Directions: Choose 2 activities from each column for the day. Check off which activities were completed on this

3rd Grade E-Learning Day #1

Mrs. Tweit & Mrs. Williams

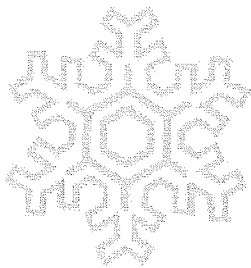

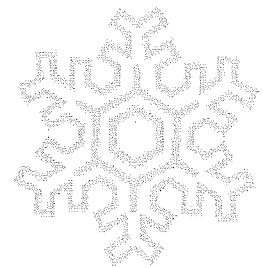

Math	Language Arts	Related Arts
Write and solve the following multiplication problems: 2x4 2x6 2x7 2x8 2x9 5x3 5x5 5x6 5x7 5x8	Read the included Scholastic News & Complete the Questions at the End	Make a snowball and bring it inside. See how long it takes the snowball to melt and record the time.
Shape Search Look around your home to find items that are similar to the shapes below. Write TWO examples for each. circle rectangle cylinder square sphere cube	Find a quiet place to read a book of your choice. Read for 15 minutes. When you finish reading, list the main character, setting, and 3 details from what you read.	Build something out of legos, blocks, playdough, or other building materials. Either take a picture and email it to your teacher or describe what you built.
Complete the attached worksheet to solve addition and subtraction word problems.	Write a story about the best snow day ever. Use complete sentences and give as many details as possible.	Spend at least 20 minutes playing outside or doing physical activity inside (jumping jacks, sit ups, push ups, etc.).
Draw a large circle on a piece of paper. Use the circle as your pizza crust. Cover the whole pizza with cheese. Cover 1/2 the pizza with pepperoni. Cover 1/4 of the pizza with olives. Cover 3/4 of the pizza with a topping of your choice. Color when you're done if you're able.	Invent a new kind of candy and design the wrapper! Make sure you include a name for your candy! Write 5 sentences describing the candy you have invented. (This counts as one for language arts AND one for related arts.)	

Name: _____

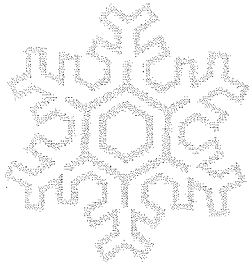

1. I saw 236 icebergs in the North Pole and 547 icebergs in the South Pole. How many did I see all together?

2. The sun came out and melted 218 icebergs. How many are left? (HINT: Use your answer from #1)

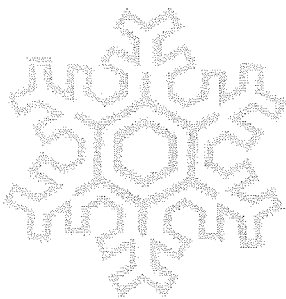

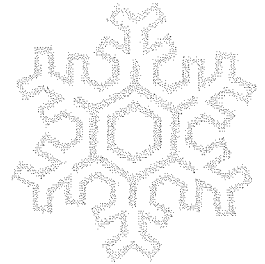

3. An Inuit family built 343 igloos. Another Inuit family built 278 igloos. How many did the families build in total?

Name: _____

4. There were 654 snowflakes falling each minute yesterday. How many snowflakes fell in two minutes?
(Challenge: How many fell in three minutes?)

5. My friends built 12 snowmen. Each snowman had 3 body parts made of big snowballs. How many snowballs were there all together?

6. John loves to drink hot chocolate. In each cup of hot chocolate he puts in 8 marshmallows. If John drinks 7 cups of hot chocolate, how many marshmallows will he need?
