**POLICY SUB-COMMITTEE REGULAR MEETING
GRISWOLD BOARD OF EDUCATION**

**WEDNESDAY,
October 8th, 2025**

DRAFT

1. A regular meeting of the Griswold Board of Education's Policy Subcommittee took place on Wednesday, October 8th, 2025, at Griswold Middle School, in the Superintendent's Office, located at 211 Slater Avenue, Griswold, Connecticut. The Policy Subcommittee meeting was called to order at 5:00 PM by Yvonne Palasky, GPS Policy Subcommittee Chair.

PRESENT Yvonne Palasky, GPS Policy Subcommittee Chair; and Mary Beth Malin, Policy Subcommittee Member.

ALSO PRESENT Sean P. McKenna, GPS Superintendent of Schools.

ABSENT Jaimee O'Neill-Eaton, Policy Subcommittee Member.

2. Approval of the Minutes—September 3rd, 2025

MOTION By Mary Beth Malin
Seconded by Yvonne Palasky
To approve the regular meeting minutes of October 8th, 2025, as presented.
Motion unanimously carried.

3. Review, Discussion, and Possible Action to Revised Policy 5114—Students—Suspension and Expulsion/Due Process to Forward to the Full Board for Possible Review and Action

MOTION By Mary Beth Malin
Seconded by Yvonne Palasky
To move forward Policy 5114—Students—Suspension and Expulsion/Due Process, with corrections as discussed, to the Full Board for Possible Review, discussion and Action
Motion unanimously carried.

4. Review, Discussion, and Possible Action to Forward New Policy 5118.2—Students—Educational Opportunities for Military Children Policy to Forward to the Full Board for Possible Review and Action

MOTION By Mary Beth Malin
Seconded by Yvonne Palasky
To move forward new policy 5118.2—Students—Educational Opportunities for Military Children Policy, with corrections as discussed, to the Full Board for Possible Review, Discussion, and Action.
Motion unanimously carried.

5. Review, Discussion, and Possible Action to Forward Revised Policy 6146 —Instruction—Graduation Requirements Policy to Forward to the Full Board for Possible Review and Action – The Policy subcommittee voted to table further discussion on this policy so the can research more with CABE.

MOTION

By Mary Beth Malin
Seconded by Yvonne Palasky
To table further discussion on Policy 6146 and research more with CABE.
Motion unanimously carried.

6. Anything Else that May Properly Come Before the Committee – Nothing.
7. Next Meeting: Wednesday, November 5th, 2025 – The Policy subcommittee will hold their next regular meeting on Wednesday, November 5th, 2025 at 5 PM.
8. Adjourn

MOTION

By Mary Beth Malin
Seconded by Yvonne Palasky
To adjourn the regular Policy meeting at 5:23 PM.
Motion unanimously carried.

Minutes prepared by: Sean McKenna/Robin Drobiak

CURRENT POLICY

P6159(a)

Instruction

Individualized Education Program/Special Education Program

The school district shall comply with all state and federal laws concerning the provision of a free appropriate public education to students with disabilities.

Referral

The school district is responsible for identifying children with disabilities and for determining whether such children are eligible for special education services.

In accordance with the regulations of the State Board of Education, each local and regional board of education shall: (1) Provide special education for school-age children requiring special education; (2) The obligation of the school district under this subsection shall terminate when such child is graduated from high school or at the end of the school year during which such child reaches age twenty-two, whichever occurs first.

Effective July 1, 2023, all students remain eligible for special education services under the Individuals with Disabilities Education Act (IDEA) through the end of the school year during which the students turns age 22, or until the student graduates from high school with a regular high school diploma, whichever occurs first. Pursuant to the Connecticut General Statutes §10-259, school year is defined as July 1 through June 30.

A parent, physician, social worker, or other outside agency may refer a student directly for special education services. During these situations the alternative strategies process may be bypassed.

Planning and Placement Team or Individualized Education Program Team

The Planning and Placement Team (PPT) for any identified student shall consist of at least the following:

1. A representative of the District other than the individual's teacher, who is qualified to provide, or supervise, the provision of special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District;
2. Not less than one special education teacher of the child, or if appropriate, not less than one special education provider of the child;
3. Not less than one regular education teacher (if the child is, or may be, participating in the regular education environment);
4. One or both of the student's parents, a surrogate parent, and/or a representative chosen by the parent;
5. The student, where appropriate;
6. For a student who is being evaluated for the first time, a member of the assessment team shall be present, and at least one of the persons present shall be knowledgeable about the assessment procedures;
7. The school paraprofessional, if any, assigned to the student, and

Instruction

Individualized Education Program/Special Education Program continued...

8. At the discretion of the parent or the agency, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate.

In addition to the above, the special education specialist, school psychologist, school nurse, school social worker, counselor, or other student service worker who has conducted an assessment of the student shall participate whenever the results or recommendations based on such assessment are significant to the development of the student's individualized education program and placement. Where the student is limited or non-English speaking, a district representative who is fluent in the student's primary language and who is knowledgeable about the process of second-language acquisition and competent in the assessment of limited English and non-English speaking individuals should be included.

Any member of the PPT employed by the Board of Education who discusses or makes recommendations concerning the provisions of special education and related services during a PPT meeting shall not be disciplined, suspended, or otherwise punished for such recommendations.

A PPT team member is not required to attend all or part of a PPT meeting if the parents and District agree the team member's participation is not necessary because the member's area of curriculum or related services is not being modified or discussed at the meeting.

If the PPT meeting does involve a modification or discussion of the member's area of the curriculum or related services, parents/guardians and the District may agree to excuse the member from attending all or part of the meeting if the member submits written input to the PPT and parent prior to the meeting. Parental consent, in writing is required in either case.

If the purpose of a PPT meeting is the consideration of transition services for a student, the District shall invite the student and a representative of any other agency that is likely to be responsible for providing or paying for transition services. In the event of a meeting to review or revise the individualized education program of a child in an out-of-district or a private placement, a representative of the out-of-district or private facility shall also be invited. In addition, a representative of the outside facility shall contribute to the development of the individual educational program.

Parental Participation

The parent/guardian or surrogate parent shall be given at least five (5) school days prior notice of any PPT meeting and shall have the right to be present and participate in all portions of such meetings at which an educational program for their child is developed, reviewed or revised. In addition, parents/guardians or surrogate parents have the right to be present at and participate in all portions of the PPT meeting at which an educational program for their child is developed, reviewed or revised. In addition, the parent/guardian/surrogate shall have advisors and the child's assigned paraprofessional, if any, be present at and participate in all portions of the PPT meeting in which the child's educational program is developed, reviewed or revised.

Instruction

Individualized Education Program/Special Education Program continued...

Upon parental/guardian request, a member of the PPT designated by the District will meet with the parent/guardian after their child has been assessed for possible placement in special education and before the PPT meets. The sole purpose of this meeting will be to discuss the PPT process and any concerns the parent/guardian has about the students. In addition, if requested, by the parent/guardian, the District will provide the results of the assessments and evaluations used in the determination of eligibility for special education of a student at least three (3) school days before the referral PPT meeting at which such results of the assessment and evaluations will be discussed for the first time.

The Board of Education shall take steps to ensure that one or both of the child's parents are afforded the opportunity to participate in each meeting to develop, review or revise the individualized education program for that child. Every effort shall be made to schedule meetings at a mutually agreed-upon time and place. Parents/Guardians and the District may agree to conduct IEP meetings and other meetings through alternative means, such as, including but not limited to, video conferences or conference calls. Steps to ensure parental participation shall be taken in accordance with the following:

1. The District will provide parents/guardians a procedural safeguards notice, at least annually, except that a copy also shall be given, upon initial referral or parental request for evaluation, upon the first filing of a due process complaint or upon parental request advising them in writing, in their dominant language, of their rights with respect to the provision of a free appropriate education for children with disabilities.
2. The District will place a current copy of the Procedural Safeguards notice on the District Website.
3. Written prior notice to the parents/guardian of a child for which the District is proposing or refusing to initiate or change the identification, evaluation or educational placement of the child, shall also specify the purpose, time and location of the meeting and who has been invited.
4. If neither parent can attend, reasonable efforts shall be made to secure parental participation by other means such as conference calls or home visits.
5. A meeting may be conducted without a parent in attendance if the Board of Education is unable to secure parental attendance. In this event, the Board of Education shall have a detailed record of its attempts to arrange parent participation.
6. The Board of Education shall take any and all actions necessary to ensure that the parents understand the proceedings at the meeting. This shall include, but not be limited to, providing an interpreter for the parents who are in need of such services.
7. A full written explanation of all due process procedures available to parents shall be provided upon parental request unless as specified in #1 above.
8. The parent/guardian of a child with a disability may elect to receive notices under IDEA by electronic mail, if the District makes such an option available.

