Section II Special Conditions, Excavation, Resurfacing, Fees

Special Conditions

1. Relocation and protection of utilities

The permittee shall not interfere with any existing facility without the written consent of the Town and the owner of the facility. If it becomes necessary to relocate an existing facility, this shall be done by its owner. No facility owned by the Town shall be moved to accommodate the permittee unless the cost of such work be borne by the permittee. The cost of moving privately owned facilities shall be similarly borne by the permittee unless it makes other arrangements with the person owning the facility. The permittee shall support and protect by timbers or otherwise all pipes, conduits, poles, wires or other apparatus which may be in any way affected by the excavation work, and do everything necessary to support, sustain and protect them under, over, along or across the work. The permittee shall secure approval of method of support and protection from the owner of the facility. In case any of the pipes, conduits, poles, wires or apparatus should be damaged, and for this purpose pipe coating or other encasement or devices are to be considered as part of a substructure, the permittee shall promptly notify the owner thereof. All damaged facilities shall be repaired by the agency or person owning them and the expense of such repairs shall be charged to the permittee. It is the intent of this section that the permittee shall assume all liability for damage to facilities and any resulting damage or injury to anyone because of such facility damage and such assumption of liability is a contractual obligation of the permittee. The only exception will be such instances where damage is exclusively due to the negligence of the owning utility. The Town shall not be made a party to any action because of this section. The permittee shall inform itself as to the existence and location of all underground facilities and protect the same against damage.

2. Protection of public property

The permittee shall not remove, even temporarily, any trees or shrubs which exist in the street area without first obtaining the consent of the appropriate Town department or Town official having control of such property.

3. Urgent Work

When traffic conditions, the safety or convenience of the traveling public or the public interest require that the excavation work be performed as emergency work, the Town shall have the full power to order, at the time the permit is granted, that a crew and adequate facilities be employed by the permittee beyond normal working hours including up to twenty-four (24) hours a day to end that such excavation work may be completed as soon as possible.

4. Emergency action

Nothing in this article shall be construed to prevent the making of such excavations as may be necessary for the preservation of life or property or for the location of trouble in conduit or pipe, or for making repairs, provided that the person making such excavation shall apply to the Town for such a permit on the first working day after such work is commenced. Before any excavation work is started, the person or utility excavating must contact ~~all utilities~~ Digsafe for on the spot locations.

5. Noise, dust and debris

Each permittee shall conduct and carry out excavation work in such a manner as to avoid unnecessary inconvenience and annoyance to the general public and occupants of neighboring property. The permittee shall take appropriate measures to reduce to the fullest extent practicable in the performance of excavation work, noise, dust and unsightly debris and between the hours of 10:00 p.m. and 7:00 a.m. shall not use, except with the express written permission of the Town or in case of an emergency ~~as herein otherwise provided~~, any tool, appliance or equipment producing noise of sufficient volume to disturb sleep of occupants of the neighboring property.

6. Preservation of monuments

Any monument set for the purpose of locating or preserving the lines of any street or property subdivision, or a precise survey reference point, or a permanent survey bench mark within the Town, shall not be removed or disturbed or caused to be removed or disturbed without first obtaining permission in writing from the Town to do so. Permission to remove or disturb such monuments, reference points or bench marks shall be granted only when no alternate route for the proposed substructure or conduit is available. If the Town is satisfied that no alternate route is available, permission shall be granted only upon condition, by an agreement in writing, that the person or utility applying for such permission shall pay all expenses incident to the proper replacement of this monument by the Town or permittee.

7. Granite and bituminous curb

No person or utility shall remove, damage, haul away or cause misalignment ~~or of~~ any bituminous curb, granite curbing, including radius curb and catch basin stones, for any reason whatsoever without first receiving written permission from the Town. Any curb missing, damaged or misaligned shall be replaced or aligned, ~~by the Town at the rate set forth herein and will be charged to the permittee; provided, however, that the Town, at its option, may allow~~ the permittee to replace or realign that portion of curb by the permittee's excavation. In such event, replacement or realignment shall be done in a manner and under specifications prescribed by the Town and subject to inspection by the Town and shall be completed within a period of ninety (90) days after such authorization to complete work. The permittee shall, for a period of three (3) years thereafter, be fully liable for all defects in materials and workmanship relating to such work and shall promptly repair or replace the same upon notice of the Scarborough Public Works Department ~~public works authority~~ and to the satisfaction thereof.

