**RE:** ATSI Designation

---

### Dear Parents and Guardians,

We are committed to providing every student at **David Cox Road Elementary** with the support and resources they need to succeed. As part of this commitment, we want to share important information regarding our school's designation under the North Carolina accountability system.

Our school has been identified as **ATSI (Additional Targeted Support and Improvement)**. This designation is **specific to the Students with Disabilities subgroup**. This means that, based on state performance data, this subgroup did not meet certain academic targets set by the state.

Please know that this designation does **not** reflect the overall quality of our school or the dedication of our staff. Instead, it highlights an area where we must focus additional attention and resources to ensure equitable outcomes for all students.

### What does this mean for our school?

- We will implement targeted strategies to support students with disabilities in achieving grade-level standards.
- Our teachers and support staff will receive additional professional development to strengthen instructional practices.
- We will monitor progress closely and communicate updates with families throughout the year.

### How can families help?

- Stay engaged with your child's learning by reviewing progress reports and attending conferences.
- Reach out to your child's teacher or our support team if you have questions or need resources.

We believe that, by working together, we can ensure every student thrives. If you have any questions about the ATSI designation or our improvement plan, please contact me at [phone/email].

Thank you for your continued partnership and support.

**Sincerely,**

Sarah A. Wright

Principal
