Planning Your Child's Future Begins Now!

Every child deserves an education that sparks curiosity, nurtures strengths and prepares them for success beyond the classroom.

Whether your child is just beginning their educational journey in pre-K or elementary school, or exploring their interests in middle or high school, Broward County Public Schools (BCPS) offers programs at every level to inspire creativity, build critical thinking and get them ready for college, career and life.

These opportunities extend beyond school boundaries. Through our School Choice initiative, families can explore all that BCPS has to offer and apply to schools and programs that best fit their needs.

Why BCPS is Your Best Choice

- **Innovative and Personalized Learning**
  BCPS is a national leader in offering award-winning magnet programs and unique learning pathways that focus on specific themes and areas of interest. Whether your child dreams of becoming a doctor, pilot, engineer, firefighter, computer scientist, top chef, or performing or visual artist, we have programs to put them on the right path.

  With more than 180 magnet and innovative programs to choose from, there is something for everyone. We also offer Montessori, K–8 and 6–12 school models, so families can find the structure that works best for their students.

- **World-Class Academic and Enrichment Programs**
  Through advanced academic options such as Advanced Placement, Cambridge Advanced International Certificate of Education (AICE), International Baccalaureate and Dual Enrollment, high school students can earn college credits – and even an Associate of Arts degree – while still in high school.

  Our District is also home to the largest Speech and Debate program in the nation and the largest JROTC program in the world, providing students at all grade levels the opportunity to strengthen their communication, leadership and critical thinking skills.

- **Career & Technical Education**
  It's never too soon to start getting real-world career experiences. Our Career & Technical Education programs offer hands-on learning in more than 75 career pathways to expose students in all grade levels to high-demand, high-salary careers. They can also earn industry certifications while in middle and high school – the same certifications as working professionals!

BCPS is committed to helping students discover their passions and unlock their potential.

Whether you're just beginning to plan your child's educational journey or considering a new direction, now is the perfect time to take the next step. Visit browardschools.com/schoolchoice to discover the range of programs and options available, connect with our team and begin shaping a future full of possibilities.

Your child's journey to success starts here – and we're excited to be part of it.
