FOR IMMEDIATE RELEASE

Barnwell County Career Center FFA Member Accepted to National FFA Next Gen Conference

The Barnwell County Career Center (BCCC) Future Farmers of America (FFA) Chapter is proud to announce that chapter officer Cale Peachey has been accepted to participate in the National FFA Next Gen Conference in March 2026.

Next Gen Conferences, held three times each year, focus on specialized career pathways and are open to high school sophomores, juniors, and seniors through a competitive application process. These conferences provide students with the opportunity to map out their futures through career exploration sessions, industry roundtables, hands-on activities, and industry tours. Designed to help build the next generation of skilled leaders in agriculture, the program connects students directly with professionals and emerging technologies.

BCCC FFA Chapter Officer Cale Peachey was accepted to participate in the National FFA Next Gen Conference in March of 2026.

Cale will be attending the conference focused on the Power, Structure, and Technical Systems pathway. This pathway explores areas such as mechanical systems, engineering, energy, and precision technologies—fields essential to the future of agricultural innovation. The conference will take place in Raleigh, North Carolina in March 2026.

“We are extremely proud of Cale for taking this step in his leadership and career development,” Agriculture Education Teacher and FFA Advisor Christle Gleaton shared. “We know our FFA members are the next generation of leaders to fill the talent pipeline, and what better way to

prepare them than through the Next Gen Conferences? Opportunities like the Next Gen Conference help ensure our students are prepared to be the future leaders and problem-solvers in agriculture."

For more information about the BCCC FFA Chapter or upcoming events, please follow us online through our school and chapter social media pages.
