Maine Central Institute Receives Bequest Gift From Mr. Paul Bird '60

Maine Central Institute will inspire students to lead ethical, purposeful, and happy lives as local and world citizens

Maine Central Institute today is pleased to announce receipt of a \$2.94 million unrestricted bequest gift from the estate of Mr. Paul Bird '60. This monumental act of generosity, one of the largest in the school's history, underlies the enduring values and sense of community of this remarkable school, and will help shape the life changing experience of future generations of Huskies in support of MCI's new strategic vision.

Framed by MCI's living mission statement, this strategic vision, supported now by Paul's altruism, will see development of the full spectrum differentiated School of School's curriculum, core campus regeneration that will include the Village Partnership Initiative, and celebration and support of our forever connected local and international alumni, friends, and family.

Stronger together - We will keep moving forward
