Big Walnut Local School District –Delaware County
Notes to the Five-Year Forecast
General Fund Only
September 15, 2025

Introduction to the Five-Year Forecast

A forecast is a snapshot of today. Based on historical trends, what we know and future assumptions. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. Various events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), tax levies (new/renewal/replacement), salary increases, enrollment variances, or businesses moving in or out of the district. As noted below the current state budget approved in HB96 changed the forecast based on what the state Ohio and the Ohio Department of Workforce and Education will require, however the Board of Education will continue to plan over a five-year period. Our district leadership believes that the five-year forecast is a crucial management tool. A five-year planning horizon enables district management teams to examine future years' projections and identify when challenges will arise. This helps district management to be proactive in meeting those challenges.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions of the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are fundamental to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Since the preparation of a meaningful five-year forecast is as much an art as it is a science and entails many intricacies, it is recommended that you contact the Treasurer/Chief Fiscal Officer of the school district with any questions you may have. The Treasurer/CFO submits the forecast, but the Board of Education is recognized as the official owner of the forecast.

Here are three essential purposes or objectives of the forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district.
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate".
- (3) To provide a method for the Ohio Department of Education and Workforce, and the Auditor of State to identify school districts with potential financial problems.

Ohio HB96 was passed in June 2025 which amended O.R.C. 5705.391 and O.A.C. 3301-92.04 requiring a Board of Education (BOE) to file their current years budgeted revenue and expenses, and three additional years. This is essentially a four (4) year forecast. Beginning in fiscal year 2026 (July 1 to June 30) the financial forecast must be filed by October 15, and the end of February. The filing deadlines will change in fiscal year 2027 to August 31, and end of February each fiscal year thereafter. While the legislative requirement is to file a four-year forecast, as noted above, we believe it is a prudent business practice to continue to develop a five-year forecast for planning purposes. The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The first year of the financial forecast is considered the current year budget and is used as the base for future years projections. Our forecast is updated to reflect the most current economic data available for the October 2025 filing.

Executive Summary

Overview

- The Big Walnut Local School District's Five-Year Forecast provides a comprehensive projection of revenues, expenditures, and fund balances for FY2026 through FY2030. While Ohio law now requires only a three-year forecast under HB96, the district continues to prepare a five-year forecast as a proactive management tool. This approach helps identify fiscal challenges early, guide long-term planning, and ensure financial stability in a growing district.

Key Revenue Highlights

- **Property Taxes:** Local property taxes remain the district's largest revenue source, strengthened by substantial increases from the 2023 countywide reappraisal. However, legislative uncertainty around levy structures and property tax reform poses future risks.
- **Income Tax:** District income tax collections rebounded strongly in FY25, with future growth projected from both wage growth and new housing developments. Annual increases are assumed at 10% in FY26 and 5% thereafter.
- **State Funding:** State support accounts for 17.82% of district revenues. HB96 extends the Fair School Funding Plan (FSFP) through FY27, fully phasing in by that year. Beyond FY27, state support is uncertain as two new biennium budgets (FY28–29 and FY30–31) must be negotiated.
- **Other Revenues:** Casino revenues, TIF payments, Medicaid reimbursements, and investment earnings provide modest but steady contributions.

Expenditure Drivers

- **Personnel Costs:** Wages and benefits remain the district's largest expense. New labor agreements through FY28 include annual increases between 4–5%. Staffing growth is anticipated to align with enrollment, with planned net new hires each year.
- **Benefits:** Health insurance premiums will decrease by 20% in FY26 but are projected to rise sharply thereafter (up to 15% by FY28). STRS/SERS retirement contributions and Medicare expenses will continue to grow alongside wages.
- **Purchased Services:** Rising costs for utilities (15% increase in FY26 due to a new electric capacity charge), tuition, and ESC services represent ongoing budgetary pressures.
- **Supplies, Equipment, and Other:** Inflationary increases (2–3% annually) are projected for instructional materials, transportation, and technology replacements, alongside capital outlays for facility maintenance.
- **Transfers:** The district plans annual transfers to athletics (\$160,000) and severance benefits (\$140,000).

Fiscal Outlook

- **Surpluses/Deficits:** The district is projected to maintain balanced operations through FY27 but begin deficit spending in FY28.
- **Cash Balances:** Current reserves provide strong financial stability, but balances will gradually decline as expenditures outpace revenues. By FY30, the district will rely on reserves to sustain operations.
- **True Cash Days:** The district maintains cash levels well above the recommended 60-day reserve in the near term, but reserves will shrink without new revenue or expenditure adjustments.

