerous weapons in violation of Education Code 48915(c)(1) or (5) or Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate county or district law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering, or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Placement During Expulsion

The Board shall refer expelled students to a program of study that is: (Education Code 48915, 48915.01)

1. Appropriately prepared to accommodate students who exhibit discipline problems
2. Not provided at a comprehensive middle, junior, or senior high school or at any elementary school, unless the program is offered at a community day school established at any of these
3. Not housed at the school site attended by the student at the time of suspension

When the placement described above is not available and when the County Superintendent so certifies, students expelled for only acts described in Items #6-12 under "Grounds for Suspension and Expulsion: Grades K-12" and Items #1-3 under "Additional Grounds for Suspension and Expulsion: Grades 4-12" above may be referred to a program of study that is provided at another comprehensive middle, junior, or senior high school or at an elementary school. (Education Code 48915)

The program for a student expelled from any of grades K-6 shall not be combined or merged with programs offered to students in any of grades 7-12. (Education Code 48916.1)

Readmission After Expulsion

Prior to the date set by the Board for the student's readmission:

1. The Superintendent or designee shall hold a conference with the student's parent/guardian, or other person holding the right to make educational decisions for the student, and the student. At the conference, the student's rehabilitation plan shall be reviewed and the Superintendent or designee shall verify that the provisions of this plan have been met. School regulations shall be reviewed and the student and the student's parent/guardian or other person holding the right to make educational decisions for the student shall be asked to indicate in writing their willingness to comply with these regulations.
2. The Superintendent or designee shall transmit to the Board a recommendation regarding readmission. The Board shall consider this recommendation in closed session. If a written request for open session is received from the student's parent/guardian or other person holding the right to make educational decisions for the student, or adult student, it shall be honored to the extent that privacy rights of other students are not violated.
3. If the readmission is granted, the Superintendent or designee shall notify the student and the student's parent/guardian, or other person holding the right to make educational decisions for the student, by registered mail, of the Board's decision regarding readmission.
4. The Board may deny readmission only if it finds that the student has not satisfied the conditions of the rehabilitation plan or that the student continues to pose a danger to campus safety or to other district students or employees. (Education Code 48916)
5. If the Board denies the readmission of a student, the Board shall determine either to continue the student's placement in the alternative educational program initially selected or to place the student in another program that serves expelled students, including placement in a county community school.
6. The Board shall provide written notice to the expelled student and the student's parent/guardian, or other person holding the right to make educational decisions for the student, describing the reasons for denying readmittance into the regular program. This notice shall indicate the Board's determination of the educational program which the Board has chosen. The student shall enroll in that program unless the parent/guardian chooses to enroll the student in another school district.

No student shall be denied readmission into the district based solely on the student's arrest, adjudication by a juvenile court, formal or informal supervision by a probation officer, detention in a juvenile facility, enrollment in a juvenile court school, or other such contact with the juvenile justice system. (Education Code 48645.5)

Maintenance of Records

The district shall maintain a record of each suspension and expulsion, including its specific cause(s). (Education Code 48900.8)

Expulsion records of any student shall be maintained in the student's mandatory interim record, and sent to any school in which the student subsequently enrolls upon written request by that school. (Education Code 48918(k))

The Superintendent or designee shall, within five working days, honor any other district's request for information about an expulsion from this district. (Education Code 48915.1)

Regulation SIMI VALLEY UNIFIED SCHOOL DISTRICT

Adopted: May 21, 1996 Simi Valley, California

Revised: September 12, 2023

40. Transportation Safety Plan – AR 3543

Cautionary Notice: Government Code 17581.5 relieves districts from the obligation to perform specified mandated activities when the Budget Act does not provide reimbursement during that fiscal year. The Budget Act of 2016 (SB 826, Ch. 23, Statutes of 2016) extends the suspension of these requirements through the 2016-17 fiscal year. As a result, certain provisions of the following administrative regulation related to transportation safety plans and safety instruction for students may be suspended.

Each day, prior to driving a school bus, each school bus driver shall inspect the bus to ensure that it is in safe operating condition and equipped as required by law and that all equipment is in good working order. At the completion of each day's work, the driver shall prepare and sign a written report of the condition of the equipment specified in 13 CCR 1215. The report shall indicate any defect or deficiency discovered by or reported to the driver which would affect safe operation or result in mechanical breakdown of the bus or, if no defect or deficiency was discovered or reported, shall so indicate. Any defect or deficiency that would affect safe operation shall be repaired prior to operating the bus. (13 CCR 1215)

Passenger Restraint Systems

The Superintendent or designee shall ensure that any school bus or student activity bus which is purchased or leased by the district is equipped with a combination pelvic and upper torso passenger restraint system at all designated seating positions if that bus: (Vehicle Code 27316, 27316.5; 13 CCR 1201)

1. Is a Type 1 school bus manufactured on or after July 1, 2005 which is designed for carrying more than 16 passengers and the driver
2. Is a Type 2 school bus or student activity bus manufactured on or after July 1, 2004 which meets one of the following criteria:
 - a. Is designed for carrying 16 or fewer passengers and the driver
 - b. Has a manufacturer's vehicle weight rating of 10,000 pounds or less and is designed for carrying not more than 20 passengers and the driver.

The Superintendent or designee shall prioritize the allocation of school buses purchased, leased, or contracted to ensure that elementary students receive first priority for new school buses equipped with passenger restraint systems whenever feasible.

When a school bus or student activity bus is equipped with a passenger restraint system, all passengers shall use the passenger restraint system. (5 CCR 14105)

Bus drivers shall be instructed regarding procedures to enforce the proper use of the passenger restraint system. Students who fail to follow instructions of the bus driver may be subject to discipline, including suspension of riding privileges, in accordance with Board policy and administrative regulations.

