The Eagle Examiner

SPONSORED BY THE SUNBURY/ BIG WALNUT AREA OF CHAMBER OF COMMERCE

JULY 2018

Our mission is to inspire and guide each student to his or her maximum potential.

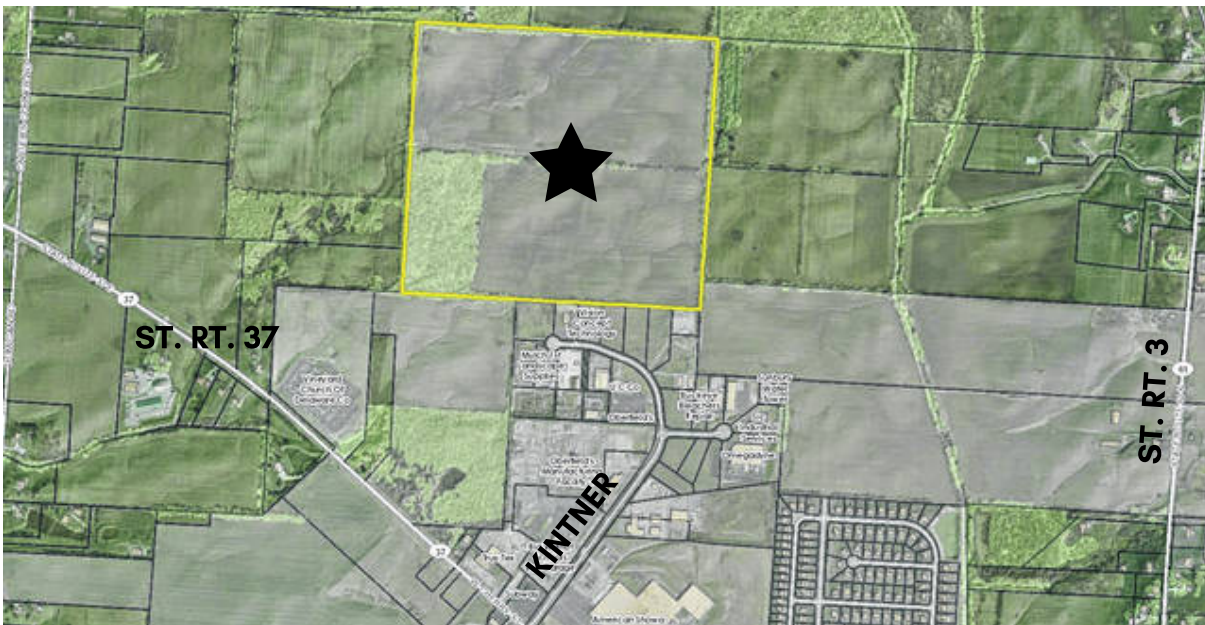

A MESSAGE FROM SUPERINTENDENT ANGIE POLLOCK

At the June 21, 2018 meeting, the Big Walnut Local Schools Board of Education approved a contract to purchase 97 acres behind Kintner Parkway in Sunbury for the new high school and elementary school. The land was selected based upon criteria determined in conjunction with our Facilities Committee (the rubric can be found on our website in archived news from January- Land Criteria Rubric). We appreciate everyone’s patience as we reviewed alternatives in search of a parcel that was centrally located with access to utilities. We also had to carefully consider size, topography, and the affordability of road access, among other factors. We are grateful for the

assistance of our Facilities Committee in helping us determine the important attributes for a site. We are pleased to be able to locate both new schools on the same site. By locating the schools on one site, we will save money with site development.

NEW HIGH SCHOOL & ELEMENTARY SCHOOL SITE

We will be having another Live Access call on July 12 at 7:00 p.m. to share additional information. You will be able to join the call via a link on our website, or simply by answering our autocall if you are a district parent. You will have the opportunity to ask questions regarding the land site. We will also be discussing some early design ideas and asking for feedback. Stay tuned for more information!

Our next issue will be dedicated to the start of our 2018-2019 school year and will include information for the new year. Enjoy the rest of your summer!