8. Maintenance of drawings

Every person or utility owning, using, controlling, or having an interest in substructures, under the surface of the public way used for the purpose of supplying or conveying gas, electricity, communication, impulse, water, steam, ammonia or oil in the Town, shall file with the Town, a map or set of maps each drawn to a scale of not less than one (1) inch to fifty (50) feet, showing in detail the plan, location, size and kind of installation, if known, of all new or renewed substructures, except service lines designed to serve single properties. These maps shall be provided to the Town no later than sixty (60) days after the completion date of construction. The same information shall be provided in a geo-reference CAD file.

9. Annual work program to be submitted by utilities

Each year on or before March thirty-first, each utility shall submit to the Scarborough Public Works Department ~~public works authority~~ its planned work program for the ensuing year, which shall not include emergencies and normal house service lines. Thereafter, no permit shall be issued to a utility for excavations not contained within its planned work program, except for emergencies

and house service lines, until a prior written application for such excavation shall have been submitted to and approved by the Scarborough Public Works Department ~~public-works-authority~~.

Excavation

1. Clearance for vital structures

The excavation work shall be performed and conducted so as not to interfere with access to fire hydrants, fire stations, fire escapes, water gates, underground vaults, valve housing structures, traffic signal cables and loops and all other vital equipment as designated by the Town.

2. Protective measures and routing of traffic

a. Safe crossings~~s~~.

The permittee shall in general maintain safe crossings for two (2) lanes of vehicle traffic at all street intersections where possible and safe crossings for pedestrians. If any excavation is made across any public street or sidewalk, adequate crossings shall be maintained for vehicles and pedestrians. If the street is not wide enough to hold the excavated material without using part of the adjacent sidewalk, a passageway at least one-half of the sidewalk width shall be maintained along such sidewalk line.

b. Barriers and warning devices.

It shall be the duty of every permittee cutting or making an excavation in or upon any public place, to place and maintain barriers and warning devices necessary for safety of the general public. Traffic control in the vicinity of all excavations affecting vehicular, pedestrian and bicycle traffic shall be subject to final review and approval of the Scarborough Public Works Department. Barriers, warning signs, lights, etc., shall conform to the latest edition of the "Manual on Uniform Traffic Control Devices". Warning lights shall be electrical markers or flashers used to indicate a hazard to traffic from sunset of each day to sunrise of the next day. Electrical markers or flashers shall emit light at sufficient intensity and frequency to be visible at a reasonable distance for safety. Reflectors or reflecting material may be used to supplement, but not replace light sources.

c. Normalizations of traffic conditions.

The permittee shall take appropriate measures to assure that during the ~~performance of~~ the excavation work, traffic conditions as near normal as possible shall be maintained at all times so as to minimize inconvenience to the occupants of the adjoining property and to the general public.

d. Closing of streets.

When traffic conditions permit, the Scarborough Public Works Department, with the approval of the Scarborough police and fire departments ~~of the Town~~, may ~~be written approval (or by verbal approval in case of emergency)~~; permit the closing of streets to all traffic for a period of time ~~if prescribed by him or her, if in his or her opinion it is~~ necessary. ~~The W~~ritten approval of the Scarborough Public Works Department may require that the permittee give notification to various public agencies and to the general public. In such cases, such written approval shall not be valid until such notice is given. In case of emergency on week nights, weekends or holidays the utility company having such emergency shall contact the Scarborough police and fire departments by phone before closing a street to traffic.

e. Interference with arterial streets.

~~Unless an emergency condition exists construction activities of~~ The permittee ~~is also informed that construction activities (unless an emergency condition exists)~~ shall not interfere with the normal flow of traffic on arterial streets of the Town of Scarborough. The full in-bound roadway lane width shall

be maintained between the hours of 6:45 a.m. and 8:30 a.m. and the full out-bound roadway lane width shall be maintained between the hours of 4:00 p.m. and 5:45 p.m.

f. Shifting traffic to opposite side.

The permittee may shift traffic to the opposite side of the roadway to maintain required lane width. The permittee may only make such shift with the approval of the Scarborough Public Works Department following proper review of detour plans to insure adequate safe two-way traffic flow and proper number and placement of police officers.

