PEDESTRIAN & BICYCLE SAFETY

Scan for tips and ideas to help you on your journey to safety.

Whether you're on two wheels or on foot, practicing safe habits protects you and keeps every trip a safe one.

VOLUSIA SHERIFF

VOLUSIA COUNTY SCHOOLS
A RATED DISTRICT

CAMPUS GUARDIAN ANGEL

DRONE PILOT PROGRAM

HOW IT WORKS

- Multiple drones are located throughout the school.
- Drones can cross the school in 8 seconds.
 - They travel 30-50 mph inside and can reach speeds of 100mph outside
- The goal is to confront the threat within 15 seconds.
- Drones are deployed to a threat.
- Flashing lights and sirens disorient the threat.
- Pepper balls can be used as well.

WHAT IF THEY ARE IN A ROOM

THEY WILL LINE THE DRONES UP, CRASH
INTO THE WINDOW AND DO EVERYTHING
POSSIBLE TO GET IN

OTHER UPDATES:

- Impact resistant glass
- State Threat Management Workgroup
- Behavioral Threat Unit

STATS

STATS: 1ST 9 WEEKS COMPARISON