BIG WALNUT LOCAL SCHOOLS

Message from the Board

Elsewhere in this issue, you'll read about the site we put into contract for the new high school and elementary school. The Board of Education would like to thank Chip Carpenter and Ryan Rogers of United Country Real Estate for working with us to evaluate all our choices and make that decision.

Looking back at our recent graduation, my favorite part was hearing Principal Andy Jados speak of the exit interview he did with each of our graduating seniors in 2018, and what he learned about the range of their plans. For me at least, that was a great example of Big Walnut's 2020 Vision - what have we done to help our students evaluate their interests and abilities relative to

the opportunities in the world outside of high school? What could we be doing better?

Or as Board of Education Vice President Brad Schneider has told me, "Instead of asking kids what they want to be when they grow up, maybe we should be asking students what sorts of problems do you want to solve for what sorts of people?"

Among my five children, with two who have graduated and three who are still Big Walnut students, I'm impressed at what they learn from each other and their friends. Adults can learn from that as well, as far as what our juniors and seniors are planning based on what they learned from friends who are recent Big Walnut alumni in college, the workplace and the military.

I'm sure my high school principal cared for my classmates and me, but I don't know that it ever would have occurred to him to take that time with each student. That's not the way anybody did school back in the day. I see that as a material difference owing to our 2020 Vision. As a board member, I look forward to hearing more about what Principal Jados learned from that, and how we can put it to use for the benefit of our students.

Sincerely,

Andy Wecker
President
Big Walnut Board of Education

After over 8 years of service, Dr. Allison Fagan is resigning her position as a member of the Big Walnut Local Schools Board of Education due to family considerations. During her time on the Board, Allison tirelessly championed the needs of all

Thank You Dr. Fagan for Your Service to Our Children & Community

students. Among her many services to the district, she has served as president of the Board, has been a long-term member of the BWLS Insurance Committee, and has participated in contract negotiations.

Community members interested in being considered by the other four board members to replace Dr. Fagan may submit a resume and letter of interest that includes reasons for wanting to be a school board member. These materials should be

submitted to the district office at 110 Tippet Court, Sunbury, OH 43074 or via email to the district secretary, Tami Lee, at tamilee@bwls.net. by 4:00PM, Tuesday July 31, 2018.

The board will consider the applicants in order to vote on and swear in a new member in August.

BIG WALNUT LOCAL SCHOOLS

We Love Our Community Partners

Thank you to American Showa, Inc. and their associates for choosing our district to partner with on multiple volunteer projects for the third annual “Team Honda Week of Service.”

On June 8th, associates from American Showa, Inc., volunteered to spend the day cleaning up the courtyard at Big Walnut Intermediate School; painting the curbs, pedestrian walkways, railings, and benches; and striping the parking lot at Big Walnut High School.

American Showa, Inc. joined with Honda in reinforcing the Team Honda spirit of working together to make a difference in the communities where employees live and work. This means making a positive impact in Sunbury, the community they call home.

We extend our heartfelt thanks to American Showa, Inc. and their associates for helping make Big Walnut Local Schools a great place to be. Our staff and students are extremely grateful.

To see more about “Team Honda Week of Service” follow the hashtag on Twitter: #TeamHondaCares.

Free & Reduced Meals

The BWLS 2018-19 program policy for Free & Reduced Price Meals or Milk for students is now available. This policy is for families who are unable to pay the full price of meals or milk served under the National School Lunch and School Breakfast, After School Care Snack or Special Milk Program. To read the full notice, go to the district’s website (www.bwls.net), then click *Food Service Department*. You will find the Free & Reduced Price Meals application on the Food Service page as well.

Issuing Bonds: Attention to Detail

**Treasurer
Jeremy Buskirk**

It is exciting to see the construction projects in our district progressing with our security entrance renovations and the designing of our new facilities both underway. A lot of planning and thought goes into the undertaking of these construction projects, and a lot of consideration and effort also goes into issuing the bonds to ensure funds are available to keep our projects on track.