Fire Extinguishers

Each school bus shall be equipped with at least one fire extinguisher located in the driver's compartment which meets the standards specified in law. In addition, a wheelchair school bus shall have another fire extinguisher placed at the wheelchair loading door or emergency exit. All fire extinguishers shall be regularly inspected and

served in accordance with regulations adopted by the State Fire Marshal. (Education Code 39838; 13 CCR 1242; 19 CCR 574-575.3)

Electronic Communications Devices

A bus driver is prohibited from driving a school bus or student activity bus while using a wireless telephone or other electronic wireless communications device except for work-related or emergency purposes, including, but not limited to, contacting a law enforcement agency, health care provider, fire department, or other emergency service agency or entity. In any such permitted situation, the driver shall only use a wireless telephone or device that is specifically designed and configured to allow voice-operated and hands-free operation or a function that requires only a single swipe or tap of the driver's finger provided the device is mounted on the windshield, dashboard, or center console of the bus. (Vehicle Code 23123.5, 23125)

Safe Bus Operations

School buses and student activity buses shall not be operated whenever the number of passengers exceeds bus seating capacity, except when necessary in emergency situations which require that individuals be transported immediately to ensure their safety. (Education Code 39834)

School bus operations shall be limited when atmospheric conditions reduce visibility on the roadway to 200 feet or less during regular home-to-school transportation service. Bus drivers for school activity trips may discontinue bus operation whenever they determine that it is unsafe to continue operation because of reduced visibility. (Vehicle Code 34501.6)

Unauthorized Entry

The Superintendent or designee may place a notice at bus entrances that warns against unauthorized entry. The driver or another school official may order any person to disembark if that person enters a bus without prior authorization. (Education Code 39842; 13 CCR 1256.5)

Transportation Safety Plan for Boarding and Exiting Buses

The Superintendent or designee shall develop a transportation safety plan containing procedures for school personnel to follow to ensure the safe transport of students. The plan shall address all of the following: (Education Code 39831.3)

1. Determining if students in grades prekindergarten through 8 require an escort to cross a private road or highway at a bus stop pursuant to Vehicle Code 22112
2. Procedures for all students in grades prekindergarten through 8 to follow as they board and exit the bus at their bus stops
3. Boarding and exiting a school bus at a school or other trip destination
4. Procedures to ensure that a student is not left unattended on a school bus, student activity bus, or youth bus

Such procedures shall include, on or before the beginning of the 2018-19 school year, the installation of a child safety alert system at the interior rear of each bus that requires the driver to either manually contact or scan the device, thereby prompting the driver to inspect the entirety of the interior of the vehicle before exiting. A student activity bus may be exempt from this requirement under the conditions specified in Vehicle Code 28160.

5. Procedures and standards for designating an adult chaperone, other than the driver, to accompany students on a school activity bus

A copy of the plan shall be kept at each school site and made available upon request to the California Highway Patrol (CHP). (Education Code 39831.3)

Parental Notifications

The Superintendent or designee shall provide written safety information to the parents/guardians of all students in grades prekindergarten through 6 who have not previously been transported in a district school bus or student activity bus. This information shall be provided upon registration and shall contain: (Education Code 39831.5)

1. A list of school bus stops near each student's home
2. General rules of conduct at school bus loading zones
3. Red light crossing instructions
4. A description of the school bus danger zone
5. Instructions for safely walking to and from school bus stops

Student Instruction

Students who are transported in a school bus or student activity bus shall receive instruction in school bus emergency procedures and passenger safety as follows: (Education Code 39831.5; 5 CCR 14102)

1. Each year, all students who receive home-to-school transportation in a school bus shall be provided appropriate instruction in safe riding practices and emergency evacuation drills.
2. At least once each school year, all students in grades prekindergarten through 8 who receive home-to-school transportation shall receive safety instruction which includes, but is not limited to:
 - a. Proper loading and unloading procedures, including escorting by the driver
 - b. How to safely cross the street, highway, or private road
 - c. In school buses with passenger restraint systems, instruction in the use of such systems as specified in 5 CCR 14105, including, but not limited to, the proper fastening and release of the passenger restraint system, acceptable placement of passenger restraint systems on students, times at which the passenger restraint systems should be fastened and released, and acceptable placement of the passenger restraint systems when not in use
 - d. Proper passenger conduct
 - e. Bus evacuation procedures
 - f. Location of emergency equipment

As part of this instruction, students shall evacuate the school bus through emergency exit doors. Instruction also may include responsibilities of passengers seated next to an emergency exit.

Each time the above instruction is given, the following information shall be documented:

- a. District name
- b. School name and location
- c. Date of instruction
- d. Names of supervising adults
- e. Number of students participating
- f. Grade levels of students
- g. Subjects covered in instruction
- h. Amount of time taken for instruction
- i. Bus driver's name
- j. Bus number
- k. Additional remarks

This documentation shall be kept on file at the district office or the school for one year and shall be available for inspection by the CHP

3. Before departing on a school activity trip, all students riding on a school bus or student activity bus shall receive safety instruction which includes, but is not limited to, the location of emergency exits and the location and use of emergency equipment. This instruction also may include responsibilities of passengers seated next to an emergency exit.

Bus Accidents

In the event of a school bus accident, the driver shall immediately notify the CHP and the Superintendent or designee. The driver shall not leave the immediate vicinity of the bus to seek aid unless necessary. (13 CCR 1219)

The Superintendent or designee shall maintain a report of each accident that occurred on public or private property involving a school bus with students aboard. The report shall contain pertinent details of the accident and shall be retained for 12 months from the date of the accident. If the accident was not investigated by the CHP, the Superintendent or designee shall forward a copy of the report to the local CHP within five work days of the date of the accident. (13 CCR 1234)

The Superintendent or designee shall review all investigations of bus incidents and accidents to develop preventative measures.

41. Visitors/Outsiders – BP 1250

The Governing Board believes that it is important for parents/guardians and community members to take an active interest in the issues affecting district schools and students. Therefore, the Governing Board encourages interested parents/guardians and community members to visit the schools and participate in the educational program.

To ensure the safety of students and staff and minimize interruption of the instructional program, the Superintendent or designee shall establish procedures which facilitate visits during regular school days. Visits during school hours should be arranged with the principal or designee. When a visit involves a conference with a teacher or the principal, an appointment should be scheduled during noninstructional time.

