

Name: Federico & Causey		Grading Quarter: 1st	Week Beginning: 9/9 Week 6
School Year: 2024-2025		Subject: Math	
Monday	Notes:	Objective: Students will use bar diagrams, equivalent ratios, double number lines and ratio tables to find the percent of a number line. Unit 1 Module 2 Lesson 4 Students will use bar diagrams to explore percent of a number.	Academic Standards: 6. RP.A.3 6.RP.A.3 C
Tuesday	Notes:	Objective: Students will use bar diagrams, equivalent ratios, double number lines and ratio tables to find the percent of a number line. Unit 1 Module 2 Lesson 4 Students will use bar diagrams to explore percent of a number.	Academic Standards: 6. RP.A.3 6.RP.A.3 C
Wednesday	Notes:	Objective: Students will learn how to use benchmark precents and rounding to estimate the percent of a number. Unit 1 Module 2 Lesson 5 I can estimate the percent of a number by using benchmark precents and rounding.	Academic Standards: 6. RP.A.3 6.RP.A.3 C
Thursday	Notes:	Objective: Students will learn how to use benchmark precents and rounding to estimate the percent of a number. Unit 1 Module 2 Lesson 5 I can estimate the percent of a number by using benchmark precents and rounding.	Academic Standards: 6. RP.A.3 6.RP.A.3 C
Friday	Notes:	Objective: Students will find the whole given the percent and the part. Unit 1 Module 2 Lesson 6 I can fund find the whole, given the part and the percent by using bar diagrams, ratio tables, double number lines and equivalent ratios.	Academic Standards: 6. RP.A.3 6.RP.A.3 C