3. Breaking through pavement in streets and sidewalks

- a. All excavations on paved street and sidewalk surfaces shall be pre-cut in a neat straight line with pavement breakers, saws, or asphalt cutters.
- ~~b.~~ Heavy duty pavement breakers may be prohibited by the Town when the use endangers existing substructures or other property.
- ~~c.~~ Cutouts of the trench lines must be normal or parallel to the trench line.
- ~~d.~~ Pavement edges shall be trimmed to a vertical face and neatly aligned with the center line of the trench.
- e. Unstable pavement shall be removed over cave-outs and overbreaks and the subgrade shall be treated as the main trench.
- ~~f.~~ The permittee shall not be required to pay for repair of pavement damage existing prior to the excavation unless ~~his or her~~ the cut results in small floating sections that may be unstable, in which case, the permittee shall remove the unstable portion and the area shall be treated as part of the excavation.
- ~~g.~~ When three (3) or more street openings are made in sequence (fifteen (15) feet or less, center to center, between each adjacent opening), the permittee shall neatly cut and remove the area of pavement between these adjacent openings and shall patch as one trench.
- ~~h.~~ On concrete sidewalks, all cuts shall be made from the nearest joint or score line on one side of the excavation to the nearest joint or score line on the other side of the excavation.

4. Care of excavated material

- a. All material excavated from trenches and piled adjacent to the trench or ~~in~~ on any street shall be piled and maintained in such manner as not to endanger those working in the trench, pedestrians or users of the streets, and so that as little inconvenience as possible is caused to those using streets and adjoining property. Where the confines of the area being excavated are too narrow to permit the piling of excavated material beside the trench, the Town shall have the authority to require that the permittee haul the excavated material to a storage site and then re-haul it to the trench site at the time of backfilling.
- b. It shall be the permittee's responsibility to secure the necessary permission and make all necessary arrangements for all required storage and disposal sites.
- c. All material excavated shall be laid compactly along the side of the trench and kept trimmed so as to cause as little inconvenience as reasonably possible to vehicular and pedestrian traffic, or as specified by the Town. Whenever necessary in order to expedite the flow of traffic or to abate the dirt or dust nuisance, the boards or bins may be required by the Town to prevent the spreading of dirt into traffic lanes.

5. Backfilling of excavation

Crushed stone or sand shall be used to bed and backfill all underground utilities and shall be thoroughly compacted under, around and to a minimum of 6 inches above the structure. After being properly bedded, the backfill material for all other substructures shall be of a fine material, free from lumps, frozen materials and no stones larger than four (4) inches in diameter. All backfill materials shall be placed in eight (8) to ten (10) inch lifts and thoroughly compacted with approved mechanical compactors. Within eighteen (18) inches of the subgrade of the pavement, gravel shall be used as backfill material consisting of fifteen (15) inches of bankrun and three (3) inches of crushed or screened gravel in accordance with the Town's specifications. The Town may require soil tests to be furnished by a recognized soil testing laboratory or registered professional engineer specializing in soil mechanics when, in its opinion, backfill for any excavation is not being adequately compacted. In order for the resurfacing to be permitted, such tests must show that the backfill material meets the minimum requirements as prescribed by the Town. All expense of such tests shall be borne by the permittee.

6. Trenches

The maximum length of open trench in an excavation permissible at any time shall be two hundred (200) feet, and no greater length shall be opened for pavement removal, excavation, construction, backfilling, patching or any other operation without the written permission of the Town.

7. Prompt completion of work

~~After~~ Once an excavation ~~has begun~~ is commenced, the permittee shall ~~prosecute with diligence and expedite~~ all excavation work covered by the excavation permit, ~~and~~ shall promptly complete ~~such the~~ work and restore the street ~~as specified~~ in accordance with this article. The permittee shall perform such restoration work so as not to obstruct, impede or create a safety hazard to public travel by foot or vehicle.

8. Winter Excavations ~~during winter~~

No person or utility shall be granted a permit to excavate or open any street or sidewalk from ~~the time of~~ November first of each year to April fifteenth of the following year unless an emergency or special condition exists and permission is obtained in writing from the Town. Any person or utility wishing to obtain a street opening permit between these aforementioned dates shall first explain fully in writing the emergency situation existing to the Town ~~before issuance is granted~~. If a hazardous condition, ~~which could~~ endangering life or property exists, excavation work shall not be delayed by this section. ~~However,~~ However, a written explanation shall be delivered to the Town as soon as possible to obtain a permit and a street opening permit obtained for the opening made.

9. Manholes and/or catch basins

No person or utility shall remove, damage, haul away, or otherwise disturb any manhole and/or catch basin castings, frames, and/or covers owned by the Town without first receiving written permission from the Town. Any manhole and/or catch basin castings, frames and/or covers missing, damaged, or disturbed shall be repaired and/or replaced by the permittee in accordance with the specifications set forth by the Scarborough Public Works Department.