Instruction

Individualized Education Program/Special Education Program continued...

Planning and Placement Team Description

The Planning and Placement Team is required to convene in the following situations:

1. to develop an evaluation plan for a student referred for eligibility determination, as well as for students already identified but requiring further evaluation;
2. to review the results of the evaluations and to identify the student as disabled, if indicated;
3. to develop an individualized educational program (IEP), based upon evaluation results and to determine the proper placement;
4. to review the special education program for a child periodically, but not less frequently than annually or more frequently if deemed necessary and to make the necessary IEP modifications, adjustments or program changes. Parent/guardians and the District may agree not to convene a PPT meeting for the purpose of making such changes and instead may develop a written document to modify the child's current I.E.P.
5. to exit a student from special education and/or related services, if evaluation results warrant.

Evaluations

Each child who has been referred and who may require special education and related services shall be evaluated in order to determine whether special education is required. Each child receiving special education and related services shall be re-evaluated in accordance with IDEA procedures if the District determines that the education or related service needs including improved academic achievement and functional performance of the child warrant a reevaluation. In addition, a re-evaluation shall be conducted upon the request of the parent or personnel working with the child. A reevaluation shall occur not more frequently than once a year unless the parent and district agrees otherwise, and at least once every three years, unless parent/guardian and District agree that a reevaluation is unnecessary.

A complete evaluation study shall be conducted for each child referred who may require special education and related services. The evaluation study shall include reports concerning the child's educational progress, structured observation, and such psychological, medical, developmental and social evaluations as may be appropriate in determining the nature and scope of the child's exceptionality. Such reports may include information concerning the child's physical condition, socio-cultural background and adaptive behavior in home and in school. All sources of information shall be documented. If the child is dominant in a language other than English, the evaluation study shall also include systematic teacher observation of the specific areas of concern. Detailed information about the child's performance at home and in the community and any prescriptive or diagnostic teaching which has taken place shall be included.

The evaluation procedures, instruments and techniques shall be non-discriminatory and be validated for the specific purpose for which they have been designed. All such evaluation procedures, instruments, and techniques shall be administered by appropriately certified and/or licensed personnel in accordance with procedures recommended by the test publisher.

Instruction

Individualized Education Program/Special Education Program continued...

1. All evaluation procedures, instruments and techniques shall be administered in the language and form most likely to yield accurate information on what the child knows and can do academically, developmentally and functionally, unless it is not feasible to so provide or administer.
2. More than one evaluation measure or assessment shall be used as the basis for placement. The results of standardized or local tests of ability, aptitude, affect, achievement and aspiration shall not be exclusively used as the basis for placement.
3. Tests shall be selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (except where those skills are the factors which the test purports to measure.)
4. Evaluation procedures, instruments and techniques shall include those designed to assess specific areas of educational need and, where appropriate, language dominance, and shall not be limited to those which are designed to provide a general intelligence quotient.
5. In making a determination of eligibility, a child shall not be determined to be a child with a disability if the dominant factor for such determination is the lack of appropriate instruction in reading, including the essential components of reading instruction and/or math and/or limited English proficiency or a student's disciplinary actions or record. Further, the District is not required to take into consideration whether a child has a severe discrepancy between achievement and intellectual ability in oral expression, listening comprehension, written expression, basic reading skill, reading comprehension, mathematical calculation or mathematical reasoning.
6. In determining whether a child has a specific learning disability, the District may use a process that determines if the child responds to scientific research based intervention, as part of the evaluation procedures.

Independent Evaluation

Parents have the right to obtain an independent evaluation, conducted by an appropriately certified and/or licensed examiner who is not employed by the responsible Board of Education, of their child. The PPT shall provide to parents, on request, information about where an independent evaluation may be obtained.

Parents have the right to an independent evaluation at public expense if the parents disagree with an evaluation obtained by the Board of Education. However, the Board of Education may initiate a due process hearing, to be conducted by the State Department of Education, to show that its evaluation is appropriate. If there is a determination by the State Department of Education Hearing Officer that the evaluation of the school district was appropriate, the parents still have the right to an independent evaluation, but not at public expense. For purposes of this policy, "at public expense" means that the evaluation is provided at no cost to the parents.

Instruction

Individualized Education Program/Special Education Program continued...

If the parents obtain an independent evaluation at private expense, the results of the evaluation must be considered by the PPT in any decision concerning the provision of a free appropriate public education to the child and may be presented as evidence at a due process hearing conducted pursuant to the State Department of Education.

Whenever an independent evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, shall be the same as the criteria, which the school district uses when it initiates an evaluation.

Individualized Education Program (IEP)

The individualized education program shall be based upon the diagnostic findings of the evaluation study. The Planning and Placement Team shall base recommendations for any changes in a child's individualized education program upon the child's current individualized education program and any information relating to the child's current educational performance.

Each Planning and Placement Team shall develop, or revise, whichever is appropriate, the individualized education program for each child requiring special education and related services prior to the beginning of each school year. In the case of a student enrolled after the last day of the previous school year, this process shall be completed by October first of the school year.

The individualized education program shall be a written statement developed by the PPT which shall include the following:

1. A statement of the child's present levels of academic achievement and functional performance, including, where appropriate, academic achievement, social adaptation, prevocational and vocational skills, psychomotor skills and self-help skills;
2. A statement of annual educational goals for the school year "reasonably calculated to enable the child to make progress appropriate in light of the child's circumstances," under the child's individualized educational program;
3. A statement of how the child's progress toward meeting the annual goals will be measured and when periodic reports will be available on the progress the child is making toward meeting the annual goals. (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) The

child's educational program must be appropriately ambitious in light of his/her circumstances and provide the opportunity to meet challenging objectives.

4. A statement of short-term instructional objectives for students with disabilities who take alternative assessments aligned to alternative achievement standards; (Benchmarks or short term objectives in addition to annual goals are not required for all other students with disabilities.)

Instruction

Individualized Education Program/Special Education Program continued...

5. A statement of specific educational services needed by the child, including a description of special education, related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, which are needed to meet the needs of the child. Such description shall include the type of transportation necessary and a statement of the recommended instructional settings;
6. The date when those services will begin and length of time the services will be given with the length of the school day and school year needed to meet the child's special education needs, including criteria to determine when services will no longer be needed; and
7. For each student, who is at least fourteen years of age, and diagnosed with autism spectrum disorder, beginning not later than the date on which the first IEP takes effect, a statement of transition service needs which shall include appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment and where appropriate, independent living skills. In addition, the statement of transition needs shall include the transition services, including courses of study, needed to assist a child in reaching those goals. Such IEP shall be updated annually.
8. A description of the extent to which the child will be involved in and make progress in the general education curriculum defined as the same curricula for nondisabled children. This shall include a description of how the regular education program will be modified to meet the child's needs;
9. A list of the individuals who shall implement the individualized program; and
10. In the case of a residential placement, whether such placement is being recommended because of the need for services other than educational services.
11. If it is determined that the child will take an alternate assessment on a State or District assessment of student achievement, the IEP must contain in a statement of why the child cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the child.
12. Beginning not later than the first IEP to be in effect when the child is sixteen (16) and updated annually thereafter, a statement of appropriate, measurable post-secondary goals based upon age appropriate transition assessments related to training, education, employment and where appropriate, independent living skills and the transition services needed to assist the child in reaching those goals.
13. Beginning not later than one year before the student reaches the age of majority (18), a statement informing the student of his/her rights under IDEA.
14. For a child identified as deaf or hearing impaired, the IEP which includes a language and communications plan shall address:
 - (i) the child's primary language or mode of communication;
 - (ii) opportunities for direct communication between the child and his/her peers and professional personnel in the primary child's language or mode of communication;
 - (iii) educational options available to the child;

Instruction

Individualized Education Program/Special Education Program continued...