Risks and Uncertainties

- **State Funding:** Two unknown state budgets (FY28–31) could significantly affect revenues, especially if FSFP is altered or underfunded.
- **Property Tax Reform:** Legislative debates over levy structures and property tax relief could impact local revenues.
- **Enrollment Growth:** Continued residential development may outpace revenue growth, requiring staffing and service expansions.

- **Healthcare Costs:** Insurance premium volatility remains a major long-term expense risk.

Conclusion

- The Big Walnut Local School District is well-positioned in the near term, with stable revenues and strong reserves. However, beginning in FY28, expenditures are projected to exceed revenues, gradually reducing cash balances. Long-term sustainability will require ongoing monitoring of state funding, legislative changes, and local growth pressures. The district remains committed to balancing financial responsibility with its mission to provide high-quality education to a growing student population.

Economic Outlook

Ohio's economic outlook is for slow but steady growth, with industrial diversification in manufacturing, logistics, and technology, with an unemployment rate expected to remain between 4.5% and 5%. The state faces challenges including workforce issues particularly in attracting and retaining skilled labor and the need for affordable housing. In the short term, the state anticipates continued to moderate growth despite national and global challenges such as inflation and interest rates, while the long term depends on continued strategic investment in high-growth sectors and addressing the skilled workforce shortage to make Ohio competitive. These conditions should result in stable revenue enabling the state to continue current levels of funding for school districts and stable local revenue as unemployment remains low.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast

Forecast Risks and Uncertainty:

A five-year financial forecast has risks and uncertainty not only due to economic delays noted above but also due to state legislative changes that will occur in the spring of 2027 and 2029 due to deliberation of the following two (2) state biennium budgets for FY28-29 and FY30-31, both of which affect this five-year forecast. We have estimated revenues and expenses based on the best data available and the laws currently in effect. The items below give a short description of the current issues and how they may affect our forecast in the long term:

- 1) Delaware County experienced the sexennial reappraisal in the tax year 2023 for collection in 2024. The increases for Class I and II property by \$434.7 million for an overall increase of 38.96%, these increases include new construction along with the amounts for reappraisal. However, there is always a slight risk that the district could sustain a reduction in values in the next appraisal update, but we do not anticipate that now.
- 2) Due to historic property value increases in reappraisal and update years the Ohio Legislature has considered various proposals since 2023 to help reduce non-voted tax increases on taxpayers. HB96 the current state biennium budget passed in June which included several proposals that would have ultimately reduced districts' cash balances and placed severe restrictions on increasing local tax revenues. The Governor vetoed four (4) property tax measures that he said would jeopardize the financial stability of public schools. The Ohio House of Representatives pulled three (3) of the Governor's vetoes addressing school district to attempt to override them. They included: 1) County Budget Commission Authority; 2) manipulates the calculation of the 20-mill floor to include emergency, substitute and other levies in the calculation; and 3) the elimination of various levies including emergency, replacement and renewal levies

The Ohio House of Representatives met on July 21, 2025 and voted (61-58) in favor of overriding the elimination of various levy types - only. As of this forecast filing, the Senate has not met to vote on any of the vetoes thus the Governor's vetoes remain in effect.

As part of the Governors' vetoes, he created a property tax reform working group co-chaired by former legislators. The governor appointed 11 members including the co-chairs. The working group is tasked with thoroughly examining issues related to how to provide meaningful property tax relief to homeowners and businesses while ensuring that funding for local schools, fire, police, EMS, libraries, and developmental disabilities is adequate. The Governor has asked the working group to issue a report with concrete proposals by September 30, 2025

The legislature has introduced several other bills that would limit real estate tax growth or eliminate real estate tax collections completely. Many of these bills are still in committee. We are watching legislation closely for any impact on our local revenues.

