

WHY INVEST IN A CVCS EDUCATION

CAPISTRANO VALLEY
CHRISTIAN SCHOOLS

CHRIST-CENTERED FOUNDATION

ROOTED IN CHRIST

Graduates leave CVCS equipped to lead with integrity, influence culture, and serve others with compassion grounded in their relationship with Christ.

Faith and Learning, United.

A CVCS education doesn't separate faith from learning — it weaves them together. Every subject, from science to the arts, is taught through a biblical lens that helps students understand truth, not just facts. This intentional integration forms students with wisdom, discernment, and moral courage in a world that deeply needs it.

A Partnership Families Can Trust

Parents can be confident that their child's education will reinforce the values taught at home. Our faculty are committed followers of Christ who view teaching as ministry, modeling Christlike character and cultivating students who stand firm in their faith while engaging thoughtfully and confidently with the world.

ACADEMIC EXCELLENCE WITH PURPOSE

At CVCS, academic excellence is expected—but never at the expense of character or purpose. We maintain rigorous standards that challenge students to think critically, communicate effectively, and solve complex problems with creativity and confidence. Small class sizes and highly qualified teachers ensure every student is known, supported, and pushed to reach their full potential. With advanced coursework, AP classes, and dual-enrollment opportunities, students are prepared for success at top universities—while our consistent integration of faith forms wisdom, integrity, and purpose that lasts far beyond the classroom.

The Difference You'll See

Students graduate academically prepared and spiritually grounded, with the ability to lead in competitive environments while staying true to their convictions.

COMMUNITY THAT PARTNERS WITH FAMILIES

Who Will Walk Alongside My Child Each Day?

CVCS is more than a school, it is a community united by shared faith and purpose. Families find a partnership built on trust, open communication, and a mutual desire to see students thrive spiritually, academically, and emotionally.

A Partnership Families Can Trust

Our teachers and staff build meaningful relationships with students and parents alike. The school environment fosters belonging, accountability, and mutual encouragement. This partnership provides the consistency children need to flourish both inside and outside the classroom.

CONFIDENCE IN THEIR ENVIRONMENT

Families gain peace of mind knowing their children are surrounded by mentors and peers who share their values and reinforce their family's mission for faith and excellence.

OPPORTUNITIES THAT INSPIRE GROWTH

How Does CVCS Develop the Whole Child?

A CVCS education goes far beyond academics—it **shapes the whole person**. Students are encouraged to discover and develop their God-given talents through a rich variety of programs in athletics, fine arts, leadership, and global service. These experiences help build confidence, character, and compassion in a Christ-centered community.

What Makes the CVCS Experience Unique?

At CVCS, every program is intentionally designed to cultivate **leadership, teamwork, and resilience**. From mission trips and worship teams to robotics, visual arts, and championship athletics, students are given meaningful opportunities that connect their **passions with a greater purpose**.

What Will My Child Gain From a CVCS Education?

Graduates don't leave with just transcripts—they **leave with testimonies**. They understand who they are, **whose they are**, and how to use their gifts to make a lasting impact for Christ. A CVCS education equips students with a strong identity, a solid biblical worldview, and the confidence to step boldly into their calling.

PERSONAL ATTENTION THAT NURTURES GROWTH

At CVCS, personal attention means far more than helping students earn good grades—it means nurturing critical thinkers and confident learners. Our teachers have the time, space, and dedication to guide students individually, creating a safe and engaging environment where creativity, innovation, and curiosity can flourish.

What Does Individualized Support Look Like at CVCS?

In our close-knit community, every student is seen, known, and supported. Small class sizes give faculty the ability to mentor students personally, helping them build confidence, accountability, and resilience. This individualized approach ensures every child is prepared to thrive academically, emotionally, and spiritually while discovering and developing their God-given potential.

BECAUSE THE RIGHT SCHOOL CHANGES EVERYTHING.
