Family and Community Engagement

SRP Appreciation Day!

School Related Professionals (SRP's) ensure our schools run smoothly and safely. From greeting students with a smile as they arrive at school, helping them transition safely from buses and cars, to supporting teachers and administrators in countless ways that make our schools welcoming, organized, and ready for learning. Their dedication allows us to provide the excellent education our students deserve, and it does not go unnoticed.

Thank you for your commitment, your care, and your unwavering support for every student and every adult in OP. We are grateful for you today and every day!