All outsiders as defined in law and administrative regulations shall register immediately upon entering any school building or grounds when school is in session. (Penal Code 627.2)

To ensure the safety of students and staff and avoid potential disruptions, the Board encourages all other visitors to identify themselves to the principal or designee upon entering school grounds.

The principal or designee may provide a visible means of identification for all individuals who are not students or staff members while on school premises.

No electronic listening or recording device may be used by any person in a classroom without the teacher's and principal's permission. (Education Code 51512)

The Board encourages all individuals to assist in maintaining a safe and secure school environment by behaving in an orderly manner while on school grounds and by utilizing the district's complaint processes if they have concerns with any district program or employee. In accordance with Penal Code 626.7, the principal or designee may request that any individual who is causing a disruption, including exhibiting volatile, hostile, aggressive, or offensive behavior, immediately leave school grounds.

Presence of Sex Offender on Campus

Any person who is required to register as a sex offender pursuant to Penal Code 290, including a parent/guardian of a district student, shall request written permission from the principal before entering the school campus or grounds. As necessary, the principal shall consult with local law enforcement authorities before allowing the presence of any such person at school or other school activity. The principal also shall report to the Superintendent or designee anytime he/she gives such written permission.

The principal shall indicate on the written permission the date(s) and times for which permission has been granted. (Penal Code 626.81)

Policy SIMI VALLEY UNIFIED SCHOOL DISTRICT

42. Visitors/Outsiders – AR 1250

The Superintendent or designee shall post at every entrance to each school and school grounds a notice describing registration requirements, school hours or hours during which registration is required, the registration location, the route to take to that location, and the penalties for violation of registration requirements. (Penal Code 627.6)

Unless otherwise directed by the principal or designee, a staff member shall accompany visitors while they are on school grounds.

All visitors will be required to wear visitor identification as provided by the school upon registration while on district property.

All district employees will wear and prominently display their district identification badge while on district property.

Registration Procedure

In order to register, a visitor shall, upon request, furnish the principal or designee with the following information: (Penal Code 627.3)

1. His/her name, address and occupation
2. His/her age, if less than 21
3. His/her purpose for entering school grounds
4. Proof of identity
5. Other information consistent with the provisions of law

Principal's Registration Authority

The principal or designee may refuse to register any visitor if he/she reasonably concludes that the individual's presence or acts would disrupt the school, students, or employees; would result in damage to property; or would result in the distribution or use of a controlled substance. The principal or designee or school security officer may revoke any visitor's registration if he/she has a reasonable basis for concluding that the individual's presence on school grounds would interfere or is interfering with the peaceful conduct of school activities or would disrupt or is disrupting the school, students, or staff. (Penal Code 627.4)

When a visitor fails to register, or when the principal or designee denies or revokes a visitor's registration privileges, the principal or designee may request that the individual promptly leave school grounds. When a visitor is directed to leave, the principal or designee shall inform him/her that if he/she reenters the school within seven days he/she may be guilty of a misdemeanor subject to a fine and/or imprisonment. (Penal Code 627.7)

Appeal Procedure

Any person who is denied registration or whose registration is revoked may appeal to the Superintendent or principal by submitting, within five days after the person's departure from school, a written request for a hearing. This request must state why he/she believes the denial or revocation was improper and must provide an address to which the hearing notice may be sent. Upon receipt of the request for a hearing, the Superintendent or principal shall promptly mail a notice of the hearing to the person requesting it. A hearing before the Superintendent or principal shall be held within seven days after receipt of the request. (Penal Code 627.5)

SVUSD - Visits to Classrooms

Any parent/guardian or interested adult is welcome to visit district classes while in session. The following procedures will be observed in order to assure the continuity of the educational program:

1. Whenever possible, the visitor shall notify the principal or teacher at least one day prior to visitation.
2. If the principal is the one notified, he/she will confer with the teacher(s) involved so that consideration may be given to the effect of the visitation on the instruction planned for that time.
3. The visitor will register in the school office prior to visiting a classroom.
4. The school office will issue an invitation/pass to the visitor which indicates the date and time of visit, the duration of the visit and the class to be observed, along with any other appropriate information to the visitor.
5. The visitor will present his/her invitation/pass to the teacher as a means of introduction at the appointed time.
6. Generally, only two visitors will be admitted at a time to a classroom while instruction is in progress.
7. A classroom observation will be scheduled for approximately 20 - 30 minutes. If the observed lesson exceeds 30 minutes, the parent/guardian may request to remain until the lesson is completed or at the secondary level, one class period.
8. Parent-teacher conferences will be scheduled during non-instructional time rather than during class visitation.

School employees recognize the importance of full and courteous cooperation with those citizens interested in classroom visitation.

Principals are authorized to modify the conditions for visitation because of unusual circumstances, such as but not limited to, public schools week, festive occasions, and parent education programs. Visitation rights may be denied when in the principal's opinion, visitations would seriously disrupt student learning and/or the educational program.

43. Weapons and Dangerous Instruments – BP 5131.7

The Governing Board recognizes that students and staff have the right to a safe and secure campus free from physical and psychological harm and desires to protect them from the dangers presented by firearms and other weapons.

Possession of Weapons

The Board prohibits any student from possessing weapons, imitation firearms, or other dangerous instruments, as defined in law and administrative regulation, in school buildings, on school grounds, when using district provided transportation, at school-related or school-sponsored activities away from school, or while going to or coming from school.

If a student is in possession of a prohibited weapon, imitation firearm, or dangerous instrument which creates a threat or perceived threat of a homicidal act, any employee or other school official who is alerted to or observes such threat shall immediately report the threat to law enforcement.

Under the power granted to the Board to protect the safety of students, staff, and others on district property and to maintain order and discipline in the schools, any school employee is authorized to confiscate any prohibited weapon, imitation firearm, or dangerous instrument from any student on school grounds.

