

School Counselor Newsletter

Fulton County Elementary School

December 2025

Mrs. Brey Jones

MONTHLY FOCUS

Problem Solving

Students will learn ways to solve interpersonal problems. They will explore different problems, think of solutions, and explore the outcomes. The goals of this unit include students being able to identify and practice productive solutions when conflicts or disagreements arise independently.

Hello Pilots!

December's focus will be to continue the unit on Problem Solving. We started this unit in November. We will be using a program called Second Step in our whole group lessons as well as Kelso's Choices.

Kelso is a frog that is introduced to students in the primary grades. Kelso teaches students to resolve conflicts on their own by teaching different strategies that students can choose to resolve problems they encounter. In 4th & 5th grade, these are called KC's choices.

On the back of this newsletter is a homelink specific to your child's grade level and the themes/lessons that we will be learning and how it will help your student. It also gives you ideas on how to practice these skills at home.

Office Phone:
270-236-3904 Ext: 4245

If you would like to request your child to have individual counseling, please contact me or go to our school website and fill out a Parent Referral.

FCES Student Council

Student Council has a Pencil Store each morning. Pencils and desk pets (erasers) will be available in the store in the mornings by the front office. Prices range from .25-\$1.00.

Student Council shirts will be sent home as soon as they arrive. Student Council meetings will take place on club days during lunch.
