

Parents, Join the Wait Until 8th Pledge!

= A smartphone is a portable device with an Internet browser, app store, games and/or social media access.

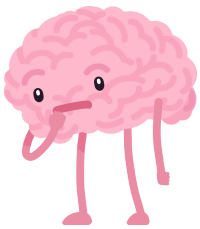

We can still stay connected using **BASIC PHONES** and **SMARTWATCHES** with limited features.

We pledge to hold off on giving our kids smartphones until at least the end of 8th grade.

Because smartphones ...

1. Are **Addictive**
2. **Shrink** Attention Span
3. Increase **Anxiety** & **Depression**
4. **Expose** Kids to **Mature** Content
5. Open the Door to **Cyberbullying**

SIGN THE PLEDGE TODAY!

There's strength in numbers! Together, we can reduce the pressure on kids to have a smartphone in order to fit in.