The principal or designee shall notify law enforcement authorities when any student possesses a firearm, explosive, or other prohibited weapon or dangerous instrument without permission, sells or furnishes a firearm, or commits any act of assault with a firearm or other weapon. (Education Code 48902; Penal Code 245, 626.9, 626.10; 20 USC 7961)

Unless a student has obtained prior written permission as specified below, a student possessing or threatening others with any weapon, dangerous instrument, or imitation firearm shall be subject to suspension and/or expulsion in accordance with law, Board policy, and administrative regulations.

All staff shall be made aware of their responsibilities regarding the reporting of potential homicidal acts to law enforcement, and receive training in the assessment and reporting of such threats.

Advance Permission for Possession of a Weapon for Educational Purposes

The parent/guardian of a student who desires to possess a firearm, imitation firearm, or other prohibited weapon on school grounds for an educational purpose shall submit a written request to the principal, at least five school days in advance of the planned possession which explains the planned use of the weapon and the duration, together with a written explanation from the staff person responsible for the school-sponsored activity or class.

The principal may grant permission for such possession when it is determined that possession of a firearm, imitation firearm, or other prohibited weapon on school grounds is necessary for a school-sponsored activity or class or as part of the educational program. Factors that shall be considered include, but are not limited to, the planned use of the weapon, the duration and location of the planned use, whether an audience is expected, and any perceived adverse effects to the safety and well-being of students or staff. If the principal grants such permission, the student and staff person shall be provided with a written explanation regarding any limitations and the permissible duration of the student's possession.

When the principal or designee grants permission, all necessary precautions shall be taken to ensure the safety of all persons on school grounds and the safe keeping of the weapon, including, but not limited to, inspecting a firearm to verify that no live ammunition is present. Any permitted weapon shall be stored in a locked vehicle or in an appropriate, locked container before and after its authorized use.

Any student granted permission to possess a weapon may be suspended and/or expelled if the weapon is possessed or used inappropriately.

Possession of Pepper Spray

To prevent potential misuse that may harm students or staff, students are prohibited from carrying tear gas or tear gas weapons such as pepper spray on campus or at school activities.

Reporting of Dangerous Objects

The Board encourages students to promptly report the presence of weapons, injurious objects, or other suspicious activity to school authorities. The identity of a student who reports such activity shall remain confidential to the extent permitted by law.

The Superintendent or designee shall develop strategies designed to facilitate student reporting of the presence of injurious objects on school grounds, such as tip hotlines, electronic transmissions, or other methods that preserve the student's anonymity. Incident reports and records shall not identify the student who reported the possession. The Superintendent or designee shall also inform staff, students, and parents/guardians that students who report the presence of injurious objects on school campuses are to be protected and their identity shielded.

What is Threat Assessment?

Threat assessment is a problem-solving approach to violence prevention that involves both assessment and intervention with individuals who have threatened violence towards others. Threatening statements and behaviors are treated as indicators of frustration by an individual facing a painful interpersonal problem. The threat assessment and intervention process are designed to prevent violence by helping the individual to resolve the problem, thereby removing the impetus for violence. Both safety precautions and legal actions are taken as part of this process when judged to be necessary to prevent imminent acts of violence.

Principles of Threat Assessment

1. **Prevention is possible.** Targeted violence is not a spontaneous, unpredictable event, but it is the result of a deliberate and detectable process. This means that targeted school violence can be prevented if enough is known about the student's preparatory behavior.
2. **Consider the context.** Threat assessment must include the total context of the threat which includes the student who makes the threat, the situation in which the threat was made and what the student intended by making the threat. Threat assessment should include an investigation of the student's current life circumstances and the environmental context of the threat. There may be factors in the student's social environment that encourage violence.
3. **Adopt an investigative mindset.** Investigators must adopt a critical and skeptical mindset that strives to accumulate reliable evidence and verify all claimed facts about the situation.
4. **Rely on facts, not profiles.** Conclusions must be based on objective facts and behaviors rather than inferred traits or characteristics of the student making the threat.
5. **Gather information from multiple sources.** Information should be gathered from multiple sources within and outside of the school system. This may include teachers, counselors, other school personnel, students, law enforcement, social service agency, mental health providers, etc. Anyone with information must be considered.
6. **Does the student pose a threat?** Threat assessment aims to determine how serious the threat is and then what should be done about it.

Definition of a "Threat"

A threat is an expression of intent to harm someone. Threats can be spoken, written, or expressed in some other way, such as through gestures. Threats may be direct ("I am going to beat you up") or indirect ("I am going to beat him up") or implied ("You better watch out"). Illegal possession of weapons should be presumed to indicate a threat unless careful investigation reveals otherwise (e.g., a student accidentally brought a knife to school). When in doubt about whether a student's behavior is a threat, evaluate it as a threat.

