

LOS ALISOS STEM MAGNET MIDDLE SCHOOL

losalisos.nlmusd.org

Showcase Night: December 10, 4:00pm – 5:30pm

Los Alisos emphasizes STEAM programs to promote critical thinking, problem-solving, and creativity through science, technology, engineering, arts, and math. Our Project Lead the Way (PLTW) courses, like Engineering Essentials, Computer Science, and App Creators, prepare students for careers in these fields. We also offer a robotics program focused on building and programming robots, as well as a Dual Immersion program fostering bilingualism and biliteracy. Additional courses include Spanish and AVID. Our diverse electives and clubs feature video production, band, art, robotics, gardening, chess, drama, sports, and more.

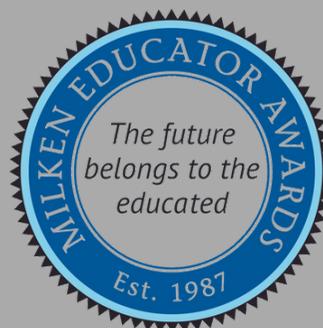

Phillip Sanchez, Ed.D., Principal
