

FALL 2025

Autumn in the school district is busy as a new year begins and fall sports and activities get into full swing. The Board reviewed the new curriculum plans and waited for the federal and state legislatures to pass their respective budgets. We were also updated on the data for student achievements through results of PSSA and PVVAS test results.

Conestoga Valley began the year financially stable without having to borrow funds, but as time passed, we were facing strains our budgets. To address this, the administration created a temporary spending freeze through administrative directives following established guidelines. Now that the budgets are passed – the state for the school year and the federal until January – we can begin to review how to transition back to normal and begin work on the 2026-27 budget.

For details on District activities and initiatives, visit the [Superintendent's Corner](#) on the District area of our website.

November municipal elections have changed the list of School Directors. Michael Talley and Philip Hurst have chosen to leave the Board and are being replaced by Laura Givler and the return of Philip Benigno. We have already begun onboarding and orientation initiatives with our new members. They will join the Board December 1 along with a newly elected Board President and Vice President.

Wishing everyone a happy holiday season.
