

TITLE I NOVEMBER NEWSLETTER

**Dr. Walter F.
Robinson
Community School**

**Philip G. Vroom
Community School**

Students at Dr. Walter F. Robinson Community School enjoyed a FALL themed workshop, where they took part in a read aloud, created 3D pumpkins, and designed personal bookmarks, using real fall leaves!

Place Value Pastries: Second Grade students at Philip G. Vroom Community School decorated paper donuts using place value cubes to represent numbers in a fun, hands-on way. Each cube showed a different place value, turning the donut into a model for learning math concepts.

Mary J Donohoe Community School

Mary J. Donohoe's 1st Grade Title ELA students practiced their sight words by completing a fun Color by Sight Word activity that revealed a festive Thanksgiving turkey. To close the lesson, each student shared what Thanksgiving means to them and what they are thankful for this year.

Henry E Harris Community School

Henry E. Harris School hosted its first parent workshop of the year, "Fall Into Math," and it was a wonderful success! Parents and guardians had a great time learning fun games and activities that help practice fundamental math skills. Families also received helpful tips and resources to continue building these skills together at home. A big thank-you to everyone who joined us for this engaging and educational event!

Keep an eye out for the flyer for our next parent workshop, "Winter Writing Wizards," coming January 28 — you won't want to miss it!