- 3) Income tax collections are dependent upon the economy. As unemployment decreases the amount of funding increases for the district. We have seen an increase in the payments as employment has recovered from the decrease that was experienced with the pandemic. There is a risk that we could see decreases in the future but at this time, we are not anticipating any for future years of the forecast.
- 4) The state budget represented 17.82% of district revenues, which means it is a significant risk to the revenue. The future risk comes in FY28 and beyond if the state economy stalls due to a possible recession and Fair School Funding Plan is not funded in the next state biennium budget. In this forecast, there are two unknown future State Biennium Budgets covering FY28-29 and FY30-31. Future uncertainty in the state foundation funding formula and the state's economy makes this area an elevated risk to district funding long-range through FY30. We have projected our state funding in FY26 based on HB96 legislation with the Governor's vetoes in place. This forecast reflects state revenue to align with the FY27 funding levels through FY30, which we feel is conservative and should be close to what the state approves for the next two biennium budgets. We will adjust the forecast in future years as we have data to make an informed decision.
- 5) HB96, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY26 and FY27. FY26 reflects 83.33% of the implementation cost at year five of a six-year phase-in plan, which increases by 16.66% each year. FY27 will result in 100% funding of (FSFP). HB96 did not increase the base cost inputs while allowing local capacity inputs to increase. This causes more districts to appear to have greater local ability to fund their schools thus reducing the amount of State Aid they receive. We have used the July #2 state foundation settlement report published by the Department of Education and Workforce for our forecasted revenues in FY26.
- 6) HB96, the current state biennium budget also enacted a new provision called "Piggyback Property Tax Exemptions". This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner occupied 2.5% tax credit. The extended tax credits for qualifying taxpayers would result in reduced property tax collections for the school district from current operating levies, if our County Commissioners implement this. This new law creates a potential risk to our local tax collections.
- 7) The enrollment reporting for the state is very difficult to track. This is another area that we must monitor very closely, especially with the increased enrollment that we are expecting from new housing developments.
- 8) Labor relations in the district have been amicable with all parties working for the best interest of students and realizing the resource challenges the district faces. We believe as the district moves forward a good working relationship will continue.

The major lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer to the forecast. It should be of assistance to the reader to review the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information, please feel free to contact J. Scott Gooding II, Interim-Treasurer/CFO at 740-965-3010.

All Revenue Sources General Fund FY26

Property Valuation Assumptions

Property Values are established annually by the Delaware County Auditor based on the type of property either residential/agriculture or commercial/industrial, which the values are defined even further based on new construction, demolitions, BOR/BTA activity, and complete reappraisal or updated values. Delaware County experienced a sexennial reappraisal for the 2023 tax year to be collected in FY24. Residential/agricultural values increased 36.01% or \$372.6 million due to the reappraisal, led by an improving housing market.

Data captured from the different townships and villages is used to estimate new construction for each collection year for the forecast. For tax year 2023, new construction in residential/agricultural property was up 41.6% or \$48.9 million in assessed value from tax year 2022, and commercial/industrial values increased by \$3.9 million. Overall values increased \$434.7 million or 38.96%, which includes new construction for all classes of property. This is important in that new construction is taxed at the full voted rate and not subject to effective millage rates, for the first year of collection, which will increase the estimate for taxes being collected. For 2024 values for collection in 2025, we are assuming new construction of 200 homes. For 2026 through 2029, we are estimating an increase from new construction of \$20 million.

A triennial update will occur in 2026 for collection in FY27, for which we are estimating an 8.0% increase in residential and a 2.0% increase for commercial/industrial property. We anticipate overall residential/agricultural and commercial/industrial values to increase \$156.8 million or 9.84%.

Public Utility Personal Property (PUPP) values change annually as the values are not included in the reappraisal or update years, which make them very difficult to forecast. The AEP Vassell Substation continues to be a very

important section of the Public Utility Personal Property (PUPP) tax valuation for the district. Since the substation was first added to the values in 2016 the district has seen increases and decreases over the years in PUPP tax values. The district has been told to expect decreases in PUPP throughout the remainder of the forecast due to depreciation of the power plant equipment of approximately 3% to 3.5% each year. Due to new planned housing developments, we believe there will be additions to public utility infrastructure that will compensate for current depreciation. The district received a \$12.0 million increase in values for Tax Year 2024 collect in 2025, we do not expect that type of increase in future years, therefore, we expect our values to continue to grow by \$500,000 annually in CY25 through CY30 due to current growth in public utility infrastructure.