10. Excavations in reconstructed streets

Whenever the Town has developed plans to reconstruct a street, the Town or its representative shall give written notice ~~thereof~~ to all abutting property owners, to the Town departments, and to all public utilities which have, ~~or want, may wish~~ to lay pipes, wires or other facilities in or under the highway. Upon receipt of such written notice, such person or utility shall have sixty (60) days in which to install

or lay any such facility. If an extension of time is needed by a person or utility for the installation of such facilities, the person or utility shall make a written application to the Town explaining fully the reasons for requesting such an extension of time. At the expiration of the time fixed and after such street has been reconstructed, no permit shall be granted to open such street for a period of five (5) years unless an emergency condition exists or unless the necessity for making such installation could not reasonably have been foreseen at the time such notice was given. The above mentioned five (5) year moratorium for street openings also pertains to all new public or private streets, i.e. new subdivisions or developments that have been accepted in accordance with the Town specifications.

11. Incurred expenses through repairing and backfilling by Town

a. If the work or any part thereof mentioned in this article for repairing or backfilling the trenches or excavations shall be unskillfully or improperly done, the Town shall cause the same to be skillfully and properly done, and shall keep an account of the expense thereof, and in such case such person or utility shall pay the Town an amount equal to the whole of the expense incurred by the Town with an additional amount of fifty (50) percent. Thereafter, upon completion of the work and the determination of the costs thereof, the Town shall ~~not~~ issue ~~any additional no further or new~~ permits to any person or utility until receipt of payment due ~~it shall receive payment of the costs.~~

b. Any person or utility who continues to violate any section of this article shall receive no further permits until such time as the Town is satisfied that the person or utility shall comply with the terms of this article.

12. Resurfacing of streets and sidewalks

~~a. Permanent resurfacing by the Town.~~

~~Permanent resurfacing of excavations in streets shall be made by the Town.~~

a b. Temporary resurfacing by the permittee.

The top surface of backfill shall be covered with four (4) inches compacted depth of bituminous temporary resurfacing material, by the permittee. Such temporary paving material shall be cold mix, except that the permittee may use or the Town may require hot mix. All temporary paving material shall be compacted so that it is hard enough and smooth enough to be safe for pedestrian travel over it, as well as for vehicular traffic to pass safely over it at a legal rate of speed. The permittee shall maintain the temporary paving and shall keep same safe for pedestrian and vehicular traffic until the excavation has been resurfaced. ~~with permanent paving by the Town, except~~ If it is not possible to maintain the surface of the temporary paving in a safe condition for pedestrian and vehicular traffic, then the permittee shall maintain barriers and lights where necessary ~~required herein.~~

b e. Permanent resurfacing by the permittee.

Upon completion of all excavation ~~the backfilling and temporary resurfacing of an excavation within a public place for the installation or removal of a substructure, the Town, at its option, may allow~~ the permittee shall ~~to~~ permanently resurface that portion of the street surface damaged by the permittee's ~~excavation.~~ In such event, permanent resurfacing shall be done ~~in a manner and~~ under specifications prescribed by ~~the Town~~ and subject to inspection by the Scarborough Public Works Department. Completion is required ~~Town and shall be completed~~ within a period of ninety (90) days after such authorization to complete final resurfacing. If such permanent resurfacing is satisfactory to the Scarborough Public Works Department ~~Town,~~ all charges for resurfacing except for permit fees, ~~long-term maintenance reserves and Town inspection charges, as herein set forth,~~ will be canceled. The permittee shall, for a period of three (3) years thereafter, be fully liable for all defects in materials and

workmanship relating to such resurfacing and shall promptly repair or replace the same upon notice of the public works authority and to the satisfaction thereof.

13. Inspection

The Town shall make such inspections as are reasonably necessary in the enforcement of this article. The Town shall have the authority to promulgate and cause to be enforced such rules and regulations as may be reasonably necessary to enforce and carry out the intent of this article.

Fees and Charges

1. Fee:

A fee as specified in the Schedule of License, Permit and Application Fees established by the Town Council, shall be paid for each excavation permit issuedance or renewed ~~and for each renewal of an excavation permit.~~

2. Cost of Replacement:

~~After openings c~~Charges shall be established by order of the Town Council to cover replacement costs ~~the cost of replacement~~ of the street or sidewalk ~~after openings~~. Under this article, ~~which~~ charges shall not be in excess of the reasonable cost of such replacement.