(iv) the qualifications of teachers and other professional personnel administering the plan for the child, including their proficiency in the child's primary language or mode of communication;

(v) the accessibility of academic instruction, school services and extracurricular activities to the child;

(vi) Assistive devices and services for the child; and

(vii) Communication and physical environment accommodations for the child.

and

(viii) An emergency communications plan that includes procedures for alerting the child of an emergency situation and ensuring that the specific needs of the child are met during the emergency situation. Such plan is to be developed for a student identified as deaf, hard of hearing, or both blind or visually impaired and deaf.

The school district shall use a standardized individualized education program form that shall be subject to the approval of the State Board of Education.

Timelines

Special education and related services shall be provided as soon as possible after the planning and placement team meeting held to review, revise or develop the child's individualized education program, but in any event not later than the following timelines.

In the case of a referral made during the academic year, the timelines shall be as follows:

1. The individualized education program shall be implemented within forty-five school days of referral or notice, exclusive of the time required to obtain parental consent.
2. In the case of a child whose individualized education program calls for out-of-district or private placement, the individualized education program shall be implemented within sixty school days of referral or notice, exclusive of the time required to obtain parental consent. If difficulty of placement is such as to occasion a delay beyond this period, the Board of Education shall submit to the State Board of Education written documentation of its efforts to obtain placement in a timely manner.
3. Where necessary, parental consent shall be given within ten school days of the date of notice, or, where appropriate, of the date of the Planning and Placement Team meeting in which the parents participated.
4. A full copy of the individualized education program shall be sent to the parents within five school days after the Planning and Placement Team meeting to develop, review or revise the individualized education program.

In the case of a referral made in between school years, the effective date of the referral may be deemed to be the first school day of the next school year.

Instruction

Individualized Education Program/Special Education Program continued...

Placement

Educational placements are made in accordance with the requirements set forth in the IEP of each child requiring special education and related services. The least restrictive environment is considered for each student based on the IEP. In selecting the least restrictive environment, consideration is given to any potentially harmful effect on the child or on the quality of services the child needs. To the maximum extent appropriate, students with disabilities, including children in public or private institutions or other care facilities, are educated with their peers in regular education environments.

Special classes, separate schooling, or other removal of disabled children from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. Each child with disabilities shall participate to the maximum extent appropriate with non-disabled age appropriate peers in non-academic and extra-curricular services and activities, including meals and recess periods.

Interpreting evaluation data and in making placement decision, the PPT shall:

1. Draw upon information from a variety of sources, including attitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;
2. Ensure information obtained from all of these sources is documented and carefully considered;
3. Ensure that the placement decision is made by a group of persons including person's knowledge about the child, the meaning of the evaluation data, and the placement options; and
4. Make the placement decision in conformity with the least restrictive environment considerations.

When the PPT meeting makes the determination of which placement is most appropriate to deliver education in the least restrictive environment, a continuum of services shall be used to guide the placement selection. This is done at no cost to the parents of the child. This continuum shall consider programs ranging from regular education programs with students who are not disabled to special education programs with students who are the most severely disabled. The PPT shall also consider homebound placements, hospitalized instruction, diagnostic placements and private school placements where such placements are considered necessary by the PPT in order for a student to receive a free appropriate public education.

Instruction

Individualized Education Program/Special Education Program continued...

Notice

The PPT shall notify parents of students requiring special education and related services five days before proposing to, or refusing to, initiate or change the child's identification, evaluation or placement. Written notice shall be sent to the parents no later than five days after date of referral. In addition, written parental consent shall be obtained prior to pre-placement evaluation, initial placement or private placement of a child who requires or may require special education and related services. If the student is considered an emancipated minor or eighteen years of age or older, such notification shall be to the student.

The notice shall include the following information:

1. The reason of the notice. In the event of a referral, the notice shall include the source and date of the referral;
2. A description of the general evaluation procedure to be used;
3. A statement of parental rights to review and obtain copies of all records used as a basis for the referral, to be fully informed of all evaluation results, and to obtain an independent educational evaluation as part of the evaluation process; and
4. A full explanation of all due process procedures available to parents, upon initial referral or parental request for evaluation, upon the first filing of a due process complaint or upon parental request.

Where parental consent is required, notice shall include the above requirements and the following information:

1. A statement of parental rights to refuse consent and that, if consent is given, it may be revoked at any time;
2. A statement that parental failure to respond, within ten school days from the date of the notice, shall be construed as refusal of consent; and
3. A statement that, if contested, the child's current educational placement will not change until due process procedures have been completed.

The District will provide parents/guardians with State Department of Education information and resources relating to IEPs as soon as a child identified as requiring special education.

PROPOSED NEW POLICY & REGULATION

P6159(a)

A mandated policy to consider.

Instruction

Individualized Education Program

Individualized Education Programs (IEPs) are essential foundations for providing effective, high-quality special education services. The Board requires that all procedures for implementing an individualized education program be designed to guard the privacy of the student and family.

A parent of a child, the State Department of Education, or other state agencies available to the District may initiate a request for an initial evaluation to determine if the child is a child with a disability. Once the district receives a written referral for special education evaluation, it has 45 school days to complete an initial evaluation. The 45-school-day timeline encompasses the entire eligibility determination process, including reviewing the referral, obtaining written parental consent for evaluation, conducting a comprehensive evaluation, determining eligibility, obtaining written parental consent for the provision of special education services, and implementing an IEP if the student is found eligible. The district will conduct a full and individual evaluation that consists of procedures to determine if the child is a child with a disability under 34 C.F.R. §300.301. Further, the evaluation must be sufficiently comprehensive to identify all of the child's special education and related services needed, whether or not commonly linked to the disability category in which the child has been classified. Assessments for disabled children who are transfer students shall be coordinated expeditiously between the sending or receiving district.

The adult student or his/her parent/guardian will be asked by the District if the student wishes to receive the special education and related services outlined in their individualized education program (IEP) through the end of the school year during which they turn 22 years of age or they graduate with a regular high school diploma, whichever comes first.

In situations in which a student's IEP requires an out-of-district or private placement, the timeline for implementing an IEP must occur within 60 school days of the PPT referral (not including the time it takes to obtain written parental consent).

Instruction

Individualized Education Program (IEP) (continued)

Any individualized education program (IEP) developed for a student with disabilities shall specify whether the student shall achieve the District's adopted content standards or whether the student shall achieve individualized standards that would indicate the student has met the requirements of his or her IEP. When a child is identified as requiring special education, the district will provide parents/guardians with information and resources from the State Department of Education relating to IEPs.

Information Provided to Parents Regarding Special Education

At the first PPT, when a child receiving special education services reaches 14, the district shall provide information to the child and parent/guardian regarding the full range of decision-making supports, including alternatives to guardianship and conservatorship and the plain-language online resources developed by CSDE regarding decision-making options available when the student reaches 18.

In addition, information that must be provided to parents/guardians at each PPT meeting shall include plain-language resources developed by CSDE regarding the hearing and appeals process, information regarding free and low-cost legal assistance, and The Parent's Guide to Special Education in Connecticut by CSDE. The district shall annually provide the Guide and rights and resources available to children receiving special education services at the beginning of the school year.

At the beginning of each school year, the district shall provide an informational handout developed by CSDE that explains what it means to have an IEP or Section 504 plan.

Upon request from a parent/guardian, or when there is an apparent need, the district shall provide interpreters and translated documents for students and parents, including translated copies of a child's IEP and any related documents.

The interpreter may be present in person, available by phone, or through an online platform, an Internet website, or other electronic application approved by the State Board of Education.

A parent/guardian of the Board may request mediation through the Mediation Services Coordinator at any time for any matter related to the provision of special education for a child, including, but not limited to, the identification, evaluation, educational placement, or implementation of an IEP. Upon receipt of a request for mediation, the Mediation Services Coordinator shall provide notification to the parties and invite them to participate in voluntary mediation.

Individualized Education Program (IEP) (continued)

Planning and Placement Team or Individualized Education Program Team

The term “Planning and Placement Team” means a group of individuals composed of -

- (i) the parents of a child with a disability
- (ii) not less than one regular education teacher of such child (if the child is, or may be, participating in the regular education environment);
- (iii) not less than one special education teacher, or where appropriate, not less than one special education provider of such child;
- (iv) a representative of the local educational agency who -
 - (I) is qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of children with disabilities;
 - (II) is knowledgeable about the general education curriculum; and
 - (III) is knowledgeable about the availability of resources of the local educational agency;
- (v) an individual who can interpret the instructional implications of evaluation results, who may be a member of the team described in clauses (ii) through (vi);
- (vi) at the discretion of the parent of the agency, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate;
- (vii) the school paraprofessional, if any, assigned to such child, and
- (viii) whenever appropriate, the child with a disability.