ESTIMATED ASSESSED VALUE (AV) BY COLLECTION YEARS

	Estimated	Estimated	Estimated	Actual	Estimated

Tax Rate Assumptions

The county auditor sets tax rates for each levy voted on to provide tax revenues for the school district. Ohio law provides for “reduction factors” of all voted property tax levies to adjust the millage rates lower for the levy to not increase from inflation of property values for the taxes received by a district to that of the actual amount of the levy at the time of the election. The reduction factors are applied separately to Residential/Agriculture (Class I) and Commercial/Industrial (Class II) resulting in different effective millage rates. The district-voted rate for all general fund operating levies that affect the five-year forecast is 32.12 mills of which 3.62 mills are from the Substitute Emergency Levy, while the Class I effective millage rate is 23.62 mills, and the Class II effective millage rate is 23.62 mills. The Ohio law has a provision that the reduction factors cannot lower the total millage rate for each class less than 20 mills, which includes both the voted and the non-voted millage rates; this is called the “20-Mill Floor”. Currently, our district is on the floor for both Class I and Class II. Any emergency/substitute levy that is voted on is not included in the 20-mill floor, the district has one emergency levy of 3.62 mills that was voted on for an annual amount of \$4.9 million of taxes, as the values increase the millage rate will decrease to only collect the annual amount that was approved by the voters. This must be closely monitored due to potential veto overrides in the House and Senate.

Real Estate Value Assumptions – Line # 1.010

Property tax levies are estimated to be collected at 98.65% of the annual amount. This allows a 1.35% delinquency factor. In general, 52.93% of the Residential/Agriculture and Commercial/Industrial property taxes are expected to be collected in the February tax settlement and 47.07% in the August tax settlement.

ESTIMATED REAL ESTATE TAX - Line #1.010

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
Est. Property Taxes Line #1.010	\$34,231,994	\$36,082,201	\$37,706,105	\$38,140,719	\$39,919,798

Estimated Public Utility Personal Property (PUPP) Taxes – Line #1.020

The amounts below are public utility personal property (PUPP) tax payments from public utilities. Collections are typically 50.83% in March and 49.17% in August, along with the real estate settlements from the county auditor.

ESTIMATED PUBLIC UTILITY PERSONAL TAX – Line #1.020

<u>Source</u>	FY 26	FY 27	FY 28	FY 29	FY 30
Est. PUPP Taxes Line 1.020	\$4,781,457	\$4,785,408	\$4,784,262	\$4,799,963	\$4,798,949

New Tax Levies – Line #13.20

No new tax levy is being included at this time; however, the projected revenues are not anticipated to keep up with the expenditures over the entirety of the forecast as our community continues to grow and support staff positions are planned to be added. With recent updates we may be able to continue stretching our finances a little longer due to rebounding revenues and medical insurance premium reductions, but planning for additional revenue will need to continue to be something the district is mindful of and monitors.

School District Income Tax – Line #1.03

The district passed an income tax (SDIT) of 0.75% effective in 1995, which was approved as a continuing tax in 2003. The district has seen a 13.74% increase in FY25 over FY24, which is more in line to the increases prior to the pandemic. The amount of growth in income tax is difficult to estimate as most of the information from the Ohio Department of Taxation is confidential. We will assume an annual growth rate of 10% for FY26 and 5% in FY27 through FY30 as we feel that the increases in withholding taxes will outperform the estimates and tax return amounts. In addition, we are estimating growth from new families based on the following assumption 90 families per year in FY25-FY29 with an annual family income of approximately \$113,000 which includes an increase over the amount that is estimated from U.S. Census Bureau, 2013-2017 American Community Survey as compiled by Ohio Municipal Advisory Council OMAC data. We will continue to monitor and adjust the amounts as more information is known to the district.

<u>Source</u>	FY 26	FY 27	FY 28	FY 30	FY 31

State Foundation Revenue Estimates – Lines #1.035, 1.040 and 1.045**Current State Funding Model per HB96 through June 30, 2027****A) Unrestricted State Foundation Revenue – Line #1.035**

HB96, the current state budget, continued the Fair School Funding Plan for FY26 and FY27, which funds students where they are educated rather than where they live. We have projected FY26 funding based on the July #2 foundation settlement and funding factors.

Our district is currently a guarantee district in FY26 and is expected to continue to be on the guarantee in FY26-FY30 on the new Fair School Funding Plan (FSFP).

HB96 included a base funding supplement for all districts. The funding supplement per pupil of \$27 in FY26 and \$40 in FY27.

A detailed overview of how foundation funding is calculated including all of the HB96 changes on the Ohio Department of Education and Workforce is not available at this time.

A performance supplement was included in HB96. The eligibility for the supplement payment uses data from the state report card for the 2024-2025 school year for FY26 and 2025-2026 school year for FY27; the payment will be a separate payment of \$13 per pupil in FY26 and FY27. We will not know until later in FY26 if we will receive this payment.