3. Special Conditions:

a. Where three (3) or more street openings are made in sequence (fifteen (15) feet or less, center to center, between each adjacent opening), the permittee shall be charged for one opening measured from the first opening to the last opening.

b. ~~For If the~~ street openings exceeding fifty (50) square yards, a utility company or contractor may request, in writing, the Town's permission to contract privately for the street or sidewalk repairs. If the Town agrees, the contractor shall post a letter of credit for the actual amount of the street opening times the appropriate unit rate established or as approved by the Scarborough Public Works Department ~~public works authority~~. The letter of credit shall be for a period of one year or as otherwise approved by the Scarborough Public Works Department ~~public works authority~~ and shall be retained by the Town for the period of time. Upon notification from the public works authority, that the repairs have been accepted, the Town shall release the letter of credit to the contractor. Street repair ~~work~~ must be done in accordance with the Town's specifications and is subject to inspection by a Town representative.

c. The Town shall provide an on-the-job inspector to supervise all excavation, ~~backfilling~~ of temporary or permanent repairs. The permittee shall be charged ~~at~~ the appropriate hourly inspector's rate ~~of the inspector~~, plus thirty-five (35) percent overhead for the services of such inspector.

~~d. In streets where the Town has installed a new sanitary sewer or storm drain and the pavement on such streets is in need of major repair, the Town may waive up to fifty (50) percent of the total street opening repair charge to utilities and individuals having work to do on such streets.~~

Billing Procedures

~~1.~~ Upon completion of the excavation work and after ground settlement has stabilized, the size of the opening will be measured a measurement shall be made by the Scarborough Public Works Department ~~Town of the size of the opening~~ The Town's long-term cost to maintain the opening are calculated by multiplying the size of the road cut (total square yards) by the appropriate rate as set forth herein. ~~and a~~

~~bill will be mailed to the permittee depending upon the costs of the opening to be repaired. Item 9. Standing and Special Committee Reports and Liaison Reports.

- Councilor Babine noted that the joint Finance Workshop between the Town and School had to be canceled and as soon as another date has been set we will inform the public. The next Town Council Finance Committee would be on Wednesday, January 14th at 4:00 p.m. He had also attended the SEDCO meeting and noted the ecomaine would be meeting on Thursday, January 15th and that he will be able to attend.
- Councilor Donovan noted that he too attended the SEDCO meeting.
- Councilor Blaise gave an update on the Planning Board meeting – noting the FOSH had submitted preliminary sketch plans for review.
- Councilor Hayes noted that due to the holidays his committees did not meet; however, they would be meeting on Tuesday, January 13th – Coastal Waters and Harbor Committee at 6:30 p.m. and the Shellfish Conservation Commission at 7:30 p.m.
- Councilor Chair Holbrook felt the workshop that had been held earlier this evening with the Historic Preservation Committee had been informative and a step in the right direction. The

Housing Alliance had to reschedule its meeting from Thursday, January 8th to Thursday, January 15th.

Item 10. Town Manager Report. Thomas J. Hall, Town Manager, gave the following updates:

- Updated the Council on the dredge project, which was ahead of schedule.
- He reminded the Town Council there would be training tomorrow at 3:30 p.m. relating to Freedom of Access/Executive sessions and the form of government Scarborough currently has. He further noted that could be Senior Staff in attendance as well.

Item 11. Council Member Comments.

- Councilor Hayes stated that during his campaign he had stated that he would try to push for an open process and asked the residents to please let Council know what you would like see come before the Council for discussion.
- Councilor Donovan during one of his outings he had a resident ask him why he had voted a certain way and he encourage residents to please contact Councilors and ask the question we would be happy to respond.
- Councilor Babine wished everyone a Happy New Year. He thanked the Historic Preservation Committee for the information they had provided at the workshop. The second workshop on tax acquired property made him wonder why certain policies were in place when the Manager should be able to handle certain situations by just doing his job.
- Council Chair Holbrook also mentioned the training for the Council on Thursday, January 8th at 3:30 p.m. She also noted there would be a Goals Workshop prior to the Town Council meeting on Wednesday, January 21st - Goals Workshop would start at 6:00 p.m. She went on to note that a local water company donate \$1,000.00 to the local food pantry.
- The Town Manager noted that former Town Councilor Tony Attardo, Sr. has passed away earlier in the day. Mr. Attardo was committed to community service; he served on the Town Council as well as the School Board and other committees. He would be missed.

Item 12. Adjournment. Motion by Councilor Blaise, seconded by Councilor Babine, to move approval to adjourn the regular meeting of the Scarborough Town Council.

Vote: 5 Yeas.

Meeting adjourned at 7:48 p.m.

Respectfully submitted,

Yolande P. Justice
