300 _____ Native Hawaiian/Other Pac Islander 400 _____ Filipino 600 _____ Black/African American

By signing my name below, I declare under penalty of perjury and acknowledge the following:

- I am the parent/legal guardian of this student and reside within the Riverside Unified School District.
- The information I submitted is accurate.
- I understand that this is only a request, that all transfers are based on space availability, and that no transfer is guaranteed.
- If the number of applicants exceeds the space availability, the school will have a lottery to determine acceptance.
- If accepted, the Pupil Services Department will process the Special Program Placement Request by June 2026.
- Students must meet and maintain established academic criteria for participation in the program.
- Students must commit to participation in the Biomedical Science Program (PLTW) during all four years of high school.
- Students must earn a C in Biomedical Science classes each semester, to continue in the program, or student will need to return to his/her school of attendance.
- Please Note: by signing this School Placement Request to the Biomedical Science Program (PLTW), you are canceling any previously approved or submitted transfers to other schools. If your student attends Arlington High School on a specialty program transfer, the transfer is approved to the specialty program, not the school. Therefore, if you decide to withdraw your student from the Biomedical Science Program (PLTW) or if the student does not meet the academic requirement for the Biomedical Science Program, the student will be required to return to their school of residence.
- Parents are responsible for transporting the student to and from school.
- I have read and understand the Special Program Placement Request process.