Once voters approve a bond levy, school districts must begin the steps to issuing bonds. Part of this process is to evaluate the timing of a bond issuance. This involves many factors, such as when funds need to be available to facilitate planning activities, the ability to expend funds as required by IRS regulations, current and anticipated economic conditions, and the ability to meet millage goals. Along with district leadership, a team is assembled to help with this assessment, preparation, and issuance of bonds.

This team commonly includes a bond counsel, municipal advisor, and underwriter, who each bring a different area of expertise to the process:

- **A bond counsel** helps to prepare all the documents and ensures the process of issuing the debt is done properly.
- **A municipal advisor** provides advice with respect to the structure, timing, terms, call provisions, and other matters related to both the process and issue. By the very nature of its business, this organization has a responsibility to look out for the interest of the district and provides great expertise in providing calculations and scenarios to make informed decisions.
- **An underwriter** offers advice throughout the process and is the entity that sells the bonds to investors on pricing day. This group also agrees to purchase any remaining bonds that are not sold.

Issuing bonds requires hard work by all involved parties to provide an appealing offer to banks, insurance companies, and other institutional buyers to invest in our community.

Big Walnut Students are Going Global

**Director of
Academic Achievement
Jen Young**

We are excited to begin our inaugural year for the Global Scholars program with 25 eager sophomores who applied and were selected. Global Scholars operates in collaboration with the Columbus Council on World Affairs to develop globally competent students with the knowledge, skills, and mindset necessary for leadership, citizenship, and careers in an interconnected, global society. Students who elect to complete the three-year program will earn a prestigious Global Scholars Diploma. Each year, students will have enrichment experiences built around the four domains: Investigate the World, Recognize Perspective, Communicate Ideas, and Take Action.

No matter students' future paths, they will live and work in a global world. Being a part of the Global Scholars program will be a valuable experience that will help prepare them for their futures. To learn more about the Global Scholars program and the Columbus Council on World Affairs, please visit their web page: www.columbusworldaffairs.org

Lifelong Learning

Albert Einstein said, “intellectual growth should commence at birth and cease only at death.” Lifelong learning is one of the Community Library’s core service areas. Continually learning and exploring throughout life makes the human experience more enjoyable and fulfilling. The library starts working with patrons at an early age, encouraging them to dive into their curiosities and to discover new and exciting worlds through reading and other activities.

While our youth programs are some of our most visible, we also offer a wide range of services for adults to promote learning beyond the school years. The library offers many classes and workshops throughout the year for adults. Some of our most popular programs include our yoga and tai chi classes, book discussion groups, art and writing groups, and informational seminars. For a current list of library programs, visit events.yourcl.org.

The library also offers several online classes for individuals wanting to explore topics or learn new skills. Gale Courses offers online courses through a network of colleges. Lynda.com offers online training related to business and technology. Mango Languages is an online source for foreign language instruction. To view all our online learning resources, visit databases.yourcl.org. Once at the database page, you can easily narrow the list to lifelong learning resources.

Some patrons cannot make it into the library due to health or other circumstances. For this reason, the Community Library offers outreach services to area senior facilities as well as homebound individuals. Each month staff and volunteers deliver hundreds of books to senior facilities. Many more books are delivered to individuals in the community. The library wants to ensure that people have access to materials to keep them engaged and growing, despite any physical limitations. If you or someone you know needs such services, please contact us at outreach@yourcl.org.

If you have any questions or comments about lifelong learning or any of the above services, feel free to contact the Community Library in Sunbury at 740-965-3901 or info@yourcl.org.

Chauncey Montgomery
Director/Fiscal Director

Our team of skilled and respected chiropractors — Dr. Aaron Erndt, Dr. Gabe Mendenhall, Dr. Jeff Willoughby, Dr. Amanda Golden, and Dr. A. Renee Allen — look forward to helping you on your path to wellness using natural healing techniques. Our office, founded by Dr. Tom Erndt, has been active in the Sunbury, Ohio community for over 35 years. We effectively utilize state-of-the-art chiropractic techniques and rehabilitative treatments to restore proper spinal function and maximize the body’s natural healing ability. We offer: Wellness Chiropractic Care, Family Practice, Personal Injury, Worker’s Compensation, Massage Therapy, Sports Physicals, Nutrition Consultation, Orthotics, and more. Please contact us Monday through Saturday at 740-965-4301 to set up an appointment and learn how chiropractic care can help you!