NOTE: A Planning and Placement Team (PPT) member is not required to attend all or part of an IEP meeting if the parents and District agree that the team member’s participation is not necessary because the member’s area of the curriculum or related services is not being modified or discussed at the meeting. If the meeting does involve a modification or discussion of the member’s area of the curriculum or related services, parents and the District can agree to excuse the member from attending all or part of the meeting if the member submits written input to the parent and the Planning and Placement Team (PPT) prior to the meeting. Parental consent in writing is required in either case.

In addition to the above, the special education specialist, school psychologist, school nurse, school social worker, counselor, or other student service worker who has conducted an assessment of the student shall participate whenever the results or recommendations based on such assessment are significant to the development of the student's individualized education program and placement. Where the student is limited or non-English speaking, a district representative who is fluent in the student's primary language, knowledgeable about the process of second-language acquisition, and competent in the assessment of limited English and non-English speaking individuals should be included.

Any member of the PPT employed by the Board of Education who discusses or makes recommendations concerning the provisions of special education and related services during a PPT meeting shall not be disciplined, suspended, or otherwise punished for such recommendations.

Instruction

Individualized Education Program (IEP) (continued)

No birth-to-three coordinator or qualified personnel, as defined by C.G.S. 17a-248, who discusses or makes recommendations concerning the provision of special education and/or related services during a PPT meeting or in a transition plan shall be subject to discipline, suspension, termination or other punishment based on such recommendations.

The parent/guardian or surrogate parent shall be given at least five (5) school days' prior notice of any PPT meeting and shall have the right to be present and participate in all portions of such meetings at which an educational program for their child is developed, reviewed, or revised. In addition, parents/guardians or surrogate parents have the right to be present at and participate in all portions of the PPT meeting at which an educational program for their child is developed, reviewed, or revised. In addition, the parent/guardian/surrogate shall have advisors and the child's assigned paraprofessional, if any, and such child's birth-to-three service coordinator, if any, be present at and participate in all portions of the PPT meeting in which the child's educational program is developed, reviewed or revised and have the right to have such recommendation made in such child's birth-to-three individualized transition plan, if any, addressed by the PPT at which an educational program for such child is developed.

The District shall offer to meet with the student's parents/guardians, upon the request of the parents/guardians, after the student has been assessed for possible placement in special education and before the Planning and Placement Team (PPT) meets.

The sole purpose of such meeting is to discuss the PPT process and any concerns the parent/guardian has about the student. The meeting will involve a member of the PPT designated by the District before the referral PPT meeting at which the student's assessments and evaluations will be discussed for the first time. This applies to students under evaluation for possible placement in special education.

Upon request of a parent/guardian, the District will provide the results of the assessments and evaluations used in determining a student's eligibility for special education at least three (3) school days before the referral PPT meeting, at which such results will be discussed for the first time.

Parents/Guardians and the District may agree to conduct IEP meetings, and other meetings, through alternative means, such as including but not limited to, videoconferences or conference calls.

- (a) **General.** The IEP for each child must include -
 - (1) An accurate statement of the child's present levels of academic achievement and functional performance based upon parental provider information, current classroom-based, local, and state assessments and classroom-based observations, including -
 - (i) How the child's disability affects the child's involvement and progress in the general education curriculum; or

Instruction

Individualized Education Program (IEP) (continued)

- (ii) For preschool children, as appropriate, how the disability affects the child's participation in appropriate activities;
- (2) A statement of measurable annual academic and functional goals that aim to improve educational results and functional performance for each child with a disability, related to –
 - (i) Meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general education curriculum;
 - (ii) Meeting each of the child's other educational needs that result from the child's disability; and
 - (iii) Providing a meaningful opportunity for the child to meet challenging objectives.

Alternate Assessments

- (iv) A statement of "benchmarks or short-term objectives" is required only with respect to students with disabilities who take alternate assessments aligned with alternate achievement standards.

If a child will participate in alternate assessments based on either general or alternate achievement standards, the IEP must explain why the child cannot participate in the regular assessment and why the alternate assessment selected is appropriate for the child.

The Planning and Placement Team (PPT) may only recommend appropriate accommodation or use of alternate assessment but may not exempt students with disabilities from the state assessment.

- (3) A statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided for the child -
 - (i) To advance appropriately toward attaining the annual goals;
 - (ii) To be involved and progress in the general curriculum in accordance with paragraph (a)(1) of this section and to participate in extracurricular and other nonacademic activities; and
 - (iii) To be educated and participate with other children with disabilities and non-disabled children in the activities described in this paragraph.
- (4) A school must offer an IEP that is "reasonably calculated to enable a child to make progress appropriate in light of the child's circumstances." The child's educational program must be appropriately ambitious considering his/her circumstances, and every child should have the chance to meet challenging objectives. The Planning and Placement Team, in determining whether an IEP is reasonably calculated to enable a child to make progress, should consider the child's:

Instruction

Individualized Education Program (continued)

Alternate Assessments (continued)

- Previous rate or academic growth,
- Progress towards achieving or exceeding grade-level proficiency,
- Behaviors, if any, interfering with the child's progress, and
- Parent's input and any additional information provided by such parents.

The U.S. Supreme Court, in the *Endrew F* decision stated, "Any review of an IEP must consider whether the IEP is reasonably calculated to ensure such progress, not whether it would be considered ideal. (137S.CT. at 99)

- (5) An explanation of the extent, if any, to which the child will not participate with non-disabled children in the regular class and in the activities described in paragraph (a) (3) of this section;
- (6) A statement of any individual modifications in the administration of State or district-wide assessments of student achievement that are needed for the child to participate in the assessment; and
- (7) The projected date for the beginning of the services and modifications described in paragraph (a)(3) of this section, and the anticipated frequency, location, and duration of those services and modifications; and
- (8) A statement of
 - (i) How the child's progress toward the annual goals described in paragraph (a)(2) of this section will be measured; and
 - (ii) How the child's parents will be regularly informed (through such means as periodic report cards), at least as often as parents are informed of their non-disabled children's progress, of
 - (A) Their child's progress toward the annual goals; and
 - (B) The extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year
- (9) Reevaluation of a student's progress may not occur more than once a year unless agreed to by the parents and the District. Reevaluation must occur at least once every three years unless the parent and District agree that it is unnecessary.

Instruction

Individualized Education Program(IEP) (continued)

(b) *Transition services.*

The district shall designate a transition coordinator who is responsible for the following:

- Complete a prescribed training program within three years of when the training program commences or within one year of being appointed transition coordinator if appointed after the training program commences;
 - Ensure parents receive information about transition resources, services, or public transition programs and know the eligibility requirements and application details; and
 - The transition coordinator may be the director of student personnel or another school district employee.
- (1) Beginning in the 2024-25 School year, the Board of Education shall distribute a notice of a link to an online listing of transitional resources, transitional services, and public transition programs provided by the Statewide Transition Services Coordinator. This shall be distributed to parents/guardians of children receiving special education services in grades six through 12 at a PPT meeting.
 - (2) At the first PPT meeting after the student turns 14, the Team will provide a listing to the parent/guardian of each public transition and adult education program for which the student may be eligible after graduation. Upon parent/guardian approval, an identified certified professional member of the PPT will notify the state agency that provides such a program about potential eligibility.
 - (3) By the PPT meeting, which occurs approximately two years prior to the student's anticipated exit from the district, upon parent/guardian approval, a certified professional member of the PPT shall notify any state agency that provides an adult program for which the student may be eligible about the potential eligibility, invite an agency representative to attend the PPT, and permit and facilitate contract and coordination between the agency and parent. An identified certified professional member of the PPT will assist the parent/guardian in completing an application to any such program.
 - (4) The IEP must include
 - (i) For each student beginning not later than the first IEP to be in effect when the child is fourteen, and younger if the PPT determines it appropriate, and updated annually, thereafter, appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and the transition services, including courses of study, needed to assist the student in reaching those goals.