Types of Threats: Transient vs. Substantive

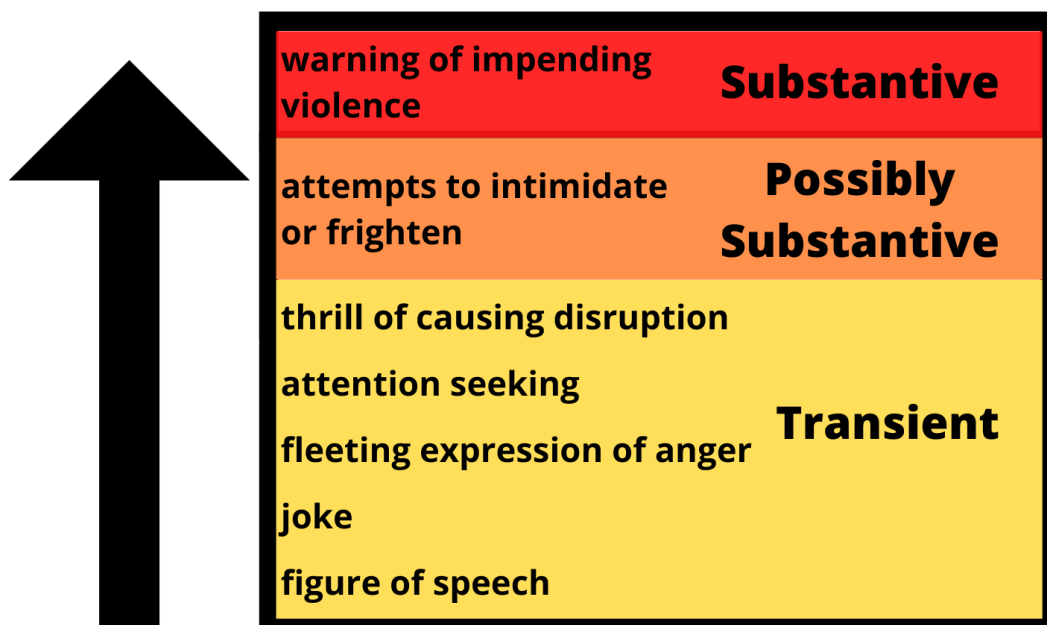

Transient threats: threats that do not pose a serious risk of harm.

- **Figure of speech.** Lowest level of threat and does not convey a genuine intent to harm. It's a common hyperbole to express a strong sentiment.
- **Joke.** Threats expressed as a joke doesn't convey serious intent. Jokes can be misunderstood and can also be offensive.
- **Expression of anger:** Threats are often expressions of anger and frustration, but in most cases the threat doesn't express a lasting intent to harm someone. Most threats spoken in a moment of anger will dissipate in a short period of time.
- **Attention-seeking/thrill of causing a disruption.** Threatening to hurt someone is a potentially powerful way to gain recognition or assert one's power, but doesn't necessarily mean the person has a genuine intention to harm someone.

Substantive threats: threats that have serious intent to harm someone.

- **Attempts to intimidate or frighten.** A threat in an effort to intimidate or frighten someone may indicate a malicious or spiteful intent, but not necessarily a serious intent to carry out the threat. Because there is some degree of malice toward the target of these threats, they must be evaluated carefully, because they are more likely to develop into substantive threats.
- **Warning of impending violence.** The student is communicating genuine intent to carry out a violent act and isn't joking, expressing anger, or trying to intimidate someone.

Continuum of Threats

<u>Transient</u>	<u>Substantive</u>
• “I’m going to kill you” said as a joke • “I’m gonna kill you” said in the heat of competition during a basketball game • Two children use their fingers to “shoot” one another playing. • “I’m gonna bust you up” said in anger, but then retracted after calming down. • “I’ll get you next time” said after a fight, but retracted after the two students reconciled. • “Watch out or I’ll hurt you” said to intimidate, but retracted after calming down. • “I’m gonna shoot that teacher” said in anger, but retracted after calming down. • “There’s a bomb in the building” phone call for the purpose of disrupting school, with no actual bomb. • A student is found with a pocket knife that he accidentally left in his backpack.	• “I’m gonna kill you” said with intent to injure. • “I will make you sorry” said while holding a weapon and not joking. • Two children exchange threats and throw rocks at each other. • “I’m gonna bust you up” said in anger and not retracted later. • “I could break you in half” said in an intimidating manner, followed by stony silence. • “I’ll get you next time” said after a fight; the student refuses mediation. • “Watch out or I’ll hurt you” said by a student with a history of bullying. • “I’m gonna kill that teacher” said by a student who later denies making the statement. • “There’s a bomb in the building” phone call made by a student who later is found to have bomb-making materials and plans at home. • A student who threatened to stab a classmate is found to have a knife in backpack.

Presumptive indicators of a substantive threat

1. The threat contains specific, plausible details. (“I’m going to shoot Mr. Smith with my shotgun” rather than, “I am going to set off an atomic bomb”, or “I’ll get you for that”).
2. The statement has been repeated over time or the student has told multiple parties of the threat.
3. The threat is reported to others as a plan, or there are suggestions that violent action has been planned. (“Wait and see what happens next Tuesday in the cafeteria”).
4. There are accomplices or the student has attempted to seek accomplices in order to carry out the threat.
5. The student has attempted to recruit an audience to observe the threat being carried out.
6. There is physical evidence of intent to carry out the threat. Such evidence could include written plans, lists of victims, drawings, weapons, bomb materials, or literature encouraging or describing how to carry out acts of violence.

Tarasoff Law: Duty to Warn

Background

This rule, which has spread to many states, originated in the California Supreme Court's decision in *Tarasoff v. Regents of the University of California* (17 Cal.3d 425 [1976]). In *Tarasoff*, a patient told his psychotherapist that he intended to kill an unnamed but readily identifiable woman. Subsequently, the patient killed the woman. Her parents then sued the psychotherapist for failing to warn them or their daughter about the danger. The California Supreme Court rejected the psychotherapist's claim that he owed no duty to the woman because she was not his patient, holding that if a therapist determines or reasonably should have determined "that a patient poses a serious danger of violence to others, he bears a duty to exercise reasonable care to protect the foreseeable victim of that danger."

In 1985, the California legislature codified the *Tarasoff* rule: California law now provides that a therapist has a duty to protect or warn a third party only if the therapist actually believed or predicted that the patient posed a serious risk of inflicting serious bodily injury upon a reasonably identifiable victim.

Extended

In *Ewing v. Goldstein* (120 Cal. App. 4th 807 [2004]) and *Ewing v. Northridge Hospital Medical Center* (120 Cal. App. 4th 1289 [2004]), the California Court of Appeal held that the plaintiffs had a right to take their claims to trial. Specifically, the court held that the defendants' (e.g., the therapist's) duty to warn could have been triggered by the statements Colello's father made to Goldstein and the social worker regarding his son's threats. The court saw no difference between threats conveyed directly by the patient and those related by an immediate family member of the patient.

What Factors Indicate a Student is Violent?

