I. PURPOSE

This Policy recognizes student achievement that occurs in post-secondary enrollment option and other advanced enrichment programs. This policy also recognizes student achievement that occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. This policy addresses the transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the school district will recognize student achievement obtained outside of the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to provide a process for awarding students credit toward graduation requirements for credits and grades students complete in other schools, postsecondary or higher education institutions, other learning environments, and online courses and programs.

III. DEFINITIONS

A. "Accredited school" means a school that is accredited by an accrediting agency, recognized according to Minn. Stat. § 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (MDE).

B. "Concurrent enrollment" means nonsectarian courses in which an eligible pupil under Minnesota Statutes, Section 124D.095, subdivision 5 or 5b, enrolls to earn both secondary and postsecondary credits, are taught by a secondary teacher or a postsecondary faculty member, and are offered at a high school for which the district is eligible to receive concurrent enrollment program aid under Minnesota Statutes, section 124D.091.

C. "Course" means a course or program.

D. "Eligible institution" means a Minnesota public postsecondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by an accreditor recognized by the United States Department of Education, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota. An eligible institution must not require a faith statement from a secondary student seeking to enroll in a postsecondary course under this section during the application process or base any part of the admission decision on a student's race, creed, ethnicity, disability, gender, or sexual orientation or religious beliefs or affiliations.

E. "Nonpublic school" is a private school or home school in which a child is provided instruction in

compliance with the Minnesota compulsory attendance laws.

F. “Weighted grade” is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

V. POSTSECONDARY ENROLLMENT CREDIT

A. A student who satisfactorily completes a postsecondary enrollment options course or program under Minn. Stat. § 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.

B. Secondary credits granted to a student through a postsecondary enrollment options course or program must be counted toward the graduation requirements and subject area requirements of the district.

1. Course credit will be considered by the school district only upon presentation of a certified transcript from an eligible institution evidencing the course taken and the grade and credit awarded.

2. Seven quarter or four semester postsecondary credits shall equal at least one full year of high school credit. Fewer postsecondary credits may be prorated.

3. When a determination is made that the content of the postsecondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student’s transcript as a course credit applied toward graduation requirements.

4. In the event the content of the postsecondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student’s transcript as an elective course credit applied toward graduation requirements.

5. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.

6. When secondary credit is granted for postsecondary credits taken by a student, the school district will record those credits on the student’s transcript as credits earned at a postsecondary institution.

C. A list of the courses or programs meeting the necessary requirements may be obtained from the school district.

D. By the earlier of (1) three weeks prior to the date by which a student must register for district courses for the following school year, or (2) March 1 of each year, the school district must provide up-to-date information on the district’s website and in materials that are distributed to parents and students about the program, including information about enrollment requirements and the ability to earn postsecondary credit to all pupils in grades 8, 9, 10, and 11.

VI. CREDIT FOR EMPLOYMENT WITH HEALTH CARE PROVIDERS

Consistent with the career and technical pathways program, a student in grade 11 or 12 who is employed by an institutional long-term care or licensed assisted living facility, a home and community-based services and supports provider, a hospital or health system clinic, or a child care center may earn up to two elective credits each year toward graduation under Minnesota Statutes, section 120B.024, subdivision 1, paragraph (a), clause (7), at the discretion of the enrolling school district. A student may earn one elective credit for every 350 hours worked, including hours worked during the summer. A student who is employed by an eligible employer must submit an application, in the form or manner required by the school district, for elective credit to the school district in order to receive elective credit. The school district must verify the hours worked with the employer before awarding elective credit.

VII. ADVANCED ACADEMIC CREDIT

A. The school district will grant academic credit to a student attending an accelerated or advanced academic course offered by a higher education institution or a nonprofit public agency, other than the school district.

B. Course credit will be considered only upon official documentation from the higher education institution or nonprofit public agency that the student successfully completed the course attended and passed an examination approved by the school district.

C. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.

D. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.

E. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner and request a determination of the number of credits that shall be granted to a student.

VIII. WEIGHTED GRADES

The school district does not offer weighted grades.

IX. PROCESS FOR AWARDING CREDIT

A. The building principal will be responsible for carrying out the process to award credits and grades pursuant to this policy. The building principal will notify students in writing of the decision as to how credits and grades will be awarded.

B. A student or the student's parent or guardian may seek reconsideration of the decision by the building principal as to credits and/or grades awarded upon request of a student or the student's parent or guardian if the request is made in writing to the superintendent within five (5) school days of the date of the building principal's decision. The request should set forth the credit and/or grade requested and the reason(s) why credit(s)/grades(s) should be provided as requested. Any pertinent documentation in support of the request should be submitted.

C. The decision of the superintendent as to the award of credits or grades shall be a final decision by the school district and shall not be appealable by the student or student's parent or guardian except as set forth in Section IX.D. below.

D. If a student disputes the number of credits granted by the school district for a particular postsecondary enrollment course, or advanced academic credit course, the student may appeal the school district's decision to the Commissioner. The decision of the Commissioner shall be final.

E. At any time during the process, the building principal or superintendent may ask for course descriptions, syllabi, or work samples from a course where content of the course is in question for purposes of determining alignment with graduation requirements or the number of credits to be granted. Students will not be provided credit until requested documentation is available for review, if requested.