Instruction

Individualized Education Program/~~Special Education Program~~ (IEP) (continued)

- (b) ***Transition services.*** (continued)
 - (ii) For a student no longer eligible for services due to graduation from high school with a regular diploma or for a student who exceeds the age of eligibility under State law, a summary of the student's academic achievement and functional performance including recommendations on how to assist the student in meeting his/her postsecondary goals.
 - (5) If the Planning and Placement Team determines that services are not needed in one or more of the areas specified in §300.27(c)(1) through (c)(4), the IEP must include a statement to that effect and the basis upon which the determination was made.
- (c) ***Transfer of rights.*** Beginning not later than one year before a student reaches the age of majority under State law, the student's IEP must include a statement that the student has been informed of his or her rights under this title, if any, that will transfer to the student on reaching the age of majority, consistent with §615(m)
- (d) ***Students with disabilities convicted as adults and incarcerated in adult prisons.*** Special rules concerning the content of IEPs for students with disabilities convicted as adults and incarcerated in adult prisons are contained in §612(a)(5)A.
- (e) ***Students with disabilities identified as deaf or hearing impaired.*** For a child identified as deaf or hearing impaired, the PPT shall develop an IEP which includes a language and communication plan that shall address;
 - (i) the child's primary language or mode of communication;
 - (ii) opportunities for direct communication between the child and his/her peers and professional personnel in the primary child's language or mode of communication;
 - (iii) educational options available to the child;
 - (iv) the qualifications of teachers and other professional personnel administering the plan for the child, including their proficiency in the child's primary language or mode of communication;
 - (v) the accessibility of academic instruction, school services and extracurricular activities to the child;
 - (vi) Assistive devices and services for the child;
 - (vii) Communication and physical environment accommodations for the child; and
 - (viii) An emergency communications plan that includes procedures for alerting the child of an emergency situation and ensuring that the specific needs of the child are met during the emergency situation. Such plan is to be developed for a student identified as deaf, hard of hearing, or both blind or visually impaired and deaf.

Instruction

Individualized Education Program (continued)

(f) ***Students who are children of a member of the armed forces***

If, after the start of a school year, a child of a member of the armed forces:

1. enrolls in a school under the jurisdiction of a local or regional Board of Education, as a result of such member having received military orders directing such member to the state or any other documents from the armed forces indicating the transfer of such member to the state, and
2. such child enrolls with an individualized education program or plan pursuant to Section 504 of the Rehabilitation Act of 1973 from such child's prior school.

The Board shall take necessary steps, including, but not limited to, the transfer of any records and prior evaluations, the performance of any reevaluations and, not later than thirty school days after such child's enrollment, the holding of any planning and placement team meeting or meeting to establish a plan pursuant to Section 504 of the Rehabilitation Act of 1973 for such child, to ensure a minimally disruptive transition to the provision of comparable services.

Transfers

When an individual has been on an IEP in another school district, the PPT shall make an evaluative study of the student and develop an IEP for the student as though the student were newly referred, but the PPT may use the previous IEP (if available) in developing the new one.

If the transfer involves districts within Connecticut, the District will provide services “comparable to those described in the previously held IEP,” until the District adopts the previously held IEP or develops, adopts, and implements a new IEP. If the student has transferred from another state, the District will provide services “comparable to those described in the previously held IEP,” until the District conducts an evaluation, if deemed necessary, and if appropriate, develops a new IEP. If a student who is on an IEP transfers from this district to another, or to a private school, the written IEP and any additional records relating to the student's program and achievement shall be forwarded to the receiving school on the request of the receiving school and the individual's parent or guardian.

Districts receiving out-of-district students requiring special education shall:

- a) hold the planning and placement team meeting for each out-of-district student who requires special education and related services and invite representatives from the sending district to participate in such meeting, and
- b) ensure that such students receive the services mandated by the student's individualized education program whether such services are provided by the sending district or the receiving district.

Instruction

Individualized Education Program (IEP) (continued)

Transfers (continued)

Furthermore, in the case of a student with a plan pursuant to Section 504 of the Rehabilitation Act of 1973, as amended from time to time, the receiving district shall:

- a) ensure that such student receives the services mandated by the student's plan, and
- b) pay for the costs of providing such services to such student.

If the Board of Education receives an out-of-district placement of a student who receives special education services, through an agreement or contract with a sending local or regional board of education pursuant to subsection (d) of section 10-76d of the general statutes or section 10-91j, as amended by PA 25-67, the Board shall not transfer such student to any other school or facility unless:

1. upon initiation of the sending local or regional Board of Education or upon the request of a parent or guardian of such student, or such student if such student is eighteen years of age or older or an emancipated minor, such sending local or regional Board of Education holds a planning and placement team meeting for the purpose of determining the appropriateness of such transfer, and
2. the planning and placement team determines that such transfer is more appropriate for the educational needs of such student than the current out-of-district placement.

A representative of the Board of Education shall be invited to attend and participate in such planning and placement team meeting but may not request that such planning and placement team meeting be held.

Prior to the enrollment of a District student in a technical education and career school, the District will convene a PPT in order to address such student's transition to the technical education and career school and ensure that such student's IEP reflects the current supports and services the student requires in order to access a Free and Appropriate Public Education (FAPE) in the least restrictive environment. A representative from the technical education and career school shall be invited to the PPT meeting.

Independent Educational Assessment

If an independent educational assessment is necessary, it shall be conducted by a Connecticut credentialed or licensed professional examiner who is not employed by and does not routinely provide assessment for the State Department of Education or this District.

Instruction

Individualized Education Program

The school district shall comply with all state and federal laws concerning the provision of a free appropriate public education to students with disabilities.

Referral

In accordance with the regulations of the State Board of Education, each local and regional board of education shall: (1) Provide special education for school-age children requiring special education; (2) The obligation of the school district under this subsection shall terminate when such child is graduated from high school or at the end of the school year during which such child reaches age twenty-two, whichever occurs first.

All students remain eligible for special education services under the Individuals with Disabilities Education Act (IDEA) through the end of the school year during which the student turns age 22, or until the student graduates from high school with a regular high school diploma, whichever occurs first. Pursuant to the Connecticut General Statutes §10-259, the school year is defined as July 1 through June 30.

Prior to referring a student for special education, the pre-referral process should be completed. This process ensures that strategies in the regular education classroom have been developed, implemented, and evaluated. If it is determined that the alternative strategies have been attempted and that significant progress towards meeting the student's identified needs has not been made, then the student shall be referred to the Planning and Placement Team to determine whether special education services are necessary.

Each child who has been suspended repeatedly or whose behavior, attendance, or progress in school is considered unsatisfactory or at a marginal level of acceptance and has reviewed academic and/or behavioral support shall be referred to the Planning and Placement Team for consideration of eligibility for special education services.

A parent, physician, social worker, or other outside agency may refer a student directly for special education services. During these situations, the alternative strategies process may be bypassed.

Planning and Placement Team or Individualized Education Program Team

The Planning and Placement Team (PPT) for any identified student shall consist of at least the following:

1. A representative of the District other than the individual's teacher, who is qualified to provide, or supervise, the provision of special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District;
2. Not less than one special education teacher of the child, or if appropriate, not less than one special education provider of the child;

Instruction

Individualized Education Program

Planning and Placement Team or Individualized Education Program Team (continued)

3. Not less than one regular education teacher (if the child is, or may be, participating in the regular education environment);
4. One or both student's parents, a surrogate parent, and/or a representative chosen by the parent;
5. The student, where appropriate;
6. For a student who is being evaluated for the first time, a member of the assessment team shall be present, and at least one of the persons present shall be knowledgeable about the assessment procedures;
7. The school paraprofessional, if any, assigned to the student, and
8. At the discretion of the parent or the agency, other individuals with knowledge or special expertise regarding the child, including related services personnel as appropriate.

In addition to the above, the special education specialist, school psychologist, school nurse, school social worker, counselor, or other student service worker who has conducted an assessment of the student shall participate whenever the results or recommendations based on such assessment are significant to the development of the student's individualized education program and placement.

Where the student is limited or non-English speaking, a district representative who is fluent in the student's primary language and who is knowledgeable about the process of second-language acquisition and competent in the assessment of limited English and non-English speaking individuals should be included.

A Planning and Placement Team member is not required to attend all or part of a PPT meeting if the parents and District agree the team member's participation is not necessary because the member's area of curriculum or related services is not being modified or discussed at the meeting.

If the PPT meeting does involve a modification or discussion of the member's area of the curriculum or related services, parents/guardians and the District may agree to excuse the member from attending all or part of the meeting if the member submits written input to the PPT and parent prior to the meeting. Parental consent, in writing, is required in either case.