Pathways to Youth Violence

1. **Antisocial pathway.** May have a history of early childhood behavior problems and academic difficulties that are usually evidence in the primary grades. They may have problems getting along with peers, refuse to accept adult authority, and generally break rules. Youth may be involved with a gang or associated with other delinquent peers who encourage violence. These youths often have poor social skills, limited problem-solving abilities, lack expressive language skills and verbal intellectual deficits. Some prominent characteristics of psychopathy are manipulative behavior, pervasive dishonesty and lying, lack of empathy for others or remorse for one's actions, repetitive rule-breaking and antisocial behavior in multiple forms.
2. **Conflict pathway (bullying-victim).** Some youths are vulnerable to conflicts that lead to violence because they are very sensitive to teasing, criticism, or rejection. They may be victims of bullying, but it is not necessary that the bullying be extremely cruel or beyond what some of the classmates might experience. Their heightened vulnerability to bullying makes its effect more severe. These youths experience intense feelings of shame and humiliation, rejection in relationships and failure in academic goals. They also may have long standing feelings of resentment or feelings of being treated unjustly by others over a long period of time.
3. **Psychotic pathway.** Involves the development of serious mental disorders such as schizophrenia or bipolar disorder. Youths suffering from psychotic disorders can lead them to engage in violent acts typically have paranoid delusions that justify violence against someone. These youths may have odd mannerisms or behaviors that elicit peer teasing and rejection, they may be obsessed with violence or with hostile feelings towards some individual or a group of people.

Personality Traits

1. **Aggressive traits.**
 - History of fighting and bullying others.
 - Fascination with violence through different forms of entertainment or strong interests in weapons associated with violence.
2. **Paranoid and schizotypal traits.**
 - Sensitivity to teasing or criticism.
 - Unusual beliefs: classic paranoid and schizotypal symptoms such as ideas of reference (the false belief that others are talking about your or certain events are in reference to you, heightened perception of self-consciousness and tendency to interpret the most benign or irrelevant events as personally relevant.
 - Mistrust and detachment: feeling suspicious and mistrustful of others, difficulties establishing relationships.
3. **Depressive traits.**
 - Their depression stems from disappointment in themselves and feelings of inadequacy or rejection, which may have been provoked by bullying, failed relationships, or other unhappy events. They often feel alienated from their peers.
 - Suicidal feelings/ideations.

4. **Narcissistic traits.**

- Narcissism traits involve self-centeredness, intense need for attention and approval, lack of concern for others, an inflated self-image.

5. **Psychopathic-like traits.**

- A youth with psychopathic traits may engage in reckless behavior with little concern for the consequences. They may disregard values, rules, laws and do not feel guilty or remorseful for their actions.

Family Dynamics

No single family pattern is associated with youth violence.

1. **Poor parenting skills.** One common pattern involves parents who have poor parenting skills and little commitment to parenting their children. The parents usually have an array of personal adjustment problems, such as substance abuse, domestic violence, marital instability and irregular employment.
2. **Harsh disciplinary style.** Families engage in harsh discipline and neglect to supervise their children. For example, when a problem arises, parents may react in a highly punitive manner, they may be physically or emotionally abusive to their children.
3. **Passive disciplinary style.** Parents may be overly permissive and underestimate their child's needs for supervision and management due to distraction by their own emotional needs or interpersonal stress.

School Dynamics

Many school shooting perpetrators have had grievances associated with bullying and harassment at school, as well as perceptions that they have been treated unfairly by school staff.

Social Dynamics

Association with deviant or antisocial peers can be a strong risk factor for violence. Adolescents will engage in risk-taking behavior or antisocial acts as part of a group that they would never consider if acting alone. Youth may be influenced by peers in a number of ways.

1. **Direct peer pressure.** Youths can be pressured to participate in crime to the suspension of good judgment and inhibition when part of a crowd.
2. **Gang association.** Youths who belong to gangs have perhaps the highest risk of violent behavior and engage in more violence and other serious crimes than other youth. They may become desensitized to violence or feel that violence is an everyday part of life.
3. **Copycat effects.** Adolescents are influenced by the actions of others. Studies show that high publicity crimes, suicides, and acts of violence can stimulate some individuals to commit similar acts. It is important to determine whether a youth has knowledge of recent events that might stimulate acts of violence.

The Threat Assessment Team

Who is on the threat assessment team? A typical team will include a principal or assistant principal, a school resource officer, a school psychologist, a school counselor, and a school social worker. Here is a description of typical roles and functions of team members, recognizing that schools can adapt their teams to the staff they have available. *In most cases, a team member will conduct an initial triage to determine the seriousness of a threat, and if the threat is serious, call upon the full team.*

Principal or assistant principal. Leads the threat assessment team because of their fundamental responsibility for student disciplinary matters and school safety. Team leader makes final decisions about what to do in response to the student's threat. Other team members have responsibilities intended to provide the team leader with information and recommendation to consider in making these decisions.

School resource officer. SRO responds to emergencies or crisis situations in which there is an immediate risk of violence. In very serious cases, the SRO has legal duties and responsibilities just as they would have if the threat situation took place outside of school. In other cases where the risk of violence is not immediate, the SRO might also have investigative responsibilities as part of their law enforcement role. In non-emergency situations, the SRO is a consultant on law enforcement matters.

School psychologist. The school psychologist should conduct a mental health assessment or safety evaluation with the student, the screening for mental health problems that demand immediate attention, such as psychosis or suicidality, and secondarily with identifying the reasons why the student made the threat.

