GENERAL CHARACTERISTICS

Colegio Nueva Granada is a private, co-educational day school founded in 1938 to provide students (K4 - 12) with a U.S.-oriented, college-preparatory education. CNG is accredited by Cognia and the Colombian Ministry of Education. The school year begins in August and ends in June, and this year's enrollment is 1,671. The student body is international consisting of 44% Colombian, 16% U.S., 15% dual (U.S.-Colombian), 16% dual (Other-Colombian) and 9% from other countries. There are a total of 51 nationalities at CNG. **All classes are taught in English except** Colombian social studies, Spanish, French, and Mandarin. The average class size in high school is 11, and the maximum class size is 23 by policy. **CNG does not provide class rank.**

HIGH SCHOOL STUDENT BODY

Currently, there are 470 students enrolled in the high school, grades 9-12. The Senior class number is 103, the Junior class 109, the Sophomore class 134, and the Freshman class 124. Both the U.S. High School and the Colombian Bachillerato program of study are offered. All students graduate with the U.S. High School diploma. Additionally, eighty percent (80%) of the Class of 2025 received a Colombian Bachillerato diploma. Ninety-nine percent (99%) of graduates go on to university studies.

CURRICULUM

Courses at CNG are college preparatory. CNG consistently places in the highest category, A+, on the ICES SABER 11 exam, the Colombian national exit examination. We offer 32 Advanced Placement courses and 9 PreAP courses. The maximum enrollment depends on the timetable.

Beginning with the Class of 2028, we have changed our Mathematics Pathways to better prepare students for success in university mathematics. In Grade 9 and 10, students take math courses that include algebraic, geometric, and statistical concepts. For Grades 11 and 12, students opt for either a data and statistics pathway or a STEM pathway that includes precalculus and calculus.

This year we are also offering one entrepreneurship dual enrollment course with CESA, a local university here in Bogota.

ACADEMIC SUPPORT SERVICES

CNG believes in maximizing the individual potential of all students through the Exceptional Learner Programs. In high school, students with learning exceptionalities receive different levels of support based upon their needs through our Learning Center or our Gifted-and-Talented programs. Students with exceptional learning needs can have support in the form of an IEP, IAP, or ILP, and through specially designed classes.

CO-CURRICULAR ACTIVITIES

High School students have numerous opportunities to participate in athletics, visual and performing arts, community service options, student organizations, and academic clubs. 49 clubs are offered throughout the school day, 11 of which are student-led. Our activities snapshot includes Ambassadors, Model United Nations, Student Council, National Honor Society, Athletics, Drama Productions, CNG Heroes, and Math and Physics Olympiad competitions, among others.

CLASSROOM WITHOUT WALLS (CWW)

The experience of a lifetime! Students are challenged to take what they are learning (curriculum) and apply it, supported by the United Nations Sustainability Goals, in a real-world context. The program is built around CNG's vision statement, with a community service focus. Students are empowered through experiential learning on local and national out-trips.

COMMUNITY SERVICE

CNG empowers students to become citizens of leadership and service through community service and service learning projects aligned with the UN Sustainable Development Goals. All students complete at least 80 hours of service during their HS years. HS students served 13,309 hours during the 2024-2025 school year. Our core outreach program is our sister-school, Colegio Fundación Nueva Granada.

INNOVATION LEARNING

Innovation Learning is a schoolwide initiative focused on supporting students to master the competencies listed in our [CNG Learner Profile](#) which enhance academic achievement. CNG's Innovation Learning Initiative implements a dynamic approach to learning that intentionally instructs and evaluates both academic and non-academic competencies, equipping all students to thrive and lead in a future of unknown possibilities.

SENIOR RESEARCH PROJECT (SRP)

During Senior year, students develop an original research project related to a personal or professional passion to generate their own data or creation, relevant to their field of study. Projects range from artistic creations to academic studies. Students write a 4,000-5,000 word paper and prepare an oral presentation and defense. In addition, students gain familiarity with the basic elements of academic research (i.e, annotated bibliography, literature review, research methods, etc.).