Instruction

Individualized Education Program

Planning and Placement Team (continued)

Transition Services

The district shall designate a transition coordinator who is responsible for the following:

- Complete a prescribed training program within three years of when the training program commences or within one year of being appointed transition coordinator if appointed after the training program commences.
- Ensure parents receive information about transition resources, services, or public transition programs and know the eligibility requirements and application details.
- The transition coordinator may be the director of student personnel or another school district employee.
- Beginning in the 2024-25 School year, the district will distribute a notice of a link to an online listing of transitional resources, services, and public transitional programs provided by the Statewide Transition Services Coordinator. At a PPT meeting, this shall be distributed to parents/guardians of children receiving special education services in grades six through 12.
- At the first PPT meeting after the student turns 14, the Team will provide a listing to the parents/guardians of each public transition and adult education program for which the student may be eligible after graduation. Upon parent/guardian approval, an identified certified professional member of the PPT will notify the state agency that provides such a program about the potential eligibility.
- By the PPT meeting, which occurs approximately two years prior to the student's anticipated exit from the district, upon parent/guardian approval, a certified professional member of the PPT will notify any state agency that provides an adult program for which the student may be eligible about the potential eligibility, invite an agency representative to attend the PPT, and permit and facilitate contact and coordination between the agency and parent. An identified certified professional member of the PPT will assist the parent/guardian in completing an application to any such program.

(Certified professional refers to “certified teacher,” which includes a teacher, school psychologist, social worker, or other members of the support staff holding CSDE certification.)

In the event of a meeting to review or revise the individualized education program of a child in an out-of-district or private placement, a representative of the out-of-district or private facility shall also be invited. In addition, a representative of the outside facility shall contribute to the development of the individual educational program.

Instruction

Individualized Education Program

Planning and Placement Team or Individualized Education Program Team (continued)

Parental Participation

The parent/guardian or surrogate parent shall be given at least five (5) school days prior notice of any PPT meeting and shall have the right to be present and participate in all portions of such meetings at which an educational program for their child is developed, reviewed or revised. In addition, parents/guardians or surrogate parents have the right to be present at and participate in all portions of the PPT meeting at which an educational program for their child is developed, reviewed or revised. In addition, the parent/guardian/surrogate shall have advisors and the child's assigned paraprofessional, if any, be present at and participate in all portions of the PPT meeting in which the child's educational program is developed, reviewed or revised.

Upon parental/guardian request, a member of the PPT designated by the District will meet with the parent/guardian after their child has been assessed for possible placement in special education and before the PPT meets. The sole purpose of this meeting will be to discuss the PPT process and any concerns the parent/guardian has about the students. In addition, if requested, by the parent/guardian, the District will provide the results of the assessments and evaluations used in the determination of eligibility for special education of a student at least three (3) school days before the referral PPT meeting at which such results of the assessment and evaluations will be discussed for the first time.

The Board of Education shall take steps to ensure that one or both of the child's parents are afforded the opportunity to participate in each meeting to develop, review or revise the individualized education program for that child. Every effort shall be made to schedule meetings at a mutually agreed-upon time and place. Parents/Guardians and the District may agree to conduct IEP meetings and other meetings through alternative means, such as, including but not limited to, video conferences or conference calls. Steps to ensure parental participation shall be taken in accordance with the following:

1. At the first PPT meeting after a child receiving services reaches age 14, the District will provide information to the child and parent about the full range of decision-making supports, including alternatives to guardianship and conservatorship and the plain-language online resources developed by CSDE regarding decision-making options once the student is 18 years of age.
2. The District will provide interpreters and translated documents for students and parents when necessary or upon request. This includes translated copies of a child's IEP and any related documents. The interpreter may be present in person or available by telephone or through an online technology platform, an Internet website, or other electronic application approved by the State Board of Education.

Instruction

Individualized Education Program

Parental Participation (continued)

3. The District will provide parents/guardians with plain-language resources developed by CSDE regarding the hearing and appeals process, information regarding free and low-cost legal assistance, and the Parent's Guide to Special Education in Connecticut developed by CSDE.
4. At the beginning of each year, the District will provide the student with a handout developed by CSDE explaining what it means to have an IEP or Section 504.
5. The District will provide annually, at the beginning of the school year, the Parent's Guide to Special Education and the rights and resources available to children receiving special education services.
6. The District will inform parents/guardians that the Board or the parent may request mediation through the State's Mediation Services Coordinator at any time for any matter related to the provision of special education for a child, including, but not limited to, the identification, evaluation, educational placement, or implementation of an IEP.
7. The District will provide parents/guardians a procedural safeguards notice, at least annually, except that a copy also shall be given, upon initial referral or parental request for evaluation, upon the first filing of a due process complaint or upon parental request advising them in writing, in their dominant language, of their rights with respect to the provision of a free appropriate education for children with disabilities.
8. The District will place a current copy of the Procedural Safeguards notice on the District Website.
9. Written prior notice to the parents/guardian of a child for which the District is proposing or refusing to initiate or change the identification, evaluation or educational placement of the child, shall also specify the purpose, time and location of the meeting and who has been invited.
10. If neither parent can attend, reasonable efforts shall be made to secure parental participation by other means such as conference calls or home visits.
11. A meeting may be conducted without a parent in attendance if the Board of Education is unable to secure parental attendance. In this event, the Board of Education shall have a detailed record of its attempts to arrange parent participation.
12. The parent/guardian of a child with a disability may elect to receive notices under IDEA by electronic mail, if the District makes such an option available.

Instruction

Individualized Education Program (continued)

Planning and Placement Team Description

The Planning and Placement Team is required to convene in the following situations:

1. to develop an evaluation plan for a student referred for eligibility determination, as well as for students already identified but requiring further evaluation;
2. to review the results of the evaluations and to identify the student as disabled, if indicated;
3. to develop an individualized educational program (IEP), based upon evaluation results and to determine the proper placement;
4. to review the special education program for a child periodically, but not less frequently than annually or more frequently if deemed necessary and to make the necessary IEP modifications, adjustments, or program changes. Parents/guardians and the District may agree not to convene a PPT meeting for the purpose of making such changes and instead may develop a written document to modify the child's current I.E.P.
5. to exit a student from special education and/or related services, if evaluation results warrant.

Evaluations

Each child who has been referred and who may require special education, and related services shall be evaluated in order to determine whether special education is required. Each child receiving special education and related services shall be re-evaluated in accordance with IDEA procedures if the District determines that the education or related service needs including improved academic achievement and functional performance of the child warrant a reevaluation. In addition, a reevaluation shall be conducted upon the request of the parent or personnel working with the child. A reevaluation shall occur not more frequently than once a year unless the parent and district agrees otherwise, and at least once every three years, unless parent/guardian and District agree that a reevaluation is unnecessary.

A complete evaluation study shall be conducted for each child referred who may require special education and related services. The evaluation study shall include reports concerning the child's educational progress, structured observation, and such psychological, medical, developmental and social evaluations as may be appropriate in determining the nature and scope of the child's exceptionality. Such reports may include information concerning the child's physical condition, socio-cultural background and adaptive behavior in home and in school. All sources of information shall be documented. If the child is dominant in a language other than English, the evaluation study shall also include systematic teacher observation of the specific areas of concern. Detailed information about the child's performance at home and in the community and any prescriptive or diagnostic teaching which has taken place shall be included.

Instruction**Individualized Education Program (continued)****Evaluations (continued)**

The evaluation procedures, instruments, and techniques shall be non-discriminatory and be validated for the specific purpose for which they have been designed. All such evaluation procedures, instruments, and techniques shall be administered by appropriately certified and/or licensed personnel in accordance with procedures recommended by the test publisher.

1. All evaluation procedures, instruments, and techniques shall be administered in the language and form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is not feasible to provide or administer.
2. More than one evaluation measure or assessment shall be used as the basis for placement. The results of standardized or local tests of ability, aptitude, affect, achievement, and aspiration shall not be exclusively used as the basis for placement.
3. Tests shall be selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (except where those skills are the factors which the test purports to measure.)
4. Evaluation procedures, instruments and techniques shall include those designed to assess specific areas of educational need and, where appropriate, language dominance, and shall not be limited to those which are designed to provide a general intelligence quotient.
5. In making a determination of eligibility, a child shall not be determined to be a child with a disability if the dominant factor for such determination is the lack of appropriate instruction in reading, including the essential components of reading instruction and/or math and/or limited English proficiency or a student's disciplinary actions or record. Further, the District is not required to take into consideration whether a child has a severe discrepancy between achievement and intellectual ability in oral expression, listening comprehension, written expression, basic reading skills, reading comprehension, mathematical calculation, or mathematical reasoning.
6. In determining whether a child has a specific learning disability, the District may use a process that determines if the child responds to scientific research-based intervention, as part of the evaluation procedures.