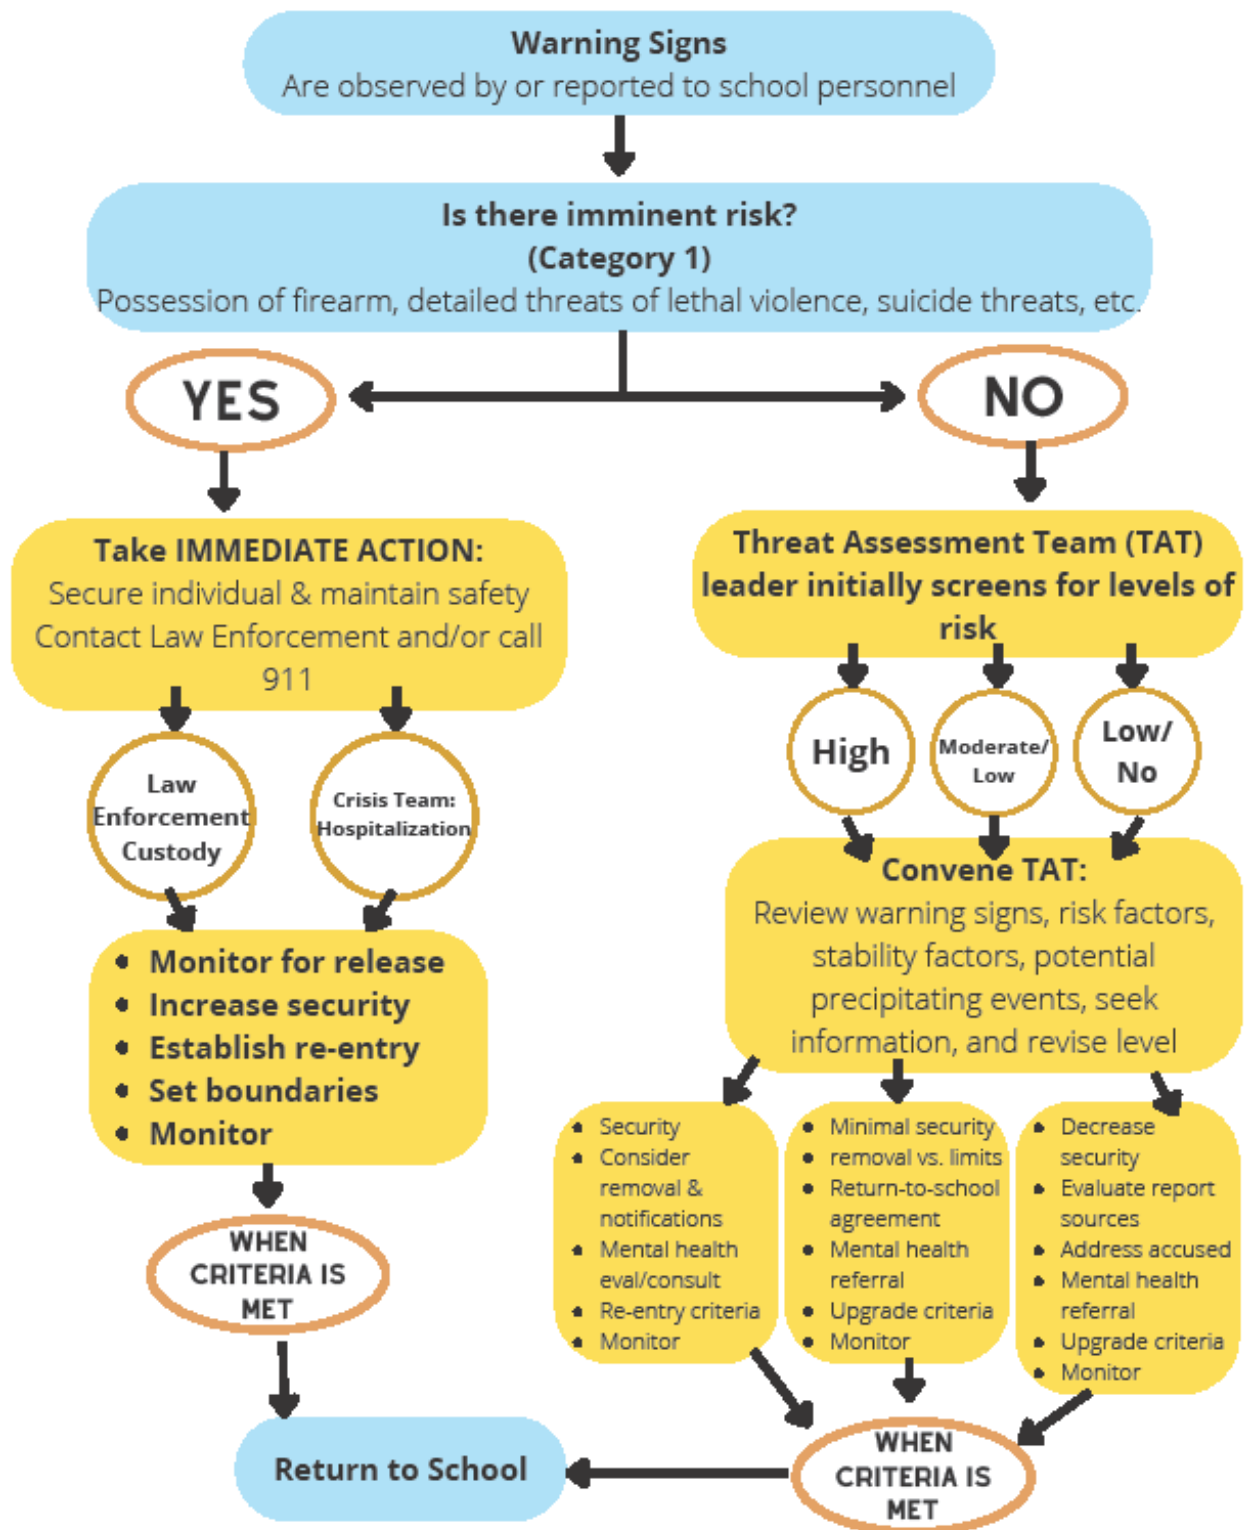

School counselor. May lead an effort to resolve a conflict or dispute within a group of students or provide individual counseling to deal with a student's anger or problems in making friends. After a behavior plan or other intervention has been developed, school counselors can monitor the student's participation in the intervention plan and assess its impact and continued effectiveness.

School social worker. Provide support based on their traditional expertise in working with families, resolving conflicts, and helping students obtain needed assistance. SSWs can also conduct a mental health assessment or safety evaluation with the student.

Teachers. May serve on the team. Teachers should be consulted as part of the threat assessment process and play an important role in identifying threatening behavior or other concerns about a student that merit attention.

