What is a School-Parent Compact?

A School-Parent Compact for Achievement is an agreement that Parents, Students, and Teachers develop together. It explains how parents and teachers will work together to make sure all our students reach grade-level standards.

Effective Compacts are:

- Linked to goals of the school's improvement plan.
- Focused on student learning skills.
- Defined how teachers will help students develop those skills using high-quality instruction.
- Shared strategies parents can use at home.
- Described how teachers and parents will communicate about student progress.
- Lists various opportunities for parents to volunteer, observe, and participate in the classroom.

School-Parent Compact Jointly Developed

The parents, students and staff at Kemp Elementary School developed this School-Parent Compact for achievement. Teachers suggested home learning strategies, parents added ideas to make them more specific, and students told us what would help them learn.

Meetings are held each year to review the compact and make changes based on student needs. If you would like to participate, please contact the Parent Liaison at 770-473-2870 ext. 127124.

Building Partnerships

Help your child become academically successful by participating in the following partnerships:

- Local School Council Board
- Parent Engagement Committee

Communication about Student Learning

Kemp Elementary is committed to frequent two-way communication with families about children's learning. Some ways you can expect us to reach you are:

- Parent/Teacher Conferences
- Weekly grades and updates in Infinite Campus
- Class Dojo

2025-2026 School Wide Title I Compact for Achievement

Revised 09-23-25

Kemp Elementary

10990 Folsom Road, Hampton, GA 30228
770-473-2870

Principal
Mrs. Zsa Zsa Davis

Assistant Principal
Mrs. Jacqueline Pressley-Wilson

District Goals

Clayton County Public Schools and every school will demonstrate 8 percentage points of growth each school year for students scoring at the proficient and distinguished levels, as evidenced by state, national, and international assessments.

Kemp Elementary Goals

Administrators and teachers have studied our student performance data to decide on the most important areas of improvement in our school.

By June 2026, Math and English Language Arts (ELA) Content Mastery scores for all students will increase by 8 percentage points from 2025, as measured by the End of Grade Georgia Milestones Assessment. Our school will concentrate on the following areas:

ELA
CLOSE Reading; evidence-based writing, vocabulary instruction; homogeneous reading groups; and use of leveled readers.

Math
Three Read Protocol; CUBES; vocabulary instruction; homogeneous math groups; and use of Number Talk.

Kemp Elementary Teachers will work with students and their families to support students' success in Reading and Math. Some of our key connections with families will be:

- Send home weekly homework.
- Provide websites featuring resources for Math/Reading
- Teachers will continue to conduct conferences with parents to address each child's Math/Reading needs specifically. During conferences, teachers will provide specific strategies to address identified deficit areas.

Focus Areas

Teachers have identified the student's greatest challenges and prioritized the skills/focus areas to be aligned with grade level standards.

ELA

- Tiered Reading Activities
- CLOSE Reading to Build Comprehension
- Evidence Based Writing
- Building Vocabulary

Math

- Solving word multi-step problems
- Fractions
- Multiplication and Division

Help at Home

Teachers will provide resources and strategies to parents to use at home with their child(ren).

- CLOSE Reading Strategy Protocol
- Reading challenging text daily
- Writing about what was read
- Utilize the **R.A.C.E** strategy
  - **R**estate the Question
  - **A**nswer the Question and all parts
  - **C**ite evidence from the text
  - **E**xplain the evidence
- Practice multiplication at home

Students

Our students joined teachers and parents to develop ideas about how they can succeed in school and reach for the stars in Math and Reading. Students thought of the following ideas to make connections between learning at home and school.

- Talk with family about new vocabulary words and what they have learned in math.
- Read with students at least 20 minutes each day.
- Discuss how math is used in the real world.