Instruction

Individualized Education Program (continued)

Independent Evaluation

Parents have the right to obtain an independent evaluation, conducted by an appropriately certified and/or licensed examiner who is not employed by the responsible Board of Education, of their child. The PPT shall provide to parents, on request, information about where an independent evaluation may be obtained.

Parents have the right to an independent evaluation at public expense if the parents disagree with an evaluation obtained by the Board of Education. However, the Board of Education may initiate a due process hearing, to be conducted by the State Department of Education, to show that its evaluation is appropriate. If there is a determination by the State Department of Education Hearing Officer that the evaluation of the school district was appropriate, the parents still have the right to an independent evaluation, but not at public expense. For purposes of this policy, “at public expense” means that the evaluation is provided at no cost to the parents.

If the parents obtain an independent evaluation at private expense, the results of the evaluation must be considered by the PPT in any decision concerning the provision of a free appropriate public education to the child and may be presented as evidence at a due process hearing conducted pursuant to the State Department of Education.

Whenever an independent evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, shall be the same as the criteria which the school district uses when it initiates an evaluation.

Individualized Education Program (IEP)

The individualized education program shall be based upon the diagnostic findings of the evaluation study. The Planning and Placement Team shall base recommendations for any changes in a child’s individualized education program upon the child’s current individualized education program and any information relating to the child’s current educational performance.

Each Planning and Placement Team shall develop, or revise, whichever is appropriate, the individualized education program for each child requiring special education and related services prior to the beginning of each school year. In the case of a student enrolled after the last day of the previous school year, this process shall be completed by October first of the school year.

Instruction**Individualized Education Program (continued)****Individualized Education Program (IEP) (continued)**

The individualized education program shall be a written statement developed by the PPT which shall include the following:

1. A statement of the child's present levels of academic achievement and functional performance, including, where appropriate, academic achievement, social adaptation, prevocational and vocational skills, psychomotor skills, and self-help skills;
2. A statement of annual educational goals for the school year "reasonably calculated to enable the child to make progress appropriate in light of the child's circumstances," under the child's individualized educational program;
3. A statement of how the child's progress toward meeting the annual goals will be measured and when periodic reports will be available on the progress the child is making toward meeting the annual goals. (such as using quarterly or other periodic reports, concurrent with the issuance of report cards) The child's educational program must be appropriately ambitious, considering his/her circumstances, and provide the opportunity to meet challenging objectives.
4. A statement of short-term instructional objectives for students with disabilities who take alternative assessments aligned to alternative achievement standards; (Benchmarks or short-term objectives in addition to annual goals are not required for all other students with disabilities.)
5. A statement of specific educational services needed by the child, including a description of special education, related services, and supplementary aids and services, based on peer-reviewed research to the extent practicable, which are needed to meet the needs of the child. Such description shall include the type of transportation necessary and a statement of the recommended instructional settings;
6. The date when those services will begin and length of time the services will be given, with the length of the school day and school year needed to meet the child's special education needs, including criteria to determine when services will no longer be needed;
7. A description of the extent to which the child will be involved in and make progress in the general education curriculum, defined as the same curricula for nondisabled children. This shall include a description of how the regular education program will be modified to meet the child's needs;
8. A list of the individuals who shall implement the individualized program; and
9. In the case of a residential placement, whether such placement is being recommended because of the need for services other than educational services.

Instruction

Individualized Education Program (IEP)

Individualized Education Program (IEP) (continued)

10. If it is determined that the child will take an alternate assessment on a State or District assessment of student achievement, the IEP must contain a statement of why the child cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the child.
11. Beginning not later than one year before the student reaches the age of majority (18), a statement informing the student of his/her rights under IDEA.
12. For a child identified as hearing impaired, the IEP, which includes a language and communications plan, shall address:
 - (i) the child's primary language or mode of communication;
 - (ii) opportunities for direct communication between the child and his/her peers and professional personnel in the primary child's language or mode of communication;
 - (iii) educational options available to the child;
 - (iv) the qualifications of teachers and other professional personnel administering the plan for the child, including their proficiency in the child's primary language or mode of communication;
 - (v) the accessibility of academic instruction, school services and extracurricular activities to the child;
 - (vi) Assistive devices and services for the child; and
 - (vii) Communication and physical environment accommodations for the child.

The school district shall use a standardized individualized education program form that shall be subject to the approval of the State Board of Education.

Timelines

Special education and related services shall be provided as soon as possible after the planning and placement team meeting held to review, revise or develop the child's individualized education program, but in any event not later than the following timelines.

In the case of a referral made during the academic year, the timelines shall be as follows:

1. The individualized education program shall be implemented within forty-five school days of referral or notice, exclusive of the time required to obtain parental consent.

Instruction

Individualized Education Program

Timelines (continued)

2. In the case of a child whose individualized education program calls for out-of-district or private placement, the individualized education program shall be implemented within sixty school days of referral or notice, exclusive of the time required to obtain parental consent. If difficulty of placement is such as to occasion a delay beyond this period, the Board of Education shall submit to the State Board of Education written documentation of its efforts to obtain placement in a timely manner.
3. Where necessary, parental consent shall be given within ten school days of the date of notice, or, where appropriate, of the date of the Planning and Placement Team meeting in which the parents participated.
4. A full copy of the individualized education program shall be sent to the parents within five school days after the Planning and Placement Team meeting to develop, review or revise the individualized education program.

In the case of a referral made between school years, the effective date of the referral may be deemed to be the first school day of the next school year.

Placement

Educational placements are made in accordance with the requirements set forth in the IEP of each child requiring special education and related services. The least restrictive environment is considered for each student based on the IEP. In selecting the least restrictive environment, consideration is given to any potentially harmful effect on the child or on the quality of services the child needs. To the maximum extent appropriate, students with disabilities, including children in public or private instructions or other care facilities, are educated with their peers in regular education environments.

Special classes, separate schooling, or other removal of disabled children from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. Each child with disabilities shall participate to the maximum extent appropriate with non-disabled age-appropriate peers in non-academic and extra-curricular services and activities, including meals and recess periods.

Interpreting evaluation data and in making placement decisions, the PPT shall:

1. Draw upon information from a variety of sources, including attitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;

Instruction**Individualized Education Program****Placement** (continued)

2. Ensure information obtained from all these sources is documented and carefully considered;
3. Ensure that the placement decision is made by a group of persons, including the person's knowledge about the child, the meaning of the evaluation data, and the placement options; and
4. Make the placement decision conforming to the least restrictive environment considerations.

When the PPT meeting determines which placement is most appropriate to deliver education in the least restrictive environment, a continuum of services shall be used to guide the placement selection. This is done at no cost to the child's parents. This continuum shall consider programs ranging from regular education programs with students who are not disabled to special education programs with students who are the most severely disabled. The PPT shall also consider homebound placements, hospitalized instruction, diagnostic placements, and private school placements where such placements are considered necessary by the PPT for a student to receive a free appropriate public education.

Notice

The PPT shall notify parents of students requiring special education and related services five days before proposing to, or refusing to, initiate or change the child's identification, evaluation, or placement. Written notice shall be sent to the parents no later than five days after the date of referral. In addition, written parental consent shall be obtained prior to pre-placement evaluation, initial placement, or private placement of a child who requires or may require special education and related services. If the student is considered an emancipated minor or eighteen years of age or older, such notification shall be to the student.

The notice shall include the following information:

1. The reason of the notice. In the event of a referral, the notice shall include the source and date of the referral;
2. A description of the general evaluation procedure to be used;
3. A statement of parental rights to review and obtain copies of all records used as a basis for the referral, to be fully informed of all evaluation results, and to obtain an independent educational evaluation as part of the evaluation process; and
4. A full explanation of all due process procedures available to parents, upon initial referral or parental request for evaluation, upon the first filing of a due process complaint or upon parental request.

Instruction

Individualized Education Program

Notice (continued)

Where parental consent is required, notice shall include the above requirements and the following information:

1. A statement of parental rights to refuse consent and that, if consent is given, it may be revoked at any time;
2. A statement that parental failure to respond, within ten school days from the date of the notice, shall be construed as refusal of consent; and
3. A statement that, if contested, the child's current educational placement will not change until due process procedures have been completed.