Future State Budget Projections beyond FY27

Our funding status for FY28-FY20 will depend on unknown two (2) new state budgets. There is no guarantee that the current Fair School Funding Plan will be continued in future biennial budget processes; therefore, our state funding estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is held constant in the forecast for FY28 through FY29.

Casino Revenue

On November 3, 2009, Ohio voters passed the Ohio casino ballot issue. This issue allowed four (4) casinos to open in Cleveland, Toledo, Columbus, and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% of Gross Casino Revenue that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year, beginning for the first time on January 31, 2013.

In FY25, the funding totaled \$114.30 million or \$65.70 per pupil. The fall payment for Casino revenues increased from the previous year by 3% for FY26. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 1.5% annual growth rate for the remainder of the forecast.

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>

B) Restricted State Revenues – Line # 1.040

HB96 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding), Career Technical, Gifted, English Learners (ESL), and Student Wellness funding. The district has elected to also post Catastrophic (Threshold) Aid for special education as restricted revenues. We have estimated revenues for these new restricted funding lines using the most current funding factors available. For fiscal years 2026 and 2027, HB96 modifies how DPIA is calculated by factoring in both directly certified and economically disadvantaged students. The new formula modified the weight given to these student groups over the biennium. The district has received the remainder of the Science of Reading Grant from FY25 in FY26.

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>

State Share of Local Property Tax – Line #1.050**Rollback and Homestead Reimbursement**

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given to owner-occupied residences. Credits equal 12.5% of the gross property taxes charged to residential taxpayers on levies passed before September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013. And Homestead Exemptions are credits paid to the district from the state of Ohio for qualified elderly and disabled.

HB96, the current state biennium budget also enacted a new provision called “Piggyback Property Tax Exemptions”. This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner occupied 2.5% Rollback tax credit. The extended tax credits for qualifying taxpayers would result in reduced property tax collections for the school district of roughly \$889,072 from current operating levies, if our County Commissioners implemented this.

Summary of State Share of Local Property Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
Rollback and Homestead	<u>\$4,488,081</u>	<u>\$4,704,578</u>	<u>\$4,920,855</u>	<u>\$4,980,128</u>	<u>\$5,214,338</u>
Total Property Tax Allocations #1.050	<u>\$4,488,081</u>	<u>\$4,704,578</u>	<u>\$4,920,855</u>	<u>\$4,980,128</u>	<u>\$5,214,338</u>

Other Local Revenues – Line #1.060

All other local revenue encompasses any type of revenue that does not fit into the above lines. The main source of revenue in this area is tuition for court placed students, preschool tuition, full-day kindergarten tuition, general rental fees, interest earnings and Medicaid reimbursements.

Interest income is based on the district’s cash balances and increased interest rates due to the Federal Reserve raising rates to curb inflation. While interest income in FY26 should remain steady due to laddered investment strategies, the possible rate cuts will have an impact on earnings in the future years. We will continue to monitor the investments for the district. We will continue to monitor the investments for the district.

We anticipate TIF receipts to continue throughout the forecast period with a modest growth rate, which is indicative of past trends. The TIF payments are from the Sunbury Mills Plaza development.

Medicaid payments have increased in previous years, we are anticipating that these costs and all other revenues are expected to continue at historic trends.

<u>Source</u>	FY 26	FY 27	FY 28	FY 29	FY 30
TIF and PILOTS	\$232,876	\$235,205	\$237,557	\$239,932	\$242,332
Tuition	\$910,192	\$919,294	\$928,487	\$937,772	\$947,149

Transfers In / Return of Advances – Line #2.040 & Line #2.050

These are non-operating revenues which are the repayment of short-term loans to other funds over the previous fiscal year and reimbursements for expenses received for the previous fiscal year in the current fiscal year. There are no advances or transfers planned during the forecast.

All Other Financial Sources – Line #2.060

This funding source is typically a refund of prior year expenditures and one-time payments that are very unpredictable. We have received small amounts for refunds in previous years and do not expect any other large payments within the forecast.

<u>Source</u>	FY 26	FY 27	FY 28	FY 29	FY 30
All Other Sources	<u>\$77,255</u>	<u>\$77,255</u>	<u>\$77,255</u>	<u>\$77,255</u>	<u>\$77,255</u>

Expenditures Assumptions

The district's leadership team is always looking at ways to improve the education of the students whether with changes in curriculum or new technology needs. As the administration of the district constantly reviews expenditures, the education of our students is the forefront of decision making.