School nurse. Provides medical background of the student such as medication history.

THREAT ASSESSMENT DECISION TREE

Protocol for Responding to Threats of Violence

The urgency of the situation will dictate the order and applicability in which the subsequent steps are followed.

1. Respond Immediately

- Report concerns to the administrator/risk assessment team immediately or as soon as possible.
- Do not leave the student unsupervised.

2. Secure the Safety of the Student

- Supervise the student at all times.
- Conduct an administrative search for access to means to hurt themselves or others.
- If appropriate, contact SVPD (ask for a CIT trained officer).

3. Assess for Level of Threat

- Review the student's school history.
- Interview student (threat maker) (**see *School Violence Threat Assessment Tool***)
- Interview identified victim(s) (**see *Targeted Victim Interview***)
- Interview adults on campus who had contact with the student (see ***Teacher/Staff Interview***)
- Interview the parents (last) to identify any new family or individual stressors, including changes in the family, loss or separation, or violence at home or in the neighborhood. Ask if there is a family history of mental illness. (**see *Parent/Caregiver Interview***)

4. Determine Level of Threat

- Category 1 (Immediate): High violence potential; qualifies for immediate arrest or hospitalization.
- Category 2 (High): High violence potential; does not qualify for arrest or hospitalization.
- Category 3 (Moderate): Insufficient evidence for violence potential; sufficient evidence for the repetitive/intentional infliction of emotional distress upon others.
- Category 4 (Moderate): Insufficient evidence for violent potential; sufficient evidence for the intentional infliction of emotional distress upon others.
- Category 5 (Low): Insufficient evidence for violence potential; insufficient evidence for emotional distress upon others.

5. Make a Team Recommendation

- Establish and implement an action plan.
- Monitor progress towards reestablishing school safety.
- Reconvene the team when necessary.
- Decisions made and actions taken should result in:
 - Contact with the student (threat maker)
 - Warning and protection for the targeted victim(s).
 - Disciplinary action, if needed.
 - Continuation of a safe school environment.

6. Documentation

- Document all actions within 24 hours on Aeries.
- Send copies to Student Support Services Department.

Threat Assessment Levels, Warning Signs & Action Plan Options

The Threat Assessment Team should meet to determine appropriate action(s) based on the level of risk. Action items should be based on the severity and risk of threat. There are circumstances that might increase a student's threat risk.

RISK LEVEL	WARNING SIGNS MAY INCLUDE	ACTION PLAN OPTIONS
No Known Current Risk	- No current evidence of intent to hurt/kill self or others. For example, a statement made was a figure of speech, intended as a joke, or was a repetition of song lyrics or movie script (transient threat). - Does not pose a threat or have a plan to hurt/kill self or others. - No means to carry out an act of violence. - No known history of violent ideation/behavior or inappropriate preoccupation with causing harm or homicidal ideations.	Communicate with parent/guardian, even if it's determined that there is no known current risk. - Provide information regarding the incident or statement made. - Explore with the parent/guardian if there are any concerning behaviors at home, school, or community. If yes, this might change the level of risk originally determined. - Reinforce the importance of student safety and use of appropriate language. - Provide linkages to school/community resources, as needed. Document all actions.
Low Risk	- Vague or indirect information contained within the threat. - Threat is implausible, lacks detail or realism. - Context of threat suggests that action is unlikely. - Little history of serious risk factors or dangerous behavior. - Threats are for stress relief, bravado or affect. - Passing thoughts of evidence of interest in violent content (e.g. violent movies, music, video games) may be found in notebooks, internet postings, drawings. - May have some depressed mood/affect. - Protective factors are present.	- Develop a safety plan for the threat maker(s) and intended target(s) that identifies caring adults, appropriate communication and coping skills. - Develop an action plan for the student of interest/threat maker. - Communicate concerns with parents/guardians, of all students involved, including recommendations to seek mental health services, as needed. - Manage and monitor, as needed. Document all actions.
Moderate Risk	- Indication of some planning or premeditation. - No strong indication of preparatory steps to carry out violent acts. - Targeted threat or behavior is aggression that has intention for	- Continue conducting parent, student, target and witness interviews. - Reassure and provide support to the student.

	physical injury, but not serious or lethal injury. • History of aggressive/violent behavior. • History of mental health illness or psychiatric hospitalization. • Difficulty naming future plans or feeling hopeful. • History of substance use or current intoxication. • Recent trauma (e.g. victimization, bullying). • Some protective factors present, as well as indication of desire for help.	• Develop a safety plan that identifies caring adults, appropriate communication and coping skills. • Communicate concerns with parent/guardian. • Provide information and link to school/community resources. • May also include an increase in staff supervision and review of security procedures. • Notify and alert school staff on a need to know basis. • Consider review and reevaluation of IEP. • Consult with the mental health team if next steps include contacting local law enforcement or county agencies. Document all actions.
High Risk	• Threat or behavior is targeted and appears to pose serious danger to others. • Threat is direct, specific, detailed and plausible. • Information suggests the presence of concrete preparations, targets and planning. • Access to weapons or means in hand (e.g. firearms, weapons). • Identified precipitating events with justification to carry out violent acts. • Likely to qualify for immediate arrest or psychiatric hospitalization. • Current suicidal ideation, indicating willingness to die with violent act. • History of mental health illness or psychiatric hospitalization. • History of substance use or current intoxication. • Few or no protective factors present. • Fluidity where the student is vacillating between suicidality and homicidally.	• Continue conducting parent, student, target and witness interviews. • Supervise students at all times (including restrooms). • Reassure and provide support to the student. • Contact local enforcement. • Develop a safety plan that identifies caring adults, appropriate communication and coping skills. • Establish a plan for re-entry, manage and monitor, as needed. • Communicate concerns with parent/guardian. • Provide information and link to school/community resources. • If applicable, conduct Duty to Warn to intended targets. • May include increase in staff supervision and review of security procedures. • Notify and alert school staff on a need to know basis. • Adjust student class schedules. • Consider review and reevaluation of IEP. Document all actions.