The District will provide parents/guardians with State Department of Education information and resources relating to IEPs as soon as a child is identified as requiring special education.

Instruction

Graduation Requirements

Definition and Broad Guidelines

Graduation from Griswold Public Schools implies (1) that students have satisfactorily completed the prescribed courses of study for the several grade levels in accordance with their respective abilities to achieve, (2) that they have satisfactorily passed any examinations and satisfactorily demonstrated the district's performance standards, **assessed in part by the statewide mastery examinations**, established by the faculty and approved by the Griswold Board of Education, and (3) that they have fulfilled the legally mandated number and distribution of credits. ~~Graduation shall not be held until 180 days and 900 hours of actual school work are completed. The adopted school calendar shall indicate a graduation date which is no earlier than the 185th day. This may be modified after April 1 in any school year in conformity with applicable statute.~~

The Principal shall submit to the Board of Education through the Superintendent his/her detailed requirements and standards to agree with the goals of our district as adopted by the Griswold Board of Education. It is expected that faculty will apply measures of achievement to provide evidence that each student has progressed far enough toward program goals and requirements to warrant graduation according to the terms of paragraph #1 above.

The Griswold Board of Education, in recognition of its responsibility for the education of all students in the district, including those who do not successfully complete the assessment criteria listed above, and those who drop out of school, shall make available to all the school district's students a course of study or alternative programming for meeting standards that will enable them to acquire a high school or vocational school diploma.

The Griswold Board of Education shall award a high school diploma to any World War II veteran or veteran of the Korean Hostilities or Vietnam Era veteran requesting such diploma who left high school for military service as defined in the statutes and did not receive a diploma as a consequence of such service.

The Griswold Board of Education may grant students high school credit for successful completion of coursework earned from an accredited institution of higher learning taken either during the school year or summer months.

Graduation **Criteria**

The Griswold Board of Education adheres to the State requirement permitting any high school student to be granted a diploma upon satisfactorily completing a minimum of twenty-five credits, including no fewer than:

9.0 Humanities Credits	4.0 credits of English
	3.0 credits of History including 0.5 credit of Civics
	2.0 credits of Humanities courses of choice
9.0 Science, Technology, Engineering, & Mathematics (STEM) Credits	3.0 credits of Science
	3.0 credits of Mathematics
	0.5 credit of Personal Finance
	0.5 credit of Vision of the Graduate
	2.0 credits of STEM courses of choice
1.0 World Language Credit	1.0 credit of World Language
1.0 Physical Education and Wellness Credit	0.5 credit of Physical Education 9
	0.5 credit of Physical Education 10
1.0 Health and Safety Education Credit	0.5 credit of Health
	0.5 credit of Safety & Wellness
1.0 Community Service	40 hours (10 hours/year)
3.0 Electives	Courses of choice
Total Credits	25.0 Credits

A student shall be excused from the physical education requirement upon presentation of a certificate from a physician or advanced practice registered nurse indicating that participation in physical education is medically contraindicated because of the student's physical condition. An elective may fulfill the credit for physical education.

All students must take a minimum of 7 credits per year with the exception of junior and senior year whereby a student in good academic standing may opt to take 6 credits.

Grade Assignment and Promotion

Students are promoted to the next higher grade according to the following accumulation of credits:

Grade 9 to Grade 10	6 credits
Grade 10 to Grade 11	11 credits
Grade 11 to Grade 12	17 credits

A student's grade classification is determined by credits earned and years in high school.

Student Support and Remedial Services

Beginning with the graduating class of 2023, the Board of Education will provide adequate student support and remedial services for students beginning in grade seven. Such student support and remedial services shall provide alternate means for a student to complete any of the high school graduation requirements previously listed if such student is unable to satisfactorily complete any of the required courses or exams. Such student support and remedial services shall include, but not be limited to, (1) allowing students to retake courses in summer school or through an approved online credit recovery course; or (2) allowing students to enroll in a class offered at a constituent unit of the state system of higher education, and (3) allowing those students whose individualized education plans state that such students are eligible for an alternate assessment to demonstrate competency on any of the five core courses through success on such alternate assessment.

The Griswold Public School's graduation requirements apply to all students, including students requiring Special Education Services except when the Planning and Placement Team exercises the right to adjust the standards of performance on an individual basis.

~~Performance standards for students participating in a functional, life skills curriculum will be based on the student's IEP goals and objectives.~~

The fulfillment of the mandated one-credit foreign language requirement can include the successful completion of a world language course in grades six, seven, or eight, an online course successfully completed, or the successful completion of a course offered privately through a nonprofit provider, provided such student achieves a passing grade on an examination prescribed by the Commissioner and such credits do not exceed four.

All credits earned toward meeting any of the graduation requirements through the successful completion of online courses must fulfill the requirements established in policy #6172.6, "Virtual/On-line Courses."

Student Success Plans

The Griswold Board of Education shall create a student success plan for each enrolled student, beginning in grade six. Such plan shall include a student's career and academic choices in grades six through twelve. Beginning in grade six, such student success plan shall provide evidence of career exploration in each grade. The Griswold Board of Education shall utilize the Department of Education's issued and revised guidance regarding changes to such student success plans.

Student success plans shall be created, if possible, in collaboration with each student and the student's parent/guardian and shall, to the extent it does not conflict with the career choices of the student or his/her parent/guardian, include an academic plan that is in compliance with the Board's Challenging Curriculum Policy.

Eligible Credits

Per statute (C.G.S. 221a(f)) the determination of eligible credits is at the discretion of the Board of Education, provided the primary focus of the curriculum of eligible credits corresponds directly to the subject matter of the specified course requirements. The Board may permit a student to graduate during a period of expulsion if the Board determines the student has satisfactorily completed the necessary credits. The graduation requirements shall apply to any

student requiring special education except when the Planning and Placement Team (PPT) determines the requirement not to be appropriate.

At Griswold High School, a credit is defined as a class of block time, per year, equivalent to 200 minutes per week. One-half credit is given for courses that complete work in one semester. In addition, credit toward high school graduation can be earned (1) at an institution accredited by the Board of Regents for Higher Education or State Board of Education or regionally accredited, (2) through on-line course work or (3) through a demonstration of mastery based on competency and performance standards, in accordance with guidelines adopted by the State Board of Education.

Only courses taken in grades nine through twelve, inclusive, and that are in accordance with the state-wide subject matter content standards, adopted by the State Board of Education shall satisfy this graduation requirement except that a student may be granted credit toward meeting the high school graduation requirements upon (1) the successful demonstration of mastery of the subject matter content described in this and the Mastery-Based Learning sections, achieved through education experiences and opportunities that provide flexible and multiple pathways to learning, including cross-curricular graduation requirements, career and technical education, virtual learning, work-based learning, high school courses taken during middle school (taught at the high school campus only), service learning, dual enrollment and early college courses, internships and student designed independent studies or (2) for the successful completion of coursework at an institution accredited by the Department of Higher Education or regionally accredited. One three-credit semester course, or its equivalent shall equal one-half high school credit.

Connecticut Seal of Biliteracy

Commencing with the graduating class of 2019, and for each graduating class thereafter, the Board of Education, utilizing criteria established by the State Board of Education, may affix the "Connecticut State Seal of Biliteracy" to a diploma awarded to a student who has achieved a high level of proficiency in English and one or more foreign languages. "Foreign language" means a world language other than English and includes American Sign Language and any other language spoken by a federally recognized Native American tribe. The Board of Education shall include on such student's transcript a designation that the student received the "Connecticut Seal of Biliteracy."

Awards of High School Diplomas

Students who complete all graduation requirements shall receive a diploma at the June commencement. Individuals also may satisfy graduation requirements by the satisfactory completion of the following:

1. Successful completion of a summer course or summer courses comparable (as determined by the Principal) to the subject(s) in which the student was deficient.

2. Honorable discharge from the United States Armed Forces after a minimum of ninety days of active service during World War II for individuals who withdrew from school to join the Armed Forces and for veterans of the Korean Hostilities and for veterans of the Vietnam Era.
3. Honorable discharge from the United States Armed Forces for individuals who left high school prior to graduation and did not receive a diploma as a consequence of such service.
4. Withdrawal from high school prior to graduation to work on a job that assisted the war effort during World War II, December 7, 1941 through December 31, 1946, not receiving a diploma as a consequence of such work and has been a resident of Connecticut for at least fifty (50) consecutive years.