All Operating Expense Categories - General Fund FY26

Wages – Line #3.010

The district evaluates staffing needs with the help of enrollment projections that are based on the study conducted for the district by Future Think. Even though the district continues to see enrollment growth minimal staffing increases have been made in recent years due to budget pressures. District leadership is currently reviewing staffing needs for both instructional and support roles as we attempt to accommodate anticipated enrollment growth and a focus on supporting the whole child, which was identified by the board as part of our District's strategic planning.

Our staffing increases are being accounted for in the estimated net new hires in our forecast of 18.00 in FY26, 18.50 in FY27, 19.00 in FY28, 15.00 in FY29 and 11.00 in FY30. Previously, the planned positions were mainly for staffing we believed were necessary to meet the demands of the new buildings, state, or federal requirements for busing and students with special needs. Step increases for all current employees are estimated to be 2.5%. The District and BWEA agreed to a new three-year contract in April 2025 with 5.0% (FY26), 4.0% (FY27) and 4.0% (FY28) increases. BWPSS agreed to a new three-year contract in April 2025 with 5.0% (FY26), 5.0% (FY27) and 4.25% (FY28) increases. OAPSE 524 has agreed to a three-year contract for FY26 through FY28 for 5.0%, 4.5%, and 4.25% base increases. For forecasting purposes, the district is projecting 2.5% increase (aligned to the current consumer price index published by the [U.S. Bureau of Labor Statistics](#)) for base wages in FY29 through FY30. The district is forecasting an increase of 3% growth in Substitutes and

Extra-Curricular wages in FY26 through FY30. The district will be paying the severance payments through transfers to the 035 Termination Benefit fund.

Fringe Benefits Estimates – Line #3.020

A) STRS/SERS will increase as Wages Increase

As required by law the BOE pays 14% of all employee wages to STRS or SERS. The district is using a blended rate of 15.9% for those that received pick-up on pick-up of the retirement and the additional amount is for the SERS Surcharge which is an additional employer charge based on the salaries of lower-paid members, which is used for SERS insurance upon retirement.

B) Insurance

As the graph below notes, health care is a significant cost for the district and has been a real challenge as we have seen rising costs over the last several years. The district has been working on ways in which to reduce the insurance costs, with some changes the district has been able to receive 20% decrease in medical insurances in CY26 with a maximum increase in CY20 of 20%. With these changes the blended fiscal year decrease will be 5.32% in FY26, increase of 0% increase in FY27 and projected increases in FY28 of 15% and 10% in FY29 and FY30. These increases are a blend of the districts history of claims increases and the industry standards of annual premium increases.

The Further Consolidated Appropriations Act of 2020, included a full repeal of three taxes originally imposed by the Affordable Care Act (ACA): the 40% Excise Tax on employer-sponsored coverage (a.k.a. “Cadillac Tax”), the Health Insurance Industry Fee (a.k.a. the Health Insurer Tax), and the Medical Device Tax.

C) Workers Compensation & Unemployment Compensation

The district moved to Retro Group Rating in FY21 for Worker’s Compensation payments, which is anticipated to lower payments in future years due to higher premium refund amounts. The district is not projecting any unemployment claims throughout the forecast.

D) Medicare

Medicare will continue to increase at the rate of increases in wages and as new employees are hired. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

E) Tuition and Other Benefits

With the implementation of the high deductible health plan, the district agreed to make contributions into health savings accounts for employees on the plan which are included with tuition reimbursements on this line.

Summary of Fringe Benefits – Line #3.020

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
STRS/SERS	\$5,224,880	\$5,859,812	\$6,435,751	\$6,946,344	\$7,399,244
Insurance's	\$6,776,322	\$6,964,141	\$8,200,675	\$9,183,855	\$10,144,960

Fringe Benefits Costs Actual FY23-FY25 and Estimated FY26-30

Purchased Services – Line #3.030

An overall average inflation of 2% is being estimated for all categories except utilities that are being projected with a 15% inflationary factor for FY26.

College Credit Plus, excess fees, and other tuition costs will continue to draw funds away from the district, which will continue in this area and has been adjusted based on historical trends.

