Name: Van Atten		Grading Quarter: Q4	Week Beginning: 5/6/2024
School Year: 23-24		Subject: Biology	
Monday	Notes:	Objective: McGraw-Hill Inspire Biology Module 10, Lesson 5: SWBAT describe complex patterns of inheritance Lesson Overview: Students will take notes on the lesson and create interactive elements for the module.	Academic Standards: NGSS LS3.A LS3.B
Tuesday	Notes:	Objective: McGraw-Hill Inspire Biology Module 10, Test McGraw-Hill Inspire Biology Module 11, Lesson 1: SWBAT explain how DNA was discovered to be the genetic molecule Lesson Overview: Students will complete the Unit 10 test. Students will take notes on the lesson and create interactive elements for the module.	Academic Standards: NGSS LS3.A LS3.B
Wednesday	Notes:	Objective: McGraw-Hill Inspire Biology Module 11, Lesson 2: SWBAT explain how DNA is replicated and conserved. Lesson Overview: Students will take notes on the lesson and create interactive elements for the module.	Academic Standards: NGSS LS1.B
Thursday	Notes:	Objective: McGraw-Hill Inspire Biology Module 11, Lesson 3: SWBAT describe how DNA is transcribed to RNA, which is translated into amino acids to form proteins Lesson Overview: Students will take notes on the lesson and create interactive elements for the module.	Academic Standards: NGSS LS1.B
Friday	Notes:	Objective: McGraw-Hill Inspire Biology Module 11, Lesson 4: SWBAT describe how genes are regulated from mutation Lesson Overview: Students will take notes on the lesson and create interactive elements for the module.	Academic Standards: NGSS LS3.A LS3.B
