FY25 Base – The total FY25 authorized funding level for an agency or program. The base equals FY25 appropriations, adjustments resulting from legislation in the 2023-2024 legislative sessions, pay plan modifications, and any other ongoing supplements provided by the Legislature. It is this “adjusted” base that serves as the beginning point for calculating budget changes for the 2025-27 biennium.

References to Members, Pupils, and Students – Throughout this document there are references to “student(s)”, “pupil(s)”, “member(s)”, and “membership”. These are all references to K-12 students, but the terms “member(s)” and “membership” reflect how students are counted under state law for purposes of state general equalization aid, certain categorical aids, and revenue limits.

SUMMARY OF DPI 2025-27 BIENNIAL BUDGET REQUEST

A district's "membership" is the total full time equivalent (FTE) of students who are residents of the school district and for whom the district pays the cost of educating. As an example: a district's "membership" includes residents who attend a public school in a different school district from where they reside under the public school open enrollment program (and conversely, excludes non-resident students who attend a public school in the district under the open enrollment program). This is because each school district incurs a cost, via a reduction in its state general aid, for each resident student who enrolls into a public school in a different school district under the open enrollment program. State law provides for similar adjustments to a district's membership for other circumstances.

Membership for general equalization aid purposes uses prior year data. A district's total membership includes the average of the September and January pupil counts (converted to FTE) and adds in the district's FTE pupils for summer school and interim session, as applicable. General aid membership now also includes resident students of the district who enroll in the Racine and the Wisconsin private school parental choice programs (if the student first enrolled in those programs in the 2015-16 school year or after), and for a subset of independent charter schools. Finally, adjustments are made to reflect students enrolled part-time in the school district, in the Youth Challenge Academy program, and for some students in foster care placements.

Membership for revenue limit purposes uses current and prior year data. It is comprised of the three-year rolling average of FTE of the third Friday in September student count, plus 40 percent of summer school FTE (if applicable).

While general equalization aid membership is calculated differently than membership for revenue limit purposes, the concept of a member (a resident for whom the district pays the cost of educating) is the same for both purposes. The singular term "member" generally means 1.0 FTE pupil, unless otherwise stated (e.g., with respect to four-year-old kindergarten, which may reference 0.5 FTE or 0.6 FTE pupil).

In this document, references to "pupil" (e.g., "per pupil adjustment"), in the context of state aids and revenue limits, has the same meaning as "member", as described above.

^DIN: DIN Narrative number; "no DIN" means the department is not making a request to change the existing funding level for the program (i.e., funding would continue at the FY25 base appropriation).

*ECCP State Aid: Early College Credit Program State Aid for schools. Funding is appropriated in the Department of Workforce Development (DWD) chapter 20 schedule under current law. The department requests to transfer the appropriation from DWD to DPI and to increase funding to avoid proration of aid payments to schools.

**SEG-USF: Segregated funds from the Universal Services Fund, which is overseen by the Public Service Commission.

PREDICTABLE AND SUSTAINABLE FUNDING FOR SCHOOLS

General Aid, Revenue Limits, Per Pupil Aid, Tax Credits

DIN 6000 – GENERAL EQUALIZATION AID AND REVENUE LIMITS

General Equalization Aid

AGENCY REQUEST:

- Request increases of \$332,759,000 GPR in FY26 and \$672,316,000 in FY27 in the appropriation for general equalization aid to mitigate increases in the school property tax levy arising from proposed increases in revenue limit authority.
- Raise the secondary cost ceiling from 90 percent to 100 percent of the prior year state average shared costs (results in a larger portion of shared costs being aided at the secondary level).
- Raise the special adjustment aid amount from 85 percent to 90 percent of the district's prior year aid eligibility (protects districts from significant decreases in aid from year to year).
- Count students who attend a full-day, full week 4K program as 1.0 FTE, for purposes of general aid membership and revenue limit membership for school districts, as well as for pupil counts for independent charter schools, for private schools participating in one of the state's parent choice programs, and for the Special Needs Scholarship Program.

GOVERNOR:

- Increase funding by \$493,800,000 GPR in FY26 and \$699,900,000 GPR in FY27. *Change to department's request: +\$160,041,000 in FY26 / +\$27,584,000 in FY27.*
- Adopt the department's requests raise the special adjustment aid amount from 85 percent to 90 percent of the district's prior year aid eligibility, and to count students who attend a full-day, full week 4K program as 1.0 FTE.
- Deny the department's request to raise the secondary cost ceiling from 90 percent to 100 percent of the prior year state average shared costs.

Revenue Limits

AGENCY REQUEST:

- Request that the per pupil revenue limit adjustment be raised to \$425 in FY26, and beginning in FY27, restore prior law practice of indexing the per pupil revenue limit adjustment to inflation – i.e., the March Consumer Price Index for all urban consumers (CPI-U). The department estimates the per pupil revenue limit adjustment will be \$437.75 in FY27 under the CPI-U index method.