In FY26, we are planning for additional ESC costs for 0.4 of occupational therapy, 0.4 of speech, and 1.0 of tutoring services. As always, the district will continue to evaluate the needs for additional services with the growth of the district and actual enrollment and make appropriate changes annually. An overall 2% annual increase in the costs of these services is estimated for inflation.

Utilities that are being projected with a 15% inflationary factor for FY26. In FY26 there will be a new electric Capacity Charge that will be assessed on all electric bills to help expand Ohio's electric generating ability. This charge will begin June 2025 and end June 2026. It is anticipated it will increase electric costs by 20% annually for just that twelve (12) month period. We are increasing utilities by 15% in FY26 for the additional capacity charge and then returning the annual increase to 3% in FY27.

Maintenance and repair costs will increase with the changes and additions of the new buildings and have a base increase of 2% each year. We will continue to monitor inflationary costs in this area to see if increased costs should be planned.

Purchased Services – Line #3.030

Revenue vs Expenditures with Deficit Spending

The graph below shows that the district will begin to deficit spend in FY28 and each following year of the forecast.

General Fund Revenues Vs. Expenditures FY23 through FY30

Deficit spending affects the amount of carryover that the district has to plan for the future. When reviewing the needs of the district we review the amount of spending and what would be needed to remove any deficit spending in order to have positive cash balances on the forecast. The chart below shows the amount of deficit spending that is included on Line 6.010 of the forecast and the millage for each year that would be needed in order to erase the deficit spending.

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
Excess Revenue over/(under) Expenditures	\$2,501,708	(\$1,393,604)	(\$5,697,333)	(\$8,010,270)	(\$11,198,633)
Millage equivalent for deficit spending	0.00	0.78	2.91	4.05	5.60

Encumbrances –Line #8.010

These are outstanding purchase orders that have not been approved for payment as the goods were not received in the fiscal year in which they were ordered.

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
Estimated Encumbrances	<u>\$713,986</u>	<u>\$713,986</u>	<u>\$713,986</u>	<u>\$713,986</u>	<u>\$713,986</u>

Ending Unencumbered Cash Balance – Line#15.010

This amount must not go below \$-0- or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year contract which is knowingly signed which results in a negative unencumbered cash balance is a violation of 5705.412, ORC punishable by personal liability of \$10,000. While we have been able to shrink the variance between revenues and expenditures, we are anticipating with current trends to begin utilizing our cash balance or “rainy day fund” for operating needs in future years.

<u>Source</u>	<u>FY 26</u>	<u>FY 27</u>	<u>FY 28</u>	<u>FY 29</u>	<u>FY 30</u>
Ending Cash Balance	<u>\$30,267,306</u>	<u>\$32,769,014</u>	<u>\$31,375,411</u>	<u>\$25,678,078</u>	<u>\$17,667,808</u>

True Cash Days Ending Balance

Another way to look at ending cash is to state it in ‘True Cash Days’. In other words, how many days could the district operate at year end if no additional revenues were received. This is the Current Years Ending Cash Balance divided by (Current Years Expenditures/365 days) = number of days the district could operate without additional resources or a severe resource interruption. The government finance officers association recommends no less than two (2) months or 60 days cash is on hand at year end but could be more depending on each district’s complexity and risk factors for revenue collection. This is calculated including transfers as this is a predictable funding source for other funds such as permanent improvement and athletics.

CONCLUSION

Big Walnut Local School District receives 17.84% of its funding for the district from state dollars which is very beneficial to the overall operations for the education of our students.

The district administration is grateful for the changes in the current state budget HB33 as it has reduced the amount that was deducted for programs that were not within the district’s control. However, future state budgets funding will need to be watched since the full amount of the Fair School Funding Plan was not totally implemented with this budget and there is no guarantee for future increases in state budgets for FY26-FY30.

HB96, now governs the state funding for FY26 and FY27. There were several items within the budget that were vetoed by the governor that the legislature can still over turn the vetoes until December 31, 2026. The main items are still in limbo that could have major detrimental impact on the funding for the district, are having a carry-over balance that is greater than 40% of annual expenditures and being on the 20-mill floor. We will continue to monitor these items as both of these will hinder the administration for planning for the future.

District administrations appreciate the supportive Big Walnut community and are actively planning for the future needs of our students while keeping an eye on the financial stability of the district. The administration is mindful that there are many risks and uncertainties that will need to be considered in future planning.

As you read through the notes and review the forecast, remember that the forecast is based on the information that is known at the time that it is prepared.
