

Park City High Telehealth Services

School-based telehealth allows students and staff to consult healthcare providers without leaving campus. Parents can join from work, maintaining involvement. Most students can quickly return to class after appointments, making it a convenient and cost-effective care option.

- Fever
- Cough/Cold
- Earache
- Skin Conditions
- Flu/Strep A/Covid 19
- UTI (Females only)
- Respiratory Infections
- Dental Pain and more...

Complete the attached consent form and return it to the School Nurse. This needs to be done annually. The nurse will also request verbal consent whenever services are needed.

To participate in the program, consent is needed for your child to receive treatment at school. If your child becomes ill, the school will contact you and initiate treatment as necessary. Most insurance plans are accepted, but insurance is not required.

No Insurance or need Assistance?
If you require assistance, please reach out to the school.

Affordable and Convenient Care at School
