Subject: LaFollette School update

Date: June 11, 2025

Dear LaFollette Families and Staff,

We are writing with an update on the lead renovation work happening in your school building. We are committed to providing you with detailed information about the progress at LaFollette.

Status of Work

With painting, stabilization, and cleaning of LaFollette School complete, we are pleased to report that the Milwaukee Health Department has inspected the building and declared it clear of lead risks. Because there are so few days remaining in the school year, students and staff will continue to report to their temporary classrooms at Wisconsin Conservatory of Lifelong Learning. The last day of school for students is Friday, June 13. LaFollette School will be ready as we welcome everyone back in September for the new school year.

Opportunities to Have Questions Answered

If you have questions regarding lead, please write to MPS at lead@milwaukee.k12.wi.us or to the City of Milwaukee Health Department via the [MS Form](#).

Next Steps

Milwaukee Public Schools has posted its lead action plan. You can find it on the [MPS Lead Report webpage](#), along with other information and updates.

Families are encouraged to follow up with their child's healthcare provider for routine lead screening if they have not done so already. Lead resources are available at milwaukee.gov/HEH.

Thank you to every family member and every staff member for your understanding while we worked to ensure the safety of our LaFollette School community.

Sincerely,
Office of School Administration