BIG WALNUT LOCAL SCHOOLS

CONSTRUCTION UPDATE:

**Director of Facilities
Doug Swartz**

July brings to mind many seasonal traditions - parades, fireworks, family picnics, S'mores by the fire and time spent with family and friends. As families celebrate traditions and milestones, we are completing some milestones of our own in the Facilities Department in our work to update our building entrances and construct new facilities using bond proceeds.

Starting first with the Security Improvements Project, this \$2 Million project awarded to Leveck Commercial Construction & Development, is in the final phase of construction at this time. Milestone activities include the installation of drywall, flooring, electrical and plumbing fixtures, as well as related inspections with our partners at the Delaware County Building Department and the BST&G Fire District.

The five schools mainly impacted in this effort are Big Walnut High School, Big Walnut Intermediate, Harrison Street Elementary, Big Walnut Elementary and Hylen Souders Elementary.

With an aggressive but still achievable occupancy date of August 8, the District would be remiss to not make note of the amount of work and effort involved in the design and construction activities completed to date. We are very appreciative of the effort put forward by District staff - including custodial and maintenance staff and teachers, as well as the volunteer Facilities Committee, Triad

Architects and our entire construction team. For more information on that team, please take a moment to review the Facilities Team Member Spotlight featuring Leveck Commercial Construction & Development.

Construction is underway at Big Walnut High School on the new entry vestibule

Big changes at Hylen Souders Elementary with the addition of the new lobby

Workers are moving materials at Harrison Street Elementary

FACILITIES TEAM MEMBER SPOTLIGHT

The Security Improvements project was awarded to the Leveck Commercial Construction & Development firm. The Columbus, Ohio company specializes in both self-initiated development projects as well as serving as a real estate brokerage/property management firm and a general trades contractor. Their experience with K-12 schools includes work with Olentangy Schools, Dublin City Schools, Westerville City Schools, Columbus City Schools, and Southwestern City Schools, as well as other teaching institutions such as Columbus State Community College.

While based in Columbus, the Leveck firm, owned by Robert Leveck, may be a name that is familiar to Big Walnut District residents. The firm manages 700 W. Cherry Street and 44 S. Kintner Parkway in Sunbury and leases the Subway shopping center at 739-743 W. Cherry St. In addition, they manage properties in Delaware and Westerville.

When asked why the firm has chosen to bid and construct K-12 schools, Jennifer Leveck shared the following: "We started bidding public work as a filler to go along with our private projects. With our cost saving model, we find that we can be very competitive in pursuing public projects." The firm prides itself on professionalism and ensuring a job is done right and on time to the satisfaction of the owner.

SITE FOR NEW SCHOOLS

Of course the big news surrounds the fact that we are moving forward with a site for the new elementary school and high school. At the June 21, 2018 meeting, the Big Walnut Board of Education approved a contract to purchase 97 acres behind Kintner Parkway in Sunbury for the new elementary school and high school. The land was selected based upon criteria determined in conjunction with our Facilities Committee (the rubric can be found on our web site in archived news from January- "Land Criteria Rubric").

During the next few months, we will be completing due diligence, including surveying and geotechnical assessments. We will also be working with our architect, construction manager, and engineers to finalize the planning for both utility and road access to the new site. Once the due diligence is successfully completed, we will close on the property. Now that we have land in contract and have hired an architect firm and a construction manager, we are meeting to finalize a timeline to share with the public.

DESIGN TEAM HARD AT WORK

Special thanks to Groveport Madison and Ridgemont Local for allowing our committee to tour their facilities

Summer break has not meant a break from the design and planning of the new elementary and high school buildings. The two Planning Teams composed of teachers, custodians, high school students, community members and District administrators, have continued to meet bi-weekly with the Design Team, led by the architectural firm of VSWC. In addition to meetings, several members of both teams spent the day on June 26, visiting two 21st-Century school facilities in order to get a first-hand look at other newer school buildings. They were also able to discuss lessons learned and obtain feedback from the buildings staff as well. We want to thank both the Groveport Madison High School and Ridgemont Local administrators for affording us this opportunity.