SUMMARY OF DPI 2025-27 BIENNIAL BUDGET REQUEST

- Beginning in FY26, set the low revenue ceiling to equal 98 percent of the prior year's state average revenue per member attributable to the per pupil revenue limit adjustment, the low revenue ceiling, and the base hold harmless adjustment. The department estimates that the resulting low revenue ceiling will equal \$11,700 for FY26 and \$12,400 for FY27.
- Repeal the statutory limitation currently in effect, under Wis. Stats. sec. 121.905 (1)(b), for districts that have held a referenda for school operations, so that any district whose per-member revenue limit authority falls below the low revenue ceiling threshold can make use of the low-revenue adjustment as intended (current law freezes the applicable low revenue ceiling for three years for a district that is unsuccessful in passing an operating referenda).
- Restore school district's ability to make use of the revenue limit exemption for energy efficiency purchases and projects, under Wis. Stat. sec. 121.90 (4)(o). – i.e., restore prior law regarding the energy efficiency revenue limit exemption.
- Create a new, non-recurring revenue limit exemption for school safety and cybersecurity to allow a school district to raise its revenue limit to pay for school safety and/or cybersecurity purchases, including staff, equipment, software, security systems, and services that relate to improving safety and security in schools, including protecting against cybersecurity attacks. The amount would be the greater of \$60,000 or \$100 per revenue limit member for a single school year.

GOVERNOR:

- Beginning in FY26, index the per pupil revenue limit adjustment to inflation (i.e., the March CPI-U). Estimated per pupil revenue limit adjustments are \$334 in FY26 and \$345 in FY27. Set the low revenue ceiling to \$12,000 in FY26 and \$12,400 in FY27.
- Adopt the department's request to repeal the prohibition on a school district to use the low revenue ceiling adjustment in the event of a failed operating referendum.
- Deny the department's requests to 1) restore the revenue limit exemption for energy efficiency projects and 2) to create a new, non-recurring revenue limit exemption for school safety and cybersecurity.

DIN 6001 – PER PUPIL AID

AGENCY REQUEST:

- Request increases of \$88,581,900 GPR in FY26 and \$123,431,900 GPR in FY27 for to fully fund the projected costs of the Per Pupil Aid program.
- Request the payment to school districts be increased, from \$742 to \$800 per pupil in FY26 and to \$850 per pupil in FY27. Request that payments be weighted for students in poverty by adding a 20 percent weight for economically disadvantaged students.

GOVERNOR:

- Adopt the department's request.

SCHOOL LEVY TAX CREDIT (SLTC)

AGENCY REQUEST:

- No request.

GOVERNOR:

- Increase funding for the SLTC by \$125,300,000 GPR in FY26 and by \$249,700,000 in FY27. The SLTC is a tax relief mechanism, reducing the amount of all property taxpayers based on their taxation district's proportion of the state's total school levy.

COMMUNITY-BASED FOUR-YEAR-OLD KINDERGARTEN

AGENCY REQUEST:

- No request.

GOVERNOR:

- Require DPI to work in consultation with the Department of Children and Families to develop a standard per pupil payment amount applicable to, and model contract for, school district agreements with child care providers in school districts participating in mixed delivery models through the community approach to four-year-old kindergarten.

See item "[Community-Based Four-Year-Old Kindergarten](#)" under the Other Agencies section of this summary.

Categorical Aids

Request that the targeted reimbursement rates be specified in statute and that the appropriation type be changed from sum certain to sum sufficient.

GOVERNOR:

- Increase base funding by \$542,949,100 GPR in FY26 and \$587,658,200 GPR in FY27 to increase the reimbursement rate for special education expenditures to 60 percent in FY26 and in FY27. Adopt the department's request to make the appropriation sum-sufficient. *Change to department's request: -\$277,568,200 in FY26 / -\$578,892,100 in FY27 (GPR).*

DIN 6003 – HIGH-COST SPECIAL EDUCATION CATEGORICAL AID

Request that the targeted reimbursement rates be specified in statute and that the appropriation type be changed from sum certain to sum sufficient.

GOVERNOR:

- Increase base funding by \$8,789,000 in FY26 GPR and \$9,720,000 GPR in FY27 to increase the reimbursement rate for special education expenditures to 40 percent in FY26 and in FY27. Adopt the department's request to make the appropriation sum-sufficient. *Change to department's request: -\$11,635,000 in FY26 and -\$12,100,000 in FY27 (GPR).*

DIN 6004 – EARLY CHILDHOOD SPECIAL EDUCATION

AGENCY REQUEST:

- Request an increase of \$600,000 GPR in FY26 and \$10,600,000 GPR in FY27, for a new program to support local education agencies (LEAs) and non-school childcare settings in providing required special education services to young children. Funding would be provided to CESAs for supporting the work (\$600,000 annually); state aid for reimbursable expenditures would begin in FY27 (\$10,000,000).

GOVERNOR:

- Adopt the department's request for \$600,000 GPR annually to support early childhood special education identification efforts, which will provide training and support to school districts, ICS and child care providers through partnership with CESAs. Deny the department's request to dedicated state funding for a new aid program. *Change to department's request: -\$10,000,000 in FY27 (GPR).*