BIG WALNUT LOCAL SCHOOLS

Meet Our New Principals

Gary Hankins

Big Walnut Intermediate

Hometown: I was born in Southpoint, Ohio, but grew up and went to school in Whitehall.

Education: I graduated from Capital University with a 1-8 teaching license, then earned my Master's degree from The Ohio State University in administration.

Family Stats: I've been married to my wife Kristin for 15 years this July. We have two children; Brock is 11 years old, and London is 7 years old.

Hobbies: We travel to Myrtle Beach every summer. My wife has been going to Myrtle Beach since she was 4 years old, so I guess you could say one of my hobbies is traveling to the same beach every summer. I also love to read and enjoy action movies.

What does #InspireAndGuide mean to you? Our responsibility as educators is to engage and properly challenge our students. When the level of challenge is appropriate, students will need guidance so they develop perseverance and grit. I love this quote from the book *Future Driven*, "Don't drag your students through a curriculum. Invite them to come along with you for a shared journey of discovery." In other words, educators should "Inspire and Guide" their students!

Anything else you'd like our families to know?

I spent six years teaching at Big Walnut Middle School (now BWI) when it was a 6th-8th grade building. It was a great experience both professionally and personally. I feel blessed to be back and look forward to working with the community to make BWI a better place.

Kate Thoma

General Rosecrans Elementary

Hometown: Bowling Green, Ohio

Education: I graduated from Bowling Green State University with a degree in Special Education, then from Ashland University for my Master's in Curriculum and Instruction. I also took additional coursework from Ashland to obtain my PK-3 teaching and principal's licenses.

Family Stats: I have three amazing children. My daughter Allie is 9 and will be in third grade this year. I also have twin boys, Jace and Jax, who are 6 and will be in first grade. Most of my family is back home in Bowling Green, but my brother lives in Columbus with his family, so we spend time with them whenever we can.

Hobbies: I love to read! I will read just about anything, but I try to switch between something for fun and something for learning. I also like to cook new meals after sifting through Pinterest for new recipes. One of these days my kids will be brave enough to try my creations!

What does #InspireAndGuide mean to you?

To inspire and guide children is at the core of what I believe is best for all kids. I love that students are able to study their passions and use the design process to create new ideas with the guidance and support of a teacher. I believe this allows us to provide students with the insights to be independent, lifelong learners and future-ready students. I'm looking forward to seeing all of the outstanding work that has already been done at Big Walnut and am eager to be a part of embracing the 2020 Vision for all of our students.

Anything else you'd like our families to know?

My door is always open for students, staff and families. I'm really looking forward to building strong, trusting relationships both in the building and in the community. When you are in GRE or see me around town, please feel free to introduce yourself and tell me your favorite thing about Big Walnut! I can't wait to join this amazing district.

BIG WALNUT LOCAL SCHOOLS

Serving Those who Serve Our Nation

**Assistant
Superintendent
Mark Cooper**

In an effort to better support students of military members in our community, Big Walnut Local Schools continues to identify and inform teachers of the military-connected students in their classrooms and the special considerations and resources they should receive. Each building has a military liaison that serves as the direct point of contact for their military-connected families.

In recognizing this work, we are proud to have four out of our seven schools designated by the state of Ohio as Purple Star Award buildings. Only 85 schools in the state have received this designation at this time.

As part of this initiative, the district maintains a webpage as part of the main website to provide resources for military families. That page can be viewed at <http://www.bwls.net/MilitaryResources.aspx>.

Families are encouraged to contact the building military liaison with any questions regarding Big Walnut Military Families and the support that our schools can provide.

Big Walnut High School

**ATTENTION ALL
12th GRADERS!**
teen immunization clinic

Required School Vaccines 2018

Grade 12 2 doses total of Meningococcal (serogroup A, C, W and Y)
